

Birgit G Claus Henn

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/1013945/birgit-g-claus-henn-publications-by-year.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

58
papers

2,492

#	Paper	IF	Citations
58	Bayesian kernel machine regression-causal mediation analysis.. <i>Statistics in Medicine</i> , 2022 ,	2.3	1
57	Correlates of plasma concentrations of per- and poly-fluoroalkyl substances among reproductive-aged Black women. <i>Environmental Research</i> , 2022 , 203, 111860	7.9	2
56	Correlates of non-persistent endocrine disrupting chemical mixtures among reproductive-aged Black women in Detroit, Michigan.. <i>Chemosphere</i> , 2022 , 134447	8.4	0
55	Prospective Associations of Early Pregnancy Metal Mixtures with Mitochondria DNA Copy Number and Telomere Length in Maternal and Cord Blood. <i>Environmental Health Perspectives</i> , 2021 , 129, 117007	8.4	0
54	Correlates of urinary concentrations of phthalate and phthalate alternative metabolites among reproductive-aged Black women from Detroit, Michigan. <i>Journal of Exposure Science and Environmental Epidemiology</i> , 2021 , 31, 461-475	6.7	4
53	Validation of Electrochemical Sensor for Determination of Manganese in Drinking Water. <i>Environmental Science & Technology</i> , 2021 , 55, 7501-7509	10.3	4
52	Prenatal metal mixtures and fetal size in mid-pregnancy in the MADRES study. <i>Environmental Research</i> , 2021 , 196, 110388	7.9	6
51	Integrated measures of lead and manganese exposure improve estimation of their joint effects on cognition in Italian school-age children. <i>Environment International</i> , 2021 , 146, 106312	12.9	5
50	Brominated flame retardants and organochlorine pesticides and incidence of uterine leiomyomata: A prospective ultrasound study. <i>Environmental Epidemiology</i> , 2021 , 5, e127	0.2	0
49	Joint Associations of Multiple Dietary Components With Cardiovascular Disease Risk: A Machine-Learning Approach. <i>American Journal of Epidemiology</i> , 2021 , 190, 1353-1365	3.8	1
48	Incidence of uterine leiomyoma in relation to urinary concentrations of phthalate and phthalate alternative biomarkers: A prospective ultrasound study. <i>Environment International</i> , 2021 , 147, 106218	12.9	9
47	Urinary concentrations of phenols, parabens, and triclocarban in relation to uterine leiomyomata incidence and growth. <i>Fertility and Sterility</i> , 2021 , 116, 1590-1600	4.8	1
46	Correlates of Persistent Endocrine-Disrupting Chemical Mixtures among Reproductive-Aged Black Women. <i>Environmental Science & Technology</i> , 2021 , 55, 14000-14014	10.3	2
45	Early pregnancy essential and non-essential metal mixtures and gestational glucose concentrations in the 2nd trimester: Results from project viva. <i>Environment International</i> , 2021 , 155, 106690	12.9	2
44	Prenatal exposure to a mixture of elements and neurobehavioral outcomes in mid-childhood: Results from Project Viva. <i>Environmental Research</i> , 2021 , 201, 111540	7.9	1
43	Early pregnancy exposure to metal mixture and birth outcomes - A prospective study in Project Viva. <i>Environment International</i> , 2021 , 156, 106714	12.9	6
42	Prospective associations of mid-childhood plasma per- and polyfluoroalkyl substances and pubertal timing. <i>Environment International</i> , 2021 , 156, 106729	12.9	1

