citing authors

#	ARTICLE	IF	CITATIONS
1	The effectiveness of spectral and color Doppler in predicting ovarian torsion. <i>European Journal of Obstetrics, Gynecology and Reproductive Biology</i> , 2002, 104, 64-66.	0.5	108
2	Increased progesterone/estradiol ratio in the late follicular phase could be related to low ovarian reserve in in vitro fertilizationâ€“embryo transfer cycles with a long gonadotropin-releasing hormone agonist. <i>Fertility and Sterility</i> , 2001, 76, 294-299.	0.5	104
3	The Bologna criteria for poor ovarian response: a contemporary critical appraisal. <i>Journal of Ovarian Research</i> , 2015, 8, 76.	1.3	76
4	Premature Luteinization: Could It Be An Early Manifestation of Low Ovarian Reserve?. <i>Fertility and Sterility</i> , 1998, 69, 461-465.	0.5	60
5	A simple multivariate score could predict ovarian reserve, as well as pregnancy rate, in infertile women. <i>Fertility and Sterility</i> , 2010, 94, 655-661.	0.5	32
6	Undetectable basal ovarian stromal blood flow in infertile women is related to low ovarian reserve. <i>Gynecological Endocrinology</i> , 2007, 23, 284-289.	0.7	28
7	Early and short follicular gonadotropin-releasing hormone antagonist supplementation improves the meiotic status and competence of retrieved oocytes in in vitro fertilizationâ€“embryo transfer cycles. <i>Fertility and Sterility</i> , 2010, 94, 1350-1355.	0.5	27
8	First polar body and nucleolar precursor body morphology is related to the ovarian reserve of infertile women. <i>Reproductive BioMedicine Online</i> , 2008, 16, 851-858.	1.1	23
9	Prospective evaluation of basal stromal Doppler studies in women with good ovarian reserve and infertility undergoing in vitro fertilizationâ€“embryo transfer treatment: patients with polycystic ovary syndrome versus ovulatory patients. <i>Fertility and Sterility</i> , 2011, 95, 1754-1758.	0.5	22
10	Poor oocyte retrieval is a manifestation of low ovarian reserve. <i>Fertility and Sterility</i> , 2005, 83, 504-507.	0.5	21
11	Prospective evaluation of early follicular ovarian stromal blood flow in infertile women undergoing IVF-ET treatment. <i>Gynecological Endocrinology</i> , 2012, 28, 356-359.	0.7	18
12	Does first polar body morphology predict oocyte performance during ICSI treatment?. <i>Journal of Assisted Reproduction and Genetics</i> , 2009, 26, 561-567.	1.2	15
13	The effect of <sc>LH</sc> supplementation to the Gn<sc>RH</sc> antagonist protocol in advanced reproductive ageing women: a prospective randomized controlled study. <i>Clinical Endocrinology</i> , 2016, 84, 99-106.	1.2	15
14	Peripartum maternal transmission of extended-spectrum $\beta$ -lactamase organism to newborn infants. <i>Diagnostic Microbiology and Infectious Disease</i> , 2017, 87, 168-171.	0.8	15
15	Mycoplasma and Ureaplasma carriage in pregnant women: the prevalence of transmission from mother to newborn. <i>BMC Pregnancy and Childbirth</i> , 2020, 20, 456.	0.9	12
16	Nonconventional Approach to Twin Pregnancies Complicated by Extremely Preterm Premature Rupture of Membranes of One Twin. <i>American Journal of Perinatology</i> , 2008, 25, 161-162.	0.6	10
17	Outcome of Twin Pregnancies Complicated By Early Second Trimester Rupture of Membranes in One Sac. <i>Twin Research and Human Genetics</i> , 2010, 13, 604-608.	0.3	9
18	Evaluation of the Protein C Global Assay During Normal Pregnancy and After Assisted Reproduction. <i>Obstetrics and Gynecology</i> , 2010, 115, 969-974.	1.2	7

#	ARTICLE	IF	CITATIONS
19	The association between poor ovarian response and thrombophilia in assisted reproduction. <i>European Journal of Obstetrics, Gynecology and Reproductive Biology</i> , 2013, 166, 65-69.	0.5	7
20	Premature luteinization defined by an increased progesterone/estradiol ratio on day of human chorionic gonadotropin administration is a manifestation of diminished ovarian responsiveness to controlled ovarian hyperstimulation. <i>Fertility and Sterility</i> , 2010, 93, e29.	0.5	6
21	Does the empty follicle syndrome occur in cases of low number of maturing follicles in assisted reproduction?. <i>Gynecological Endocrinology</i> , 2019, 35, 305-308.	0.7	3
22	Reduced protein C Global assay level in infertile women prior to IVF-ET treatment. <i>Journal of Assisted Reproduction and Genetics</i> , 2014, 31, 101-107.	1.2	2
23	Perinatal Outcome of Twin Pregnancies Complicated by Rupture of Membranes at 13-20 Weeks: Is Selective Termination an Appropriate Management Option?. <i>Ultraschall in Der Medizin</i> , 2020, 41, e17-e22.	0.8	2
24	The association between multinucleated blastomeres and poor ovarian response under the Bologna criteria. <i>Journal of Assisted Reproduction and Genetics</i> , 2016, 33, 885-892.	1.2	1
25	A comparison of enriched culture and Xpert polymerase chain reaction assay of Group B streptococcus carrier status at 35-37-week gestation to labor onset: a prospective controlled study. <i>Journal of Maternal-Fetal and Neonatal Medicine</i> , 2018, 31, 2170-2174.	0.7	1
26	The "vanishing follicle" in women with low number of developing follicles during assisted reproduction. <i>European Journal of Obstetrics, Gynecology and Reproductive Biology</i> , 2018, 220, 6-11.	0.5	0
27	Protein C global assay evaluation in naturally conceived vs. assisted reproduction-achieved twin pregnancies: a prospective longitudinal study. <i>Archives of Gynecology and Obstetrics</i> , 2021, 303, 1549-1555.	0.8	0
28	DIFFERENT PATTERNS OF LIPOXYGENASE GENE EXPRESSION IN BOTH HUMAN GRANULOSA-LUTEIN CELLS AND CUMULUS CELLS FROM WOMEN UNDERGOING INVITRO FERTILIZATION. <i>Biology of Reproduction</i> , 2007, 77, 94-95.	1.2	0
