#	ARTICLE	IF	CITATIONS
1	Opioid receptors in the midbrain periaqueductal gray regulate prediction errors during Pavlovian fear conditioning.. Behavioral Neuroscience, 2006, 120, 313-323.	1.2	81
2	Orexin/Hypocretin-1 Receptor Antagonism Selectively Reduces Cue-Induced Feeding in Sated Rats and Recruits Medial Prefrontal Cortex and Thalamus. Scientific Reports, 2015, 5, 16143.	3.3	48
3	Complementary roles for amygdala and periaqueductal gray in temporal-difference fear learning. Learning and Memory, 2009, 16, 1-7.	1.3	40
4	Opioid receptors mediate direct predictive fear learning: Evidence from one-trial blocking. Learning and Memory, 2007, 14, 229-235.	1.3	35
5	Medial Prefrontal Cortex Neural Plasticity, Orexin Receptor 1 Signaling, and Connectivity with the Lateral Hypothalamus Are Necessary in Cue-Potentiated Feeding. Journal of Neuroscience, 2020, 40, 1744-1755.	3.6	30
6	Differential recruitment of distinct amygdalar nuclei across appetitive associative learning. Learning and Memory, 2013, 20, 295-299.	1.3	28
7	Temporal-difference prediction errors and Pavlovian fear conditioning: Role of NMDA and opioid receptors.. Behavioral Neuroscience, 2007, 121, 1043-1052.	1.2	25
8	Orexin/hypocretin receptor 1 signaling mediates Pavlovian cue-food conditioning and extinction. Physiology and Behavior, 2016, 162, 27-36.	2.1	23
9	Kappa opioid receptors mediate where fear is expressed following extinction training. Learning and Memory, 2011, 18, 88-95.	1.3	15
10	Ventral Hippocampal Kappa Opioid Receptors Mediate the Renewal of Fear following Extinction in the Rat. PLoS ONE, 2013, 8, e58701.	2.5	11
11	The dorsomedial striatum mediates Pavlovian appetitive conditioning and food consumption.. Behavioral Neuroscience, 2017, 131, 447-453.	1.2	8
12	Recruitment of Multiple Pathways to Ventral Tegmental Area during Cocaine-Seeking Behavior. Journal of Neuroscience, 2013, 33, 2239-2241.	3.6	0
