

Peter Bjerregaard

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/1030885/peter-bjerregaard-publications-by-year.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
195	Concentrations of tetanus and diphtheria antibodies in vaccinated Greenlandic children aged 7-12 years exposed to marine pollutants, a cross sectional study. <i>Environmental Research</i> , 2022 , 203, 111712	7.9	1
194	Background Po activity concentrations in Greenland marine biota and dose assessment. <i>Science of the Total Environment</i> , 2022 , 806, 150508	10.2	1
193	The effect of household crowding and composition on health in an Inuit cohort in Greenland. <i>Scandinavian Journal of Public Health</i> , 2021 , 49, 921-930	3	5
192	Heterogeneous contributions of change in population distribution of body mass index to change in obesity and underweight. <i>ELife</i> , 2021 , 10,	8.9	10
191	Physical activity attenuates postprandial hyperglycaemia in homozygous TBC1D4 loss-of-function mutation carriers. <i>Diabetologia</i> , 2021 , 64, 1795-1804	10.3	3
190	The genetic history of Greenlandic-European contact. <i>Current Biology</i> , 2021 , 31, 2214-2219.e4	6.3	1
189	Association of food insecurity with dietary patterns and expenditure on food, alcohol and tobacco amongst indigenous Inuit in Greenland: results from a population health survey. <i>BMC Public Health</i> , 2021 , 21, 1094	4.1	0
188	Social determinants of dietary patterns, food basket costs and expenditure on alcohol and tobacco amongst Greenland Inuit. <i>Public Health Nutrition</i> , 2021 , 24, 4975-4984	3.3	1
187	Diet and physical activity in Greenland: genetic interactions and associations with obesity and diabetes. <i>Applied Physiology, Nutrition and Metabolism</i> , 2021 , 46, 849-855	3	1
186	Worldwide trends in hypertension prevalence and progress in treatment and control from 1990 to 2019: a pooled analysis of 1201 population-representative studies with 104 million participants. <i>Lancet, The</i> , 2021 , 398, 957-980	40	154
185	Hand grip strength and chair stand test amongst Greenlandic Inuit: reference values and international comparisons. <i>International Journal of Circumpolar Health</i> , 2021 , 80, 1966186	1.7	3
184	Height and body-mass index trajectories of school-aged children and adolescents from 1985 to 2019 in 200 countries and territories: a pooled analysis of 2181 population-based studies with 65 million participants. <i>Lancet, The</i> , 2020 , 396, 1511-1524	40	73
183	Repositioning of the global epicentre of non-optimal cholesterol. <i>Nature</i> , 2020 , 582, 73-77	50.4	48
182	Genetic study of the Arctic CPT1A variant suggests that its effect on fatty acid levels is modulated by traditional Inuit diet. <i>European Journal of Human Genetics</i> , 2020 , 28, 1592-1601	5.3	6
181	The derived allele of a novel intergenic variant at chromosome 11 associates with lower body mass index and a favorable metabolic phenotype in Greenlanders. <i>PLoS Genetics</i> , 2020 , 16, e1008544	6	1
180	Estimating narrow-sense heritability using family data from admixed populations. <i>Heredity</i> , 2020 , 124, 751-762	3.6	1
179	Dietary issues in contemporary Greenland 2020 , 92-99		1

178	1422-P: Different Diagnostic Criteria for Diabetes and Risk of Cardiovascular Disease in the Greenland Inuit. <i>Diabetes</i> , 2020 , 69, 1422-P	0.9	
177	246-OR: A Loss-of-Function Mutation in the Sucrase-Isomaltase Gene Is Linked to a Markedly Healthier Metabolic Profile in Greenlanders. <i>Diabetes</i> , 2020 , 69, 246-OR	0.9	
176	The effect of diabetes and the common diabetogenic TBC1D4 p.Arg684Ter variant on cardiovascular risk in Inuit in Greenland. <i>Scientific Reports</i> , 2020 , 10, 22081	4.9	3
175	Omega-3 fatty acids and risk of cardiovascular disease in Inuit: First prospective cohort study. <i>Atherosclerosis</i> , 2020 , 312, 28-34	3.1	2
