

Jack M Loomis

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/10860944/jack-m-loomis-publications-by-year.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
113	Visual control of steering in curve driving. <i>Journal of Vision</i> , 2019 , 19, 1	0.4	1
112	SPATIAL UPDATING OF HAPTIC ARRAYS ACROSS THE LIFE SPAN. <i>Experimental Aging Research</i> , 2017 , 43, 274-290	1.7	7
111	Spatial updating of multiple targets: Comparison of younger and older adults. <i>Memory and Cognition</i> , 2017 , 45, 1240-1251	2.2	2
110	Presence in Virtual Reality and Everyday Life: Immersion within a World of Representation. <i>Presence: Teleoperators and Virtual Environments</i> , 2016 , 25, 169-174	2.9	22
109	Proposed applications of research on action-specific effects are premature. <i>Journal of Applied Research in Memory and Cognition</i> , 2016 , 5, 77-79	2.3	7
108	Touch-screen technology for the dynamic display of -2D spatial information without vision: promise and progress. <i>Multisensory Research</i> , 2014 , 27, 359-78	1.9	46
107	Perception of 3-D location based on vision, touch, and extended touch. <i>Experimental Brain Research</i> , 2013 , 224, 141-53	2.3	47
106	Combining Locations from Working Memory and Long-Term Memory into a Common Spatial Image. <i>Spatial Cognition and Computation</i> , 2013 , 13, 103-128	1.3	8
105	Representing 3D Space in Working Memory: Spatial Images from Vision, Hearing, Touch, and Language 2013 , 131-155		51
104	Spatial working memory for locations specified by vision and audition: testing the amodality hypothesis. <i>Attention, Perception, and Psychophysics</i> , 2012 , 74, 1260-7	2	18
103	Modality-independent coding of spatial layout in the human brain. <i>Current Biology</i> , 2011 , 21, 984-9	6.3	85
102	Keeping track of the distance from home by leaky integration along veering paths. <i>Experimental Brain Research</i> , 2011 , 212, 81-9	2.3	14
101	Functional equivalence of spatial images from touch and vision: evidence from spatial updating in blind and sighted individuals. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2011 , 37, 621-34	2.2	66
100	A Minimal Representation for Dead-Reckoning Navigation: Updating the Homing Vector. <i>Geographical Analysis</i> , 2010 , 22, 324-335	2.9	7
99	The Encoding-Error Model of Pathway Completion without Vision. <i>Geographical Analysis</i> , 2010 , 25, 295-314		78
98	Imagined self-motion differs from perceived self-motion: evidence from a novel continuous pointing method. <i>PLoS ONE</i> , 2009 , 4, e7793	3.7	27
97	Evidence for Amodal Representations after Bimodal Learning: Integration of Haptic-Visual Layouts into a Common Spatial Image. <i>Spatial Cognition and Computation</i> , 2009 , 9, 287-304	1.3	28

96	Measurement of instantaneous perceived self-motion using continuous pointing. <i>Experimental Brain Research</i> , 2009 , 195, 429-44	2.3	33
95	The influence of facing direction on the haptic identification of two-dimensional raised pictures. <i>Perception</i> , 2009 , 38, 606-12	1.2	9
94	Spatial updating: how the brain keeps track of changing object locations during observer motion. <i>Nature Neuroscience</i> , 2008 , 11, 1223-30	25.5	116
93	Psychophysics of perceiving eye-gaze and head direction with peripheral vision: implications for the dynamics of eye-gaze behavior. <i>Perception</i> , 2008 , 37, 1443-57	1.2	70
92	An n-back task using vibrotactile stimulation with comparison to an auditory analogue. <i>Behavior Research Methods</i> , 2008 , 40, 367-72	6.1	6
91	Visual control of posture in real and virtual environments. <i>Perception & Psychophysics</i> , 2008 , 70, 158-65		27
90	Nonvisual Route following with Guidance from a Simple Haptic or Auditory Display. <i>Journal of Visual Impairment and Blindness</i> , 2007 , 101, 203-211	0.7	43
89	Changing lanes: inertial cues and explicit path information facilitate steering performance when visual feedback is removed. <i>Experimental Brain Research</i> , 2007 , 178, 141-50	2.3	20
88	Sensorimotor alignment effects in the learning environment and in novel environments. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2007 , 33, 1092-107	2.2	73
87	Functional Equivalence of Spatial Images Produced by Perception and Spatial Language 2007 , 29-48		25
86	Simultaneous measurement of steering performance and perceived heading on a curving path. <i>ACM Transactions on Applied Perception</i> , 2006 , 3, 83-94	1.4	4
85	Does energy expenditure affect the perception of egocentric distance? A failure to replicate experiment 1 of Proffitt, Stefanucci, Banton, and Epstein (2003). <i>Spanish Journal of Psychology</i> , 2006 , 9, 332-9; discussion 340-8	1	41
84	Reply to Proffitt, Stefanucci, Banton, and Epstein. <i>Spanish Journal of Psychology</i> , 2006 , 9, 343-345	1	4
83	Visual control of action without retinal optic flow. <i>Psychological Science</i> , 2006 , 17, 214-21	7.9	15
82	Evaluation of spatial displays for navigation without sight. <i>ACM Transactions on Applied Perception</i> , 2006 , 3, 110-124	1.4	52
81	Cognitive load of navigating without vision when guided by virtual sound versus spatial language. <i>Journal of Experimental Psychology: Applied</i> , 2006 , 12, 223-32	1.8	59
80	Perception of heading without retinal optic flow. <i>Perception & Psychophysics</i> , 2006 , 68, 872-8		16
79	The importance of perceived relative motion in the control of posture. <i>Experimental Brain Research</i> , 2005 , 161, 285-92	2.3	15

