Version: 2024-02-01

388 papers	23,885 citations	6250 80 h-index	9090 144 g-index
416 all docs	416 docs citations	416 times ranked	8691 citing authors

#	Article	IF	Citations
1	The responsibilities of peer review. Musculoskeletal Science and Practice, 2022, 57, 102505.	0.6	1
2	The temporal behaviour of migraine related neck pain does not inform on the origin of neck pain: An observational study. Musculoskeletal Science and Practice, 2022, 58, 102522.	0.6	5
3	The Neck Disability Index Reflects Allodynia and Headache Disability but Not Cervical Musculoskeletal Dysfunction in Migraine. Physical Therapy, 2022, 102, .	1.1	10
4	Defining the scope of your manuscript â€“ Beware of â€œsalami slicingâ€• Musculoskeletal Science and Practice, 2022, 58, 102540.	0.6	0
5	Clinical practice guidelines and best practice â€“ a comment. Musculoskeletal Science and Practice, 2022, 59, 102585.	0.6	0
6	Classification criteria for cervical radiculopathy: An international e-Delphi study. Musculoskeletal Science and Practice, 2022, 61, 102596.	0.6	8
7	Curbing the burden of idiopathic neck pain:Can a stitch in time save nine?. Musculoskeletal Science and Practice, 2021, 51, 102323.	0.6	1
8	Neck pain associated with migraine does not necessarily reflect cervical musculoskeletal dysfunction. Headache, 2021, 61, 882-894.	1.8	29
9	Patient's perspectives of musculoskeletal science and practice. Musculoskeletal Science and Practice, 2021, 55, 102436.	0.6	0
10	Altered neuromuscular activity and postural stability during standing balance tasks in persons with non-specific neck pain. Journal of Electromyography and Kinesiology, 2021, 61, 102608.	0.7	2
11	Deep and superficial cervical muscles respond differently to unstable motor skill tasks. Human Movement Science, 2021, 80, 102893.	0.6	3
12	Physiotherapy is not a treatment technique. Musculoskeletal Science and Practice, 2021, 56, 102480.	0.6	3
13	Cervical musculoskeletal impairments in migraine. Archives of Physiotherapy, 2021, 11, 27.	0.7	8
14	Implementation of a novel stratified PAthway of CarE for common musculoskeletal (MSK) conditions in primary care: protocol for a multicentre pragmatic randomised controlled trial (the PACE MSK) Tj ETQq0 0 0 rgBT /Overlock 10 Tf 50 2	0.8	
15	Response rate and comparison of clinical features associated with positive or negative responses to a scapular positioning test in patients with neck pain and altered scapular alignment: a cross-sectional study. BMJ Open, 2021, 11, e057459.	0.8	5
16	Low back pain websites do not meet the needs of consumers: A study of online resources at three time points. Health Information Management Journal, 2020, 49, 137-149.	0.9	11
17	25th Anniversary year. Musculoskeletal Science and Practice, 2020, 49, 102229.	0.6	0
18	The COVID year. Musculoskeletal Science and Practice, 2020, 50, 102287.	0.6	0

#	Article	IF	Citations
19	Validation of a clinical examination to differentiate a cervicogenic source of headache: a diagnostic prediction model using controlled diagnostic blocks. BMJ Open, 2020, 10, e035245.	0.8	26
20	COVID-19 and interconnectedness. Musculoskeletal Science and Practice, 2020, 47, 102164.	0.6	0
21	Telehealth and COVID 19. Musculoskeletal Science and Practice, 2020, 48, 102201.	0.6	2
22	Systematic reviews in review. Musculoskeletal Science and Practice, 2020, 46, 102135.	0.6	1
23	Outcome measures for assessing the effectiveness of non-pharmacological interventions in frequent episodic or chronic migraine: a Delphi study. BMJ Open, 2020, 10, e029855.	0.8	34
24	MSK Science and Practice Editorial. Musculoskeletal Science and Practice, 2019, 39, v.	0.6	0
25	Introduction to the special issue on concussion. Musculoskeletal Science and Practice, 2019, 42, 138-139.	0.6	0
26	Cervical musculoskeletal impairments in migraine and tension type headache: A systematic review and meta-analysis. Musculoskeletal Science and Practice, 2019, 42, 67-83.	0.6	72
27	Motor cortex representation of deep and superficial neck flexor muscles in individuals with and without neck pain. Human Brain Mapping, 2019, 40, 2759-2770.	1.9	10