174	Alcohol in Greenland 1950-2018: consumption, drinking patterns, and consequences. <i>International Journal of Circumpolar Health</i> , 2020 , 79, 1814550	1.7	2
173	Disparities amidst plenty: a health portrait of Indigenous peoples in circumpolar regions. <i>International Journal of Circumpolar Health</i> , 2020 , 79, 1805254	1.7	10
172	Towards estimating the indigenous population in circumpolar regions. <i>International Journal of Circumpolar Health</i> , 2019 , 78, 1653749	1.7	14
171	Rising rural body-mass index is the main driver of the global obesity epidemic in adults. <i>Nature</i> , 2019 , 569, 260-264	50.4	278
170	Associations between birth weight and glucose intolerance in adulthood among Greenlandic Inuit. <i>Diabetes Research and Clinical Practice</i> , 2019 , 150, 129-137	7.4	3
169	Environmental chemical exposures among Greenlandic children in relation to diet and residence. <i>International Journal of Circumpolar Health</i> , 2019 , 78, 1642090	1.7	4
168	RISING SUN: Prioritized Outcomes for Suicide Prevention in the Arctic. <i>Psychiatric Services</i> , 2019 , 70, 1523-155	3.55	7
167	Genetic determinants of glycated hemoglobin levels in the Greenlandic Inuit population. <i>European Journal of Human Genetics</i> , 2018 , 26, 868-875	5.3	3
166	Loss-of-function variants in ADCY3 increase risk of obesity and type 2 diabetes. <i>Nature Genetics</i> , 2018 , 50, 172-174	36.3	97
165	Three lifestyle-related issues of major significance for public health among the Inuit in contemporary Greenland: a review of adverse childhood conditions, obesity, and smoking in a period of social transition. <i>Public Health Reviews</i> , 2018 , 39, 5	4.3	15
164	Contributions of mean and shape of blood pressure distribution to worldwide trends and variations in raised blood pressure: a pooled analysis of 1018 population-based measurement studies with 88.6 million participants. <i>International Journal of Epidemiology</i> , 2018 , 47, 872-883i	7.8	40
163	Validation of cardiovascular diagnoses in the Greenlandic Hospital Discharge Register for epidemiological use. <i>International Journal of Circumpolar Health</i> , 2018 , 77, 1422668	1.7	7
162	Whole blood mercury and the risk of cardiovascular disease among the Greenlandic population. <i>Environmental Research</i> , 2018 , 164, 310-315	7.9	15
161	Identification of novel high-impact recessively inherited type 2 diabetes risk variants in the Greenlandic population. <i>Diabetologia</i> , 2018 , 61, 2005-2015	10.3	11

160	Comparing health care workforce in circumpolar regions: patterns, trends and challenges. <i>International Journal of Circumpolar Health</i> , 2018 , 77, 1492825	1.7	3
159	Alcohol use and burden for 195 countries and territories, 1990-2016: a systematic analysis for the Global Burden of Disease Study 2016. <i>Lancet, The</i> , 2018 , 392, 1015-1035	40	1171
158	Cancer incidence and mortality in Greenland 1983-2014, including comparison with the other Nordic countries.. <i>Journal of Clinical Oncology</i> , 2018 , 36, e13590-e13590	2.2	
157	Do Greenlandic Carriers of the TBC1D4 p.Arg684Ter Variant Have Increased Risk of Cardiovascular Disease?. <i>Diabetes</i> , 2018 , 67, 439-P	0.9	
156	Associations between vitamin D status and atherosclerosis among Inuit in Greenland. <i>Atherosclerosis</i> , 2018 , 268, 145-151	3.1	4
155	Cancer Incidence and Mortality in Greenland 1983-2014 - Including Comparison With the Other Nordic Countries. <i>EClinicalMedicine</i> , 2018 , 2-3, 37-49	11.3	5
154	Measuring social inequality in health amongst indigenous peoples in the Arctic. A comparison of different indicators of social disparity among the Inuit in Greenland. <i>SSM - Population Health</i> , 2018 , 6, 149-157	3.8	6
153	Growth of children in Greenland exceeds the World Health Organization growth charts. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2018 , 107, 1953-1965	3.1	10
