#	Article	IF	Citations
1	GreenBSN: Enabling Energy-Proportional Cellular Base Station Networks. IEEE Transactions on Mobile Computing, 2014, 13, 2537-2551.	5.8	30
2	Toward History-Aware Robust 802.11 Rate Adaptation. IEEE Transactions on Mobile Computing, 2013, 12, 502-515.	5.8	23
3	Secure Incentives for Commercial Ad Dissemination in Vehicular Networks. IEEE Transactions on Vehicular Technology, 2012, 61, 2715-2728.	6.3	52
4	Traffic-driven power saving in operational 3G cellular networks. , 2011, , .		150
5	Secure incentives for commercial ad dissemination in vehicular networks. , 2007, , .		103
6	A secure alternate path routing in sensor networks. Computer Communications, 2006, 30, 153-165.	5.1	44
7	ARMS: An Authenticated Routing Message in Sensor Networks. Lecture Notes in Computer Science, 2006, , 158-173.	1.3	4
