

Dominik Moser

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/1014286/dominik-moser-publications-by-year.pdf>

Version: 2024-04-23

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
45	Impact of mothers YIPV-PTSD on their capacity to predict their child's emotional comprehension and its relationship to their child's psychopathology.. <i>Høge Utbildning</i> , 2022 , 13, 2008152	5	0
44	Families With Violence Exposure and the Intergenerational Transmission of Somatization.. <i>Frontiers in Psychiatry</i> , 2022 , 13, 820652	5	1
43	Whole-brain white matter correlates of personality profiles predictive of subjective well-being.. <i>Scientific Reports</i> , 2022 , 12, 4558	4.9	
42	Linked patterns of biological and environmental covariation with brain structure in adolescence: a population-based longitudinal study. <i>Molecular Psychiatry</i> , 2021 , 26, 4905-4918	15.1	9
41	Reduced network integration in default mode and executive networks is associated with social and personal optimism biases. <i>Human Brain Mapping</i> , 2021 , 42, 2893-2906	5.9	3
40	Shared Neural Phenotypes for Mood and Anxiety Disorders A Meta-Analysis of 226 Task-Related Functional Imaging Studies. <i>Focus (American Psychiatric Publishing)</i> , 2021 , 19, 256-263	1.1	0
39	Enhanced sensitivity to optimistic cues is manifested in brain structure: a voxel-based morphometry study. <i>Social Cognitive and Affective Neuroscience</i> , 2021 , 16, 1170-1181	4	1
38	Associations Between Maternal Post-traumatic Stress Disorder and Traumatic Events With Child Psychopathology: Results From a Prospective Longitudinal Study. <i>Frontiers in Psychiatry</i> , 2021 , 12, 718108	5	2
37	Years of life lost due to the psychosocial consequences of COVID-19 mitigation strategies based on Swiss data. <i>European Psychiatry</i> , 2020 , 63, e58	6	48
36	Group membership dictates the neural correlates of social optimism biases. <i>Scientific Reports</i> , 2020 , 10, 1139	4.9	7
35	PTSD During Childhood, Childhood Trauma, Childhood Maltreatment and How They Relate to Adult PTSD 2020 , 211-229		
34	Shared Neural Phenotypes for Mood and Anxiety Disorders: A Meta-analysis of 226 Task-Related Functional Imaging Studies. <i>JAMA Psychiatry</i> , 2020 , 77, 172-179	14.5	50
33	Social optimism biases are associated with cortical thickness. <i>Social Cognitive and Affective Neuroscience</i> , 2020 , 15, 745-754	4	3
32	Baseline brain structural and functional predictors of clinical outcome in the early course of schizophrenia. <i>Molecular Psychiatry</i> , 2020 , 25, 863-872	15.1	23
31	Maternal reflective functioning, interpersonal violence-related posttraumatic stress disorder, and risk for psychopathology in early childhood. <i>Attachment and Human Development</i> , 2020 , 22, 225-245	2.8	16
30	The effect of optimistic expectancies on attention bias: Neural and behavioral correlates. <i>Scientific Reports</i> , 2020 , 10, 6495	4.9	3
29	Initial Evidence for Brain Plasticity Following a Digital Therapeutic Intervention for Depression. <i>Chronic Stress</i> , 2019 , 3, 2470547019877880	3	0