152	The Effect of an Extreme and Prolonged Population Bottleneck on Patterns of Deleterious Variation: Insights from the Greenlandic Inuit. <i>Genetics</i> , 2017 , 205, 787-801	4	31
151	Stable isotopes of carbon and nitrogen as markers of dietary variation among sociocultural subgroups of Inuit in Greenland. <i>American Journal of Human Biology</i> , 2017 , 29, e23018	2.7	4
150	Worldwide trends in body-mass index, underweight, overweight, and obesity from 1975 to 2016: a pooled analysis of 2416 population-based measurement studies in 128.9 million children, adolescents, and adults. <i>Lancet, The</i> , 2017 , 390, 2627-2642	40	2980
149	Global, regional, and national under-5 mortality, adult mortality, age-specific mortality, and life expectancy, 1970-2016: a systematic analysis for the Global Burden of Disease Study 2016. <i>Lancet, The</i> , 2017 , 390, 1084-1150	40	421
148	Worldwide trends in blood pressure from 1975 to 2015: a pooled analysis of 1479 population-based measurement studies with 19.1 million participants. <i>Lancet, The</i> , 2017 , 389, 37-55	40	1100
147	Physical Activity and Abdominal Fat Distribution in Greenland. <i>Medicine and Science in Sports and Exercise</i> , 2017 , 49, 2064-2070	1.2	13
146	Association between individual-level and community-level socio-economic status and blood pressure among Inuit in Greenland. <i>International Journal of Circumpolar Health</i> , 2016 , 75, 32757	1.7	7
145	Impact of Nonoptimal Intakes of Saturated, Polyunsaturated, and Trans Fat on Global Burdens of Coronary Heart Disease. <i>Journal of the American Heart Association</i> , 2016 , 5,	6	62
144	Chronic suppurative otitis media, middle ear pathology and corresponding hearing loss in a cohort of Greenlandic children. <i>International Journal of Pediatric Otorhinolaryngology</i> , 2016 , 83, 148-53	1.7	25
143	Identification of Novel Genetic Determinants of Erythrocyte Membrane Fatty Acid Composition among Greenlanders. <i>PLoS Genetics</i> , 2016 , 12, e1006119	6	16

142	Overview of ongoing cohort and dietary studies in the Arctic. <i>International Journal of Circumpolar Health</i> , 2016 , 75, 33803	1.7	10
141	The Impact of Dietary and Metabolic Risk Factors on Cardiovascular Diseases and Type 2 Diabetes Mortality in Brazil. <i>PLoS ONE</i> , 2016 , 11, e0151503	3.7	25
140	Associations between Vitamin D Status and Type 2 Diabetes Measures among Inuit in Greenland May Be Affected by Other Factors. <i>PLoS ONE</i> , 2016 , 11, e0152763	3.7	19
139	Children in Greenland: disease patterns and contacts to the health care system. <i>International Journal of Circumpolar Health</i> , 2016 , 75, 32903	1.7	4
138	Indigenous and tribal peoplesRhealth (The Lancet-Lowitja Institute Global Collaboration): a population study. <i>Lancet, The</i> , 2016 , 388, 131-57	4.0	456
137	Worldwide trends in diabetes since 1980: a pooled analysis of 751 population-based studies with 4.4 million participants. <i>Lancet, The</i> , 2016 , 387, 1513-1530	4.0	2039
136	Trends in adult body-mass index in 200 countries from 1975 to 2014: a pooled analysis of 1698 population-based measurement studies with 192 million participants. <i>Lancet, The</i> , 2016 , 387, 1377-1396	4.0	2787
135	Cardiovascular Disease Susceptibility and Resistance in Circumpolar Inuit Populations. <i>Canadian Journal of Cardiology</i> , 2015 , 31, 1116-23	3.8	19
134	Effects of diabetes definition on global surveillance of diabetes prevalence and diagnosis: a pooled analysis of 96 population-based studies with 331,288 participants. <i>Lancet Diabetes and Endocrinology,the</i> , 2015 , 3, 624-37	18.1	109
133	Common low-density lipoprotein receptor p.G116S variant has a large effect on plasma low-density lipoprotein cholesterol in circumpolar inuit populations. <i>Circulation: Cardiovascular Genetics</i> , 2015 , 8, 100-5		7
