

# Matthew J Grainge

## List of Publications by Citations

**Source:** <https://exaly.com/author-pdf/1043949/matthew-j-grainge-publications-by-citations.pdf>

**Version:** 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

| #   | Paper                                                                                                                                                                             | IF   | Citations |
|-----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|-----------|
| 110 | Tumor-infiltrating CD8+ lymphocytes predict clinical outcome in breast cancer. <i>Journal of Clinical Oncology</i> , <b>2011</b> , 29, 1949-55                                    | 2.2  | 961       |
| 109 | Global epidemiology of gout: prevalence, incidence and risk factors. <i>Nature Reviews Rheumatology</i> , <b>2015</b> , 11, 649-62                                                | 8.1  | 608       |
| 108 | Venous thromboembolism during active disease and remission in inflammatory bowel disease: a cohort study. <i>Lancet, The</i> , <b>2010</b> , 375, 657-63                          | 4.0  | 455       |
| 107 | Aspirin for the chemoprevention of colorectal adenomas: meta-analysis of the randomized trials. <i>Journal of the National Cancer Institute</i> , <b>2009</b> , 101, 256-66       | 9.7  | 381       |
| 106 | Rising burden of gout in the UK but continuing suboptimal management: a nationwide population study. <i>Annals of the Rheumatic Diseases</i> , <b>2015</b> , 74, 661-7            | 2.4  | 356       |
| 105 | Global histone modifications in breast cancer correlate with tumor phenotypes, prognostic factors, and patient outcome. <i>Cancer Research</i> , <b>2009</b> , 69, 3802-9         | 10.1 | 340       |
| 104 | Prognostic significance of Nottingham histologic grade in invasive breast carcinoma. <i>Journal of Clinical Oncology</i> , <b>2008</b> , 26, 3153-8                               | 2.2  | 336       |
| 103 | Aspirin and folic acid for the prevention of recurrent colorectal adenomas. <i>Gastroenterology</i> , <b>2008</b> , 134, 29-38                                                    | 13.3 | 308       |
| 102 | Risk of venous thromboembolism in patients with cancer: a systematic review and meta-analysis. <i>PLoS Medicine</i> , <b>2012</b> , 9, e1001275                                   | 11.6 | 303       |
| 101 | The worldwide incidence and prevalence of systemic lupus erythematosus: a systematic review of epidemiological studies. <i>Rheumatology</i> , <b>2017</b> , 56, 1945-1961         | 3.9  | 287       |
| 100 | Incidence of venous thromboembolism in patients with cancer - a cohort study using linked United Kingdom databases. <i>European Journal of Cancer</i> , <b>2013</b> , 49, 1404-13 | 7.5  | 267       |
| 99  | FGFR1 amplification in breast carcinomas: a chromogenic in situ hybridisation analysis. <i>Breast Cancer Research</i> , <b>2007</b> , 9, R23                                      | 8.3  | 211       |
| 98  | Invasive lobular carcinoma of the breast: response to hormonal therapy and outcomes. <i>European Journal of Cancer</i> , <b>2008</b> , 44, 73-83                                  | 7.5  | 164       |
| 97  | Familial Aggregation of Systemic Lupus Erythematosus and Coaggregation of Autoimmune Diseases in Affected Families. <i>JAMA Internal Medicine</i> , <b>2015</b> , 175, 1518-26    | 11.5 | 153       |
| 96  | A randomized trial of nicotine-replacement therapy patches in pregnancy. <i>New England Journal of Medicine</i> , <b>2012</b> , 366, 808-18                                       | 59.2 | 152       |
| 95  | The incidence and prevalence of systemic lupus erythematosus in the UK, 1999-2012. <i>Annals of the Rheumatic Diseases</i> , <b>2016</b> , 75, 136-41                             | 2.4  | 141       |
| 94  | Risk factors for first venous thromboembolism around pregnancy: a population-based cohort study from the United Kingdom. <i>Blood</i> , <b>2013</b> , 121, 3953-61                | 2.2  | 138       |