28	Self-reported sinus headaches are associated with neck pain and cervical musculoskeletal dysfunction: a preliminary observational case control study. Journal of Manual and Manipulative Therapy, 2019, 27, 245-252.	0.7	1
29	The peer review process: Giving and receiving advice. Musculoskeletal Science and Practice, 2019, 40, v.	0.6	3
30	Recommendations For Core Outcome Domain Set For Whiplash-Associated Disorders (CATWAD). Clinical Journal of Pain, 2019, 35, 727-736.	0.8	19
31	Essential key messages about diagnosis, imaging, and self-care for people with low back pain: a modified Delphi study of consumer and expert opinions. Pain, 2019, 160, 2787-2797.	2.0	25
32	A Lawyer With Whiplash. , 2019, , 241-258.		0
33	Moderators of strengthening exercise with pain coping skills training for people with knee osteoarthritis: exploratory analysis of randomised controlled trial. Osteoarthritis and Cartilage, 2018, 26, S247-S248.	0.6	0
34	Neck muscle vibration produces diverse responses in balance and gait speed between individuals with and without neck pain. Musculoskeletal Science and Practice, 2018, 35, 25-29.	0.6	19
35	Fads and facts. Musculoskeletal Science and Practice, 2018, 34, iii.	0.6	0
36	Clear, professional and accurate communication is key to success in all activities. Musculoskeletal Science and Practice, 2018, 33, iii.	0.6	1

#	Article	IF	Citations
37	Benefits and Threats to Using Social Media for Presenting and Implementing Evidence. Journal of Orthopaedic and Sports Physical Therapy, 2018, 48, 3-7.	1.7	12
38	Effects of local treatment with and without sensorimotor and balance exercise in individuals with neck pain: protocol for a randomized controlled trial. BMC Musculoskeletal Disorders, 2018, 19, 48.	0.8	18
39	Psychological Features and Their Relationship to Movement-Based Subgroups in People Living With Low Back Pain. Archives of Physical Medicine and Rehabilitation, 2018, 99, 121-128.	0.5	10
40	Effects of deep cervical flexor training on impaired physiological functions associated with chronic neck pain: a systematic review. BMC Musculoskeletal Disorders, 2018, 19, 415.	0.8	60
41	Cervical musculoskeletal dysfunction in headache: How should it be defined?. Musculoskeletal Science and Practice, 2018, 38, 148-150.	0.6	25
42	Editorial. Musculoskeletal Science and Practice, 2017, 28, iii.	0.6	0
43	Biopsychosocial model of disease: 40â€...years on. Which way is the pendulum swinging?. British Journal of Sports Medicine, 2017, 51, 1187-1188.	3.1	32
44	Musculoskeletal science & practice and social media. Musculoskeletal Science and Practice, 2017, 29, v-vi.	0.6	0
45	Complexities of patients and management approaches challenge tests of effectiveness. Musculoskeletal Science and Practice, 2017, 32, iv.	0.6	1
46	Effectiveness of physiotherapy for seniors with recurrent headaches associated with neck pain and dysfunction: a randomized controlled trial. Spine Journal, 2017, 17, 46-55.	0.6	19
47	Designing an online resource for people with low back pain: health-care provider perspectives. Australian Journal of Primary Health, 2016, 22, 159.	0.4	11
48	Writing integrity. Manual Therapy, 2016, 23, 56.	1.6	0
49	The TIDieR (Template for Intervention, descriptor and replication) checklist will benefit the physiotherapy profession. Manual Therapy, 2016, 24, v-vi.	1.6	4
50	Can a professional development workshop with follow-up alter practitioner behaviour and outcomes for neck pain patients? A randomised controlled trial. Manual Therapy, 2016, 25, 87-93.	1.6	9
51	Whiplash Continues Its Challenge. Journal of Orthopaedic and Sports Physical Therapy, 2016, 46, 815-817.	1.7	8
52	Is tailored treatment superior to non-tailored treatment for pain and disability in women with non-specific neck pain? A randomized controlled trial. BMC Musculoskeletal Disorders, 2016, 17, 408.	0.8	12
53	Discord Between Approaches to Spinal and Extremity Disorders: Is It Logical?. Journal of Orthopaedic and Sports Physical Therapy, 2016, 46, 938-941.	1.7	10
