Uwe Hbner

List of Publications by Year in Descending Order

Source: https://exaly.com/author-pdf/8400848/uwe-hubner-publications-by-year.pdf
Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.
The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

44 papers	2,211 citations	19 h-index	46 g-index
46 ext. papers	2,831 ext. citations	8.9 avg, IF	5.57 L-index

#	Paper	IF	Citations
44	Engineering of managed aquifer recharge systems to optimize biotransformation of trace organic chemicals. *Current Opinion in Environmental Science and Health*, **2022**, 27, 100343	8.1	1
43	Removal of Trace Organic Chemicals during Long-Term Biofilter Operation. *ACS ES&T Water*, **2021**, 1, 300-308		2
42	Fate and Transport of Viruses within a High-Rate Plug-Flow Biofilter Designed for Non-Membrane-Based Indirect Potable Reuse Applications. *ACS ES&T Water*, **2021**, 1, 1229-1239		
41	Micropollutants as internal probe compounds to assess UV fluence and hydroxyl radical exposure in UV/HO treatment. *Water Research*, **2021**, 195, 116940	12.5	3
40	Inferring trophic conditions in managed aquifer recharge systems from metagenomic data. *Science of the Total Environment*, **2021**, 772, 145512	10.2	
39	Ozone membrane contactors for water and wastewater treatment: A critical review on materials selection, mass transfer and process design. *Chemical Engineering Journal*, **2021**, 413, 127393	14.7	5
38	Assessment of Full-Scale Indirect Potable Water Reuse in El Port de la Selva, Spain. *Water (Switzerland)*, **2021**, 13, 325	3	2
37	Varying attenuation of trace organic chemicals in natural treatment systems - A review of key influential factors. *Chemosphere*, **2021**, 274, 129774	8.4	3
36	Analyzing (Initial) Biotransformation Reactions as an Organizing Principle for Unraveling the Extent of Trace Organic Chemical Biotransformation in Biofiltration Systems. *ACS ES&T Water*, **2021**, 1, 1921-1931		0
35	Quantitative microbial risk assessment of a non-membrane based indirect potable water reuse system using Bayesian networks. *Science of the Total Environment*, **2021**, 780, 146462	10.2	3
34	Differentiating between adsorption and biodegradation mechanisms while removing trace organic chemicals (TOrCs) in biological activated carbon (BAC) filters. *Science of the Total Environment*, **2020**, 743, 140567	10.2	8
33	Characterizing a novel in-situ oxygen delivery device for establishing controlled redox zonation within a high infiltration rate sequential biofilter. *Water Research*, **2020**, 182, 116039	12.5	4
32	Trends in conducting quantitative microbial risk assessments for water reuse systems: A review. *Microbial Risk Analysis*, **2020**, 16, 100132	1.6	3
31	Stimulating Nitrogen Biokinetics with the Addition of Hydrogen Peroxide to Secondary Effluent Biofiltration. *Clean Technologies*, **2020**, 2, 53-73	3.4	1
30	Developing a novel biofiltration treatment system by coupling high-rate infiltration trench technology with a plug-flow porous-media bioreactor. *Science of the Total Environment*, **2020**, 722, 137890	10.2	9
29	Role of reduced empty bed contact times and pre-treatment by coagulation with Fe(III) salts on the removal of trace organic compounds during sequential biofiltration. *Science of the Total Environment*, **2019**, 685, 220-228	10.2	3
28	Antibiotic microbial resistance (AMR) removal efficiencies by conventional and advanced wastewater treatment processes: A review. *Science of the Total Environment*, **2019**, 685, 596-608	10.2	101

