Version: 2024-02-01

169 papers	10,790 citations	41323 49 h-index	34964 98 g-index
170 all docs	170 docs citations	170 times ranked	8520 citing authors

#	Article	IF	Citations
1	Primary versus Specialist Care for Obstructive Sleep Apnea: A Systematic Review and Individual-Participant Data-Level Meta-Analysis. Annals of the American Thoracic Society, 2022, 19, 668-677.	1.5	3
2	Brain mitochondrial dysfunction and driving simulator performance in untreated obstructive sleep apnea. Journal of Sleep Research, 2022, 31, e13482.	1.7	4
3	Comorbid insomnia and sleep apnoea is associated with all-cause mortality. European Respiratory Journal, 2022, 60, 2101958.	3.1	50
4	The Effect of Cognitive Behavioural Therapy for Insomnia (CBT-I) on Subjectiveâ€"Objective Sleep Discrepancy in Individuals with Co-Morbid Insomnia and Sleep Apnoea: A Randomised Controlled Trial. Applied Sciences (Switzerland), 2022, 12, 1787.	1.3	3
5	Preferred Attributes of Care Pathways for Obstructive Sleep Apnoea from the Perspective of Diagnosed Patients and High-Risk Individuals: A Discrete Choice Experiment. Applied Health Economics and Health Policy, 2022, 20, 597-607.	1.0	5
6	Economic evaluation of diagnostic sleep studies for obstructive sleep apnoea in the adult population: a systematic review. Sleep Medicine Reviews, 2022, 62, 101608.	3.8	5
7	Multinight Prevalence, Variability, and Diagnostic Misclassification of Obstructive Sleep Apnea. American Journal of Respiratory and Critical Care Medicine, 2022, 205, 563-569.	2.5	72
8	The association of coâ€morbid insomnia and sleep apnea with prevalent cardiovascular disease and incident cardiovascular events. Journal of Sleep Research, 2022, 31, e13563.	1.7	15
9	Clinical predictors of working memory performance in obstructive sleep apnea patients before and during extended wakefulness. Sleep, 2022, 45, .	0.6	1
10	Long-Term Effect of Obstructive Sleep Apnea and Continuous Positive Airway Pressure Treatment on Blood Pressure in Patients with Acute Coronary Syndrome: A Clinical Trial. Annals of the American Thoracic Society, 2022, 19, 1750-1759.	1.5	10
11	The changes of AHI after long-term CPAP in patients with comorbid OSA and cardiovascular disease. Sleep and Breathing, 2022, , 1.	0.9	0
12	The effect of cognitive behavioural therapy for insomnia on sedative-hypnotic use: A narrative review. Sleep Medicine Reviews, 2021, 56, 101404.	3.8	27
13	Can primary care providers manage obstructive sleep apnea?. Journal of Clinical Sleep Medicine, 2021, 17, 1-2.	1.4	5
14	CPAP increases physical activity in obstructive sleep apnea with cardiovascular disease. Journal of Clinical Sleep Medicine, 2021, 17, 141-148.	1.4	5
15	The Effect of Surgical Treatment on Obstructive Sleep Apneaâ€"Reply. JAMA - Journal of the American Medical Association, 2021, 325, 789.	3.8	1
16	Effect of depression, anxiety, and stress symptoms on response to cognitive behavioral therapy for insomnia in patients with comorbid insomnia and sleep apnea: a randomized controlled trial. Journal of Clinical Sleep Medicine, 2021, 17, 545-554.	1.4	13
17	Nocturnal hypoxemic burden during positive airway pressure treatment across different central sleep apnea etiologies. Sleep Medicine, 2021, 79, 62-70.	0.8	8
18	Randomized clinical trials of cardiovascular disease in obstructive sleep apnea: understanding and overcoming bias. Sleep, 2021, 44, .	0.6	14