41	Critical windows of susceptibility in the association between manganese and neurocognition in Italian adolescents living near ferro-manganese industry. <i>NeuroToxicology</i> , 2021 , 87, 51-61	4.4	2
40	A Prospective Ultrasound Study of Plasma Polychlorinated Biphenyl Concentrations and Incidence of Uterine Leiomyomata. <i>Epidemiology</i> , 2021 , 32, 259-267	3.1	0
39	Prenatal Metal Mixtures and Birth Weight for Gestational Age in a Predominately Lower-Income Hispanic Pregnancy Cohort in Los Angeles. <i>Environmental Health Perspectives</i> , 2020 , 128, 117001	8.4	21
38	Associations of metals and neurodevelopment: a review of recent evidence on susceptibility factors. <i>Current Epidemiology Reports</i> , 2020 , 7, 237-262	2.9	4
37	Multi-media biomarkers: Integrating information to improve lead exposure assessment. <i>Environmental Research</i> , 2020 , 183, 109148	7.9	8
36	Correlates of plasma concentrations of brominated flame retardants in a cohort of U.S. Black women residing in the Detroit, Michigan metropolitan area. <i>Science of the Total Environment</i> , 2020 , 714, 136777	10.2	4
35	Correlates of organochlorine pesticide plasma concentrations among reproductive-aged black women. <i>Environmental Research</i> , 2020 , 184, 109352	7.9	3
34	Prenatal exposure to per- and polyfluoroalkyl substances and maternal and neonatal thyroid function in the Project Viva Cohort: A mixtures approach. <i>Environment International</i> , 2020 , 139, 105728	12.9	31
33	Evaluating associations between early pregnancy trace elements mixture and 2nd trimester gestational glucose levels: A comparison of three statistical approaches. <i>International Journal of Hygiene and Environmental Health</i> , 2020 , 224, 113446	6.9	11
32	Associations of a Metal Mixture Measured in Multiple Biomarkers with IQ: Evidence from Italian Adolescents Living near Ferroalloy Industry. <i>Environmental Health Perspectives</i> , 2020 , 128, 97002	8.4	27
31	Identification of novel loci associated with infant cognitive ability. <i>Molecular Psychiatry</i> , 2020 , 25, 3010-3019	10.9	4
30	Prenatal lead exposure and childhood executive function and behavioral difficulties in project viva. <i>NeuroToxicology</i> , 2019 , 75, 105-115	4.4	17
29	Altered lipid homeostasis in a PCB-resistant Atlantic killifish (<i>Fundulus heteroclitus</i>) population from New Bedford Harbor, MA, U.S.A. <i>Aquatic Toxicology</i> , 2019 , 210, 30-43	5.1	3
28	Maternal blood arsenic levels and associations with birth weight-for-gestational age. <i>Environmental Research</i> , 2019 , 177, 108603	7.9	13
27	Assessing the contributions of metals in environmental media to exposure biomarkers in a region of ferroalloy industry. <i>Journal of Exposure Science and Environmental Epidemiology</i> , 2019 , 29, 674-687	6.7	22
26	Uncovering neurodevelopmental windows of susceptibility to manganese exposure using dentine microspatial analyses. <i>Environmental Research</i> , 2018 , 161, 588-598	7.9	27
25	Modeling the health effects of time-varying complex environmental mixtures: Mean field variational Bayes for lagged kernel machine regression. <i>Environmetrics</i> , 2018 , 29, e2504	1.3	12
24	Maternal Plasma per- and Polyfluoroalkyl Substance Concentrations in Early Pregnancy and Maternal and Neonatal Thyroid Function in a Prospective Birth Cohort: Project Viva (USA). <i>Environmental Health Perspectives</i> , 2018 , 126, 027013	8.4	37

