Version: 2024-02-01

| #  | Article  | IF  | CITATIONS |
|----|--|-----|-----------|
| 1  | Short-term effect of physical activity on sleep health: A population-based study using accelerometry.<br>Journal of Sport and Health Science, 2022, 11, 630-638.   | 3.3 | 10        |
| 2  | Wheezing trajectories from childhood to adulthood in a population-based cohort. Allergology<br>International, 2022, 71, 200-206.   | 1.4 | 3         |
| 3  | Ethnic inequalities in health intervention coverage among Mexican women at the individual and municipality levels. EClinicalMedicine, 2022, 43, 101228.  | 3.2 | 3         |
| 4  | Multimorbidity and simultaneity of health risk factors, from adolescence to early adulthood: 1993<br>Pelotas Birth Cohort. Preventive Medicine, 2022, 155, 106932.   | 1.6 | 2         |
| 5  | Maternal smoking during pregnancy and children's mental health at age 22 years: Results of a birth cohort study. Journal of Affective Disorders, 2022, 300, 203-208.   | 2.0 | 2         |
| 6  | Maternal smoking during pregnancy and intelligence quotient of offspring aged 18 and 30Âyears:<br>Evidence from two birth cohorts in southern Brazil. Preventive Medicine, 2022, 156, 106983.  | 1.6 | 1         |
| 7  | Decline in attention-deficit hyperactivity disorder traits over the life course in the general population: trajectories across five population birth cohorts spanning ages 3 to 45 years.<br>International Journal of Epidemiology, 2022, 51, 919-930. | 0.9 | 11        |
| 8  | ADHD in childhood predicts BMI and body composition measurements over time in a population-based birth cohort. International Journal of Obesity, 2022, 46, 1204-1211.  | 1.6 | 2         |
| 9  | Association between preterm infant size at 1Âyear and ADHD later in life: data from 1993 and 2004<br>Pelotas Birth Cohorts. European Child and Adolescent Psychiatry, 2022, , 1.   | 2.8 | 2         |
| 10 | Ideal cardiovascular health, inflammation, and arterial stiffness in the transition to adulthood.<br>International Journal of Cardiology, 2022, 355, 45-51.  | 0.8 | 4         |
| 11 | Youth depression and inflammation: Cross-sectional network analyses of C-Reactive protein,<br>interleukin-6 and symptoms in a population-based sample. Journal of Psychiatric Research, 2022, 150,<br>197-201.   | 1.5 | 6         |
| 12 | Exploring the potential for a new measure of socioeconomic deprivation status to monitor health inequality. International Journal for Equity in Health, 2022, 21, 56.  | 1.5 | 6         |
| 13 | Prospective association between ultra-processed food consumption and incidence of elevated symptoms of common mental disorders. Journal of Affective Disorders, 2022, 312, 78-85.  | 2.0 | 5         |
| 14 | Iniquidades e Doenças Crônicas Não TransmissÃveis no Brasil. Epidemiologia E Servicos De Saude:<br>Revista Do Sistema Unico De Saude Do Brasil, 2022, 31, .  | 0.3 | 4         |
| 15 | Longitudinal change in physical activity and adiposity in the transition from adolescence to early<br>adulthood: the 1993 Pelotas cohort study. International Journal of Behavioral Nutrition and Physical<br>Activity, 2022, 19, .                    | 2.0 | 4         |
| 16 | Child maltreatment and substances use throughout adolescence and adulthood: Data from a<br>Brazilian Birth Cohort. Child Abuse and Neglect, 2022, 131, 105766.   | 1.3 | 8         |
| 17 | Consumption of ultra-processed foods at 11, 22 and 30 years at the 2004, 1993 and 1982 Pelotas Birth<br>Cohorts. Public Health Nutrition, 2021, 24, 299-308.   | 1.1 | 8         |
| 18 | Identifying Adolescents at Risk for Depression: AÂPrediction Score Performance in Cohorts Based<br>inÂ3ÂDifferent Continents. Journal of the American Academy of Child and Adolescent Psychiatry, 2021,<br>60, 262-273.                                | 0.3 | 43        |

|    |   | TED               |              |
|----|---|-------------------|--------------|
| #  | Article   | IF                | CITATIONS    |
| 19 | Patterns in Wealth-related Inequalities in 86 Low- and Middle-Income Countries: Global Evidence on the Emergence of Vaccine Hesitancy. American Journal of Preventive Medicine, 2021, 60, S24-S33.  | 1.6               | 21           |
