

Michael A Cohen

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/10378868/michael-a-cohen-publications-by-year.pdf>

Version: 2024-04-26

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

29
papers

1,218
citations

#	Paper	IF	Citations
29	Selective responses to faces, scenes, and bodies in the ventral visual pathway of infants. <i>Current Biology</i> , 2021 ,	6.3	5
28	Characterizing a snapshot of perceptual experience. <i>Journal of Experimental Psychology: General</i> , 2021 ,	4.7	2
27	Distinguishing the Neural Correlates of Perceptual Awareness and Postperceptual Processing. <i>Journal of Neuroscience</i> , 2020 , 40, 4925-4935	6.6	24
26	How much color do we see in the blink of an eye?. <i>Cognition</i> , 2020 , 200, 104268	3.5	6
25	The limits of color awareness during active, real-world vision. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2020 , 117, 13821-13827	11.5	18
24	Representational similarity precedes category selectivity in the developing ventral visual pathway. <i>NeuroImage</i> , 2019 , 197, 565-574	7.9	12
23	Tuning Attention to Object Categories: Spatially Global Effects of Attention to Faces in Visual Processing. <i>Journal of Cognitive Neuroscience</i> , 2019 , 31, 937-947	3.1	3
22	Differences in representational geometries of prosopagnosics and neurotypical controls. <i>Journal of Vision</i> , 2019 , 19, 23	0.4	
21	Characterizing a snapshot of perceptual experience. <i>Journal of Vision</i> , 2019 , 19, 177c	0.4	
20	What Is the True Capacity of Visual Cognition?. <i>Trends in Cognitive Sciences</i> , 2019 , 23, 83-86	14	2
19	Visual search for object categories is predicted by the representational architecture of high-level visual cortex. <i>Journal of Neurophysiology</i> , 2017 , 117, 388-402	3.2	19
18	Perception of ensemble statistics requires attention. <i>Consciousness and Cognition</i> , 2017 , 48, 149-160	2.6	28
17	Studying Consciousness Through Inattentional Blindness, Change Blindness, and the Attentional Blink 2017 , 537-550		0
16	Limits on perceptual encoding can be predicted from known receptive field properties of human visual cortex. <i>Journal of Experimental Psychology: Human Perception and Performance</i> , 2016 , 42, 67-77	2.6	8
15	Ensemble Perception, Summary Statistics, and Perceptual Awareness: A Response. <i>Trends in Cognitive Sciences</i> , 2016 , 20, 643-644	14	3
14	What is the Bandwidth of Perceptual Experience?. <i>Trends in Cognitive Sciences</i> , 2016 , 20, 324-335	14	158
13	Visual Awareness Is Limited by the Representational Architecture of the Visual System. <i>Journal of Cognitive Neuroscience</i> , 2015 , 27, 2240-52	3.1	23

12	Processing multiple visual objects is limited by overlap in neural channels. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2014 , 111, 8955-60	11.5	48
11	Response to Fahrenfort and Lamme: defining reportability, accessibility and sufficiency in conscious awareness. <i>Trends in Cognitive Sciences</i> , 2012 , 16, 139-140	14	5
10	The attentional requirements of consciousness. <i>Trends in Cognitive Sciences</i> , 2012 , 16, 411-7	14	201
9	Response to Tsuchiya et al.: considering endogenous and exogenous attention. <i>Trends in Cognitive Sciences</i> , 2012 , 16, 528	14	5
8	Consciousness cannot be separated from function. <i>Trends in Cognitive Sciences</i> , 2011 , 15, 358-64	14	252
7	The what-where trade-off in multiple-identity tracking. <i>Attention, Perception, and Psychophysics</i> , 2011 , 73, 1422-34	2	35
6	Auditory and visual memory in musicians and nonmusicians. <i>Psychonomic Bulletin and Review</i> , 2011 , 18, 586-91	4.1	56
5	Natural-scene perception requires attention. <i>Psychological Science</i> , 2011 , 22, 1165-72	7.9	150
4	Distinguishing between parallel and serial accounts of multiple object tracking. <i>Journal of Vision</i> , 2010 , 10, 11	0.4	36
3	Auditory recognition memory is inferior to visual recognition memory. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2009 , 106, 6008-10	11.5	111
2	Yet another statistic to index baroreflex function. <i>American Journal of Physiology - Regulatory Integrative and Comparative Physiology</i> , 2001 , 281, R1338-40	3.2	3
1	Distinguishing the neural correlates of perceptual awareness and post-perceptual processing		5