#	Article	IF	Citations
19	Insomnia disorder: clinical and research challenges for the 21st century. European Journal of Neurology, 2021, 28, 2156-2167.	1.7	20
20	Polysomnographic Predictors of Treatment Response to Cognitive Behavioral Therapy for Insomnia in Participants With Co-morbid Insomnia and Sleep Apnea: Secondary Analysis of a Randomized Controlled Trial. Frontiers in Psychology, 2021, 12, 676763.	1.1	5
21	Knowledge to action: a scoping review of approaches to educate primary care providers in the identification and management of routine sleep disorders. Journal of Clinical Sleep Medicine, 2021, 17, 2307-2324.	1.4	6
22	Volumetric magnetic resonance imaging analysis of multilevel upper airway surgery effects on pharyngeal structure. Sleep, 2021, 44, .	0.6	4
23	Implementation of a digital cognitive behavioral therapy for insomnia pathway in primary care. Contemporary Clinical Trials, 2021, 107, 106484.	0.8	8
24	Prevalence and Assessment of Sleep-Disordered Breathing in Patients With Atrial Fibrillation: A Systematic Review and Meta-analysis. Canadian Journal of Cardiology, 2021, 37, 1846-1856.	0.8	21
25	Bi-directional relationships between co-morbid insomnia and sleep apnea (COMISA). Sleep Medicine Reviews, 2021, 60, 101519.	3.8	60
26	Assessment, referral and management of obstructive sleep apnea by Australian general practitioners: a qualitative analysis. BMC Health Services Research, 2021, 21, 1248.	0.9	5
27	Composition of nocturnal hypoxaemic burden and its prognostic value for cardiovascular mortality in older community-dwelling men. European Heart Journal, 2020, 41, 533-541.	1.0	61
28	Effect of obstructive sleep apnoea and its treatment with continuous positive airway pressure on the prevalence of cardiovascular events in patients with acute coronary syndrome (ISAACC study): a randomised controlled trial. Lancet Respiratory Medicine,the, 2020, 8, 359-367.	5.2	257
29	Self-reported Snoring Patterns Predict Stroke Events in High-Risk Patients With OSA. Chest, 2020, 158, 2146-2154.	0.4	21
30	Low Prognostic Value of Novel Nocturnal Metrics in Patients With OSA and High Cardiovascular Event Risk. Chest, 2020, 158, 2621-2631.	0.4	18
31	The Effect of Sleep Apnea on Cardiovascular Events in Different Acute Coronary Syndrome Phenotypes. American Journal of Respiratory and Critical Care Medicine, 2020, 202, 1698-1706.	2.5	50
32	Surgical management of obstructive sleep apnoea: A position statement of the Australasian Sleep Association[*]. Respirology, 2020, 25, 1292-1308.	1.3	19
33	Effect of Multilevel Upper Airway Surgery vs Medical Management on the Apnea-Hypopnea Index and Patient-Reported Daytime Sleepiness Among Patients With Moderate or Severe Obstructive Sleep Apnea. JAMA - Journal of the American Medical Association, 2020, 324, 1168.	3.8	86
34	The Impact of Obstructive Sleep Apnea on Balance, Gait, and Falls Risk: A Narrative Review of the Literature. Journals of Gerontology - Series A Biological Sciences and Medical Sciences, 2020, 75, 2450-2460.	1.7	18
35	The effect of cognitive and behavioral therapy for insomnia on week-to-week changes in sleepiness and sleep parameters in patients with comorbid insomnia and sleep apnea: a randomized controlled trial. Sleep, 2020, 43, .	0.6	34
36	An assessment of a simple clinical technique to estimate pharyngeal collapsibility in people with obstructive sleep apnea. Sleep, 2020, 43, .	0.6	11