78	Personal Guidance System for People with Visual Impairment: A Comparison of Spatial Displays for Route Guidance. <i>Journal of Visual Impairment and Blindness</i> , 2005 , 99, 219-232	0.7	82
77	Personal Guidance System for People with Visual Impairment: A Comparison of Spatial Displays for Route Guidance. <i>Journal of Visual Impairment and Blindness</i> , 2005 , 99, 219-232	0.7	11
76	Stated Preferences for Components of a Personal Guidance System for Nonvisual Navigation. <i>Journal of Visual Impairment and Blindness</i> , 2004 , 98, 135-147	0.7	68
75	Use of cognitive versus perceptual heading during imagined locomotion depends on the response mode. <i>Psychological Science</i> , 2004 , 15, 403-8	7.9	82
74	Does the Quality of the Computer Graphics Matter when Judging Distances in Visually Immersive Environments?. <i>Presence: Teleoperators and Virtual Environments</i> , 2004 , 13, 560-571	2.9	245
73	Perception of Shared Visual Space: Establishing Common Ground in Real and Virtual Environments. <i>Presence: Teleoperators and Virtual Environments</i> , 2004 , 13, 442-450	2.9	15
72	Limited Field of View of Head-Mounted Displays Is Not the Cause of Distance Underestimation in Virtual Environments. <i>Presence: Teleoperators and Virtual Environments</i> , 2004 , 13, 572-577	2.9	177
71	Judgments of exocentric direction in large-scale space. <i>Perception</i> , 2004 , 33, 443-54	1.2	67
70	Using virtual environments to assess directional knowledge. <i>Journal of Environmental Psychology</i> , 2004 , 24, 105-116	6.7	39
69	Body-based senses enhance knowledge of directions in large-scale environments. <i>Psychonomic Bulletin and Review</i> , 2004 , 11, 157-63	4.1	90
68	Functional equivalence of spatial representations derived from vision and language: evidence from allocentric judgments. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2004 , 30, 804-14	2.2	81
67	Model-Based Control of Perception/Action 2004 , 421-441		15
66	Visual space perception: phenomenology and function. <i>Arquivos Brasileiros De Oftalmologia</i> , 2003 , 66, 26-29	1.1	2
65	Inertial cues do not enhance knowledge of environmental layout. <i>Psychonomic Bulletin and Review</i> , 2003 , 10, 987-93	4.1	38
64	Encoding, learning, and spatial updating of multiple object locations specified by 3-D sound, spatial language, and vision. <i>Experimental Brain Research</i> , 2003 , 149, 48-61	2.3	55
63	Interpersonal distance in immersive virtual environments. <i>Personality and Social Psychology Bulletin</i> , 2003 , 29, 819-33	4.1	463
62	Improving Human Health and Physical Capabilities 2003 , 179-273		
61	Dissociation between location and shape in visual space.. <i>Journal of Experimental Psychology: Human Perception and Performance</i> , 2002 , 28, 1202-1212	2.6	47

