#	ARTICLE	IF	CITATIONS
1	Process Evaluation of a Workplace Health Promotion Intervention Aimed at Improving Work Engagement and Energy Balance. <i>Journal of Occupational and Environmental Medicine</i> , 2013, 55, 19-26.	1.7	88
2	Effectiveness of a Worksite Mindfulness-Related Multi-Component Health Promotion Intervention on Work Engagement and Mental Health: Results of a Randomized Controlled Trial. <i>PLoS ONE</i> , 2014, 9, e84118.	2.5	76
3	Effectiveness of a Combined Social and Physical Environmental Intervention on Presenteeism, Absenteeism, Work Performance, and Work Engagement in Office Employees. <i>Journal of Occupational and Environmental Medicine</i> , 2014, 56, 258-265.	1.7	54
4	Domains and determinants of retirement timing: A systematic review of longitudinal studies. <i>BMC Public Health</i> , 2018, 18, 1083.	2.9	53
5	Effectiveness of a worksite mindfulness-based multi-component intervention on lifestyle behaviors. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2014, 11, 9.	4.6	50
6	Researching Complex and Multi-Level Workplace Factors Affecting Disability and Prolonged Sickness Absence. <i>Journal of Occupational Rehabilitation</i> , 2016, 26, 399-416.	2.2	50
7	The effects of exit from work on health across different socioeconomic groups: A systematic literature review. <i>Social Science and Medicine</i> , 2018, 198, 36-45.	3.8	47
8	Effectiveness of a Worksite Social & Physical Environment Intervention on Need for Recovery, Physical Activity and Relaxation; Results of a Randomized Controlled Trial. <i>PLoS ONE</i> , 2014, 9, e114860.	2.5	47
9	Process variables in organizational stress management intervention evaluation research: a systematic review. <i>Scandinavian Journal of Work, Environment and Health</i> , 2016, 42, 371-381.	3.4	44
10	Work Adjustments in a Representative Sample of Employees with a Chronic Disease in the Netherlands. <i>Journal of Occupational Rehabilitation</i> , 2013, 23, 200-208.	2.2	37
11	Work stress prevention needs of employees and supervisors. <i>BMC Public Health</i> , 2018, 18, 642.	2.9	36
12	Employment status transitions in employees with and without chronic disease in the Netherlands. <i>International Journal of Public Health</i> , 2018, 63, 713-722.	2.3	36
13	The public and the Internet: Multifaceted drives for seeking health information. <i>Health Informatics Journal</i> , 2010, 16, 145-156.	2.1	35
14	Predictors of Having Paid Work in Older Workers With and Without Chronic Disease: A 3-Year Prospective Cohort Study. <i>Journal of Occupational Rehabilitation</i> , 2013, 24, 563-72.	2.2	32
15	Risk factors for fatigue among airline pilots. <i>International Archives of Occupational and Environmental Health</i> , 2017, 90, 39-47.	2.3	31
16	Relation Between Perceived Health and Sick Leave in Employees With a Chronic Illness. <i>Journal of Occupational Rehabilitation</i> , 2011, 21, 211-219.	2.2	30
17	Mindful "Vitality in Practice": an intervention to improve the work engagement and energy balance among workers; the development and design of the randomised controlled trial. <i>BMC Public Health</i> , 2011, 11, 736.	2.9	30
18	Working life expectancy in good and poor self-perceived health among Dutch workers aged 55-65 years with a chronic disease over the period 1992-2016. <i>Occupational and Environmental Medicine</i> , 2018, 75, 792-797.	2.8	28

#	ARTICLE	IF	CITATIONS
19	Improving mental health of student and novice nurses to prevent dropout: A systematic review. <i>Journal of Advanced Nursing</i> , 2020, 76, 2494-2509.	3.3	25
20	Workplace Outcomes in Work-Disability Prevention Research: A Review with Recommendations for Future Research. <i>Journal of Occupational Rehabilitation</i> , 2016, 26, 434-447.	2.2	24
21	The development of the Be Active & Relax â€œVitality in Practiceâ€•(VIP) project and design of an RCT to reduce the need for recovery in office employees. <i>BMC Public Health</i> , 2012, 12, 592.	2.9	23
22	The role of autonomy and social support in the relation between psychosocial safety climate and stress in health care workers. <i>BMC Public Health</i> , 2017, 17, 558.	2.9	23
