#	ARTICLE	IF	CITATIONS
1	Recent trends and variability of extreme rainfall indices over Lebna basin and neighborhood in the last 40 years. Arabian Journal of Geosciences, 2022, 15, 1.	1.3	3
2	Trends in seasonal and monthly rainfall for semi-arid Merguellil basin, central Tunisia. Meteorology and Atmospheric Physics, 2022, 134, 1.	2.0	2
3	Adapting groundwater artificial recharge to global and climate change in water-stressed coastal region: the case of Ras Jebel aquifer (North Tunisia). Arabian Journal of Geosciences, 2022, 15, .	1.3	3
4	Statistical detection and no-detection of rainfall change trends and breaks in semiarid Tunisia's 50+ years over the Merguellil agro-hydro-climatic reference basin. Arabian Journal of Geosciences, 2018, 11, 1.	1.3	9
5	Impact of water resources management on groundwater hydrochemical changes: case of Grombalia shallow aquifer, NE of Tunisia. Arabian Journal of Geosciences, 2018, 11, 1.	1.3	10
6	Water resources management strategies and its implications on hydrodynamic and hydrochemical changes of costal groundwater: Case of Grombalia shallow aquifer, NE Tunisia. Journal of African Earth Sciences, 2016, 124, 171-188.	2.0	19
7	Statistical distribution of rainy events characteristics and instantaneous hyetographs generation (Merguellil watershed in central Tunisia). Arabian Journal of Geosciences, 2013, 6, 1581-1590.	1.3	12
8	A MATLAB program for identifying the rainfall variability in rainfall-runoff modeling in Semi arid region (Merguellil basin: Central Tunisia). , 2013, , .		0
9	Runoff responses at different watershed scales in semi arid region: exploration of a developed rainfall runoff model (Merguellil and Skhira watershed, Central Tunisia). Earth Science Informatics, 2013, 6, 127-136.	3.2	7
