#	ARTICLE	IF	CITATIONS
1	Long-Term Transplant-Free Survival After Repair of Total Anomalous Pulmonary Venous Connection. <i>Annals of Thoracic Surgery</i> , 2018, 105, 186-192.	1.3	17
2	In-Hospital Vital Status and Heart Transplants After Intervention for Congenital Heart Disease in the Pediatric Cardiac Care Consortium: Completeness of Ascertainment Using the National Death Index and United Network for Organ Sharing Datasets. <i>Journal of the American Heart Association</i> , 2016, 5, .	3.7	26
3	Mortality and Operative Management for Patients Undergoing Repair of Coarctation of the Aorta. <i>World Journal for Pediatric & Congenital Heart Surgery</i> , 2015, 6, 431-437.	0.8	14
4	Management of an Associated Ventricular Septal Defect at the Time of Coarctation Repair. <i>Annals of Thoracic Surgery</i> , 2014, 98, 1412-1418.	1.3	12
5	Two-ventricle repairs in the unbalanced atrioventricular canal defect spectrum with midterm follow-up. <i>Journal of Thoracic and Cardiovascular Surgery</i> , 2013, 146, 854-860.e3.	0.8	13
6	Repair of "Simple" Total Anomalous Pulmonary Venous Connection: A Review From the Pediatric Cardiac Care Consortium. <i>Annals of Thoracic Surgery</i> , 2012, 94, 133-138.	1.3	50
7	Mitral and tricuspid valve repair and growth in unbalanced atrial ventricular canal defects. <i>Journal of Thoracic and Cardiovascular Surgery</i> , 2012, 143, S29-S32.	0.8	15
8	Ligation of Right Ventricle to Coronary Artery Connections to Allow a Two-Ventricle Repair Track in Patients with Pulmonary Atresia and Intact Ventricular Septum. <i>Operative Techniques in Thoracic and Cardiovascular Surgery</i> , 2011, 16, 122-137.	0.3	2
9	Growth and function of hypoplastic right ventricles and tricuspid valves in infants with pulmonary atresia and intact ventricular septum. <i>Progress in Pediatric Cardiology</i> , 2010, 29, 49-54.	0.4	9