#	Article	IF	Citations
37	Continuous Positive Airway Pressure Treatment, Glycemia, and Diabetes Risk in Obstructive Sleep Apnea and Comorbid Cardiovascular Disease. Diabetes Care, 2020, 43, 1859-1867.	4.3	38
38	Cognitive behavioural therapy for insomnia reduces sleep apnoea severity: a randomised controlled trial. ERJ Open Research, 2020, 6, 00161-2020.	1.1	36
39	Sleep-Disordered Breathing in Patients with Motor Neurone Disease: One Size Does Not Fit all. Neurodegenerative Diseases, 2020, 20, 131-138.	0.8	0
40	Cognitive and behavioral therapy for insomnia increases the use of continuous positive airway pressure therapy in obstructive sleep apnea participants with comorbid insomnia: a randomized clinical trial. Sleep, 2019, 42, .	0.6	82
41	Self-Reported Daytime Sleepiness and Sleep-Disordered Breathing in Patients With Atrial Fibrillation: SNOozE-AF. Canadian Journal of Cardiology, 2019, 35, 1457-1464.	0.8	49
42	Variability of Sleep Apnea Severity and Risk of Atrial Fibrillation. JACC: Clinical Electrophysiology, 2019, 5, 692-701.	1.3	76
43	Predictors of long-term adherence to continuous positive airway pressure in patients with obstructive sleep apnea and cardiovascular disease. Sleep, 2019, 42, .	0.6	61
44	Importance of lifestyle change for patients with sleep apnoea. Respirology, 2019, 24, 710-711.	1.3	3
45	Mean nocturnal respiratory rate predicts cardiovascular and all-cause mortality in community-dwelling older men and women. European Respiratory Journal, 2019, 54, 1802175.	3.1	21
46	Quantitative electroencephalography measures in rapid eye movement and nonrapid eye movement sleep are associated with apneaâ€“hypopnea index and nocturnal hypoxemia in men. Sleep, 2019, 42, .	0.6	36
47	Con: should asymptomatic patients with moderate-to-severe OSA be treated?. Breathe, 2019, 15, 11-14.	0.6	9
48	Effect of Continuous Positive Airway Pressure on Blood Pressure in Obstructive Sleep Apnea with Cardiovascular Disease. American Journal of Respiratory and Critical Care Medicine, 2019, 199, 1433-1435.	2.5	4
49	Sleep Apnea Multilevel Surgery (SAMS) trial protocol: a multicenter randomized clinical trial of upper airway surgery for patients with obstructive sleep apnea who have failed continuous positive airway pressure. Sleep, 2019, 42, .	0.6	10
50	Nightly sleep apnea severity in patients with atrial fibrillation: Potential applications of long-term sleep apnea monitoring. IJC Heart and Vasculature, 2019, 24, 100424.	0.6	32
51	The Effects of Long-term CPAP on Weight Change in Patients With ComorbidÂOSA andÂCardiovascular Disease. Chest, 2019, 155, 720-729.	0.4	31
52	Sleep and cardiovascular risk: how much is too much of a good thing?. European Heart Journal, 2019, 40, 1630-1632.	1.0	12
53	Refining the Measurement of Insomnia in Patients With Obstructive Sleep Apnea. Journal of Clinical Sleep Medicine, 2019, 15, 1717-1719.	1.4	11
54	The why, when and how to test for obstructive sleep apnea in patients with atrial fibrillation. Clinical Research in Cardiology, 2018, 107, 617-631.	1.5	52

#	Article	IF	Citations
55	The impact of ethnicity on the prevalence and severity of obstructive sleep apnea. Sleep Medicine Reviews, 2018, 41, 78-86.	3.8	69
56	Sleep Apneas and Cardiovascular Risk After Sleep Apnea Cardiovascular Endpoints Study (SAVE). What Next?. Archivos De Bronconeumologia, 2018, 54, 241-242.	0.4	0
57	Associations of Obstructive Sleep Apnea With Atrial Fibrillation and Continuous Positive Airway Pressure Treatment. JAMA Cardiology, 2018, 3, 532.	3.0	252