54	Physical Therapistâ€"Delivered Pain Coping Skills Training and Exercise for Knee Osteoarthritis: Randomized Controlled Trial. Arthritis Care and Research, 2016, 68, 590-602.	1.5	125

#	Article	IF	Citations
55	Does increased superficial neck flexor activity in the craniocervical flexion test reflect reduced deep flexor activity in people with neck pain?. Manual Therapy, 2016, 25, 43-47.	1.6	67
56	Movement-based subgrouping in low back pain: synergy and divergence in approaches. Physiotherapy, 2016, 102, 159-169.	0.2	35
57	International consensus on the most useful physical examination tests used by physiotherapists for patients with headache: A Delphi study. Manual Therapy, 2016, 23, 17-24.	1.6	78
58	Mechanical properties of the trapezius during scapular elevation in people with chronic whiplash associated disorders â€“ A case-control ultrasound speckle tracking analysis. Manual Therapy, 2016, 21, 177-182.	1.6	10
59	Low Pain Catastrophization and Disability Predict Successful Outcome to Radiofrequency Neurotomy in Individuals with Chronic Whiplash. Pain Practice, 2016, 16, 311-319.	0.9	14
60	Response to Letter to the Editor re: â€˜Movement-based subgrouping in low back pain: synergy and divergence in approachesâ€™. Physiotherapy, 2016, 102, e3.	0.2	0
61	Neck muscle function in violinists/violists with and without neck pain. Clinical Rheumatology, 2016, 35, 1045-1051.	1.0	24
62	Can a traditional continuing professional development workshop be enhanced?. Physiotherapy, 2015, 101, e242.	0.2	0
63	Comprehensive physiotherapy exercise programme or advice for chronic whiplash (PROMISE): a pragmatic randomised controlled trial. Physiotherapy, 2015, 101, e1001-e1002.	0.2	2
64	An anniversary year. Manual Therapy, 2015, 20, 1.	1.6	0
65	Preliminary evaluation of dorsal muscle activity during resisted cervical extension in patients with longstanding pain and disability following anterior cervical decompression and fusion surgery. Physiotherapy, 2015, 101, 69-74.	0.2	12
66	Inter-and intra-tester reliability of a battery of cervical movement control dysfunction tests. Manual Therapy, 2015, 20, 570-579.	1.6	17
67	Implementing a Self-Management Intervention for People with a Chronic Compensable Musculoskeletal Injury in a Workers Compensation Context: A Process Evaluation. Journal of Occupational Rehabilitation, 2015, 25, 412-422.	1.2	0
68	Morphological changes in the cervical muscles of women with chronic whiplash can be modified with exerciseâ€”A pilot study. Muscle and Nerve, 2015, 52, 772-779.	1.0	37
69	A profession-wide collaboration to embed role-play simulation into Australian entry-level physiotherapy clinical training. Physiotherapy, 2015, 101, e1047.	0.2	5
70	Time matters and so does communication â€“ Prioritising time with patients. Manual Therapy, 2015, 20, 227.	1.6	1
71	Trial registration is required for any human intervention study. Manual Therapy, 2015, 20, 367.	1.6	2
72	External Validation of a Clinical Prediction Rule to Predict Full Recovery and Ongoing Moderate/Severe Disability Following Acute Whiplash Injury. Journal of Orthopaedic and Sports Physical Therapy, 2015, 45, 242-250.	1.7	70

#	Article	IF	Citations
73	Cervical facet joint nociception modulates physical and psychological features of chronic whiplash. Physiotherapy, 2015, 101, e1439-e1440.	0.2	0
74	Modulation of Cervical Facet Joint Nociception and Pain Attenuates Physical and Psychological Features of Chronic Whiplash: A Prospective Study. PM and R, 2015, 7, 913-921.	0.9	13
75	Therapeutic exercise for prevention, treatment and rehabilitation of musculoskeletal pain and function. Manual Therapy, 2015, 20, 631-632.	1.6	4
76	A speckle tracking application of ultrasound to evaluate activity of multilayered cervical muscles. Journal of Rehabilitation Medicine, 2014, 46, 662-667.	0.8	4
77	Information needs of people with low back pain for an online resource: a qualitative study of consumer views. Disability and Rehabilitation, 2014, 36, 1085-1091.	0.9	29