|    |                                                                                                                                                                                                                                                                          |      |     |
|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|-----|
| 93 | Risk of first venous thromboembolism in and around pregnancy: a population-based cohort study. <i>British Journal of Haematology</i> , <b>2012</b> , 156, 366-73                                                                                                         | 4.5  | 133 |
| 92 | Comorbidities in patients with gout prior to and following diagnosis: case-control study. <i>Annals of the Rheumatic Diseases</i> , <b>2016</b> , 75, 210-7                                                                                                              | 2.4  | 125 |
| 91 | CCND1 amplification and cyclin D1 expression in breast cancer and their relation with proteomic subgroups and patient outcome. <i>Breast Cancer Research and Treatment</i> , <b>2008</b> , 109, 325-35                                                                   | 4.4  | 110 |
| 90 | Epidemiology and management of gout in Taiwan: a nationwide population study. <i>Arthritis Research and Therapy</i> , <b>2015</b> , 17, 13                                                                                                                               | 5.7  | 90  |
| 89 | How effective are drug treatments for children with ADHD at improving on-task behaviour and academic achievement in the school classroom? A systematic review and meta-analysis. <i>European Child and Adolescent Psychiatry</i> , <b>2013</b> , 22, 203-16              | 5.5  | 83  |
| 88 | P054 Risk of death during the 2020 UK COVID-19 epidemic among people with rare diseases compared to the general population. <i>Rheumatology</i> , <b>2021</b> , 60,                                                                                                      | 3.9  | 78  |
| 87 | O24 Risk of death during the 2020 UK COVID-19 epidemic and annual influenza seasons among people with vasculitis compared to the general population: a whole-population study using data from the NDRS and the RECORDER project. <i>Rheumatology</i> , <b>2021</b> , 60, | 3.9  | 78  |
| 86 | The SNAP trial: a randomised placebo-controlled trial of nicotine replacement therapy in pregnancy--clinical effectiveness and safety until 2 years after delivery, with economic evaluation. <i>Health Technology Assessment</i> , <b>2014</b> , 18, 1-128              | 4.4  | 75  |
| 85 | Tumor size is an unreliable predictor of prognosis in basal-like breast cancers and does not correlate closely with lymph node status. <i>Breast Cancer Research and Treatment</i> , <b>2009</b> , 117, 199-204                                                          | 4.4  | 69  |
| 84 | When are breast cancer patients at highest risk of venous thromboembolism? A cohort study using English health care data. <i>Blood</i> , <b>2016</b> , 127, 849-57; quiz 953                                                                                             | 2.2  | 66  |
| 83 | Development and validation of risk prediction model for venous thromboembolism in postpartum women: multinational cohort study. <i>BMJ, The</i> , <b>2016</b> , 355, i6253                                                                                               | 5.9  | 64  |
| 82 | Cross-sectional analysis of renal transplantation osteoporosis. <i>Journal of Bone and Mineral Research</i> , <b>1999</b> , 14, 1943-51                                                                                                                                  | 6.3  | 59  |
| 81 | Risk of first venous thromboembolism in pregnant women in hospital: population based cohort study from England. <i>BMJ, The</i> , <b>2013</b> , 347, f6099                                                                                                               | 5.9  | 57  |
| 80 | Folic acid and prevention of colorectal adenomas: a combined analysis of randomized clinical trials. <i>International Journal of Cancer</i> , <b>2011</b> , 129, 192-203                                                                                                 | 7.5  | 56  |
| 79 | Familial Risk of Sjögren's Syndrome and Co-aggregation of Autoimmune Diseases in Affected Families: A Nationwide Population Study. <i>Arthritis and Rheumatology</i> , <b>2015</b> , 67, 1904-12                                                                         | 9.5  | 53  |
| 78 | REFINE (REducing Falls in In-patient Elderly) using bed and bedside chair pressure sensors linked to radio-pagers in acute hospital care: a randomised controlled trial. <i>Age and Ageing</i> , <b>2014</b> , 43, 247-53                                                | 3    | 53  |
| 77 | Eligibility for and prescription of urate-lowering treatment in patients with incident gout in England. <i>JAMA - Journal of the American Medical Association</i> , <b>2014</b> , 312, 2684-6                                                                            | 27.4 | 53  |
| 76 | Impact of risk factors on the timing of first postpartum venous thromboembolism: a population-based cohort study from England. <i>Blood</i> , <b>2014</b> , 124, 2872-80                                                                                                 | 2.2  | 50  |

