Version: 2024-04-19

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.
The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
167	Brief interventions for patients with alcohol-related trauma. *British Journal of Oral and Maxillofacial Surgery*, **1998**, 36, 408-15	1.4	28
166	Variations in admissions to hospital for head injury and assault to the head. Part 1: Age and gender. *British Journal of Oral and Maxillofacial Surgery*, **1999**, 37, 294-300	1.4	23
165	Variations in admission to hospital for head injury and assault to the head. Part 2: Ethnic group. *British Journal of Oral and Maxillofacial Surgery*, **1999**, 37, 301-8	1.4	8
164	Receiving shadows: governance and liminality in the night-time economy. **2000**, 51, 701-17		130
163	Non-fatal head injury among Scottish young people: the importance of assault. **2000**, 54, 77-8		4
162	Compassion, communication and craniofacial orodental trauma: opportunities abound. **2000**, 131, 507-10		1
161	Violence in the night-time economy; bouncers: The reporting, recording and prosecution of assaults1 * The authors would like to thank Paul Broadbent as well as two anonymous referees for their helpful comments on an earlier draft of this article.. **2000**, 10, 383-402		48
160	Incidence and aetiology of facial injuries resulting from motor vehicle accidents in Queensland for a three-year period. *Australian Dental Journal*, **2001**, 46, 284-8	2.3	21
159	Maxillofacial injuries associated with domestic violence. *Journal of Oral and Maxillofacial Surgery*, **2001**, 59, 1277-83; discussion 1283-4	1.8	135
158	Discussion. *Journal of Oral and Maxillofacial Surgery*, **2001**, 59, 1283-1284	1.8	8
157	Intimate Partner Violence Against Chinese Women: The Past, Present, and Future. **2001**, 2, 296-315		48
156	Recovering maxillofacial trauma patients: the hidden problems. **2001**, 10, 53-7		33
155	The development of a telemedicine system for a centralized maxillofacial unit serving four towns. **2001**, 7 Suppl 1, 58-9		11
154	Improving detection of alcohol misuse in patients presenting to an accident and emergency department. **2001**, 18, 99-104		58
153	New techniques in facial trauma reconstruction. **2002**, 4, 65-77		
152	Beware the black eye. **2002**, 4, 237-245		1
151	Daubing the drudges of fury: Men, violence and the piety of the 'hegemonic masculinity' thesis. **2002**, 6, 35-61		61

150	Changing picture of facial fractures in northern Nigeria. *British Journal of Oral and Maxillofacial Surgery*, **2002**, 40, 140-3	1.4	78
149	Alcohol-related violence and the role of oral and maxillofacial surgeons in multi-agency prevention. *International Journal of Oral and Maxillofacial Surgery*, **2002**, 31, 657-63	2.9	30
148	Current practice of British oral and maxillofacial surgeons: advice regarding length of time to refrain from contact sports after treatment of zygomatic fractures. *British Journal of Oral and Maxillofacial Surgery*, **2002**, 40, 488-90	1.4	11
147	Epidemiology of facial trauma in a sample of patients aged 1-18 years. **2002**, 33, 669-71		85
146	Maxillofacial fractures resulting from falls. **2003**, 31, 278-83		46
145	Explaining feast or famine in randomized field trials. Medical science and criminology compared. **2003**, 27, 290-315		33
144	Use of, and outputs from, an assault patient questionnaire within accident and emergency departments on Merseyside. **2003**, 20, 232-7		2
143	Management of maxillofacial injuries. **2003**, 64, 72-8		1
142	The prevalence and causes of maxillofacial fractures in patients attending Accident and Emergency Departments in Recife-Brazil. *International Dental Journal*, **2004**, 54, 47-51	2.2	13
141	Have the causes of maxillofacial fractures changed over the last 16 years in Finland? An epidemiological study of 725 fractures. *Dental Traumatology*, **2005**, 21, 14-9	4.5	64
140	Oral injuries in children: comparison of those children who visit and do not visit the after-hours clinic after telephone consultation. *Dental Traumatology*, **2005**, 21, 201-5	4.5	5
139	A Role for Specialist Nurses in a Maxillofacial Outpatient Clinic: Delivery of a Motivational Interview Package to Patients With Alcohol-Related Facial Injury. *Journal of Oral and Maxillofacial Surgery*, **2005**, 63, 41-42	1.8	
138	A Randomized Trial of Brief Interventions for Patients With Alcohol Related Facial Injuries. *Journal of Oral and Maxillofacial Surgery*, **2005**, 63, 57	1.8	
137	Violent Hypocrisy: Governance and the Night-time Economy. **2005**, 2, 161-183		57
136	Explaining Binge Drinking among Adolescent Males using the Theory of Planned Behaviour. **2005**, 26, 17-24		5
135	Maxillofacial trauma in major trauma patients. *Australian Dental Journal*, **2006**, 51, 225-30	2.3	39
134	Postoperative radiographs after open reduction and internal fixation of the mandible: are they useful?. *British Journal of Oral and Maxillofacial Surgery*, **2006**, 44, 279-82	1.4	17
133	Interesting case: The importance of the history in patients with haemangioma of the head and neck. *British Journal of Oral and Maxillofacial Surgery*, **2006**, 44, 282	1.4	

132	Foreign body (metal key) impacted in the upper neck. **2006**, 37, 109-112		2
131	Current management of facial wounds in UK accident and emergency departments. **2006**, 88, 144-50		9