60	Spatial updating of locations specified by 3-D sound and spatial language.. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2002 , 28, 335-345	2.2	90
59	Learning directions of objects specified by vision, spatial audition, or auditory spatial language. <i>Learning and Memory</i> , 2002 , 9, 364-7	2.8	23
58	Dissociation between location and shape in visual space. <i>Journal of Experimental Psychology: Human Perception and Performance</i> , 2002 , 28, 1202-12	2.6	29
57	Spatial updating of locations specified by 3-d sound and spatial language. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2002 , 28, 335-45	2.2	40
56	Active control of locomotion facilitates nonvisual navigation.. <i>Journal of Experimental Psychology: Human Perception and Performance</i> , 2001 , 27, 141-153	2.6	46
55	Updating of locations during whole-body rotations in patients with hemispatial neglect. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2001 , 1, 330-43	3.5	20
54	Equilibrium Theory Revisited: Mutual Gaze and Personal Space in Virtual Environments. <i>Presence: Teleoperators and Virtual Environments</i> , 2001 , 10, 583-598	2.9	279
53	Navigating without vision: basic and applied research. <i>Optometry and Vision Science</i> , 2001 , 78, 282-9	2.1	83
52	Immersive virtual environment technology as a basic research tool in psychology. <i>Behavior Research Methods</i> , 1999 , 31, 557-64		375
51	Is the anisotropy of perceived 3-D shape invariant across scale?. <i>Perception & Psychophysics</i> , 1999 , 61, 397-402		117
50	Human navigation ability: Tests of the encoding-error model of path integration. <i>Spatial Cognition and Computation</i> , 1999 , 1, 31-65	1.3	37
49	Auditory Distance Perception in Real, Virtual, and Mixed Environments 1999 , 201-214		14
48	Assessing auditory distance perception using perceptually directed action. <i>Perception & Psychophysics</i> , 1998 , 60, 966-80		101
47	Visually Controlled Locomotion: Its Dependence on Optic Flow, Three-Dimensional Space Perception, and Cognition. <i>Ecological Psychology</i> , 1998 , 10, 271-285	1.5	47
46	Navigation System for the Blind: Auditory Display Modes and Guidance. <i>Presence: Teleoperators and Virtual Environments</i> , 1998 , 7, 193-203	2.9	196
45	Spatial Updating of Self-Position and Orientation During Real, Imagined, and Virtual Locomotion. <i>Psychological Science</i> , 1998 , 9, 293-298	7.9	338
44	Locomotion Mode Affects the Updating of Objects Encountered During Travel: The Contribution of Vestibular and Proprioceptive Inputs to Path Integration. <i>Presence: Teleoperators and Virtual Environments</i> , 1998 , 7, 168-178	2.9	270
43	A geographical information system for a GPS based personal guidance system. <i>International Journal of Geographical Information Science</i> , 1998 , 12, 727-749	4.1	91

42	Reproduction of object shape is more accurate without the continued availability of visual information. <i>Perception</i> , 1998 , 27, 69-86	1.2	19
41	Comparison of two indicators of perceived egocentric distance under full-cue and reduced-cue conditions.. <i>Journal of Experimental Psychology: Human Perception and Performance</i> , 1997 , 23, 72-85	2.6	193
40	Visual perception of egocentric distance as assessed by triangulation.. <i>Journal of Experimental Psychology: Human Perception and Performance</i> , 1997 , 23, 86-100	2.6	93
39	Encoding Spatial Representations Through Nonvisually Guided Locomotion: Tests of Human Path Integration. <i>Psychology of Learning and Motivation - Advances in Research and Theory</i> , 1997 , 41-84	1.4	11
38	Optic Flow and Visual Analysis of the Base-to-Final Turn. <i>The International Journal of Aviation Psychology</i> , 1997 , 7, 201-223		17
37	Visually perceived location is an invariant in the control of action. <i>Perception & Psychophysics</i> , 1997 , 59, 601-12		108
36	A new direction for applied geography. <i>Applied Geographic Studies</i> , 1997 , 1, 151-168		
35	Visual control of steering without course information. <i>Perception</i> , 1996 , 25, 481-94	1.2	47
34	Visual Perception of Location and Distance. <i>Current Directions in Psychological Science</i> , 1996 , 5, 72-77	6.5	174
33	Cognitive Mapping and Wayfinding by Adults Without Vision 1996 , 215-246		63
32	Absolute motion parallax weakly determines visual scale in real and virtual environments 1995 ,		20
31	Haptic identification of objects and their depictions. <i>Perception & Psychophysics</i> , 1993 , 54, 170-8		152
30	Counterexample to the hypothesis of functional similarity between tactile and visual pattern perception. <i>Perception & Psychophysics</i> , 1993 , 54, 179-84		12
29	Nonvisual navigation by blind and sighted: Assessment of path integration ability.. <i>Journal of Experimental Psychology: General</i> , 1993 , 122, 73-91	4.7	484
28	Presence and distal attribution: phenomenology, determinants, and assessment 1992 ,		16
27	Distal Attribution and Presence. <i>Presence: Teleoperators and Virtual Environments</i> , 1992 , 1, 113-119	2.9	174
26	Visual space perception and visually directed action.. <i>Journal of Experimental Psychology: Human Perception and Performance</i> , 1992 , 18, 906-921	2.6	472
25	Similarity of tactual and visual picture recognition with limited field of view. <i>Perception</i> , 1991 , 20, 167-77	1.2	156