|    |                                                                                                                                                                                                                                           |      |    |
|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|----|
| 75 | The importance of acuity, stereopsis, and contrast sensitivity for health-related quality of life in elderly women with cataracts. <i>Investigative Ophthalmology and Visual Science</i> , <b>2008</b> , 49, 1-6                          |      | 50 |
| 74 | Familial aggregation of gout and relative genetic and environmental contributions: a nationwide population study in Taiwan. <i>Annals of the Rheumatic Diseases</i> , <b>2015</b> , 74, 369-74                                            | 2.4  | 49 |
| 73 | Causes of death in people with celiac disease spanning the pre- and post-serology era: a population-based cohort study from Derby, UK. <i>American Journal of Gastroenterology</i> , <b>2011</b> , 106, 933-9                             | 0.7  | 48 |
| 72 | The incidence, prevalence, and survival of systemic sclerosis in the UK Clinical Practice Research Datalink. <i>Clinical Rheumatology</i> , <b>2018</b> , 37, 2103-2111                                                                   | 3.9  | 47 |
| 71 | Mortality in systemic lupus erythematosus in the United Kingdom 1999-2012. <i>Rheumatology</i> , <b>2016</b> , 55, 854-60                                                                                                                 | 3.9  | 45 |
| 70 | Dermoscopy, with and without visual inspection, for diagnosing melanoma in adults. <i>The Cochrane Library</i> , <b>2018</b> , 12, CD011902                                                                                               | 5.2  | 45 |
| 69 | Burden of Comorbidity in Systemic Lupus Erythematosus in the UK, 1999-2012. <i>Arthritis Care and Research</i> , <b>2016</b> , 68, 819-27                                                                                                 | 4.7  | 43 |
| 68 | Long-term survival in paraneoplastic Lambert-Eaton myasthenic syndrome. <i>Neurology</i> , <b>2017</b> , 88, 1334-1339                                                                                                                    | 3.9  | 40 |
| 67 | Cervical human papillomavirus screening among older women. <i>Emerging Infectious Diseases</i> , <b>2005</b> , 11, 1680-5                                                                                                                 | 10.2 | 40 |
| 66 | Incidence of ANCA-associated vasculitis in a UK mixed ethnicity population. <i>Rheumatology</i> , <b>2016</b> , 55, 1656-63                                                                                                               | 3.9  | 38 |
| 65 | The incidence of first venous thromboembolism in and around pregnancy using linked primary and secondary care data: a population based cohort study from England and comparative meta-analysis. <i>PLoS ONE</i> , <b>2013</b> , 8, e70310 | 3.7  | 38 |
| 64 | Ornithine decarboxylase G316A genotype is prognostic for colorectal adenoma recurrence and predicts efficacy of aspirin chemoprevention. <i>Clinical Cancer Research</i> , <b>2008</b> , 14, 2303-9                                       | 12.9 | 38 |
| 63 | Rheumatoid arthritis is getting less frequent-results of a nationwide population-based cohort study. <i>Rheumatology</i> , <b>2017</b> , 56, 736-744                                                                                      | 3.9  | 37 |
| 62 | Risk of venous thromboembolism in people with lung cancer: a cohort study using linked UK healthcare data. <i>British Journal of Cancer</i> , <b>2016</b> , 115, 115-21                                                                   | 8.7  | 37 |
| 61 | The prevalence of psychological comorbidity in people with vitiligo: a systematic review and meta-analysis. <i>British Journal of Dermatology</i> , <b>2018</b> , 178, 863-878                                                            | 4    | 35 |
| 60 | Familial Aggregation and Heritability of Schizophrenia and Co-aggregation of Psychiatric Illnesses in Affected Families. <i>Schizophrenia Bulletin</i> , <b>2017</b> , 43, 1070-1078                                                      | 1.3  | 34 |
| 59 | Folate metabolism polymorphisms influence risk of colorectal adenoma recurrence. <i>Cancer Epidemiology Biomarkers and Prevention</i> , <b>2006</b> , 15, 1607-13                                                                         | 4    | 33 |
| 58 | Genetic variants of UGT1A6 influence risk of colorectal adenoma recurrence. <i>Clinical Cancer Research</i> , <b>2006</b> , 12, 6585-9                                                                                                    | 12.9 | 33 |
