#	ARTICLE	IF	CITATIONS
1	Counting stillbirths and COVID 19“there has never been a more urgent time. The Lancet Global Health, 2021, 9, e10-e11.	2.9	44
2	Neonatal and child mortality data in retrospective population-based surveys compared with prospective demographic surveillance: EN-INDEPTH study. Population Health Metrics, 2021, 19, 7.	1.3	9
3	Gestational age data completeness, quality and validity in population-based surveys: EN-INDEPTH study. Population Health Metrics, 2021, 19, 16.	1.3	12
4	Birthweight data completeness and quality in population-based surveys: EN-INDEPTH study. Population Health Metrics, 2021, 19, 17.	1.3	22
5	Electronic data collection in a multi-site population-based survey: EN-INDEPTH study. Population Health Metrics, 2021, 19, 9.	1.3	3
6	Stillbirth outcome capture and classification in population-based surveys: EN-INDEPTH study. Population Health Metrics, 2021, 19, 13.	1.3	13
7	Stillbirth maternity care measurement and associated factors in population-based surveys: EN-INDEPTH study. Population Health Metrics, 2021, 19, 11.	1.3	7
8	Four decades of measuring stillbirths and neonatal deaths in Demographic and Health Surveys: historical review. Population Health Metrics, 2021, 19, 8.	1.3	11
9	Paradata analyses to inform population-based survey capture of pregnancy outcomes: EN-INDEPTH study. Population Health Metrics, 2021, 19, 10.	1.3	1
10	Birth, stillbirth and death registration data completeness, quality and utility in population-based surveys: EN-INDEPTH study. Population Health Metrics, 2021, 19, 14.	1.3	12
11	Action leveraging evidence to reduce perinatal mortality and morbidity (ALERT): study protocol for a stepped-wedge cluster-randomised trial in Benin, Malawi, Tanzania and Uganda. BMC Health Services Research, 2021, 21, 1324.	0.9	14
12	Randomised comparison of two household survey modules for measuring stillbirths and neonatal deaths in five countries: the Every Newborn-INDEPTH study. The Lancet Global Health, 2020, 8, e555-e566.	2.9	37
13	Using research priority-setting to guide bridging the implementation gap in countries “ a case study of the Uganda newborn research priorities in the SDG era. Health Research Policy and Systems, 2019, 17, 54.	1.1	7
14	“Every Newborn-INDEPTH”(EN-INDEPTH) study protocol for a randomised comparison of household survey modules for measuring stillbirths and neonatal deaths in five Health and Demographic Surveillance sites. Journal of Global Health, 2019, 9, 010901.	1.2	31
15	Linking data sources for measurement of effective coverage in maternal and newborn health: what do we learn from individual- vs ecological-linking methods?. Journal of Global Health, 2018, 8, 010601.	1.2	17
16	Trends and risk factors of stillbirths and neonatal deaths in Eastern Uganda (1982“2011): a cross-sectional, population-based study. Tropical Medicine and International Health, 2017, 22, 63-73.	1.0	29
17	Effect of the Uganda Newborn Study on care-seeking and care practices: a cluster-randomised controlled trial. Global Health Action, 2015, 8, 24584.	0.7	74
18	Differences in essential newborn care at birth between private and public health facilities in eastern Uganda. Global Health Action, 2015, 8, 24251.	0.7	25
