| #  | Article   | IF           | CITATIONS |
|----|---|--------------|-----------|
| 1  | Risk factors for suicidal thoughts and behaviors: A meta-analysis of 50 years of research<br>Psychological Bulletin, 2017, 143, 187-232.  | 5.5          | 2,166     |
| 2  | Main predictions of the interpersonal–psychological theory of suicidal behavior: Empirical tests in two samples of young adults Journal of Abnormal Psychology, 2009, 118, 634-646.   | 2.0          | 581       |
| 3  | Depression and hopelessness as risk factors for suicide ideation, attempts and death: meta-analysis of longitudinal studies. British Journal of Psychiatry, 2018, 212, 279-286.   | 1.7          | 447       |
| 4  | Predicting Risk of Suicide Attempts Over Time Through Machine Learning. Clinical Psychological Science, 2017, 5, 457-469.   | 2.4          | 381       |
| 5  | Meta-analysis of risk factors for nonsuicidal self-injury. Clinical Psychology Review, 2015, 42, 156-167.   | 6.0          | 312       |
| 6  | Fearlessness about death: The psychometric properties and construct validity of the revision to the Acquired Capability for Suicide Scale Psychological Assessment, 2014, 26, 115-126.                                      | 1.2          | 296       |
| 7  | Sleep problems outperform depression and hopelessness as cross-sectional and longitudinal predictors of suicidal ideation and behavior in young adults in the military. Journal of Affective Disorders, 2012, 136, 743-750. | 2.0          | 264       |
| 8  | Anxiety and its disorders as risk factors for suicidal thoughts and behaviors: A meta-analytic review. Clinical Psychology Review, 2016, 43, 30-46.   | 6.0          | 262       |
| 9  | Nonsuicidal Self-Injury, Suicidal Behavior, and Their Co-occurrence as Viewed Through the Lens of the Interpersonal Theory of Suicide. Current Directions in Psychological Science, 2012, 21, 342-347.                      | 2.8          | 171       |
| 10 | A brief mobile app reduces nonsuicidal and suicidal self-injury: Evidence from three randomized controlled trials Journal of Consulting and Clinical Psychology, 2016, 84, 544-557.   | 1.6          | 169       |
| 11 | Predicting suicide attempts in adolescents with longitudinal clinical data and machine learning. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2018, 59, 1261-1270.                                    | 3.1          | 166       |
| 12 | The interpersonalâ€psychological theory of suicidal behavior: current status and future directions. Journal of Clinical Psychology, 2009, 65, 1291-1299.  | 1.0          | 141       |
| 13 | Overcoming the fear of lethal injury: Evaluating suicidal behavior in the military through the lens of the Interpersonal–Psychological Theory of Suicide. Clinical Psychology Review, 2010, 30, 298-307.                    | 6.0          | 128       |
| 14 | Interventions for suicide and self-injury: A meta-analysis of randomized controlled trials across nearly 50 years of research Psychological Bulletin, 2020, 146, 1117-1145.   | 5 <b>.</b> 5 | 120       |
| 15 | An examination of environmental and genetic contributions to the determinants of suicidal behavior among male twins. Psychiatry Research, 2012, 197, 60-65.   | 1.7          | 110       |
| 16 | Mental disorders and thwarted belongingness, perceived burdensomeness, and acquired capability for suicide. Psychiatry Research, 2015, 226, 316-327.  | 1.7          | 101       |
| 17 | Exercise caution: Over-exercise is associated with suicidality among individuals with disordered eating. Psychiatry Research, 2013, 206, 246-255.   | 1.7          | 99        |
| 18 | An interactive model of anxiety sensitivity relevant to suicide attempt history and future suicidal ideation. Journal of Psychiatric Research, 2012, 46, 174-180.   | 1.5          | 95        |

| #  | Article  | IF  | CITATIONS  |
|----|--|-----|------------|
| 19 | Significant shared heritability underlies suicide attempt and clinically predicted probability of attempting suicide. Molecular Psychiatry, 2020, 25, 2422-2430.   | 4.1 | 91         |
| 20 | Machine learning in suicide science: Applications and ethics. Behavioral Sciences and the Law, 2019, 37, 214-222.  | 0.6 | 87         |