132	Association between whole blood mercury and glucose intolerance among adult Inuit in Greenland. <i>Environmental Research</i> , 2015 , 143, 192-7	7.9	17
131	Greenlandic Inuit show genetic signatures of diet and climate adaptation. <i>Science</i> , 2015 , 349, 1343-7	33.3	298
130	Time trend by region of suicides and suicidal thoughts among Greenland Inuit. <i>International Journal of Circumpolar Health</i> , 2015 , 74, 26053	1.7	21
129	A scoping review of Indigenous suicide prevention in circumpolar regions. <i>International Journal of Circumpolar Health</i> , 2015 , 74, 27509	1.7	28
128	Season of birth is different in Inuit suicide victims born into Traditional than into Modern Lifestyle: a register study from Greenland. <i>BMC Psychiatry</i> , 2015 , 15, 147	4.2	4
127	Plasma YKL-40 in Inuit and Danes. <i>Alcohol and Alcoholism</i> , 2015 , 50, 11-7	3.5	3
126	Uncovering the genetic history of the present-day Greenlandic population. <i>American Journal of Human Genetics</i> , 2015 , 96, 54-69	11	61
125	Staging atmospheres: Materiality, culture, and the texture of the in-between. <i>Emotion, Space and Society</i> , 2015 , 15, 31-38	1.2	155

124	Global, Regional, and National Consumption of Sugar-Sweetened Beverages, Fruit Juices, and Milk: A Systematic Assessment of Beverage Intake in 187 Countries. <i>PLoS ONE</i> , 2015 , 10, e0124845	3.7	267
123	Observing the Changing Health of Circumpolar Peoples. <i>Arctic</i> , 2015 , 68, 1	2.1	3
122	GAD65 antibodies among Greenland Inuit and its relation to glucose intolerance. <i>Acta Diabetologica</i> , 2014 , 51, 641-6	3.9	5
121	Genetic variation in alcohol metabolizing enzymes among Inuit and its relation to drinking patterns. <i>Drug and Alcohol Dependence</i> , 2014 , 144, 239-44	4.9	10
120	A common Greenlandic TBC1D4 variant confers muscle insulin resistance and type 2 diabetes. <i>Nature</i> , 2014 , 512, 190-3	50.4	258
119	Cardiovascular disease, chronic kidney disease, and diabetes mortality burden of cardiometabolic risk factors from 1980 to 2010: a comparative risk assessment. <i>Lancet Diabetes and Endocrinology</i> , 2014 , 2, 634-47	18.1	446
118	Decrease in vitamin D status in the Greenlandic adult population from 1987-2010. <i>PLoS ONE</i> , 2014 , 9, e112949	3.7	20
117	Birth weight and risk of adiposity among adult Inuit in Greenland. <i>PLoS ONE</i> , 2014 , 9, e115976	3.7	6
116	Household crowding and psychosocial health among Inuit in Greenland. <i>International Journal of Public Health</i> , 2014 , 59, 739-48	4	26
115	Association between environmental contaminants and health outcomes in indigenous populations of the Circumpolar North. <i>International Journal of Circumpolar Health</i> , 2014 , 73, 25808	1.7	15
114	Gender difference in health expectancy trends in Greenland. <i>Scandinavian Journal of Public Health</i> , 2014 , 42, 751-8	3	6
113	Dietary patterns in Greenland and their relationship with type 2 diabetes mellitus and glucose intolerance. <i>Public Health Nutrition</i> , 2014 , 17, 462-70	3.3	29
112	Gambling behavior and problem gambling reflecting social transition and traumatic childhood events among Greenland Inuit: a cross-sectional study in a large indigenous population undergoing rapid change. <i>Journal of Gambling Studies</i> , 2013 , 29, 733-48	3	20
111	Prevalence of obesity among Inuit in Greenland and temporal trend by social position. <i>American Journal of Human Biology</i> , 2013 , 25, 335-40	2.7	20
110	Physical activity energy expenditure is associated with 2-h insulin independently of obesity among Inuit in Greenland. <i>Diabetes Research and Clinical Practice</i> , 2013 , 102, 242-9	7.4	12
109	Exposure to persistent organic pollutants and risk of hypertension among Inuit from Greenland. <i>Environmental Research</i> , 2013 , 122, 65-73	7.9	42
