| # | Article                                                                                                                                                                                                                 | IF           | CITATIONS |
|---|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|-----------|
| 1 | Multichannel Electrotactile Feedback With Spatial and Mixed Coding for Closed-Loop Control of Grasping Force in Hand Prostheses. IEEE Transactions on Neural Systems and Rehabilitation Engineering, 2017, 25, 183-195. | 4.9          | 98        |
| 2 | Integrated and flexible multichannel interface for electrotactile stimulation. Journal of Neural Engineering, 2016, 13, 046014.                                                                                         | 3 <b>.</b> 5 | 82        |
| 3 | Temporal and Spatial Variability of Surface Motor Activation Zones in Hemiplegic Patients During Functional Electrical Stimulation Therapy Sessions. Artificial Organs, 2017, 41, E166-E177.                            | 1.9          | 11        |
| 4 | Evolution of surface motor activation zones in hemiplegic patients during 20 sessions of FES therapy with multi-pad electrodes. European Journal of Translational Myology, 2016, 26, 6059.                              | 1.7          | 10        |
| 5 | BEAGLE—A Kinematic Sensory System for Objective Hand Function Assessment in Technology-Mediated Rehabilitation. IEEE Transactions on Neural Systems and Rehabilitation Engineering, 2021, 29, 1817-1826.                | 4.9          | 5         |
| 6 | Design and Development of OECT Logic Circuits for Electrical Stimulation Applications. Applied Sciences (Switzerland), 2022, 12, 3985.                                                                                  | 2.5          | 4         |
| 7 | Linear discriminant analysis: Classification of on-surface and in-air handwriting. , 2015, , .                                                                                                                          |              | 2         |
| 8 | H-reflex recorded by multi-pad EMG electrodes. , 2012, , .                                                                                                                                                              |              | 1         |
