

Julio Spinelli

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/10489867/julio-spinelli-publications-by-year.pdf>

Version: 2024-04-19

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

13
papers

2,688

#	Paper	IF	Citations
13	Tailoring cardiac resynchronization therapy using interventricular asynchrony. Validation of a simple model. <i>American Journal of Physiology - Heart and Circulatory Physiology</i> , 2006 , 290, H968-77	5.2	39
12	Comparison of stimulation sites within left ventricular veins on the acute hemodynamic effects of cardiac resynchronization therapy. <i>Heart Rhythm</i> , 2005 , 2, 376-81	6.7	85
11	Area of left ventricular regional conduction delay and preserved myocardium predict responses to cardiac resynchronization therapy. <i>Journal of Cardiovascular Electrophysiology</i> , 2005 , 16, 690-5	2.7	25
10	Short-term effects of right-left heart sequential cardiac resynchronization in patients with heart failure, chronic atrial fibrillation, and atrioventricular nodal block. <i>Circulation</i> , 2004 , 110, 3404-10	16.7	104
9	Biventricular mechanical asynchrony predicts hemodynamic effect of uni- and biventricular pacing. <i>American Journal of Physiology - Heart and Circulatory Physiology</i> , 2003 , 285, H2788-96	5.2	45
8	Left ventricular resynchronization therapy in a canine model of left bundle branch block. <i>American Journal of Physiology - Heart and Circulatory Physiology</i> , 2002 , 282, H2238-44	5.2	46
7	Systolic improvement and mechanical resynchronization does not require electrical synchrony in the dilated failing heart with left bundle-branch block. <i>Circulation</i> , 2002 , 106, 1760-3	16.7	380
6	Effect of resynchronization therapy stimulation site on the systolic function of heart failure patients. <i>Circulation</i> , 2001 , 104, 3026-9	16.7	525
5	Impact of cardiac resynchronization therapy using hemodynamically optimized pacing on left ventricular remodeling in patients with congestive heart failure and ventricular conduction disturbances. <i>Journal of the American College of Cardiology</i> , 2001 , 38, 1957-65	15.1	335
4	Cardiac resynchronization for heart failure: present status. <i>Congestive Heart Failure</i> , 2000 , 6, 325-329		6
3	Effect of pacing chamber and atrioventricular delay on acute systolic function of paced patients with congestive heart failure. The Pacing Therapies for Congestive Heart Failure Study Group. The Guidant Congestive Heart Failure Research Group. <i>Circulation</i> , 1999 , 99, 2993-3001	16.7	940
2	Transvenous biventricular pacing for heart failure: can the obstacles be overcome?. <i>American Journal of Cardiology</i> , 1999 , 83, 136D-142D	3	143
1	Pacing for heart failure: selection of patients, techniques and benefits. <i>European Journal of Heart Failure</i> , 1999 , 1, 275-9	12.3	15