78	Can Physical Therapists Deliver a Pain Coping Skills Program? An Examination of Training Processes and Outcomes. Physical Therapy, 2014, 94, 1443-1454.	1.1	33
79	Differential Changes in Muscle Composition Exist in Traumatic and Nontraumatic Neck Pain. Spine, 2014, 39, 39-47.	1.0	87
80	Cervical Radiofrequency Neurotomy Reduces Central Hyperexcitability and Improves Neck Movement in Individuals with Chronic Whiplash. Pain Medicine, 2014, 15, 128-141.	0.9	33
81	A Description of Neck Motor Performance, Neck Pain, Fatigue, and Mental Effort While Driving in a Sample with Chronic Whiplash-Associated Disorders. American Journal of Physical Medicine and Rehabilitation, 2014, 93, 665-674.	0.7	13
82	Derivation of a Clinical Decision Guide in the Diagnosis of Cervical Facet Joint Pain. Archives of Physical Medicine and Rehabilitation, 2014, 95, 1695-1701.	0.5	45
83	Editors reflections on 2013 and plans for new initiatives in 2014. Manual Therapy, 2014, 19, 1.	1.6	1
84	Comprehensive physiotherapy exercise programme or advice for chronic whiplash (PROMISE): a pragmatic randomised controlled trial. Lancet, The, 2014, 384, 133-141.	6.3	139
85	Does posture of the cervical spine influence dorsal neck muscle activity when lifting?. Manual Therapy, 2014, 19, 32-36.	1.6	22
86	Physical Therapistâ€"Delivered Cognitive-Behavioral Therapy: A Qualitative Study of Physical Therapists' Perceptions and Experiences. Physical Therapy, 2014, 94, 197-209.	1.1	84
87	Manual Therapy adopts mandatory reporting guidelines for publishing. Manual Therapy, 2014, 19, 365-366.	1.6	2
88	(389) The presence of post-traumatic stress disorder symptoms does not influence response to cervical radiofrequency neurotomy. Journal of Pain, 2014, 15, S73.	0.7	0
89	Registration of clinical trials for publication. Manual Therapy, 2014, 19, 279-280.	1.6	3
90	Commentary to: Surgery for cervical radiculopathy followed by physiotherapy may resolve symptoms faster than physiotherapy alone, but with few differences at two years. Journal of Physiotherapy, 2014, 60, 109.	0.7	0

#	Article	IF	Citations
91	Physiotherapist-delivered exercise and pain coping skills training is more effective than either intervention alone in knee osteoarthritis. Osteoarthritis and Cartilage, 2014, 22, S192-S193.	0.6	0
92	Therapeutic exercise for prevention, treatment and rehabilitation of musculoskeletal pain and function as well as general health and life quality: A call for papers. Manual Therapy, 2014, 19, 277-278.	1.6	3
93	Enhancing the vocational outcomes of people with chronic disabilities caused by a musculoskeletal condition: Development and evaluation of content of self-management training modules. Work, 2014, 49, 455-464.	0.6	6
94	Cervical radiofrequency neurotomy reduces psychological features in individuals with chronic whiplash symptoms. Pain Physician, 2014, 17, 265-74.	0.3	11
95	Immediate and short-term effects of Mulligan's mobilization with movement on knee pain and disability associated with knee osteoarthritis â€“ A prospective case series. Physiotherapy Theory and Practice, 2013, 29, 87-95.	0.6	36
96	Applying principles of self-management to facilitate workers to return to or remain at work with a chronic musculoskeletal condition. Manual Therapy, 2013, 18, 274-280.	1.6	18
97	Management of acute whiplash: A randomized controlled trial of multidisciplinary stratified treatments. Pain, 2013, 154, 1798-1806.	2.0	78
98	Cervical Muscle Activity During Loaded Arm Lifts in Patients 10 Years Postsurgery for Cervical Disc Disease. Journal of Manipulative and Physiological Therapeutics, 2013, 36, 292-299.	0.4	10
99	Patients with non-specific neck disorders commonly report upper limb disability. Manual Therapy, 2013, 18, 492-497.	1.6	28
100	Assessment of driving-related performance in chronic whiplash using an advanced driving simulator. Accident Analysis and Prevention, 2013, 60, 5-14.	3.0	9
101	People seeking treatment for a new episode of neck pain typically have rapid improvement in symptoms: an observational study. Journal of Physiotherapy, 2013, 59, 31-37.	0.7	30