| 21 | An examination of the relationship between anger and suicide risk through the lens of the interpersonal theory of suicide. Journal of Psychiatric Research, 2014, 50, 59-65.   | 1.5 | 84         |
| 22 | Sleep disturbances as risk factors for suicidal thoughts and behaviours: a meta-analysis of longitudinal studies. Scientific Reports, 2020, 10, 13888.   | 1.6 | 80         |
| 23 | Sleep disturbances and suicidal ideation in sleep medical center patients. Journal of Affective Disorders, 2011, 131, 422-427.   | 2.0 | <b>7</b> 5 |
| 24 | Perceived burdensomeness, thwarted belongingness, and suicide ideation: Re-examination of the Interpersonal-Psychological Theory in two samples. Psychiatry Research, 2015, 228, 544-550.  | 1.7 | 74         |
| 25 | Development and Validation of a Brief Self-Report Measure of Agitation: The Brief Agitation Measure. Journal of Personality Assessment, 2011, 93, 597-604.   | 1.3 | 72         |
| 26 | Demographics as predictors of suicidal thoughts and behaviors: A meta-analysis. PLoS ONE, 2017, 12, e0180793.  | 1.1 | 63         |
| 27 | Investigating insomnia as a cross-sectional and longitudinal predictor of loneliness: Findings from six samples. Psychiatry Research, 2017, 253, 116-128.  | 1.7 | 52         |
| 28 | Sex and Emotion in the Acquired Capability for Suicide. Archives of Suicide Research, 2011, 15, 172-182.   | 1.2 | 51         |
| 29 | Are Eating Disorders and Related Symptoms Risk Factors for Suicidal Thoughts and Behaviors? A Metaâ€analysis. Suicide and Life-Threatening Behavior, 2019, 49, 221-239.  | 0.9 | 49         |
| 30 | AN INVESTIGATION OF THE INTERACTIVE EFFECTS OF THE CAPABILITY FOR SUICIDE AND ACUTE AGITATION ON SUICIDALITY IN A MILITARY SAMPLE. Depression and Anxiety, 2015, 32, 25-31.  | 2.0 | 47         |
| 31 | Predicting Imminent Suicidal Thoughts and Nonfatal Attempts: The Role of Complexity. Clinical Psychological Science, 2019, 7, 941-957.   | 2.4 | 46         |
| 32 | Health care contact and suicide risk documentation prior to suicide death: Results from the Army Study to Assess Risk and Resilience in Servicemembers (Army STARRS) Journal of Consulting and Clinical Psychology, 2017, 85, 403-408. | 1.6 | 45         |
| 33 | Accounting for Diversity in Suicide Research: Sampling and Sample Reporting Practices in the United States. Suicide and Life-Threatening Behavior, 2018, 48, 131-139.  | 0.9 | 44         |
| 34 | An empirically based approach to the assessment and management of suicidal behavior Journal of Psychotherapy Integration, 2013, 23, 207-221.   | 0.7 | 43         |
| 35 | Overarousal interacts with a sense of fearlessness about death to predict suicide risk in a sample of clinical outpatients. Psychiatry Research, 2014, 218, 106-112.   | 1.7 | 42         |
| 36 | Capability for suicide interacts with states of heightened arousal to predict death by suicide beyond the effects of depression and hopelessness. Journal of Affective Disorders, 2015, 188, 53-59.                                    | 2.0 | 39         |

| #  | Article  | IF  | CITATIONS |
|----|--|-----|-----------|
| 37 | Model complexity improves the prediction of nonsuicidal self-injury Journal of Consulting and Clinical Psychology, 2019, 87, 684-692.  | 1.6 | 34        |
| 38 | The differences between suicide ideators and suicide attempters: Simple, complicated, or complex?. Journal of Consulting and Clinical Psychology, 2020, 88, 554-569.   | 1.6 | 30        |
| 39 | The role of stressful life events preceding death by suicide: Evidence from two samples of suicide decedents. Psychiatry Research, 2017, 256, 345-352.   | 1.7 | 28        |
| 40 | Affect toward the self and self-injury stimuli as potential risk factors for nonsuicidal self-injury. Psychiatry Research, 2018, 260, 279-285.   | 1.7 | 28        |
| 41 | Self-Injurious Thoughts and Behaviors May Be More Common and Severe Among People Identifying as a Sexual Minority. Behavior Therapy, 2018, 49, 768-780.  | 1.3 | 27        |
| 42 | A Trait-Interpersonal Perspective on Suicide Risk in Criminal Offenders. Archives of Suicide Research, 2012, 16, 334-347.  | 1.2 | 26        |
| 43 | Does the interpersonal–Psychological theory of suicide provide a useful framework for understanding suicide risk among eating disorder patients? A test of the validity of the IPTS. International Journal of Eating Disorders, 2016, 49, 1082-1086. | 2.1 | 24        |
