#	ARTICLE	IF	CITATIONS
1	The Third International Consensus Guidelines on the Management of Cytomegalovirus in Solid-organ Transplantation. <i>Transplantation</i> , 2018, 102, 900-931.	1.0	784
2	Predictors of Immune Reconstitution Syndrome in Organ Transplant Recipients With Cryptococcosis: Implications for the Management of Immunosuppression. <i>Clinical Infectious Diseases</i> , 2015, 60, 36-44.	5.8	79
3	Epigenomic characterization of <i>Clostridioides difficile</i> finds a conserved DNA methyltransferase that mediates sporulation and pathogenesis. <i>Nature Microbiology</i> , 2020, 5, 166-180.	13.3	75
4	Recommendations for Management of Endemic Diseases and Travel Medicine in Solid-Organ Transplant Recipients and Donors. <i>Transplantation</i> , 2018, 102, 193-208.	1.0	53
5	Clinical characteristics and outcomes in 303 HIV-infected patients with invasive fungal infections: data from the Prospective Antifungal Therapy Alliance registry, a multicenter, observational study. <i>HIV/AIDS - Research and Palliative Care</i> , 2014, 6, 39.	0.8	31
6	Organs from deceased donors with false-positive HIV screening tests: An unexpected benefit of the HOPE act. <i>American Journal of Transplantation</i> , 2018, 18, 2579-2586.	4.7	30
7	HOPE in action: A prospective multicenter pilot study of liver transplantation from donors with HIV to recipients with HIV. <i>American Journal of Transplantation</i> , 2022, 22, 853-864.	4.7	30
8	Vancomycin-resistant <i>Enterococcus</i> in solid organ transplant recipients: Guidelines from the American Society of Transplantation Infectious Diseases Community of Practice. <i>Clinical Transplantation</i> , 2019, 33, e13549.	1.6	27
9	Marijuana use in transplantation: A call for clarity. <i>Clinical Transplantation</i> , 2019, 33, e13456.	1.6	26
10	Whole-Genome Sequencing Identifies Emergence of a Quinolone Resistance Mutation in a Case of <i>Stenotrophomonas maltophilia</i> Bacteremia. <i>Antimicrobial Agents and Chemotherapy</i> , 2015, 59, 7117-7120.	3.2	24
11	Organ donor screening practices for <i>Strongyloides stercoralis</i> infection among US organ procurement organizations. <i>Transplant Infectious Disease</i> , 2018, 20, e12865.	1.7	24
12	Early conversion to belatacept after renal transplantation. <i>Clinical Transplantation</i> , 2017, 31, e12951.	1.6	20
13	Infections due to multidrug-resistant organisms following heart transplantation: Epidemiology, microbiology, and outcomes. <i>Transplant Infectious Disease</i> , 2020, 22, e13215.	1.7	20
14	Tuberculosis after liver transplantation in a large center in New York City: Quantitative PCR-based pretransplant screening performance and active tuberculosis posttransplant. <i>Transplant Infectious Disease</i> , 2018, 20, e12845.	1.7	19
15	Impact of pretransplant carbapenem-resistant <i>Enterobacterales</i> colonization and/or infection on solid organ transplant outcomes. <i>Clinical Transplantation</i> , 2021, 35, e14239.	1.6	17
16	Genomic confirmation of vancomycin-resistant <i>Enterococcus</i> transmission from deceased donor to liver transplant recipient. <i>PLoS ONE</i> , 2017, 12, e0170449.	2.5	16
17	Foreword: 4th edition of the American Society of Transplantation Infectious Diseases Guidelines. <i>Clinical Transplantation</i> , 2019, 33, e13642.	1.6	16
18	Clarifying the HOPE Act landscape: The challenge of donors with false-positive HIV results. <i>American Journal of Transplantation</i> , 2020, 20, 617-619.	4.7	13