24	Designing a personal guidance system to aid navigation without sight: progress on the GIS component. <i>International Journal of Geographical Information Science</i> , 1991 , 5, 373-395	4.1	62
23	Acquisition of route and survey knowledge in the absence of vision. <i>Journal of Motor Behavior</i> , 1990 , 22, 19-43	1.4	148
22	A model of character recognition and legibility. <i>Journal of Experimental Psychology: Human Perception and Performance</i> , 1990 , 16, 106-20	2.6	56
21	Active localization of virtual sounds. <i>Journal of the Acoustical Society of America</i> , 1990 , 88, 1757-64	2.2	69
20	Length distortion of temporally extended visual displays: similarity to haptic spatial perception. <i>Perception & Psychophysics</i> , 1989 , 46, 387-94		8
19	Perceptual linkage of multiple objects rotating in depth. <i>Perception</i> , 1989 , 18, 427-44	1.2	31
18	High-speed 2-D and 3-D animation on the IBM PC/XT/AT. <i>Behavior Research Methods</i> , 1987 , 19, 10-18		5
17	A study of visually directed throwing in the presence of multiple distance cues. <i>Perception & Psychophysics</i> , 1987 , 41, 308-12		22
16	Scan-display of high-resolution images using the Apple II. <i>Behavior Research Methods</i> , 1986 , 18, 36-40		1
15	Agreement between indirect measures of perceived distance. <i>Perception & Psychophysics</i> , 1985 , 37, 17-27		65
14	Tactile recognition of raised characters: A parametric study. <i>Bulletin of the Psychonomic Society</i> , 1985 , 23, 18-20		31
13	Analysis of tactile and visual confusion matrices. <i>Perception & Psychophysics</i> , 1982 , 31, 41-52		95
12	On the tangibility of letters and braille. <i>Perception & Psychophysics</i> , 1981 , 29, 37-46		85
11	Tactile pattern perception. <i>Perception</i> , 1981 , 10, 5-27	1.2	83
10	Transient tritanopia: failure of time-intensity reciprocity in adaptation to longwave light. <i>Vision Research</i> , 1980 , 20, 837-46	2.1	16
9	Interaction of display mode and character size in vibrotactile letter recognition. <i>Bulletin of the Psychonomic Society</i> , 1980 , 16, 385-387		23
8	Effects of chromatic adaptation on color discrimination and color appearance. <i>Vision Research</i> , 1979 , 19, 891-901	2.1	39
7	Sensitivity to shifts of a point stimulus: an instance of tactile hyperacuity. <i>Perception & Psychophysics</i> , 1978 , 24, 487-92		46

6	Lateral masking in foveal and eccentric vision. <i>Vision Research</i> , 1978 , 18, 335-8	2.1	77
5	Complementary afterimages and the unequal adapting effects of steady and flickering light. <i>Journal of the Optical Society of America</i> , 1978 , 68, 411-6		20
4	A lateral masking effect in tactile and blurred visual letter recognition. <i>Perception & Psychophysics</i> , 1976 , 20, 221-226		24
3	A comparison of tactile and blurred visual form perception. <i>Perception & Psychophysics</i> , 1975 , 18, 362-368		34
2	Tactile letter recognition under different modes of stimulus presentation. <i>Perception & Psychophysics</i> , 1974 , 16, 401-408		78
1	The photopigment bleaching hypothesis of complementary after-images: a psychophysical test. <i>Vision Research</i> , 1972 , 12, 1587-94	2.1	35