23	Influence of chronic diseases on societal participation in paid work, volunteering and informal caregiving in Europe: a 12-year follow-up study. <i>Journal of Epidemiology and Community Health</i> , 2019, 73, 136-141.	3.7	23
24	Hands4U: the effectiveness of a multifaceted implementation strategy on behaviour related to the prevention of hand eczemaâ€”a randomised controlled trial among healthcare workers. <i>Occupational and Environmental Medicine</i> , 2014, 71, 492-499.	2.8	22
25	Process Evaluation of a Worksite Social and Physical Environmental Intervention. <i>Journal of Occupational and Environmental Medicine</i> , 2013, 55, 1409-1420.	1.7	21
26	Predictors of working beyond retirement in older workers with and without a chronic disease - results from data linkage of Dutch questionnaire and registry data. <i>BMC Public Health</i> , 2018, 18, 265.	2.9	21
27	Determinants of working until retirement compared to a transition to early retirement among older workers with and without chronic diseases: Results from a Dutch prospective cohort study. <i>Scandinavian Journal of Public Health</i> , 2018, 46, 400-408.	2.3	18
28	Socioeconomic inequalities in effectiveness of and compliance to workplace health promotion programs: an individual participant data (IPD) meta-analysis. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020, 17, 112.	4.6	17
29	Effectiveness of an integrated care intervention on supervisor support and work functioning of workers with rheumatoid arthritis. <i>Disability and Rehabilitation</i> , 2017, 39, 354-362.	1.8	16
30	Socioeconomic inequalities in the effectiveness of workplace health promotion programmes on body mass index: An individual participant data meta-analysis. <i>Obesity Reviews</i> , 2020, 21, e13101.	6.5	16
31	How qualitative studies can strengthen occupational health research. <i>Scandinavian Journal of Work, Environment and Health</i> , 2021, 47, 91-93.	3.4	16
32	Classifying Health Questions Asked by the Public Using the ICPC-2 Classification and a Taxonomy of Generic Clinical Questions: An Empirical Exploration of the Feasibility. <i>Health Communication</i> , 2010, 25, 175-181.	3.1	15
33	Associations Between Self-Reported Sleep Duration and Mortality in Employed Individuals: Systematic Review and Meta-Analysis. <i>American Journal of Health Promotion</i> , 2021, 35, 853-865.	1.7	14
34	Use of Intervention Mapping for Occupational Risk Prevention and Health Promotion: A Systematic Review of Literature. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 1775.	2.6	14
35	Implementing interventions to reduce work-related stress among health-care workers: an investment appraisal from the employerâ€™s perspective. <i>International Archives of Occupational and Environmental Health</i> , 2020, 93, 123-132.	2.3	13
36	Process evaluation of a tailored mobile health intervention aiming to reduce fatigue in airline pilots. <i>BMC Public Health</i> , 2016, 16, 894.	2.9	12

#	ARTICLE	IF	CITATIONS
37	The longitudinal association between multiple job holding and long-term sickness absence among Danish employees: an explorative study using register-based data. <i>International Archives of Occupational and Environmental Health</i> , 2017, 90, 799-807.	2.3	12
38	Economic evaluation of an intervention program with the aim to improve atâ€work productivity for workers with rheumatoid arthritis. <i>Journal of Occupational Health</i> , 2017, 59, 267-279.	2.1	12
39	Profiles of family caregivers of patients at the end of life at home: a Q-methodological study into family caregiverâ€™ support needs. <i>BMC Palliative Care</i> , 2020, 19, 51.	1.8	12
40	The association between exposure to psychosocial work factors and mental health in older employees, a 3-year follow-up study. <i>International Archives of Occupational and Environmental Health</i> , 2018, 91, 57-66.	2.3	11
41	Predictors of transitions from single to multiple job holding: Results of a longitudinal study among employees aged 45â€64 in the Netherlands. <i>American Journal of Industrial Medicine</i> , 2017, 60, 696-710.	2.1	9
