#	Article	IF	CITATIONS
1	Mechanical load-induced H2S production by periodontal ligament stem cells activates M1 macrophages to promote bone remodeling and tooth movement via STAT1. Stem Cell Research and Therapy, 2020, 11, 112.	5.5	41
2	New classification of maxillary sinus contours and its relation to sinus floor elevation surgery. Clinical Implant Dentistry and Related Research, 2018, 20, 493-500.	3.7	34
3	Outcomes of 6.5â€mm Hydrophilic Implants and Long Implants Placed with Lateral Sinus Floor Elevation in the Atrophic Posterior Maxilla: A Prospective, Randomized Controlled Clinical Comparison. Clinical Implant Dentistry and Related Research, 2017, 19, 111-122.	3.7	25
4	Force-Induced Autophagy in Periodontal Ligament Stem Cells Modulates M1 Macrophage Polarization via AKT Signaling. Frontiers in Cell and Developmental Biology, 2021, 9, 666631.	3.7	23
5	Bilamina cortical tenting grafting technique for three-dimensional reconstruction of severely atrophic alveolar ridges in anterior maxillae: A 6-year prospective study. Journal of Cranio-Maxillo-Facial Surgery, 2016, 44, 868-875.	1.7	22
6	Influence of crownâ€ŧoâ€ɨmplant ratio and different prosthetic designs on the clinical conditions of short implants in posterior regions: A 4â€year retrospective clinical and radiographic study. Clinical Implant Dentistry and Related Research, 2020, 22, 119-127.	3.7	16
7	Histological and clinical outcomes of lateral sinus floor elevation with simultaneous removal of a maxillary sinus pseudocyst. Clinical Implant Dentistry and Related Research, 2019, 21, 94-100.	3.7	13
8	A prospective randomized controlled trial of twoâ€window versus soloâ€window technique by lateral sinus floor elevation in atrophic posterior maxilla: Results from a 1â€year observational phase. Clinical Implant Dentistry and Related Research, 2017, 19, 783-792.	3.7	12
9	Onlay grafting with bovine bone mineral block for horizontal reconstruction of severely atrophic alveolar ridges in anterior maxillae: A 6-year prospective study. Journal of Cranio-Maxillo-Facial Surgery, 2018, 46, 1199-1204.	1.7	9
10	Influence of buccal emergence profile designs on periâ€implant tissues: A randomized controlled trial. Clinical Implant Dentistry and Related Research, 2022, 24, 329-338.	3.7	7
11	A prospective randomized controlled trial of the twoâ€window technique without membrane versus the soloâ€window technique with membrane over the osteotomy window for maxillary sinus augmentation. Clinical Implant Dentistry and Related Research, 2017, 19, 1099-1105.	3.7	3
12	Efficacy of the split-thickness labial flap method for soft tissue management in anterior ridge horizontal augmentation procedures: AÂclinical prospective study in the anterior maxilla. Journal of Cranio-Maxillo-Facial Surgery, 2018, 46, 323-328.	1.7	2
13	Evaluating the efficiency of three methods to clean and disinfect screw- and cement-retained prostheses. Journal of Prosthetic Dentistry, 2022, 127, 775-782.	2.8	2