| 20 | Sleep duration trajectories from adolescence to emerging adulthood: Findings from a populationâ€based birth cohort. Journal of Sleep Research, 2021, 30, e13155.  | 1.7               | 6            |
| 21 | Excess weight and obesity prevalence in the RPS Brazilian Birth Cohort Consortium (Ribeirão Preto,) Tj ETQq1  | 1 0.784314<br>0.4 | 1 rgBT /Over |
| 22 | Gestational weight gain and childhood body mass index across three generations: Results from the<br>1993 Pelotas (Brazil) Birth Cohort. Pediatric Obesity, 2021, 16, e12760.  | 1.4               | 5            |
| 23 | Association between cesarean section and human capital in adulthood: 1982 and 1993 Pelotas birth<br>cohorts, Rio Grande do Sul State, Brazil. Cadernos De Saude Publica, 2021, 37, e00235520.   | 0.4               | 1            |
| 24 | ls Screen Time Throughout Adolescence Related to ADHD? Findings from 1993 Pelotas (Brazil) Birth<br>Cohort Study. Journal of Attention Disorders, 2021, , 108705472199755.  | 1.5               | 6            |
| 25 | Is women's empowerment associated with coverage of RMNCH interventions in low- and<br>middle-income countries? An analysis using a survey-based empowerment indicator, the SWPER.<br>Journal of Global Health, 2021, 11, 04015.   | 1.2               | 8            |
| 26 | Associations between Device-measured Physical Activity and Cardiometabolic Health in the Transition to Early Adulthood. Medicine and Science in Sports and Exercise, 2021, 53, 2076-2085.   | 0.2               | 7            |
| 27 | Screen time and working memory in adolescents: A longitudinal study. Journal of Psychiatric Research, 2021, 137, 266-272.   | 1.5               | 11           |
| 28 | Association between maternal prepregnancy body mass index with offspring cardiometabolic risk<br>factors: analysis of three Brazilian birth cohorts. Journal of Developmental Origins of Health and<br>Disease, 2021, , 1-7.  | 0.7               | 2            |
| 29 | Prevalence of ideal cardiovascular health in young adults: A birth cohort from southern Brazil.<br>American Heart Journal, 2021, 235, 65-73.  | 1.2               | 8            |
| 30 | Patterns of Growth in Childhood in Relation to Adult Schooling Attainment and Intelligence<br>Quotient in 6 Birth Cohorts in Low- and Middle-Income Countries: Evidence from the Consortium of<br>Health-Oriented Research in Transitioning Societies (COHORTS). Journal of Nutrition, 2021, 151,<br>2342-2352. | 1.3               | 9            |
| 31 | High prevalence of symptoms among Brazilian subjects with antibodies against SARS-CoV-2. Scientific Reports, 2021, 11, 13279.   | 1.6               | 10           |
| 32 | Association of the length of time using computers and mobile devices with low back, neck and mid-back pains: findings from a birth cohort. Public Health, 2021, 195, 1-6.   | 1.4               | 4            |
| 33 | Physical Activity Levels and Associated Factors in a Latin American COPD Population of Patients. The LASSYC Study. COPD: Journal of Chronic Obstructive Pulmonary Disease, 2021, 18, 393-400.   | 0.7               | 5            |
| 34 | Maternal smoking during pregnancy and intelligence quotient in offspring: A systematic review and meta-analysis. NeuroToxicology, 2021, 85, 99-114.   | 1.4               | 3            |
| 35 | Effect modification of cardiorespiratory fitness, obesity, and physical activity in adults. International<br>Journal of Sports Medicine, 2021, 0, .   | 0.8               | 1            |
| 36 | 402Measles vaccine coverage: The rise of vaccine hesitancy in upper-middle income countries.<br>International Journal of Epidemiology, 2021, 50, .  | 0.9               | 0            |

| #  | Article   | IF  | CITATIONS |
|----|---|-----|-----------|
| 37 | Depression in a youth population-based sample from Brazil: Prevalence and symptom structure.<br>Journal of Affective Disorders, 2021, 292, 633-641.   | 2.0 | 7         |
