Version: 2024-02-01

47 papers	1,414 citations	393982 19 h-index	344852 36 g-index
47 all docs	47 docs citations	47 times ranked	1803 citing authors

#	Article	IF	Citations
1	Therapeutic strategies, oncologic and swallowing outcomes and their predictive factors in patients with locally advanced hypopharyngeal cancer. European Archives of Oto-Rhino-Laryngology, 2022, 279, 3629-3637.	0.8	4
2	Synchronous primary neoplasia in patients with oropharyngeal cancer: Impact of tumor HPV status. A GETTEC multicentric study. Oral Oncology, 2021, 112, 105041.	0.8	11
3	Upfront surgery or definitive radiotherapy for patients with p16-negative oropharyngeal squamous cell carcinoma. A GETTEC multicentric study. European Journal of Surgical Oncology, 2021, 47, 367-374.	0.5	9
4	Oropharyngeal cancer: First relapse description and prognostic factor of salvage treatment according to p16 status, a GETTEC multicentric study. European Journal of Cancer, 2021, 143, 168-177.	1.3	13
5	Upfront surgery or definitive radiotherapy for p16+ oropharyngeal cancer. A GETTEC multicentric study. European Journal of Surgical Oncology, 2021, 47, 1389-1397.	0.5	9
6	Long-term functional and quality of life outcomes in laryngectomized patients after successful voice restoration using tracheoesophageal prostheses. Surgical Oncology, 2021, 38, 101580.	0.8	8
7	Cutaneous Squamous Cell Carcinoma Development Is Associated with a Temporal Infiltration of ILC1 and NK Cells with Immune Dysfunctions. Journal of Investigative Dermatology, 2021, 141, 2369-2379.	0.3	18
8	Metachronous second primary neoplasia in oropharyngeal cancer patients: Impact of tumor HPV status. A GETTEC multicentric study. Oral Oncology, 2021, 122, 105503.	0.8	3
9	Current Therapeutic Strategies in Patients with Oropharyngeal Squamous Cell Carcinoma: Impact of the Tumor HPV Status. Cancers, 2021, 13, 5456.	1.7	5
10	How to select candidates for microvascular head and neck reconstruction in the elderly? Predictive factors of postoperative outcomes. Surgical Oncology, 2020, 34, 168-173.	0.8	10
11	Oral and oropharyngeal cancer surgery with free-flap reconstruction in the elderly: Factors associated with long-term quality of life, patient needs and concerns. A GETTEC cross-sectional study. Surgical Oncology, 2020, 35, 81-88.	0.8	18
12	Correlations between long-term quality of life and patient needs and concerns following head and neck cancer treatment and the impact of psychological distress. A multicentric cross-sectional study. European Archives of Oto-Rhino-Laryngology, 2020, 278, 2437-2445.	0.8	15
13	Current Role of Total Laryngectomy in the Era of Organ Preservation. Cancers, 2020, 12, 584.	1.7	36
14	Consensus on resectability in N3 head and neck squamous cell carcinomas: GETTEC recommendations. Oral Oncology, 2020, 106, 104733.	0.8	4
15	Evaluation of the information given to patients undergoing total pharyngolaryngectomy and quality of life: a prospective multicentric study. European Archives of Oto-Rhino-Laryngology, 2019, 276, 2531-2539.	0.8	13
16	Prevalence and characteristics of HPV-driven oropharyngeal cancer in France. Cancer Epidemiology, 2019, 61, 89-94.	0.8	31
17	Evolution and predictive factors of quality of life in patients undergoing oncologic surgery for head and neck cancer: A prospective multicentric study. Surgical Oncology, 2019, 28, 236-242.	0.8	14
18	Current role of primary surgical treatment in patients with head and neck squamous cell carcinoma. Current Opinion in Oncology, 2019, 31, 138-145.	1.1	45