#	ARTICLE	IF	CITATIONS
19	Solid organ transplantation in HIV-infected individuals: an update. <i>Reviews in Medical Virology</i> , 2009, 19, 317-323.	8.3	11
20	Liver transplantation for alveolar echinococcosis: Acceptable when necessary but is it preventable?. <i>Liver Transplantation</i> , 2015, 21, 1013-1015.	2.4	7
21	Estimating Local Costs Associated With <i>Clostridium difficile</i> Infection Using Machine Learning and Electronic Medical Records. <i>Infection Control and Hospital Epidemiology</i> , 2017, 38, 1478-1486.	1.8	7
22	Tuberculosis Treatment With a 3-Drug Rifamycin-Free Regimen in Liver Transplant Recipients. <i>Liver Transplantation</i> , 2020, 26, 160-163.	2.4	6
23	Assessing routes of hepatitis C transmission in HIV-infected men who have sex with men using single genome sequencing. <i>PLoS ONE</i> , 2020, 15, e0235237.	2.5	6
24	Getting to zero: Reduction in the incidence of multidrug-resistant organism infections using an integrated infection control protocol in an intensive care unit. <i>American Journal of Infection Control</i> , 2016, 44, 1695-1697.	2.3	5
25	Successful heart transplantation in patients with total artificial heart infections. <i>Transplant Infectious Disease</i> , 2018, 20, e12801.	1.7	5
26	Hepatitis C virus infection and kidney transplantation: newer options and a brighter future ahead?. <i>Kidney International</i> , 2015, 88, 223-225.	5.2	4
27	Unique characteristics of cryptococcosis identified after death in patients with liver cirrhosis: comparison with concurrent cohort diagnosed antemortem. <i>Medical Mycology</i> , 2017, 55, myw079.	0.7	4
28	Successful heart transplantation in patients with active <i>Staphylococcus</i> bloodstream infection and suspected mechanical circulatory support device infection. <i>Transplant Infectious Disease</i> , 2018, 20, e12812.	1.7	2
29	Risk Stratification for Targeted Antifungal Prophylaxis in Adult Liver Transplant Recipients. <i>Open Forum Infectious Diseases</i> , 2016, 3, .	0.9	1
30	Inappropriate Testing and Treatment of Asymptomatic Bacteriuria: Assessment of Provider Behavior and the Effectiveness of an Audit and Feedback Intervention in the Hospital. <i>Open Forum Infectious Diseases</i> , 2016, 3, .	0.9	1
31	Viral Hepatitis Recommendations for Solid-Organ Transplant Recipients and Donors. <i>Transplantation</i> , 2018, 102, S66-S71.	1.0	1
32	569. Pre-retained: Early Intervention for HIV Patients at High Risk of Becoming Un-retained. <i>Open Forum Infectious Diseases</i> , 2018, 5, S211-S211.	0.9	1
33	Approach to Prophylaxis and Management of Infections after Liver Transplantation. , 2014, , 494-503.		0
34	Estimating Local Attributable Cost of <i>Clostridium difficile</i> Infection Using Electronic Medical Record Data. <i>Open Forum Infectious Diseases</i> , 2016, 3, .	0.9	0
35	Elevated Serum Beta-D-Glucan with <i>Pseudomonas</i> , <i>Aspergillus</i> , and a Partially Acid-Fast Organism in Respiratory Cultures: A Case of Hickam's Dictum Over Occam's Razor. <i>Mycopathologia</i> , 2017, 182, 869-872.	3.1	0
36	#Less Is More: Now Trending for Surgical Antibacterial Prophylaxis in Liver Transplantation. <i>Liver Transplantation</i> , 2019, 25, 993-994.	2.4	0

#	ARTICLE	IF	CITATIONS
37	Hepatitis C and Human Immunodeficiency Virus Kidney Transplantation: The Mount Sinai Experience. <i>Clinical Transplants</i> , 2015, 31, 69-78.	0.2	0