| 38 | Occurrence and inequalities by education in multimorbidity in Brazilian adults between 2013 and 2019:<br>evidence from the National Health Survey. Revista Brasileira De Epidemiologia, 2021, 24, e210016.  | 0.3 | 4         |
| 39 | Influence of parental physical activity on offspring's nutritional status: an intergenerational study in the 1993 Pelotas birth cohort. Public Health Nutrition, 2021, , 1-20.  | 1.1 | 0         |
| 40 | Associations between sleep duration trajectories from adolescence to early adulthood and working<br>memory, schooling and income: a prospective birth cohort study from Brazil. Sleep Medicine, 2021, 86,<br>40-47.                                     | 0.8 | 3         |
| 41 | Attention-deficit/hyperactivity disorder has a state-dependent association with asthma: The role of systemic inflammation in a population-based birth cohort followed from childhood to adulthood.<br>Brain, Behavior, and Immunity, 2021, 97, 239-249. | 2.0 | 8         |
| 42 | Influence of maternal pre-pregnancy nutritional status on offspring anthropometric measurements and body composition in three Brazilian Birth Cohorts. Public Health Nutrition, 2021, 24, 882-894.  | 1.1 | 6         |
| 43 | Quality of antenatal care and its sociodemographic determinants: results of the 2015 Pelotas birth cohort, Brazil. BMC Health Services Research, 2021, 21, 1070.  | 0.9 | 9         |
| 44 | Social protection and the level and inequality of child mortality in 101 low- and middle-income countries: A statistical modelling analysis. Journal of Global Health, 2021, 11, 04067.   | 1.2 | 0         |
| 45 | Are elevated plasma fibrinogen associated with lung function? An 8-year follow-up of the ELSA study.<br>PLoS ONE, 2021, 16, e0259498.   | 1.1 | 2         |
| 46 | Socioeconomic status and body mass index life course models: the 1993 Pelotas (Brazil) birth cohort.<br>Cadernos De Saude Publica, 2021, 37, e00260820.   | 0.4 | 1         |
| 47 | Does IQ Influence Association Between Working Memory and ADHD Symptoms in Young Adults?.<br>Journal of Attention Disorders, 2021, , 108705472110588.  | 1.5 | 2         |
| 48 | Respiratory symptoms (COPD Assessment Test and modified Medical Research Council dyspnea scores)<br>and GOLD-ABCD COPD classification: the LASSYC study. Jornal Brasileiro De Pneumologia, 2021, 47,<br>e20210156.                                      | 0.4 | 2         |
| 49 | Changes in asset-based wealth across the life course in birth cohorts from five low- and middle-income countries. SSM - Population Health, 2021, 16, 100976.  | 1.3 | 6         |
| 50 | Prevalence, mortality and risk factors associated with very low birth weight preterm infants: an analysis of 33 years. Jornal De Pediatria, 2020, 96, 327-332.  | 0.9 | 28        |
| 51 | A risk calculator to predict adult attention-deficit/hyperactivity disorder: generation and external validation in three birth cohorts and one clinical sample. Epidemiology and Psychiatric Sciences, 2020, 29, e37.                                   | 1.8 | 22        |
| 52 | Growth from birth to adolescence and bone mineral density in young adults: The 1993 Pelotas birth cohort. Bone, 2020, 130, 115088.  | 1.4 | 2         |
| 53 | Number of days required to estimate physical activity constructs objectively measured in different age<br>groups: Findings from three Brazilian (Pelotas) population-based birth cohorts. PLoS ONE, 2020, 15,<br>e0216017.                              | 1.1 | 39        |
| 54 | The Intersectionality of Gender and Wealth in Adolescent Health and Behavioral Outcomes in Brazil:<br>The 1993 Pelotas Birth Cohort. Journal of Adolescent Health, 2020, 66, S51-S57.   | 1.2 | 10        |

| #  | Article  | IF  | CITATIONS |
|----|--|-----|-----------|
| 55 | Parent-Related Normative Perceptions of Adolescents and Later Weight Control Behavior:<br>Longitudinal Analysis of Cohort Data From Brazil. Journal of Adolescent Health, 2020, 66, S9-S16.          | 1.2 | 20        |
| 56 | Sleep parameters measured by accelerometry: descriptive analyses from the 22-year follow-up of the Pelotas 1993 birth cohort. Sleep Medicine, 2020, 67, 83-90.                                       | 0.8 | 10        |
