#	ARTICLE	IF	CITATIONS
1	The challenges with managing polycystic ovary syndrome: A qualitative study of women's and clinicians' experiences. <i>Patient Education and Counseling</i> , 2022, 105, 719-725.	1.0	19
2	"œlt" about our bodies" we have the right to know this stuff" A qualitative focus group study on Australian women's perspectives on breast density. <i>Patient Education and Counseling</i> , 2022, 105, 632-640.	1.0	6
3	Perceptions of Conflicting Breast Cancer Screening Recommendations Among Racially/Ethnically Diverse Women: a Multimethod Study. <i>Journal of General Internal Medicine</i> , 2022, 37, 1145-1154.	1.3	3
4	Australian Women's Intentions and Psychological Outcomes Related to Breast Density Notification and Information. <i>JAMA Network Open</i> , 2022, 5, e2216784.	2.8	5
5	Effects of awareness of breast cancer overdiagnosis among women with screen-detected or incidentally found breast cancer: a qualitative interview study. <i>BMJ Open</i> , 2022, 12, e061211.	0.8	6
6	Experiences of Patient-Led Surveillance, Including Patient-Performed Teledermoscopy, in the MEL-SELF Pilot Randomized Controlled Trial: Qualitative Interview Study. <i>JMIR Dermatology</i> , 2022, 5, e35916.	0.4	3
7	Breast density notification: evidence on whether benefit outweighs harm is required to inform future screening practice. <i>BMJ Evidence-Based Medicine</i> , 2021, 26, 309-311.	1.7	14
8	"œl would not go to him" Focus groups exploring community responses to a public health campaign aimed at reducing unnecessary diagnostic imaging of low back pain. <i>Health Expectations</i> , 2021, 24, 648-658.	1.1	12
9	Psychosocial and clinical predictors of continued cancer screening in older adults. <i>Patient Education and Counseling</i> , 2021, 104, 3093-3096.	1.0	10
10	Polycystic ovary syndrome: why widening the diagnostic criteria may be harming women. <i>BMJ</i> , The, 2021, 373, n700.	3.0	2
11	Informing Women About Overdetection in Breast Cancer Screening: Two-Year Outcomes From a Randomized Trial. <i>Journal of the National Cancer Institute</i> , 2021, 113, 1523-1530.	3.0	15
12	General practitioners' (GPs) understanding and views on breast density in Australia: a qualitative interview study. <i>BMJ Open</i> , 2021, 11, e047513.	0.8	8
13	Factors involved in treatment decision making for women diagnosed with ductal carcinoma in situ: A qualitative study. <i>Breast</i> , 2021, 60, 123-130.	0.9	2
14	Preferences for More or Less Health Care and Association With Health Literacy of Men Eligible for Prostate-Specific Antigen Screening in Australia. <i>JAMA Network Open</i> , 2021, 4, e2128380.	2.8	5
15	Women's Acceptance of Overdetection in Breast Cancer Screening: Can We Assess Harm-Benefit Tradeoffs?. <i>Medical Decision Making</i> , 2020, 40, 42-51.	1.2	13
16	Authors' response. <i>Medical Decision Making</i> , 2020, 40, 715-717.	1.2	0
17	Views of healthcare professionals about the role of active monitoring in the management of ductal carcinoma in situ (DCIS): Qualitative interview study. <i>Breast</i> , 2020, 54, 99-105.	0.9	9
18	Mammography screening for breast cancer"the UK Age trial. <i>Lancet Oncology</i> , The, 2020, 21, e504.	5.1	1

#	ARTICLE	IF	CITATIONS
19	Effect of different communication strategies about stopping cancer screening on screening intention and cancer anxiety: a randomised online trial of older adults in Australia. <i>BMJ Open</i> , 2020, 10, e034061.	0.8	11
20	Clinicians's perspectives on diagnosing polycystic ovary syndrome in Australia: a qualitative study. <i>Human Reproduction</i> , 2020, 35, 660-668.	0.4	18
21	Evaluating two decision aids for Australian men supporting informed decisions about prostate cancer screening: A randomised controlled trial. <i>PLoS ONE</i> , 2020, 15, e0227304.	1.1	6
22	Impact of a diagnosis of polycystic ovary syndrome on diet, physical activity and contraceptive use in young women: findings from the Australian Longitudinal Study of Women's Health. <i>Human Reproduction</i> , 2020, 35, 394-403.	0.4	13
23	The benefits and harms of receiving a polycystic ovary syndrome diagnosis: a qualitative study of women's experiences. <i>Human Reproduction Open</i> , 2019, 2019, hoz026.	2.3	28
24	Patients' Views About Skin Self-examination After Treatment for Localized Melanoma. <i>JAMA Dermatology</i> , 2019, 155, 914.	2.0	22
25	Examining the information needed for acceptance of deintensified screening programmes: qualitative focus groups about cervical screening in Australia. <i>BMJ Open</i> , 2019, 9, e029319.	0.8	15