58	Supporting wellbeing in motor neurone disease for patients, carers, social networks, and health professionals: A scoping review and synthesis. Palliative and Supportive Care, 2018, 16, 228-237.	0.6	22
59	The epidemiology of obstructive sleep apnoea and cardiovascular disease. Journal of Thoracic Disease, 2018, 10, S4189-S4200.	0.6	41
60	Comparing the Efficacy, Mask Leak, Patient Adherence, and Patient Preference of Three Different CPAP Interfaces to Treat Moderate-Severe Obstructive Sleep Apnea. Journal of Clinical Sleep Medicine, 2018, 14, 101-108.	1.4	58
61	Daytime loop gain is elevated in obstructive sleep apnea but not reduced by CPAP treatment. Journal of Applied Physiology, 2018, 125, 1490-1497.	1.2	25
62	Con: continuous positive airway pressure and cardiovascular prevention. European Respiratory Journal, 2018, 51, 1702721.	3.1	15
63	Sleep Disorders, Including Sleep Apnea, and Hypertension. American Journal of Hypertension, 2018, 31, 857-864.	1.0	29
64	Assessment and interpretation of sleep disordered breathing severity in cardiology: Clinical implications and perspectives. International Journal of Cardiology, 2018, 271, 281-288.	0.8	57
65	Diagnostic accuracy of overnight oximetry for the diagnosis of sleep-disordered breathing in atrial fibrillation patients. International Journal of Cardiology, 2018, 272, 155-161.	0.8	34
66	Sleep disturbances in women with polycystic ovary syndrome: prevalence, pathophysiology, impact and management strategies. Nature and Science of Sleep, 2018, Volume 10, 45-64.	1.4	74
67	Factors influencing management of chronic respiratory diseases in general and chronic obstructive pulmonary disease in particular in Saudi Arabia: An overview. Annals of Thoracic Medicine, 2018, 13, 144.	0.7	13
68	Chronic Kidney Disease and Sleep Apnea Association of Kidney Disease With Obstructive Sleep Apnea in a Population Study of Men. Sleep, 2017, 40, .	0.6	26
69	Developing a successful treatment for co-morbid insomnia and sleep apnoea. Sleep Medicine Reviews, 2017, 33, 28-38.	3.8	106
70	Physician Decision Making and Clinical Outcomes With Laboratory Polysomnography or Limited-Channel Sleep Studies for Obstructive Sleep Apnea. Annals of Internal Medicine, 2017, 166, 332.	2.0	47
71	Intermittent hypercapnic hypoxia during sleep does not induce ventilatory long-term facilitation in healthy males. Journal of Applied Physiology, 2017, 123, 534-543.	1.2	11
72	Coâ€morbid <scp>OSA</scp> and insomnia increases depression prevalence and severity in men. Respirology, 2017, 22, 1407-1415.	1.3	67

#	Article	IF	Citations
73	Laboratory Polysomnography or Limited-Channel Sleep Studies for Obstructive Sleep Apnea. Annals of Internal Medicine, 2017, 167, 521.	2.0	2
74	Erectile dysfunction is independently associated with apnea-hypopnea index and oxygen desaturation index in elderly, but not younger, community-dwelling men. Sleep Health, 2017, 3, 250-256.	1.3	12
75	Effect of Obstructive Sleep Apnea Treatment on Renal Function in Patients with Cardiovascular Disease. American Journal of Respiratory and Critical Care Medicine, 2017, 196, 1456-1462.	2.5	32
76	Sleep Apnea and Cardiovascular Disease. Circulation, 2017, 136, 1840-1850.	1.6	360
77	Association of Positive Airway Pressure With Cardiovascular Events and Death in Adults With Sleep Apnea. JAMA - Journal of the American Medical Association, 2017, 318, 156.	3.8	287