102	More clinician led research?. Manual Therapy, 2013, 18, 359.	1.6	2
103	Physiotherapy's identity. Manual Therapy, 2013, 18, 447-448.	1.6	13
104	Characteristics of a new episode of neck pain. Manual Therapy, 2013, 18, 254-257.	1.6	16
105	Intrarater and Interrater Reliability of Select Clinical Tests inÂPatients Referred for Diagnostic Facet Joint Blocks in theÂCervical Spine. Archives of Physical Medicine and Rehabilitation, 2013, 94, 1628-1634.	0.5	45
106	A comparison of physical and psychological features of responders and non-responders to cervical facet blocks in chronic whiplash. BMC Musculoskeletal Disorders, 2013, 14, 313.	0.8	38
107	Response to Commentary on Our Article Titled â€œIntrarater and Interrater Reliability of Select Clinical Tests in Patients Referred for Diagnostic Facet Joint Blocks in the Cervical Spineâ€• Archives of Physical Medicine and Rehabilitation, 2013, 94, 1638-1640.	0.5	0
108	The patient experience of musculoskeletal therapy. Manual Therapy, 2013, 18, 175-176.	1.6	1

#	Article	IF	Citations
109	Sensory and Sensorimotor Features in Violinists and Violists WithÂNeck Pain. Archives of Physical Medicine and Rehabilitation, 2013, 94, 2523-2528.	0.5	18
110	Physiotherapist-delivered exercise and pain coping skills training is more effective than either intervention alone in knee osteoarthritis. Journal of Science and Medicine in Sport, 2013, 16, e91.	0.6	0
111	Editors' response. Manual Therapy, 2013, 18, e12.	1.6	0
112	Clinical trial registration in physiotherapy journals: Recommendations from the International Society of Physiotherapy Journal Editors. Manual Therapy, 2013, 18, 1-3.	1.6	8
113	Neck Pain Driving Index: Appropriateness of the Rating ScaleÂand Unidimensionality of the Strategic, Tactical, and Operational Levels. Archives of Physical Medicine and Rehabilitation, 2013, 94, 1842-1846.	0.5	7
114	Baseline Characteristics of Patients With Nerve-Related Neck and Arm Pain Predict the Likely Response to Neural Tissue Management. Journal of Orthopaedic and Sports Physical Therapy, 2013, 43, 379-391.	1.7	18
115	Contributions of Physical and Cognitive Impairments to Self-Reported Driving Difficulty in Chronic Whiplash-Associated Disorders. Spine, 2013, 38, 1554-1560.	1.0	23
116	Simulation Can Contribute a Part of Cardiorespiratory Physiotherapy Clinical Education. Simulation in Healthcare, 2013, 8, 32-42.	0.7	85
117	Clinical Trial Registration in Physical Therapy Journals: Recommendations from the International Society of Physiotherapy Journal Editors. Physical Therapy, 2013, 93, 6-10.	1.1	24
118	Clinical Trial Registration in Physiotherapy Journals: Recommendations from the International Society of Physiotherapy Journal Editors. Physiotherapy Canada Physiotherapie Canada, 2013, 65, 109-112.	0.3	6
119	L'enregistrement des essais cliniques dans les revues de physiothÃ©rapieÂ: recommandations del'International Society of Physiotherapy Journal Editors. Physiotherapy Canada Physiotherapie Canada, 2013, 65, 112-115.	0.3	0
120	Is there a difference in the pattern of muscle activity when performing neck exercises with a guild board versus a pulley?. Journal of Rehabilitation Medicine, 2013, 45, 900-905.	0.8	6
121	Recommendations From the International Society of Physiotherapy Journal Editors: Clinical Trial Registration in Physiotherapy Journals. Journal, Physical Therapy Education, 2013, 27, 7-9.	0.3	0
122	Clinical Trial Registration in Physiotherapy Journals: Recommendations From the International Society of Physiotherapy Journal Editors. Journal of Orthopaedic and Sports Physical Therapy, 2012, 42, 978-981.	1.7	4
123	Magnetic Resonance Imaging Changes in the Size and Shape of the Oropharynx Following Acute Whiplash Injury. Journal of Orthopaedic and Sports Physical Therapy, 2012, 42, 912-918.	1.7	13
124	The Change in Deep Cervical Flexor Activity After Training Is Associated With the Degree of Pain Reduction in Patients With Chronic Neck Pain. Clinical Journal of Pain, 2012, 28, 628-634.	0.8	98