27	Dynamics of Wastewater Effluent Contributions in Streams and Impacts on Drinking Water Supply via Riverbank Filtration in Germany-A National Reconnaissance. *Environmental Science & Technology*, **2019**, 53, 6154-6161	10.3	32
26	Elucidation of removal processes in sequential biofiltration (SBF) and soil aquifer treatment (SAT) by analysis of a broad range of trace organic chemicals (TOrCs) and their transformation products (TPs). *Water Research*, **2019**, 163, 114857	12.5	16
25	Investigating synergies in sequential biofiltration-based hybrid systems for the enhanced removal of trace organic chemicals from wastewater treatment plant effluents. *Environmental Science: Water Research and Technology*, **2019**, 5, 1423-1435	4.2	5
24	Comparison of UV-AOPs (UV/H2O2, UV/PDS and UV/Chlorine) for TOrC removal from municipal wastewater effluent and optical surrogate model evaluation. *Chemical Engineering Journal*, **2019**, 362, 537-547	14.7	65
23	Capturing the oxic transformation of iopromide - A useful tool for an improved characterization of predominant redox conditions and the removal of trace organic compounds in biofiltration systems?. *Water Research*, **2019**, 152, 274-284	12.5	13
22	Biotransformation of trace organic chemicals in the presence of highly refractory dissolved organic carbon. *Chemosphere*, **2019**, 215, 33-39	8.4	20
21	UV/HO process stability and pilot-scale validation for trace organic chemical removal from wastewater treatment plant effluents. *Water Research*, **2018**, 136, 169-179	12.5	71
20	Evaluation of advanced oxidation processes for water and wastewater treatment - A critical review. *Water Research*, **2018**, 139, 118-131	12.5	1135
19	Establishing sequential managed aquifer recharge technology (SMART) for enhanced removal of trace organic chemicals: Experiences from field studies in Berlin, Germany. *Journal of Hydrology*, **2018**, 563, 1161-1168	6	36
18	Improving UV/H2O2 performance following tertiary treatment of municipal wastewater. *Environmental Science: Water Research and Technology*, **2018**, 4, 1321-1330	4.2	10
17	Removal of trace organic chemicals in wastewater effluent by UV/HO and UV/PDS. *Water Research*, **2018**, 145, 487-497	12.5	79
16	Microbiome-Triggered Transformations of Trace Organic Chemicals in the Presence of Effluent Organic Matter in Managed Aquifer Recharge (MAR) Systems. *Environmental Science & Technology*, **2018**, 52, 14342-14351	10.3	11
15	Evaluation of the short-term fate and transport of chemicals of emerging concern during soil-aquifer treatment using select transformation products as intrinsic redox-sensitive tracers. *Science of the Total Environment*, **2017**, 583, 10-18	10.2	14
14	Sequential biofiltration - A novel approach for enhanced biological removal of trace organic chemicals from wastewater treatment plant effluent. *Water Research*, **2017**, 127, 127-138	12.5	36
13	Advancing Sequential Managed Aquifer Recharge Technology (SMART) Using Different Intermediate Oxidation Processes. *Water (Switzerland)*, **2017**, 9, 221	3	29
12	Removal of Residual Dissolved Ozone with Manganese Dioxide for Process Control with UV254. *Ozone: Science and Engineering*, **2016**, 38, 79-85	2.4	3
11	Fate of bulk organic carbon and bromate during indirect water reuse involving ozone and subsequent aquifer recharge. *Journal of Water Reuse and Desalination*, **2016**, 6, 413-420	2.6	7
10	Determination of oxidant exposure during ozonation of secondary effluent to predict contaminant removal. *Water Research*, **2016**, 100, 508-516	12.5	28

9	Influence of wastewater particles on ozone degradation of trace organic contaminants. *Environmental Science & Technology*, **2015**, 49, 301-8	10.3	53
8	A hybrid process of biofiltration of secondary effluent followed by ozonation and short soil aquifer treatment for water reuse. *Water Research*, **2015**, 84, 315-22	12.5	38
7	Evaluation of the persistence of transformation products from ozonation of trace organic compounds - a critical review. *Water Research*, **2015**, 68, 150-70	12.5	133
6	Options and limitations of hydrogen peroxide addition to enhance radical formation during ozonation of secondary effluents. *Journal of Water Reuse and Desalination*, **2015**, 5, 8-16	2.6	21
5	Ozonation products of carbamazepine and their removal from secondary effluents by soil aquifer treatment--indications from column experiments. *Water Research*, **2014**, 49, 34-43	12.5	93
4	Evaluation of the prediction of trace organic compound removal during ozonation of secondary effluents using tracer substances and second order rate kinetics. *Water Research*, **2013**, 47, 6467-74	12.5	29
3	Tertiary treatment of Berlin WWTP effluents with ferrate (Fe(VI)). *Water Science and Technology*, **2013**, 68, 1665-71	2.2	7
2	Optimized removal of dissolved organic carbon and trace organic contaminants during combined ozonation and artificial groundwater recharge. *Water Research*, **2012**, 46, 6059-68	12.5	45
1	Impact of temperature on biodegradation of bulk and trace organics during soil passage in an indirect reuse system. *Water Science and Technology*, **2008**, 57, 987-94	2.2	31