108	Population surveys in Greenland 1993-2009: temporal trend of PCBs and pesticides in the general Inuit population by age and urbanisation. <i>Science of the Total Environment</i> , 2013 , 454-455, 283-8	10.2	23
107	The association of n-3 fatty acids with serum High Density Cholesterol (HDL) is modulated by sex but not by Inuit ancestry. <i>Atherosclerosis</i> , 2013 , 226, 281-5	3.1	7

106	Tobacco smoke increases the risk of otitis media among Greenlandic Inuit children while exposure to organochlorines remain insignificant. <i>Environment International</i> , 2013 , 54, 112-8	12.9	15
105	Fat distribution and glucose intolerance among Greenland Inuit. <i>Diabetes Care</i> , 2013 , 36, 2988-94	14.6	38
104	Harmful alcohol use and frequent use of marijuana among lifetime problem gamblers and the prevalence of cross-addictive behaviour among Greenland Inuit: evidence from the cross-sectional Inuit Health in Transition Greenland survey 2006-2010. <i>International Journal of Circumpolar Health</i> , 2013 , 72, 1955-1	1.7	16
103	Approaching a collaborative research agenda for health systems performance in circumpolar regions. <i>International Journal of Circumpolar Health</i> , 2013 , 72,	1.7	10
102	Validity of the international physical activity questionnaire in the arctic. <i>Medicine and Science in Sports and Exercise</i> , 2013 , 45, 728-36	1.2	21
101	Validation of survey information on smoking and alcohol consumption against import statistics, Greenland 1993-2010. <i>International Journal of Circumpolar Health</i> , 2013 , 72,	1.7	13
100	Self-rated health among Greenlandic Inuit and Norwegian Sami adolescents: associated risk and protective correlates. <i>International Journal of Circumpolar Health</i> , 2013 , 72,	1.7	19
99	Diabetes in Greenland and its relationship with urbanization. <i>Diabetic Medicine</i> , 2012 , 29, 755-60	3.5	40
98	Glycemic index and glycemic load in relation to glucose intolerance among Greenlandic Inuit population. <i>Diabetes Research and Clinical Practice</i> , 2012 , 97, 298-305	7.4	5
97	The association between blood pressure and whole blood methylmercury in a cross-sectional study among Inuit in Greenland. <i>Environmental Health</i> , 2012 , 11, 44	6	20
96	Sex ratios in the Arctic--do man-made chemicals matter?. <i>American Journal of Human Biology</i> , 2012 , 24, 165-9	2.7	6
95	Diabetes is a risk factor for tuberculosis in the Inuit population of Greenland. <i>European Respiratory Journal</i> , 2012 , 40, 1289-91	13.6	2
94	Consumption of traditional food and adherence to nutrition recommendations in Greenland. <i>Scandinavian Journal of Public Health</i> , 2012 , 40, 475-81	3	28
93	Global health-a circumpolar perspective. <i>American Journal of Public Health</i> , 2012 , 102, 1246-9	5.1	24
92	Obesity studies in the circumpolar Inuit: a scoping review. <i>International Journal of Circumpolar Health</i> , 2012 , 71, 18698	1.7	14
91	The best of two worlds: how the Greenland Board of Nutrition has handled conflicting evidence about diet and health. <i>International Journal of Circumpolar Health</i> , 2012 , 71, 18588	1.7	27
90	Assessment of consumption of marine food in Greenland by a food frequency questionnaire and biomarkers. <i>International Journal of Circumpolar Health</i> , 2012 , 71, 18361	1.7	29
89	Anthropometry in the Circumpolar Inuit 2012 , 2543-2560		1

88	How well does social variation mirror secular change in prevalence of cardiovascular risk factors in a country in transition?. <i>American Journal of Human Biology</i> , 2011 , 23, 774-9	2.7	12
87	Physical activity patterns in Greenland: a country in transition. <i>Scandinavian Journal of Public Health</i> , 2011 , 39, 678-86	3	22
86	Nutritional transition - where do we go from here?. <i>Journal of Human Nutrition and Dietetics</i> , 2010 , 23 Suppl 1, 1-2	3.1	7
85	Inuit dietary patterns in modern Greenland. <i>International Journal of Circumpolar Health</i> , 2010 , 69, 13-24	1.7	30