23	Integrated Assessment of Shallow-Aquifer Vulnerability to Multiple Contaminants and Drinking-Water Exposure Pathways in Holliston, Massachusetts. <i>Water (Switzerland)</i> , 2018 , 10, 23	3	3
22	Bayesian varying coefficient kernel machine regression to assess neurodevelopmental trajectories associated with exposure to complex mixtures. <i>Statistics in Medicine</i> , 2018 , 37, 4680-4694	2.3	23
21	Dentine biomarkers of prenatal and early childhood exposure to manganese, zinc and lead and childhood behavior. <i>Environment International</i> , 2018 , 121, 148-158	12.9	37
20	Statistical software for analyzing the health effects of multiple concurrent exposures via Bayesian kernel machine regression. <i>Environmental Health</i> , 2018 , 17, 67	6	175
19	Lagged kernel machine regression for identifying time windows of susceptibility to exposures of complex mixtures. <i>Biostatistics</i> , 2018 , 19, 325-341	3.7	25
18	Associations between urinary diphenyl phosphate and thyroid function. <i>Environment International</i> , 2017 , 101, 158-164	12.9	80
17	Association of prenatal urinary phthalate metabolite concentrations and childhood BMI and obesity. <i>Pediatric Research</i> , 2017 , 82, 405-415	3.2	85
16	Manganese in teeth and neurobehavior: Sex-specific windows of susceptibility. <i>Environment International</i> , 2017 , 108, 299-308	12.9	37
15	Sex differences in sensitivity to prenatal and early childhood manganese exposure on neuromotor function in adolescents. <i>Environmental Research</i> , 2017 , 159, 458-465	7.9	30
14	Genome-wide gene by lead exposure interaction analysis identifies UNC5D as a candidate gene for neurodevelopment. <i>Environmental Health</i> , 2017 , 16, 81	6	14
13	Maternal and Cord Blood Manganese Concentrations and Early Childhood Neurodevelopment among Residents near a Mining-Impacted Superfund Site. <i>Environmental Health Perspectives</i> , 2017 , 125, 067020	8.4	45
12	The Joint Effect of Prenatal Exposure to Metal Mixtures on Neurodevelopmental Outcomes at 20-40 Months of Age: Evidence from Rural Bangladesh. <i>Environmental Health Perspectives</i> , 2017 , 125, 067015	8.4	145
11	Prenatal Arsenic Exposure and Birth Outcomes among a Population Residing near a Mining-Related Superfund Site. <i>Environmental Health Perspectives</i> , 2016 , 124, 1308-15	8.4	56
10	Perinatal and Childhood Exposure to Cadmium, Manganese, and Metal Mixtures and Effects on Cognition and Behavior: A Review of Recent Literature. <i>Current Environmental Health Reports</i> , 2015 , 2, 284-94	6.5	154
9	Bayesian kernel machine regression for estimating the health effects of multi-pollutant mixtures. <i>Biostatistics</i> , 2015 , 16, 493-508	3.7	382
8	Exposure to Mixtures of Metals and Neurodevelopmental Outcomes: A Multidisciplinary Review Using an Adverse Outcome Pathway Framework. <i>Risk Analysis</i> , 2015 , 35, 971-1016	3.9	55
7	Chemical mixtures and children's health. <i>Current Opinion in Pediatrics</i> , 2014 , 26, 223-9	3.2	90
6	Neurotoxic Metal Coexposures: Claus Henn et al. Respond. <i>Environmental Health Perspectives</i> , 2012 , 120,	8.4	78

5	Associations of early childhood manganese and lead coexposure with neurodevelopment. <i>Environmental Health Perspectives</i> , 2012 , 120, 126-31	8.4	138
4	Associations of iron metabolism genes with blood manganese levels: a population-based study with validation data from animal models. <i>Environmental Health</i> , 2011 , 10, 97	6	43
3	Early postnatal blood manganese levels and children's neurodevelopment. <i>Epidemiology</i> , 2010 , 21, 433-9.	3.1	189
2	Pesticides and their metabolites in the homes and urine of farmworker children living in the Salinas Valley, CA. <i>Journal of Exposure Science and Environmental Epidemiology</i> , 2007 , 17, 331-49	6.7	134
1	Measurement of pesticides and other toxicants in amniotic fluid as a potential biomarker of prenatal exposure: a validation study. <i>Environmental Health Perspectives</i> , 2003 , 111, 1779-82	8.4	181