| 57 | Short and long sleep duration and associated factors in pre-adolescence and early adulthood:<br>evidence from the 1993 Pelotas birth cohort study. Sleep Medicine, 2020, 75, 477-483.                | 0.8 | 3         |
| 58 | Trends and inequalities in unplanned pregnancy in three population-based birth cohorts in Pelotas,<br>Brazil. International Journal of Public Health, 2020, 65, 1635-1645.                           | 1.0 | 7         |
| 59 | Large and persistent subnational inequalities in reproductive, maternal, newborn and child health intervention coverage in sub-Saharan Africa. BMJ Global Health, 2020, 5, e002232.                  | 2.0 | 33        |
| 60 | Early identification of bipolar disorder among young adults – a 22â€year community birth cohort. Acta<br>Psychiatrica Scandinavica, 2020, 142, 476-485.  | 2.2 | 16        |
| 61 | Second generation of the 1993 birth cohort, Pelotas (Brazil): Aims, design, preliminary results. Health<br>Science Reports, 2020, 3, e199.   | 0.6 | 1         |
| 62 | <p>Longitudinal Association Between Diet Quality and Asthma Symptoms in Early Adult Life in a<br/>Brazilian Birth Cohort</p> . Journal of Asthma and Allergy, 2020, Volume 13, 493-503.              | 1.5 | 7         |
| 63 | Characterisation of pulmonary function trajectories: results from a Brazilian cohort. ERJ Open<br>Research, 2020, 6, 00065-2020.   | 1.1 | 8         |
| 64 | Associations between growth from birth to 18 years, intelligence, and schooling in a Brazilian cohort. American Journal of Clinical Nutrition, 2020, 112, 187-194.                                   | 2.2 | 15        |
| 65 | Are the poorest poor being left behind? Estimating global inequalities in reproductive, maternal,<br>newborn and child health. BMJ Global Health, 2020, 5, e002229.                                  | 2.0 | 24        |
| 66 | Transtornos mentais em adolescentes, jovens e adultos do Consórcio de Coortes de Nascimento<br>brasileiras RPS (Ribeirão Preto, Pelotas e São LuÃs). Cadernos De Saude Publica, 2020, 36, e00154319. | 0.4 | 21        |
| 67 | Prevalence, mortality and risk factors associated with very low birth weight preterm infants: an<br>analysis of 33 years. Jornal De Pediatria (Versão Em Português), 2020, 96, 327-332.              | 0.2 | 1         |
| 68 | Female infants are more susceptible to the effects of maternal antenatal depression; findings from the Pelotas (Brazil) Birth Cohort Study. Journal of Affective Disorders, 2020, 267, 315-324.      | 2.0 | 2         |
| 69 | Association between ethnicity and under-5 mortality: analysis of data from demographic surveys from 36 low-income and middle-income countries. The Lancet Global Health, 2020, 8, e352-e361.         | 2.9 | 33        |
| 70 | Prenatal and birth predictors of objectively measured physical activity and sedentary time in three population-based birth cohorts in Brazil. Scientific Reports, 2020, 10, 786.                     | 1.6 | 6         |
| 71 | Measuring universal health coverage in reproductive, maternal, newborn and child health: An update of the composite coverage index. PLoS ONE, 2020, 15, e0232350.                                    | 1.1 | 16        |
| 72 | Uric acid is independent and inversely associated to glomerular filtration rate in young adult<br>Brazilian individuals. Nutrition, Metabolism and Cardiovascular Diseases, 2020, 30, 1289-1298.     | 1.1 | 8         |

| #  | Article  | IF  | CITATIONS |
|----|--|-----|-----------|
| 73 | Wealth-related inequalities in the coverage of reproductive, maternal, newborn and child health<br>interventions in 36 countries in the African Region. Bulletin of the World Health Organization, 2020,<br>98, 394-405.               | 1.5 | 14        |
| 74 | Symptom variability over the course of the day in patients with stable COPD in Brazil: a real-world observational study. Jornal Brasileiro De Pneumologia, 2020, 46, e20190223-e20190223.  | 0.4 | 4         |
| 75 | Simultaneidade de fatores de risco para doenças crônicas não transmissÃveis em população rural de<br>um municÃpio no sul do Brasil. Revista Brasileira De Epidemiologia, 2020, 23, e200066.  | 0.3 | 5         |
