#	ARTICLE	IF	CITATIONS
1	Shared Neural Phenotypes for Mood and Anxiety Disorders. <i>JAMA Psychiatry</i> , 2020, 77, 172.	6.0	106
2	An fMRI study of the brain responses of traumatized mothers to viewing their toddlers during separation and play. <i>Social Cognitive and Affective Neuroscience</i> , 2012, 7, 969-979.	1.5	104
3	Multivariate Associations Among Behavioral, Clinical, and Multimodal Imaging Phenotypes in Patients With Psychosis. <i>JAMA Psychiatry</i> , 2018, 75, 386.	6.0	80
4	Years of life lost due to the psychosocial consequences of COVID-19 mitigation strategies based on Swiss data. <i>European Psychiatry</i> , 2020, 63, e58.	0.1	70
5	Methylation of NR3C1 is related to maternal PTSD, parenting stress and maternal medial prefrontal cortical activity in response to child separation among mothers with histories of violence exposure. <i>Frontiers in Psychology</i> , 2015, 6, 690.	1.1	67
6	How do Maternal PTSD and Alexithymia Interact to Impact Maternal Behavior?. <i>Child Psychiatry and Human Development</i> , 2015, 46, 406-417.	1.1	55
7	Effects of interpersonal violence-related post-traumatic stress disorder (PTSD) on mother and child diurnal cortisol rhythm and cortisol reactivity to a laboratory stressor involving separation. <i>Hormones and Behavior</i> , 2017, 90, 15-24.	1.0	55
8	BDNF Methylation and Maternal Brain Activity in a Violence-Related Sample. <i>PLoS ONE</i> , 2015, 10, e0143427.	1.1	45
9	Violence-related PTSD and neural activation when seeing emotionally charged male-female interactions. <i>Social Cognitive and Affective Neuroscience</i> , 2015, 10, 645-653.	1.5	44
10	Acute caffeine administration impact on working memory-related brain activation and functional connectivity in the elderly: A BOLD and perfusion MRI study. <i>Neuroscience</i> , 2013, 250, 364-371.	1.1	42
11	Baseline brain structural and functional predictors of clinical outcome in the early course of schizophrenia. <i>Molecular Psychiatry</i> , 2020, 25, 863-872.	4.1	41
12	The association of serotonin receptor 3A methylation with maternal violence exposure, neural activity, and child aggression. <i>Behavioural Brain Research</i> , 2017, 325, 268-277.	1.2	38
13	An integrated brain-behavior model for working memory. <i>Molecular Psychiatry</i> , 2018, 23, 1974-1980.	4.1	37
14	Negative and Distorted Attributions Towards Child, Self, and Primary Attachment Figure Among Posttraumatically Stressed Mothers: What Changes with Clinician Assisted Videofeedback Exposure Sessions (CAVES). <i>Child Psychiatry and Human Development</i> , 2015, 46, 10-20.	1.1	33
15	Depth-dependent intracortical myelin organization in the living human brain determined by in vivo ultra-high field magnetic resonance imaging. <i>NeuroImage</i> , 2019, 185, 27-34.	2.1	28
16	Person-Based Brain Morphometric Similarity is Heritable and Correlates With Biological Features. <i>Cerebral Cortex</i> , 2019, 29, 852-862.	1.6	27
17	Maternal reflective functioning, interpersonal violence-related posttraumatic stress disorder, and risk for psychopathology in early childhood. <i>Attachment and Human Development</i> , 2020, 22, 225-245.	1.2	26
18	Linked patterns of biological and environmental covariation with brain structure in adolescence: a population-based longitudinal study. <i>Molecular Psychiatry</i> , 2021, 26, 4905-4918.	4.1	26

#	ARTICLE	IF	CITATIONS
19	Acute Caffeine Administration Effect on Brain Activation Patterns in Mild Cognitive Impairment. <i>Journal of Alzheimer's Disease</i> , 2014, 41, 101-112.	1.2	25
20	Maternal PTSD and corresponding neural activity mediate effects of child exposure to violence on child PTSD symptoms. <i>PLoS ONE</i> , 2017, 12, e0181066.	1.1	23
21	Limbic brain responses in mothers with post-traumatic stress disorder and comorbid dissociation to video clips of their children. <i>Stress</i> , 2013, 16, 493-502.	0.8	21
22	Group membership dictates the neural correlates of social optimism biases. <i>Scientific Reports</i> , 2020, 10, 1139.	1.6	18
23	Behavioral and Health Correlates of Resting-State Metastability in the Human Connectome Project. <i>Brain Topography</i> , 2019, 32, 80-86.	0.8	17
24	Parental Reflective Functioning correlates to brain activation in response to video-stimuli of mother-child dyads: Links to maternal trauma history and PTSD. <i>Psychiatry Research - Neuroimaging</i> , 2019, 293, 110985.	0.9	17
25	Autonomic functioning in mothers with interpersonal violence-related posttraumatic stress disorder in response to separation-reunion. <i>Developmental Psychobiology</i> , 2014, 56, 748-760.	0.9	16