78	Practice change in chronic conditions care: an appraisal of theories. BMC Health Services Research, 2017, 17, 170.	0.9	11
79	The Debate Should Now Be Over: Simplified Cardiorespiratory Sleep Tests Are a Reliable, Cost-Saving Option for Diagnosing Obstructive Sleep Apnea. American Journal of Respiratory and Critical Care Medicine, 2017, 196, 1096-1098.	2.5	6
80	Associations of Undiagnosed Obstructive Sleep Apnea and Excessive Daytime Sleepiness With Depression: An Australian Population Study. Journal of Clinical Sleep Medicine, 2017, 13, 575-582.	1.4	33
81	Obstructive Sleep Apnoea: Therapeutic Options and Challenges. Clinical Medicine Insights Therapeutics, 2017, 9, 1179559X1771193.	0.4	0
82	The Sleep Apnea Cardiovascular Endpoints (SAVE) study: implications for health services and sleep research in China and elsewhere. Journal of Thoracic Disease, 2017, 9, 2217-2220.	0.6	12
83	Association of daytime sleepiness with obstructive sleep apnoea and comorbidities varies by sleepiness definition in a population cohort of men. Respirology, 2016, 21, 1314-1321.	1.3	34
84	CPAP in Obstructive Sleep Apnea. New England Journal of Medicine, 2016, 375, 2301-2303.	13.9	8
85	Are the ICSD-3 criteria for sleep apnoea syndrome too inclusive?. Lancet Respiratory Medicine,the, 2016, 4, e19-e20.	5.2	35
86	Ambulatory Diagnosis and Management of Obstructive Sleep Apnea. Sleep Medicine Clinics, 2016, 11, 265-272.	1.2	5
87	The prevalence and characteristics of obstructive sleep apnea in hospitalized patients with type 2 diabetes in China. Journal of Sleep Research, 2016, 25, 39-46.	1.7	47
88	CPAP for Prevention of Cardiovascular Events in Obstructive Sleep Apnea. New England Journal of Medicine, 2016, 375, 919-931.	13.9	1,544
89	Statistical analysis plan for the Sleep Apnea cardioVascular Endpoints study: An international randomised controlled trial to determine whether continuous positive airways pressure treatment for obstructive sleep apnea in patients with CV disease prevents secondary cardiovascular events. International Journal of Stroke, 2016, 11, 148-150.	2.9	4
90	The association of obstructive sleep apnea (OSA) and nocturnal hypoxemia with the development of abnormal HbA1c in a population cohort of men without diabetes. Diabetes Research and Clinical Practice, 2016, 114, 151-159.	1.1	16

#	Article	IF	Citations
91	Hypertension Is Associated With Undiagnosed OSA During Rapid Eye Movement Sleep. Chest, 2016, 150, 495-505.	0.4	96
92	Barriers for setting up a pulmonary rehabilitation program in the Eastern Province of Saudi Arabia. Annals of Thoracic Medicine, 2016, 11, 121.	0.7	20
93	Choosing an Oronasal Mask to Deliver Continuous Positive Airway Pressure May Cause More Upper Airway Obstruction or Lead to Higher Continuous Positive Airway Pressure Requirements than a Nasal Mask in Some Patients: A Case Series. Journal of Clinical Sleep Medicine, 2016, 12, 1227-1232.	1.4	29
94	The Sleep Apnea cardioVascular Endpoints (SAVE) Trial: Rationale, Ethics, Design, and Progress. Sleep, 2015, 38, 1247-1257.	0.6	38
95	Arousal from Sleep Does Not Lead to Reduced Dilator Muscle Activity or Elevated Upper Airway Resistance on Return to Sleep in Healthy Individuals. Sleep, 2015, 38, 53-59.	0.6	16
96	Current care services provided for patients with COPD in the Eastern province in Saudi Arabia: a descriptive study. International Journal of COPD, 2015, 10, 2379.	0.9	7
