

Ivan A Naumov

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/1020362/ivan-a-naumov-publications-by-year.pdf>

Version: 2024-04-24

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
17	The Role of Different Afferent Systems in the Modulation of the Otolith-Ocular Reflex After Long-Term Space Flights.. <i>Frontiers in Physiology</i> , 2022 , 13, 743855	4.6	0
16	Alterations of Functional Brain Connectivity After Long-Duration Spaceflight as Revealed by fMRI. <i>Frontiers in Physiology</i> , 2019 , 10, 761	4.6	33
15	Effect of Repeated Space Flights on Ocular Tracking. <i>Human Physiology</i> , 2018 , 44, 765-774	0.3	1
14	Vestibular function and space motion sickness. <i>Human Physiology</i> , 2017 , 43, 557-568	0.3	5
13	Vestibular Function after Repeated Space Flights. <i>Human Physiology</i> , 2017 , 43, 757-764	0.3	4
12	Decreased otolith-mediated vestibular response in 25 astronauts induced by long-duration spaceflight. <i>Journal of Neurophysiology</i> , 2016 , 115, 3045-51	3.2	39
11	Visual-manual tracking after long spaceflights. <i>Human Physiology</i> , 2016 , 42, 301-311	0.3	2
10	Effect of optokinetic stimulation on visual-manual tracking under the conditions of support-proprioceptive deprivation. <i>Human Physiology</i> , 2016 , 42, 508-519	0.3	5
9	The effects of support-proprioceptive deprivation on visual-manual tracking and vestibular function. <i>Human Physiology</i> , 2013 , 39, 462-471	0.3	9
8	Visual-manual tracking during a five-day dry immersion. <i>Human Physiology</i> , 2013 , 39, 762-766	0.3	1
7	Gaze control and vestibular-cervical-ocular responses after prolonged exposure to microgravity. <i>Aviation, Space, and Environmental Medicine</i> , 2012 , 83, 1123-34		29
6	Effect of real and simulated weightlessness on the characteristics of the static otolith reflex. <i>Human Physiology</i> , 2011 , 37, 85-92	0.3	1
5	Treatment of Patients with Vertigo and Balance Disorders. <i>Neuroscience and Behavioral Physiology</i> , 2011 , 41, 57-63	0.3	
4	Static torsional otolith-cervical-ocular reflex after prolonged exposure to weightlessness and a 7-day immersion. <i>Acta Astronautica</i> , 2011 , 68, 1462-1468	2.9	9
3	Nonpharmacological therapy of vertigo and balance disorder by means of the OCULOSTIM hardware-software complex. <i>Human Physiology</i> , 2010 , 36, 716-722	0.3	
2	Visual-manual tracking and vestibular function during a seven-day dry immersion. <i>Human Physiology</i> , 2010 , 36, 813-817	0.3	3
1	The effect of a long stay under microgravity on the vestibular function and tracking eye movements. <i>Human Physiology</i> , 2006 , 32, 547-555	0.3	4