84	Giving birth in Greenland: secular change in acceptance of hospital deliveries. <i>International Journal of Circumpolar Health</i> , 2010 , 69, 480-5	1.7	2
83	Rare ATGL haplotypes are associated with increased plasma triglyceride concentrations in the Greenland Inuit. <i>International Journal of Circumpolar Health</i> , 2010 , 69, 3-12	1.7	5
82	New diagnostic criteria for diabetes: is the change from glucose to HbA1c possible in all populations?. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2010 , 95, E333-6	5.6	37
81	Childhood conditions and education as determinants of adult height and obesity among Greenland Inuit. <i>American Journal of Human Biology</i> , 2010 , 22, 360-6	2.7	11
80	Carnitine palmitoyltransferase IA polymorphism P479L is common in Greenland Inuit and is associated with elevated plasma apolipoprotein A-I. <i>Journal of Lipid Research</i> , 2009 , 50, 1223-8	6.3	43
79	Meta-analysis of the INSIG2 association with obesity including 74,345 individuals: does heterogeneity of estimates relate to study design?. <i>PLoS Genetics</i> , 2009 , 5, e1000694	6	54
78	The prevalence of seasonal affective disorder (SAD) in Greenland is related to latitude. <i>Nordic Journal of Psychiatry</i> , 2009 , 63, 331-5	2.3	23
77	A common Greenlandic Inuit BRCA1 RING domain founder mutation. <i>Breast Cancer Research and Treatment</i> , 2009 , 115, 69-76	4.4	17
76	Accentuation of suicides but not homicides with rising latitudes of Greenland in the sunny months. <i>BMC Psychiatry</i> , 2009 , 9, 20	4.2	40
75	The association between n-3 fatty acids in erythrocyte membranes and insulin resistance: the Inuit Health in Transition Study. <i>International Journal of Circumpolar Health</i> , 2009 , 68, 327-36	1.7	33
74	High prevalence of markers of coronary heart disease among Greenland Inuit. <i>Atherosclerosis</i> , 2008 , 196, 772-8	3.1	45
73	Trans-polar-fat: all Inuit are not equal. <i>British Journal of Nutrition</i> , 2008 , 100, 703-6	3.6	11
72	A cross-sectional study of the association between persistent organic pollutants and glucose intolerance among Greenland Inuit. <i>Diabetologia</i> , 2008 , 51, 1416-22	10.3	81
71	Association between the FTO rs9939609 polymorphism and the metabolic syndrome in a non-Caucasian multi-ethnic sample. <i>Cardiovascular Diabetology</i> , 2008 , 7, 5	8.7	73

70	Health Transitions in Arctic Populations 2008 ,		38
69	7. Inuit 2008 , 119-133		2
68	11. Diet, Nutrition, and Physical Activity 2008 , 192-204		5
67	2. Greenland 2008 , 23-38		4
66	10. Environment and Living Conditions 2008 , 173-191		4
65	Association between the -455T>C promoter polymorphism of the APOC3 gene and the metabolic syndrome in a multi-ethnic sample. <i>BMC Medical Genetics</i> , 2007 , 8, 80	2.1	33
64	Cardiovascular risk amongst migrant and non-migrant Greenland Inuit in a gender perspective. <i>Scandinavian Journal of Public Health</i> , 2007 , 35, 380-6	3	13
63	Child health in Greenland. <i>Scandinavian Journal of Public Health</i> , 2007 , 35, 313-22	3	16
62	Common variants APOC3, APOA5, APOE and PON1 are associated with variation in plasma lipoprotein traits in Greenlanders. <i>International Journal of Circumpolar Health</i> , 2007 , 66, 390-400	1.7	15
61	Prevalence of obesity and its metabolic correlates among the circumpolar inuit in 3 countries. <i>American Journal of Public Health</i> , 2007 , 97, 691-5	5.1	71
60	Suicide--a challenge in modern Greenland. <i>Archives of Suicide Research</i> , 2006 , 10, 209-20	2.3	33
59	Lifestyle modifies obesity-associated risk of cardiovascular disease in a genetically homogeneous population. <i>American Journal of Clinical Nutrition</i> , 2006 , 84, 29-36	7	23
58	Predictions of type 2 diabetes and complications in Greenland in 2014. <i>International Journal of Circumpolar Health</i> , 2006 , 65, 243-52	1.7	10