97	Nocturnal Hypoxemia and Severe Obstructive Sleep Apnea are Associated with Incident Type 2 Diabetes in a Population Cohort of Men. Journal of Clinical Sleep Medicine, 2015, 11, 609-614.	1.4	47
98	Identifying and managing sleep disorders in primary care. Lancet Respiratory Medicine,the, 2015, 3, 337-339.	5.2	9
99	Undiagnosed obstructive sleep apnea is independently associated with reductions in quality of life in middle-aged, but not elderly men of a population cohort. Sleep and Breathing, 2015, 19, 1309-1316.	0.9	57
100	Measuring Blood microRNAs to Provide Personalized Advice to Sleep Apnea Patients With Resistant Hypertension. Journal of the American College of Cardiology, 2015, 66, 1033-1035.	1.2	13
101	Integrated care. , 2015, , 293-304.		0
102	Aggressive Risk Factor Reduction StudyÂfor Atrial Fibrillation and Implications for the Outcome ofÂAblation. Journal of the American College of Cardiology, 2014, 64, 2222-2231.	1.2	737
103	Sleep Disordered Breathing and Chronic Respiratory Failure in Patients with Chronic Pain on Long Term Opioid Therapy. Journal of Clinical Sleep Medicine, 2014, 10, 847-852.	1.4	75
104	Obstructive sleep apnoea and hypertension: the ESADA study. European Respiratory Journal, 2014, 44, 835-838.	3.1	8
105	Individual Variability and Predictors of Driving Simulator Impairment in Patients with Obstructive Sleep Apnea. Journal of Clinical Sleep Medicine, 2014, 10, 647-655.	1.4	48
106	Management Setting of Obstructive Sleep Apneaâ€"Reply. JAMA - Journal of the American Medical Association, 2013, 310, 97.	3.8	2
107	Ambulatory models of care for obstructive sleep apnoea: Diagnosis and management. Respirology, 2013, 18, 605-615.	1.3	30
108	Obstructive sleep apnoea in adults. Postgraduate Medical Journal, 2013, 89, 148-156.	0.9	34

#	Article	IF	Citations
109	Response to: The interaction of Sjogrenâ€™s syndrome, gastroesophageal reflux and sleep by Tufik et al.. Sleep Medicine, 2013, 14, 222-223.	0.8	0
110	Obstructive sleep apnoea in adults: A common chronic condition in need of a comprehensive chronic condition management approach. Sleep Medicine Reviews, 2013, 17, 349-355.	3.8	47
111	Sleep Rhythms. Annals of the American Thoracic Society, 2013, 10, 531-533.	1.5	0
112	Primary Care vs Specialist Sleep Center Management of Obstructive Sleep Apnea and Daytime Sleepiness and Quality of Life. JAMA - Journal of the American Medical Association, 2013, 309, 997.	3.8	168
113	Predictors of Long-Term Adherence to Continuous Positive Airway Pressure Therapy in Patients with Obstructive Sleep Apnea and Cardiovascular Disease in the SAVE Study. Sleep, 2013, 36, 1929-1937.	0.6	173
114	Sleep Apnea Cardiovascular Clinical Trialsâ€"Current Status and Steps Forward: The International Collaboration of Sleep Apnea Cardiovascular Trialists. Sleep, 2013, 36, 975-980.	0.6	29
115	Sleep loss and sleep disorders. Medical Journal of Australia, 2013, 199, S5-6.	0.8	8
116	How to assess, diagnose, refer and treat adult obstructive sleep apnoea: a commentary on the choices. Medical Journal of Australia, 2013, 199, S21-6.	0.8	27
117	Modified Uvulopalatopharyngoplasty and Coblation Channeling of the Tongue for Obstructive Sleep Apnea: A Multi-Centre Australian Trial. Journal of Clinical Sleep Medicine, 2013, 09, 117-124.	1.4	70
118	Sleep disordered breathing in patients with primary SjÃ¶grenâ€™s syndrome: A group controlled study. Sleep Medicine, 2012, 13, 1066-1070.	0.8	42
