#	ARTICLE	IF	CITATIONS
1	The Cardiac Effects of COVID-19: Review of articles. <i>Current Problems in Cardiology</i> , 2022, 47, 100981.	2.4	3
2	Effect of a nut-enriched low-calorie diet on body weight and selected markers of inflammation in overweight and obese stable coronary artery disease patients: a randomized controlled study. <i>European Journal of Clinical Nutrition</i> , 2021, 75, 1099-1108.	2.9	11
3	Triggering acute pancreatitis complicated with acute myocardial infarction by marijuana: a rare case report. <i>Acta Biomedica</i> , 2021, 92, e2021035.	0.3	0
4	The No-reflow Phenomenon: Is it Predictable by Demographic factors and Routine Laboratory Data?. <i>Acta Biomedica</i> , 2021, 92, e2021297.	0.3	5
5	Coronary dissection with ST elevation myocardial infarction responding to thrombolytic and conservative therapy alone. <i>Future Cardiology</i> , 2020, 16, 271-274.	1.2	0
6	Cardiac arrest after topical application of lidocaine during microneedling procedure: A rare case. <i>Dermatologic Therapy</i> , 2020, 33, e14406.	1.7	1
7	Assessment of Admission Time Cell Blood Count (CBC) Parameters in Predicting Post-primary Percutaneous Coronary Intervention TIMI Frame Count in Patients with ST-segment Elevation Myocardial Infarction. <i>Cardiovascular & Hematological Disorders Drug Targets</i> , 2020, 20, 191-197.	0.7	4
8	Value of Transverse Groove on the Earlobe and Hair Growth on the Ear to Predict the Risk for Coronary Artery Disease and Its Severity among Iranian Population, in Tehran City. <i>Galen</i> , 2020, 9, 1443.	0.6	1
9	Value of Delta Fractional Flow Reserve ($\hat{\Delta}$ FFR) For Predicting Coronary Ischemic Lesions. <i>Galen</i> , 2020, 9, e1528.	0.6	0
10	Huge aneurysmal fistula from left main artery to right atrium in a man with atypical chest pain and dyspnea on exertion. <i>Future Cardiology</i> , 2019, 15, 85-88.	1.2	0
11	The association between exposure to air pollutants including PM10, PM2.5, ozone, carbon monoxide, sulfur dioxide, and nitrogen dioxide concentration and the relative risk of developing STEMI: A case-crossover design. <i>Environmental Research</i> , 2018, 161, 299-303.	7.5	53
12	Mahaim fibers coexisting with coarctation of aorta and bicuspid aortic valve. <i>Future Cardiology</i> , 2018, 14, 483-489.	1.2	1
13	Left ventricular sphericity index analysis for the prediction of appropriate implantable cardioverter-defibrillator therapy. <i>PACE - Pacing and Clinical Electrophysiology</i> , 2018, 41, 1192-1196.	1.2	4
14	The role of FFR in clinical decision making in patients with moderate coronary lesions: a pilot study. <i>Acta Biomedica</i> , 2018, 89, 378-381.	0.3	3
15	Is it necessary to discontinue metformin in diabetic patients with GFR > 60 ml/min per 1.73 m ² undergoing coronary angiography: A controversy still exists?. <i>Acta Biomedica</i> , 2018, 89, 227-232.	0.3	9
16	Factors affecting ventriculophasic response: An investigation in patients with permanent pacemaker. <i>Journal of Electrocardiology</i> , 2017, 50, 598-602.	0.9	3
17	A Novel Risk Score in Predicting Failure or Success for Antegrade Approach to Percutaneous Coronary Intervention of Chronic Total Occlusion: Antegrade CTO Score. <i>International Journal of Angiology</i> , 2017, 26, 089-094.	0.6	10
18	Evaluation of pentraxin-3 level and its related factors in patients undergoing primary percutaneous coronary intervention. <i>ARYA Atherosclerosis</i> , 2017, 13, 73-78.	0.4	3

#	ARTICLE	IF	CITATIONS
19	Visual-Functional Mismatch Between Coronary Angiography, Fractional Flow Reserve, and Quantitative Coronary Angiography. <i>International Journal of Angiology</i> , 2016, 25, 229-234.	0.6	7
20	Comparison of fractional flow reserve measurements using intracoronary adenosine versus intracoronary sodium nitroprusside infusions in moderately stenotic coronary artery lesions. <i>Cardiovascular Revascularization Medicine</i> , 2016, 17, 441-443.	0.8	1
21	Subcapsular liver hematoma after fibrinolytic therapy for acute myocardial infarction: a rare case report. <i>Acta Biomedica</i> , 2016, 87, 318-320.	0.3	1
22	Q wave and ST segment elevation in inferior leads: What is the diagnosis?. <i>Journal of Arrhythmia</i> , 2015, 31, 333-335.	1.2	0
23	Pentraxin 3 Is Highly Specific for Predicting Anatomical Complexity of Coronary Artery Stenosis as Determined by the Synergy between Percutaneous Coronary Intervention with Taxus and Cardiac Surgery Score. <i>Korean Circulation Journal</i> , 2014, 44, 220.	1.9	6
24	Radiation safety awareness and practice among Iranian cardiology and radiology residents/fellows. <i>Anatolian Journal of Cardiology</i> , 2014, 14, 310-311.	0.4	1
25	Academic training in radiation safety awareness and practice among Iranian residents/fellows. <i>Heart Asia</i> , 2014, 6, 137-141.	1.1	1
26	Stent underexpansion in angiographic guided percutaneous coronary intervention, despite adjunctive balloon post-dilatation, in drug eluting stent era. <i>ARYA Atherosclerosis</i> , 2014, 10, 13-7.	0.4	3
27	Comparison between Intracoronary Abciximab and Intravenous Eptifibatide Administration during Primary Percutaneous Coronary Intervention of Acute ST-Segment Elevation Myocardial Infarction. <i>The Journal of Tehran Heart Center</i> , 2013, 8, 132-9.	0.3	0
28	Traumatic Coronary Artery Fistula Closure With Stent Graft. <i>Methodist DeBaakey Cardiovascular Journal</i> , 2012, 8, 59-60.	1.0	4
29	Evaluation of asymptomatic peripheral arterial disease by ankle- brachial index in patients with concomitant coronary arterial disease. , 2012, 6, 128-30.		2
30	Unusual presentation of a massive pulmonary embolism. <i>Journal of Tehran University Heart Center</i> , 2011, 6, 41-4.	0.2	0
31	Coronary aneurysm and silent myocardial infarction in an adolescent secondary to undiagnosed childhood Kawasaki disease. <i>Experimental and Clinical Cardiology</i> , 2010, 15, e18-9.	1.3	1
32	Extrinsic Compression of Left Main Coronary Artery by the Pulmonary Trunk Secondary to Pulmonary Hypertension Documented Using 64â€šlice Multidetector Computed Tomography Coronary Angiography. <i>Clinical Cardiology</i> , 2009, 32, 426-428.	1.8	23