26	The effect of optimistic expectancies on attention bias: Neural and behavioral correlates. <i>Scientific Reports</i> , 2020, 10, 6495.	1.6	12
27	Social optimism biases are associated with cortical thickness. <i>Social Cognitive and Affective Neuroscience</i> , 2020, 15, 745-754.	1.5	11
28	Reduced network integration in default mode and executive networks is associated with social and personal optimism biases. <i>Human Brain Mapping</i> , 2021, 42, 2893-2906.	1.9	11
29	The impact of brief psychotherapy centred on parenthood on the anxio-depressive symptoms of mothers during the perinatal period. <i>Swiss Medical Weekly</i> , 2013, 143, w13769.	0.8	11
30	Caffeine impact on working memory-related network activation patterns in early stages of cognitive decline. <i>Neuroradiology</i> , 2017, 59, 387-395.	1.1	10
31	The relation of general socio-emotional processing to parenting specific behavior: a study of mothers with and without posttraumatic stress disorder. <i>Frontiers in Psychology</i> , 2015, 6, 1575.	1.1	9
32	Families With Violence Exposure and the Intergenerational Transmission of Somatization. <i>Frontiers in Psychiatry</i> , 2022, 13, 820652.	1.3	5
33	85. Cortical Thickness and Subcortical Volume Trajectories Across the Lifespan: Data From 14,600 Healthy Individuals Aged 6-90 Years. <i>Biological Psychiatry</i> , 2019, 85, S35-S36.	0.7	4
34	EEG recording during an emotional face-matching task in children of mothers with interpersonal violence-related posttraumatic stress disorder. <i>Psychiatry Research - Neuroimaging</i> , 2019, 283, 34-44.	0.9	4
35	Enhanced sensitivity to optimistic cues is manifested in brain structure: a voxel-based morphometry study. <i>Social Cognitive and Affective Neuroscience</i> , 2021, 16, 1170-1181.	1.5	4
36	39.3 THE ROLE OF MATERNAL PREMENTALIZING MODES OF FUNCTIONING AND LOW-RANGE REFLECTIVE FUNCTIONING IN THE DEVELOPMENT OF CHILD TRAUMATIC STRESS WITHIN A CONTEXT OF VIOLENCE EXPOSURE. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2016, 55, S320.	0.3	3

#	ARTICLE	IF	CITATIONS
37	Maternal Trauma and Related Psychopathology: Consequences to Parental Brain Functioning Associated with Caregiving. Integrating Psychiatry and Primary Care, 2018, , 99-112.	0.3	3
38	F124. Mapping the Neural Correlates of Mood and Anxiety Disorders Onto Research Domain Criteria: A Meta-Analysis of 226 Task-Related Functional Imaging Studies. Biological Psychiatry, 2019, 85, S261.	0.7	3
39	Associations Between Maternal Post-traumatic Stress Disorder and Traumatic Events With Child Psychopathology: Results From a Prospective Longitudinal Study. Frontiers in Psychiatry, 2021, 12, 718108.	1.3	3
40	Comparing personal and social optimism biases: magnitude, overlap, modifiability, and links with social identification and expertise. Humanities and Social Sciences Communications, 2021, 8, .	1.3	3
41	Multivariate patterns of brain-behavior associations across the adult lifespan. Aging, 2022, 14, 161-194.	1.4	3
42	Impact of mothers' IPV-PTSD on their capacity to predict their child's emotional comprehension and its relationship to their child's psychopathology. HÅrre Utbildning, 2022, 13, 2008152.	1.4	3
43	Impact du stress post-traumatique li�� la violence domestique sur la parentalit��: Donn��es empiriques et applications cliniques. Enfance, 2015, 2015, 409-427.	0.1	2
44	Initial Evidence for Brain Plasticity Following a Digital Therapeutic Intervention for Depression. Chronic Stress, 2019, 3, 247054701987788.	1.7	2
45	Impact du stress post-traumatique li�� la violence domestique sur la parentalit��: Donn��es empiriques et applications cliniques. Enfance, 2015, N�� 3, 409-427.	0.1	2
46	Brain Structure and Optimism Bias: A Voxel-Based Morphometry Approach. Brain Sciences, 2022, 12, 315.	1.1	2
47	Whole-brain white matter correlates of personality profiles predictive of subjective well-being. Scientific Reports, 2022, 12, 4558.	1.6	2
48	Shared Neural Phenotypes for Mood and Anxiety Disorders A Meta-Analysis of 226 Task-Related Functional Imaging Studies. Focus (American Psychiatric Publishing), 2021, 19, 256-263.	0.4	1
49	PTSD During Childhood, Childhood Trauma, Childhood Maltreatment and How They Relate to Adult PTSD. , 2020, , 211-229.		1
50	189. Working Memory related fMRI Activation and Causal Connectivity in Healthy Volunteers and Patients with Schizophrenia. Biological Psychiatry, 2017, 81, S78-S79.	0.7	0
51	O2. Inter-Subject Variability in Bipolar Disorder Using Multi-Modal Imaging Datasets. Biological Psychiatry, 2018, 83, S108.	0.7	0