| 44 | Examining a Brief Suicide Screening Tool in Older Adults Engaging in Risky Alcohol Use. Suicide and Life-Threatening Behavior, 2012, 42, 405-415.  | 0.9 | 22        |
| 45 | Eating Disorder Symptoms and Suicidal Ideation: The Moderating Role of Disgust. European Eating Disorders Review, 2015, 23, 545-552.   | 2.3 | 22        |
| 46 | What suicide interventions should target. Current Opinion in Psychology, 2018, 22, 50-53.  | 2.5 | 20        |
| 47 | Insomnia brings soldiers into mental health treatment, predicts treatment engagement, and outperforms other suicide-related symptoms as a predictor of major depressive episodes. Journal of Psychiatric Research, 2016, 79, 108-115.                | 1.5 | 19        |
| 48 | The Differences Between Individuals Engaging in Nonsuicidal Self-Injury and Suicide Attempt Are Complex (vs. Complicated or Simple). Frontiers in Psychiatry, 2020, 11, 239.   | 1.3 | 19        |
| 49 | An urge to jump affirms the urge to live: An empirical examination of the high place phenomenon. Journal of Affective Disorders, 2012, 136, 1114-1120.   | 2.0 | 17        |
| 50 | Discussing Disgust: The Role of Disgust with Life in Suicide. International Journal of Cognitive Therapy, 2013, 6, 235-247.  | 1.3 | 17        |
| 51 | Implicit attitudes toward eating stimuli differentiate eating disorder and nonâ€eating disorder groups and predict eating disorder behaviors. International Journal of Eating Disorders, 2018, 51, 343-351.  | 2.1 | 16        |
| 52 | Is externalizing psychopathology a robust risk factor for suicidal thoughts and behaviors? A metaâ€analysis of longitudinal studies. Journal of Clinical Psychology, 2018, 74, 1607-1625.  | 1.0 | 16        |
| 53 | Do Suicidal Behaviors Increase the Capability for Suicide? A Longitudinal Pretest–Posttest Study of More Than 1,000 High-Risk Individuals. Clinical Psychological Science, 2020, 8, 890-904.   | 2.4 | 14        |
| 54 | A Social Exclusion Manipulation Interacts with Acquired Capability for Suicide to Predict Self-Aggressive Behaviors. Archives of Suicide Research, 2018, 22, 32-45.  | 1.2 | 11        |

| #  | Article   | IF  | CITATIONS |
|----|---|-----|-----------|
| 55 | Do suicidal desire and facets of capability for suicide predict future suicidal behavior? A longitudinal test of the desire–capability hypothesis Journal of Abnormal Psychology, 2021, 130, 211-222. | 2.0 | 10        |
| 56 | How to Implement Therapeutic Evaluative Conditioning in a Clinical Setting. Journal of Clinical Psychology, 2017, 73, 559-569.  | 1.0 | 5         |
| 57 | Comprehensive Theories of Suicidal Behaviors. , 2014, , .   |     | 4         |
| 58 | Longitudinal studies support the safety and ethics of virtual reality suicide as a research method. Scientific Reports, $2021$ , $11$ , $9653$ .  | 1.6 | 4         |
| 59 | Suicide Ideation and Thwarted Interpersonal Needs Among Psychiatric Inpatients: A Network Approach.<br>Clinical Psychological Science, 2021, 9, 216770262110006.                                      | 2.4 | 4         |
| 60 | Suicide plan prevalence, recurrence, and longitudinal association with nonfatal suicide attempt. Suicide and Life-Threatening Behavior, 2022, 52, 1062-1073.  | 0.9 | 4         |
| 61 | Does the timing of suicide risk assessments influence ratings of risk severity?. Professional Psychology: Research and Practice, 2017, 48, 107-114.   | 0.6 | 3         |
| 62 | User-Centered Design of a Machine Learning Intervention for Suicide Risk Prediction in a Military Setting. AMIA Annual Symposium proceedings, 2020, 2020, 1050-1058.                                  | 0.2 | 3         |
| 63 | Does Body Mass Index Confer Risk for Future Suicidal Thoughts and Behaviors? A Meta-analysis of Longitudinal Studies. Current Obesity Reports, 2022, 11, 45-54.                                       | 3.5 | 2         |
| 64 | Raising doubt about the anticipated consequences of suicidal behavior: Evidence for a new approach from laboratory and real-world experiments. Behaviour Research and Therapy, 2021, 147, 103971.     | 1.6 | 1         |
| 65 | Understanding the context of novel interventions for self-injurious thoughts and behaviors: A reply to Nielsen et al Journal of Consulting and Clinical Psychology, 2017, 85, 831-834.                | 1.6 | O         |