28	85. Cortical Thickness and Subcortical Volume Trajectories Across the Lifespan: Data From 14,600 Healthy Individuals Aged 6-90 Years. <i>Biological Psychiatry</i> , 2019 , 85, S35-S36	7.9	3
27	Behavioral and Health Correlates of Resting-State Metastability in the Human Connectome Project. <i>Brain Topography</i> , 2019 , 32, 80-86	4.3	8
26	Parental Reflective Functioning correlates to brain activation in response to video-stimuli of mother-child dyads: Links to maternal trauma history and PTSD. <i>Psychiatry Research - Neuroimaging</i> , 2019 , 293, 110985	2.9	6
25	Person-Based Brain Morphometric Similarity is Heritable and Correlates With Biological Features. <i>Cerebral Cortex</i> , 2019 , 29, 852-862	5.1	12
24	EEG recording during an emotional face-matching task in children of mothers with interpersonal violence-related posttraumatic stress disorder. <i>Psychiatry Research - Neuroimaging</i> , 2019 , 283, 34-44	2.9	3
23	Depth-dependent intracortical myelin organization in the living human brain determined by in vivo ultra-high field magnetic resonance imaging. <i>NeuroImage</i> , 2019 , 185, 27-34	7.9	13
22	Multivariate Associations Among Behavioral, Clinical, and Multimodal Imaging Phenotypes in Patients With Psychosis. <i>JAMA Psychiatry</i> , 2018 , 75, 386-395	14.5	49
21	Maternal Trauma and Related Psychopathology: Consequences to Parental Brain Functioning Associated with Caregiving. <i>Integrating Psychiatry and Primary Care</i> , 2018 , 99-112	0.3	2
20	An integrated brain-behavior model for working memory. <i>Molecular Psychiatry</i> , 2018 , 23, 1974-1980	15.1	26
19	The association of serotonin receptor 3A methylation with maternal violence exposure, neural activity, and child aggression. <i>Behavioural Brain Research</i> , 2017 , 325, 268-277	3.4	32
18	Effects of interpersonal violence-related post-traumatic stress disorder (PTSD) on mother and child diurnal cortisol rhythm and cortisol reactivity to a laboratory stressor involving separation. <i>Hormones and Behavior</i> , 2017 , 90, 15-24	3.7	41
17	Caffeine impact on working memory-related network activation patterns in early stages of cognitive decline. <i>Neuroradiology</i> , 2017 , 59, 387-395	3.2	6
16	Maternal PTSD and corresponding neural activity mediate effects of child exposure to violence on child PTSD symptoms. <i>PLoS ONE</i> , 2017 , 12, e0181066	3.7	18
15	Violence-related PTSD and neural activation when seeing emotionally charged male-female interactions. <i>Social Cognitive and Affective Neuroscience</i> , 2015 , 10, 645-53	4	40
14	How do maternal PTSD and alexithymia interact to impact maternal behavior?. <i>Child Psychiatry and Human Development</i> , 2015 , 46, 406-17	3.3	40
13	Negative and distorted attributions towards child, self, and primary attachment figure among posttraumatically stressed mothers: what changes with Clinician Assisted Videofeedback Exposure Sessions (CAVES). <i>Child Psychiatry and Human Development</i> , 2015 , 46, 10-20	3.3	28
12	Impact du stress post-traumatique lié à la violence domestique sur la parentalité: Données empiriques et applications cliniques. <i>Enfance</i> , 2015 , 2015, 409-427	0.2	1
11	Methylation of NR3C1 is related to maternal PTSD, parenting stress and maternal medial prefrontal cortical activity in response to child separation among mothers with histories of violence exposure. <i>Frontiers in Psychology</i> , 2015 , 6, 690	3.4	52

10	The relation of general socio-emotional processing to parenting specific behavior: a study of mothers with and without posttraumatic stress disorder. <i>Frontiers in Psychology</i> , 2015 , 6, 1575	3.4	9
9	BDNF Methylation and Maternal Brain Activity in a Violence-Related Sample. <i>PLoS ONE</i> , 2015 , 10, e0143427	3.7	39
8	Impact du stress post-traumatique lié à la violence domestique sur la parentalité: Données empiriques et applications cliniques. <i>Enfance</i> , 2015 , N° 3, 409-427	0.2	0
7	Acute caffeine administration effect on brain activation patterns in mild cognitive impairment. <i>Journal of Alzheimer's Disease</i> , 2014 , 41, 101-12	4.3	17
6	Autonomic functioning in mothers with interpersonal violence-related posttraumatic stress disorder in response to separation-reunion. <i>Developmental Psychobiology</i> , 2014 , 56, 748-60	3	14
5	Acute caffeine administration impact on working memory-related brain activation and functional connectivity in the elderly: a BOLD and perfusion MRI study. <i>Neuroscience</i> , 2013 , 250, 364-71	3.9	33
4	Limbic brain responses in mothers with post-traumatic stress disorder and comorbid dissociation to video clips of their children. <i>Stress</i> , 2013 , 16, 493-502	3	18
3	The impact of brief psychotherapy centred on parenthood on the anxio-depressive symptoms of mothers during the perinatal period. <i>Swiss Medical Weekly</i> , 2013 , 143, w13769	3.1	5
2	An fMRI study of the brain responses of traumatized mothers to viewing their toddlers during separation and play. <i>Social Cognitive and Affective Neuroscience</i> , 2012 , 7, 969-79	4	93
1	Years of life lost due to the psychosocial consequences of COVID19 mitigation strategies based on Swiss data		5