119	Auditory evoked potentials remain abnormal after CPAP treatment in patients with severe obstructive sleep apnoea. Clinical Neurophysiology, 2012, 123, 310-317.	0.7	15
120	Atrial remodeling in obstructive sleep apnea: Implications for atrial fibrillation. Heart Rhythm, 2012, 9, 321-327.	0.3	280
121	Factors Affecting Sleep Quality of Patients in Intensive Care Unit. Journal of Clinical Sleep Medicine, 2012, 08, 301-307.	1.4	130
122	What is â€œSuccessâ€•following surgery for obstructive sleep apnea? The effect of different polysomnographic scoring systems. Laryngoscope, 2012, 122, 1878-1881.	1.1	35
123	Effects of obstructive sleep apnea and its treatment on cardiovascular risk in CAD patients. Respiratory Medicine, 2011, 105, 1557-1564.	1.3	11
124	Driving Simulator Performance Remains Impaired In Patients With Severe OSA after CPAP Treatment. Journal of Clinical Sleep Medicine, 2011, 07, 246-253.	1.4	38
125	Accurate Position Monitoring and Improved Supine-Dependent Obstructive Sleep Apnea with a New Position Recording and Supine Avoidance Device. Journal of Clinical Sleep Medicine, 2011, 07, 376-383.	1.4	117
126	Treating Obstructive Sleep Apnea with Hypoglossal Nerve Stimulation. Sleep, 2011, 34, 1479-1486.	0.6	229

#	Article	IF	Citations
127	The Effect of CPAP in Normalizing Daytime Sleepiness, Quality of Life, and Neurocognitive Function in Patients with Moderate to Severe OSA. Sleep, 2011, 34, 111-119.	0.6	436
128	Increased rate of traffic law infringements during on-road metropolitan driving in obstructive sleep apnea patients. Sleep and Biological Rhythms, 2011, 9, 144-149.	0.5	4
129	A simplified model of screening questionnaire and home monitoring for obstructive sleep apnoea in primary care. Thorax, 2011, 66, 213-219.	2.7	188
130	Changes in lung volume and diaphragm muscle activity at sleep onset in obese obstructive sleep apnea patients vs. healthy-weight controls. Journal of Applied Physiology, 2010, 109, 1027-1036.	1.2	32
131	Alcohol Alters Sensory Processing to Respiratory Stimuli in Healthy Men and Women During Wakefulness. Sleep, 2010, 33, 1389-1395.	0.6	9
132	Diagnostic accuracy of a questionnaire and simple home monitoring device in detecting obstructive sleep apnoea in a Chinese population at high cardiovascular risk. Respirology, 2010, 15, 952-960.	1.3	57
133	Upper airway function and arousability to ventilatory challenge in slow wave versus stage 2 sleep in obstructive sleep apnoea. Thorax, 2010, 65, 107-112.	2.7	58
134	The sleep apnea cardiovascular endpoints (SAVE) trial: Rationale and start-up phase. Journal of Thoracic Disease, 2010, 2, 138-43.	0.6	36
135	Marked Reduction in Obstructive Sleep Apnea Severity in Slow Wave Sleep. Journal of Clinical Sleep Medicine, 2009, 05, 519-524.	1.4	143
136	Abdominal Compression Increases Upper Airway Collapsibility During Sleep in Obese Male Obstructive Sleep Apnea Patients. Sleep, 2009, 32, 1579-1587.	0.6	69
137	Effects of Alcohol and Sleep Restriction on Simulated Driving Performance in Untreated Patients With Obstructive Sleep Apnea. Annals of Internal Medicine, 2009, 151, 447.	2.0	73
138	Nocturnal non-invasive nasal ventilation in stable hypercapnic COPD: a randomised controlled trial. Thorax, 2009, 64, 561-566.	2.7	347
139	A Randomized Controlled Trial of Nurse-led Care for Symptomatic Moderateâ€"Severe Obstructive Sleep Apnea. American Journal of Respiratory and Critical Care Medicine, 2009, 179, 501-508.	2.5	185