26	Resisting recommended treatment for prostate cancer: a qualitative analysis of the lived experience of possible overdiagnosis. <i>BMJ Open</i> , 2019, 9, e026960.	0.8	12
27	Could disease labelling have positive effects? An experimental study exploring the effect of the chronic fatigue syndrome label on intended social support. <i>Patient Education and Counseling</i> , 2019, 102, 486-493.	1.0	5
28	The effect of different communication strategies about stopping cancer screening on intention to screen and cancer anxiety: a randomised online study in older adults. , 2019, , .		0
29	Decision-making about mammographic screening: pursuing informed choice. <i>Climacteric</i> , 2018, 21, 209-213.	1.1	18
30	Using a decision aid may prompt some younger women (38-50 years) to rethink breast cancer screening plans. <i>Evidence-based Nursing</i> , 2018, 21, 10-11.	0.1	1
31	Should women aged 70-74 be invited to participate in screening mammography? A report on two Australian community juries. <i>BMJ Open</i> , 2018, 8, e021174.	0.8	21
32	Participant experiences of two successful habit-based weight-loss interventions in Australia: a qualitative study. <i>BMJ Open</i> , 2018, 8, e020146.	0.8	15
33	Impact of extending screening mammography to older women Information to support informed choices. <i>International Journal of Cancer</i> , 2017, 141, 1540-1550.	2.3	17
34	Communicating about overdiagnosis: Learning from community focus groups on osteoporosis. <i>PLoS ONE</i> , 2017, 12, e0170142.	1.1	16
35	Improving communication about cancer screening: moving towards informed decision making. <i>Public Health Research and Practice</i> , 2017, 27, .	0.7	32
36	How information about overdiagnosis changes breast cancer screening decisions: a mediation analysis within a randomised controlled trial. <i>BMJ Open</i> , 2017, 7, e016246.	0.8	7

#	ARTICLE	IF	CITATIONS
37	Information on 'Overdiagnosis' in Breast Cancer Screening on Prominent United Kingdom- and Australia-Oriented Health Websites. PLoS ONE, 2016, 11, e0152279.	1.1	8
38	The differential effects of presenting uncertainty around benefits and harms on treatment decision making. Patient Education and Counseling, 2016, 99, 974-980.	1.0	12
39	The influence of the "cancer effect"™ on young women's responses to overdiagnosis in cervical screening. Patient Education and Counseling, 2016, 99, 1568-1575.	1.0	9
40	Public preferences for communicating personal genomic risk information: a focus group study. Health Expectations, 2016, 19, 1203-1214.	1.1	28
41	The importance of enabling informed decision making for women considering breast cancer screening. Journal of Medical Screening, 2016, 23, 55-55.	1.1	3
42	Walking the tightrope: communicating overdiagnosis in modern healthcare. BMJ, The, 2016, 352, i348.	3.0	69
43	Informed and Shared Decision Making in Breast Screening. , 2016, , 403-420.		2
44	Exploring the Potential Emotional and Behavioural Impact of Providing Personalised Genomic Risk Information to the Public: A Focus Group Study. Public Health Genomics, 2015, 18, 309-317.	0.6	15
45	Public Opinions about Overdiagnosis: A National Community Survey. PLoS ONE, 2015, 10, e0125165.	1.1	48
46	How different terminology for ductal carcinoma in situ impacts women's concern and treatment preferences: a randomised comparison within a national community survey. BMJ Open, 2015, 5, e008094.	0.8	46
47	Use of a decision aid including information on overdetection to support informed choice about breast cancer screening: a randomised controlled trial. Lancet, The, 2015, 385, 1642-1652.	6.3	235
48	What do you think overdiagnosis means? A qualitative analysis of responses from a national community survey of Australians. BMJ Open, 2015, 5, e007436-e007436.	0.8	31
49	How different terminology for ductal carcinoma in situ (DCIS) impacts women's concern and management preferences: A qualitative study. Breast, 2015, 24, 673-679.	0.9	21
50	Overdetection in breast cancer screening: development and preliminary evaluation of a decision aid. BMJ Open, 2014, 4, e006016-e006016.	0.8	31
51	The effect of information about overdetection of breast cancer on women's decision-making about mammography screening: study protocol for a randomised controlled trial. BMJ Open, 2014, 4, e004990.	0.8	35
52	Women's views on overdiagnosis in breast cancer screening: a qualitative study. BMJ, The, 2013, 346, f158-f158.	3.0	135
53	Lexical Quality and Reading Skill: Bottom-Up and Top-Down Contributions to Sentence Processing. Scientific Studies of Reading, 2012, 16, 240-262.	1.3	44
54	How do we achieve informed choice for women considering breast screening?. Preventive Medicine, 2011, 53, 144-146.	1.6	36