#	Article	IF	Citations
19	Tumor-Stroma Mechanics Coordinate Amino Acid Availability to Sustain Tumor Growth and Malignancy. Cell Metabolism, 2019, 29, 124-140.e10.	7.2	232
20	Long-term quality of life and psycho-social outcomes after oropharyngeal cancer surgery and radial forearm free-flap reconstruction: A GETTEC prospective multicentric study. Surgical Oncology, 2018, 27, 23-30.	0.8	45
21	Versatility of cervicofacial flaps: Cervicalâ€medial cheek flap for reconstruction in cutaneous substance loss of the inner cheek. Head and Neck, 2018, 40, 2574-2582.	0.9	1
22	Total pharyngolaryngectomy in the elderly: The impact of age on postoperative complications and oncologic and functional outcomes. Surgical Oncology, 2018, 27, 767-772.	0.8	9
23	Impact of HPV-associated p16-expression and other clinical factors on therapeutic decision-making in patients with oropharyngeal cancer: A GETTEC multicentric study. European Journal of Surgical Oncology, 2018, 44, 1908-1913.	0.5	14
24	Coverage of Tendon Exposure after Radial Forearm Free Flap by the Dorsoulnar Artery Perforator Flap. Otolaryngology - Head and Neck Surgery, 2017, 156, 822-827.	1.1	10
25	Multicenter prospective micro-costing study evaluating mandibular free-flap reconstruction. European Archives of Oto-Rhino-Laryngology, 2017, 274, 1103-1111.	0.8	13
26	Combination of phosphotidylinositolâ€3â€kinase targeting with cetuximab and irradiation: A preclinical study on an orthotopic xenograft model of head and neck cancer. Head and Neck, 2017, 39, 151-159.	0.9	19
27	Primary radical ablative surgery and fibula free-flap reconstruction for T4 oral cavity squamous cell carcinoma with mandibular invasion: oncologic and functional results and their predictive factors. European Archives of Oto-Rhino-Laryngology, 2017, 274, 441-449.	0.8	24
28	Combination of m<scp>TOR</scp> and <scp>EGFR</scp> targeting in an orthotopic xenograft model of head and neck cancer. Laryngoscope, 2016, 126, E156-63.	1.1	24
29	Evaluation of the information given to patients undergoing head and neck cancer surgery using the EORTC QLQ-INFO25 questionnaire: A prospective multicentric study. European Journal of Cancer, 2016, 67, 73-82.	1.3	16
30	Induction chemotherapy-based larynx preservation program for locally advanced hypopharyngeal cancer: oncologic and functional outcomes and prognostic factors. European Archives of Oto-Rhino-Laryngology, 2016, 273, 3299-3306.	0.8	17
31	Nutritional status and feeding-tube placement in patients with locally advanced hypopharyngeal cancer included in an induction chemotherapy-based larynx preservation program. European Archives of Oto-Rhino-Laryngology, 2016, 273, 2681-2687.	0.8	10
32	Contemporary therapeutic management of locally advanced hypopharyngeal cancer: oncologic and functional outcomes â€“ a report on 100 cases. Acta Oto-Laryngologica, 2015, 135, 193-200.	0.3	18
33	Salvage surgery for recurrent oropharyngeal cancer: post-operative oncologic and functional outcomes. Acta Oto-Laryngologica, 2015, 135, 1323-1329.	0.3	20
34	Long-term functional outcomes and quality of life after oncologic surgery and microvascular reconstruction in patients with oral or oropharyngeal cancer. Acta Oto-Laryngologica, 2014, 134, 1086-1093.	0.3	64
35	Long-term quality of life and its predictive factors after oncologic surgery and microvascular reconstruction in patients with oral or oropharyngeal cancer. European Archives of Oto-Rhino-Laryngology, 2014, 271, 801-807.	0.8	42
36	Impact of patient comorbidities on head and neck microvascular reconstruction. A report on 423 cases. European Archives of Oto-Rhino-Laryngology, 2013, 270, 1741-1746.	0.8	51

#	Article	IF	Citations
37	Salvage Circular Laryngopharyngectomy and Radial Forearm Free Flap for Recurrent Hypopharyngeal Cancer. Laryngoscope, 2013, 123, 910-915.	1.1	24
38	Significance of circulating tumor cell detection using the CellSearch system in patients with locally advanced head and neck squamous cell carcinoma. European Archives of Oto-Rhino-Laryngology, 2013, 270, 2745-2749.	0.8	53
39	The mTOR-targeting drug temsirolimus enhances the growth-inhibiting effects of the cetuximabâ€“bevacizumabâ€“irradiation combination on head and neck cancer xenografts. Oral Oncology, 2011, 47, 340-344.	0.8	34
40	Antitumor activity of cetuximab associated with the taxotereâ€“cisplatinâ€“fluorouracil (TPF) combination on an orthotopic head and neck cancer model. Oral Oncology, 2011, 47, 940-945.	0.8	9
41	Ablative surgery and free flap reconstruction for elderly patients with oral or oropharyngeal cancer: Oncologic and functional outcomes. Acta Oto-Laryngologica, 2011, 131, 1104-1109.	0.3	15
42	Results of vocal rehabilitation using tracheoesophageal voice prosthesis after total laryngectomy and their predictive factors. European Archives of Oto-Rhino-Laryngology, 2010, 267, 751-758.	0.8	74
43	Radical ablative surgery and radial forearm free flap (RFFF) reconstruction for patients with oral or oropharyngeal cancer: postoperative outcomes and oncologic and functional results. Acta Oto-Laryngologica, 2009, 129, 681-687.	0.3	53
44	Emerging molecular targeted therapies in the treatment of head and neck cancer. Expert Opinion on Emerging Drugs, 2009, 14, 299-310.	1.0	45
45	Quality of life after oral and oropharyngeal reconstruction with a radial forearm free flap: prospective study. Journal of Otolaryngology - Head and Neck Surgery, 2009, 38, 401-8.	0.9	13
46	Freeâ€Flap Head and Neck Reconstruction and Quality of Life: A 2â€Year Prospective Study. Laryngoscope, 2008, 118, 874-880.	1.1	87
47	Head and neck reconstruction with free flaps: a report on 213 cases. European Archives of Oto-Rhino-Laryngology, 2007, 265, 85-95.	0.8	112