125	The influence of neck pain on sensorimotor function in the elderly. Archives of Gerontology and Geriatrics, 2012, 55, 667-672.	1.4	44
126	The Validity of Upper-Limb Neurodynamic Tests for Detecting Peripheral Neuropathic Pain. Journal of Orthopaedic and Sports Physical Therapy, 2012, 42, 413-424.	1.7	113

#	Article	IF	Citations
127	Minimum repetitions for stable measures of visual dependency using the dot version of the computer-based Rod-Frame test. Manual Therapy, 2012, 17, 466-469.	1.6	15
128	Clinical trial registration in physiotherapy journals: recommendations from the International Society of Physiotherapy Journal Editors. Journal of Physiotherapy, 2012, 58, 211-213.	0.7	10
129	Patient-centredness. Manual Therapy, 2012, 17, 377.	1.6	1
130	Response to Jones. Manual Therapy, 2012, 17, e15.	1.6	0
131	Assessment and validation of prognostic models for poor functional recovery 12 months after whiplash injury: A multicentre inception cohort study. Pain, 2012, 153, 1727-1734.	2.0	55
132	Training Modeâ€"Dependent Changes in Motor Performance in Neck Pain. Archives of Physical Medicine and Rehabilitation, 2012, 93, 1225-1233.	0.5	36
133	A physiotherapist-delivered integrated exercise and pain coping skills training intervention for individuals with knee osteoarthritis: a randomised controlled trial protocol. BMC Musculoskeletal Disorders, 2012, 13, 129.	0.8	28
134	Validity and Reliability of the Perceived Deficit Questionnaire to Assess Cognitive Symptoms in People With Chronic Whiplash-Associated Disorders. Archives of Physical Medicine and Rehabilitation, 2012, 93, 1774-1781.	0.5	24
135	The Neck Pain Driving Index (NPDI) for chronic whiplash-associated disorders: development, reliability, and validity assessment. Spine Journal, 2012, 12, 912-920.e1.	0.6	15
136	Altered Trapezius Muscle Behavior in Individuals With Neck Pain and Clinical Signs of Scapular Dysfunction. Journal of Manipulative and Physiological Therapeutics, 2012, 35, 346-353.	0.4	61
137	Research culture development in the workplace â€" The key to professional success. Manual Therapy, 2012, 17, 487-488.	1.6	3
138	Comparing Outcomes of Medial Parapatellar and Subvastus Approaches in Total Knee Arthroplasty. Journal of Arthroplasty, 2012, 27, 347-353.e1.	1.5	26
139	A Comparison of Patellar Vascularity Between the Medial Parapatellar and Subvastus Approaches in Total Knee Arthroplasty. Journal of Arthroplasty, 2012, 27, 1123-1127.e1.	1.5	14
140	Neural tissue management provides immediate clinically relevant benefits without harmful effects for patients with nerve-related neck and arm pain: a randomised trial. Journal of Physiotherapy, 2012, 58, 23-31.	0.7	85
141	Screening of patients suitable for diagnostic cervical facet joint blocks â€" A role for physiotherapists. Manual Therapy, 2012, 17, 180-183.	1.6	11
142	Editorial. Manual Therapy, 2012, 17, 1.	1.6	1
143	Can a functional postural exercise improve performance in the cranio-cervical flexion test? â€" A preliminary study. Manual Therapy, 2012, 17, 219-224.	1.6	36
144	Physical activity/exercise â€" What does it mean to students, clinicians, patients and researchers?. Manual Therapy, 2012, 17, 99.	1.6	1

#	Article	IF	Citations
145	Psychological factors associated with daily step count in knee osteoarthritis. Osteoarthritis and Cartilage, 2012, 20, S191-S192.	0.6	0
146	Can simulation replace part of clinical time? Two parallel randomised controlled trials. Medical Education, 2012, 46, 657-667.	1.1	152
147	Physiotherapy movement based classification approaches to low back pain: comparison of subgroups through review and developer/expert survey. BMC Musculoskeletal Disorders, 2012, 13, 24.	0.8	90
148	Clinical trial registration in physical therapy journals: recommendations from the International Society of Physiotherapy Journal Editors. Brazilian Journal of Physical Therapy, 2012, 16, v-ix.	1.1	7
149	Driving With a Chronic Whiplash-Associated Disorder: A Review of Patients' Perspectives. Archives of Physical Medicine and Rehabilitation, 2011, 92, 106-110.	0.5	18