42	Distinguishing groups and exploring health differences among multiple job holders aged 45Âyears and older. <i>International Archives of Occupational and Environmental Health</i> , 2019, 92, 67-79.	2.3	9
43	Differences in self-rated health and work ability between self-employed workers and employees: Results from a prospective cohort study in the Netherlands. <i>PLoS ONE</i> , 2018, 13, e0206618.	2.5	8
44	Stress Prevention@Work: a study protocol for the evaluation of a multifaceted integral stress prevention strategy to prevent employee stress in a healthcare organization: a cluster controlled trial. <i>BMC Public Health</i> , 2018, 18, 26.	2.9	8
45	Effects of Early Retirement Policy Changes on Working until Retirement: Natural Experiment. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 3895.	2.6	8
46	Work-site musculoskeletal pain risk estimates by trained observers â€“ a prospective cohort study. <i>Ergonomics</i> , 2012, 55, 1373-1381.	2.1	7
47	Physical activity and relaxation in the work setting to reduce the need for recovery: what works for whom?. <i>BMC Public Health</i> , 2016, 16, 866.	2.9	7
48	Health differences between multiple and single job holders in precarious employment in the Netherlands: A cross-sectional study among Dutch workers. <i>PLoS ONE</i> , 2019, 14, e0222217.	2.5	7
49	Poor health, physical workload and occupational social class as determinants of health-related job loss: results from a prospective cohort study in the UK. <i>BMJ Open</i> , 2019, 9, e026423.	1.9	6
50	Occupational Exposures Associated with Life Expectancy without and with Disability. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 6377.	2.6	6
51	Socioeconomic inequalities in reach, compliance and effectiveness of lifestyle interventions among workers: protocol for an individual participant data meta-analysis and equity-specific reanalysis. <i>BMJ Open</i> , 2019, 9, e025463.	1.9	5
52	Home care for terminally ill patients: the experiences of family caregivers with and without paid work. <i>BMJ Supportive and Palliative Care</i> , 2019, , bmjspcare-2019-001949.	1.6	5
53	Responsive evaluation of stakeholder dialogue as a worksite health promotion intervention to contribute to the reduction of SEP related health inequalities: a study protocol. <i>BMC Health Services Research</i> , 2020, 20, 196.	2.2	5
54	Bias and Power in Group-Based Epidemiologic Studies of Low-Back Pain Exposure and Outcome â€“ Effects of Study Size and Exposure Measurement Efforts. <i>Annals of Occupational Hygiene</i> , 2015, 59, 439-54.	1.9	4

#	ARTICLE	IF	CITATIONS
55	Do Work Characteristics Predict Health Deterioration Among Employees with Chronic Diseases?. Journal of Occupational Rehabilitation, 2018, 28, 289-297.	2.2	3
56	Societal participation of individuals aged 55â€“64 years with and without chronic disease. European Journal of Public Health, 2019, 29, 93-98.	0.3	3
57	Trajectories of sickness absence and disability pension days among people with multiple sclerosis by type of occupation. Multiple Sclerosis Journal, 2022, 28, 1402-1413.	3.0	3
58	Flight Schedules and Occupational Accidents Among Cabin Crew: a Longitudinal Study. Aviation, Space, and Environmental Medicine, 2013, 84, 1281-1285.	0.5	2
59	Stakeholder dialogue on dilemmas at work as a workplace health promotion intervention including employees with a low SEP: a Responsive Evaluation. BMC Public Health, 2022, 22, 407.	2.9	2
60	Associations of sustained smoking and smoking cessation with work-related outcomes: a longitudinal analysis. International Archives of Occupational and Environmental Health, 2021, 94, 529-537.	2.3	1
61	Association between self-reported sleep duration and cardiometabolic risk in corporate executives. International Archives of Occupational and Environmental Health, 2021, 94, 1809-1821.	2.3	1
62	Design of a Participatory Organizational-Level Work Stress Prevention Approach in Primary Education. Frontiers in Psychology, 2022, 13, 827278.	2.1	0
