## Grant D Searchfield

List of Publications by Year in descending order

Source: https://exaly.com/author-pdf/1102319/publications.pdf Version: 2024-02-01

#	Article	IF	CITATIONS
1	Prediction of tinnitus masking benefit within a case series using a spiking neural network model. Progress in Brain Research, 2021, 260, 129-165.	1.4	11
2	Emerging Topics in the Behavioral Neuroscience of Tinnitus. Current Topics in Behavioral Neurosciences, 2021, 51, 461-483.	1.7	2
3	Neuroinflammation and Tinnitus. Current Topics in Behavioral Neurosciences, 2021, 51, 161-174.	1.7	15
4	Behavioral Outcomes and Neural Network Modeling of a Novel, Putative, Recategorization Sound Therapy. Brain Sciences, 2021, 11, 554.	2.3	5
5	A State-of-Art Review of Digital Technologies for the Next Generation of Tinnitus Therapeutics. Frontiers in Digital Health, 2021, 3, 724370.	2.8	10
6	Tinnitus and tinnitus disorder: Theoretical and operational definitions (an international) Tj ETQq0 0 0 rgBT /Over	ock 10 Tf 1.4	50,542 Td (m 150
7	Prediction of Acoustic Residual Inhibition of Tinnitus Using a Brain-Inspired Spiking Neural Network Model. Brain Sciences, 2021, 11, 52.	2.3	9
8	The Effect of Auditory Residual Inhibition on Tinnitus and the Electroencephalogram. Ear and Hearing, 2021, 42, 130-141.	2.1	11
9	Systematic review and meta-analysis on the effect of continuous subjective tinnitus on attention and habituation. PeerJ, 2021, 9, e12340.	2.0	2
10	Hearing loss and hearing service experiences among older MÄori and whÄnau: a scoping review. New Zealand Medical Journal, 2021, 134, 50-70.	0.5	0
11	An Evaluation of a Continuing Education Workshop for Audiologists on the Assessment and Management of Tinnitus. Journal of Continuing Education in the Health Professions, 2020, 40, 125-130.	1.3	2
12	The Neural Bases of Tinnitus: Lessons from Deafness and Cochlear Implants. Journal of Neuroscience, 2020, 40, 7190-7202.	3.6	65
13	Interpretability of Spatiotemporal Dynamics of the Brain Processes Followed by Mindfulness Intervention in a Brain-Inspired Spiking Neural Network Architecture. Sensors, 2020, 20, 7354.	3.8	16
14	A proof-of-concept study of the benefits of a single-session of tinnitus instruction and counselling with homework on tinnitus. International Journal of Audiology, 2020, 59, 374-382.	1.7	6
15	Sense and Sensibility: A Review of the Behavioral Neuroscience of Tinnitus Sound Therapy and a New Typology. Current Topics in Behavioral Neurosciences, 2020, 51, 213-247.	1.7	5
16	Principles and Methods for Psychoacoustic Evaluation of Tinnitus. Current Topics in Behavioral Neurosciences, 2020, 51, 419-459.	1.7	4
17	Changes in tinnitus and physiological biomarkers of stress in response to short-term broadband noise and sounds of nature. Complementary Therapies in Medicine, 2019, 46, 62-68.	2.7	12

18Auditory Streaming and Prediction in Tinnitus Sufferers. Ear and Hearing, 2019, 40, 345-357.2.1	12
---	----

GRANT D SEARCHFIELD

#	Article	IF	CITATIONS
19	The short-term effects of recorded ocean sound with and without alpha frequency binaural beats on tinnitus perception. Complementary Therapies in Medicine, 2019, 44, 291-295.	2.7	14
20	Editorial: Towards an Understanding of Tinnitus Heterogeneity. Frontiers in Aging Neuroscience, 2019, 11, 53.	3.4	157
21	On the Timing of Signals in Multisensory Integration and Crossmodal Interactions: a Scoping Review. Multisensory Research, 2019, 32, 533-573.	1.1	3
22	A Client Oriented Scale of Improvement in Tinnitus for Therapy Goal Planning and Assessing Outcomes. Journal of the American Academy of Audiology, 2019, 30, 327-337.	0.7	10
23	Sound therapy and aural rehabilitation for tinnitus: a person centred therapy framework based on an ecological model of tinnitus. Disability and Rehabilitation, 2019, 41, 1966-1973.	1.8	11
24	A survey and clinical evaluation of hearing aid data-logging: a valued but underutilized hearing aid fitting tool. Speech, Language and Hearing, 2018, 21, 162-171.	1.0	4
25	The performance of an automatic acoustic-based program classifier compared to hearing aid users' manual selection of listening programs. International Journal of Audiology, 2018, 57, 201-212.	1.7	6
26	A feasibility study of predictable and unpredictable surf-like sounds for tinnitus therapy using personal music players. International Journal of Audiology, 2018, 57, 707-713.	1.7	5
27	Psychometric Validity, Reliability, and Responsiveness of the Tinnitus Functional Index. Journal of the American Academy of Audiology, 2018, 29, 609-625.	0.7	22
28	A review of plasticity induced by auditory and visual tetanic stimulation in humans. European Journal of Neuroscience, 2018, 48, 2084-2097.	2.6	28
29	Investigation of Extended Bandwidth Hearing Aid Amplification on Speech Intelligibility and Sound Quality in Adults with Mild-to-Moderate Hearing Loss. Journal of the American Academy of Audiology, 2018, 29, 243-254.	0.7	11
30	A Review of Auditory Prediction and Its Potential Role in Tinnitus Perception. Journal of the American Academy of Audiology, 2018, 29, 533-547.	0.7	8
31	The Personality Profile of Tinnitus Sufferers and a Nontinnitus Control Group. Journal of the American Academy of Audiology, 2017, 28, 271-282.	0.7	24
32	The accuracy and reliability of an app-based audiometer using consumer headphones: pure tone audiometry in a normal hearing group. International Journal of Audiology, 2017, 56, 706-710.	1.7	22
33	Examining the short term effects of emotion under an Adaptation Level Theory model of tinnitus perception. Hearing Research, 2017, 345, 23-29.	2.0	13
34	A crossover trial comparing wide dynamic range compression and frequency compression in hearing aids for tinnitus therapy. Disability and Rehabilitation: Assistive Technology, 2017, 12, 97-103.	2.2	16
35	A State-of-the-Art Review: Personalization of Tinnitus Sound Therapy. Frontiers in Psychology, 2017, 8, 1599.	2.1	57
36	A Mixed-Methods Trial of Broad Band Noise and Nature Sounds for Tinnitus Therapy: Group and Individual Responses Modeled under the Adaptation Level Theory of Tinnitus. Frontiers in Aging Neuroscience, 2017, 9, 44.	3.4	26

GRANT D SEARCHFIELD

#	Article	IF	CITATIONS
37	Perceptions Toward Internet-Based Delivery of Hearing Aids among Older Hearing-Impaired Adults. Journal of the American Academy of Audiology, 2016, 27, 441-457.	0.7	7
38	Anxiety and depression, personality traits relevant to tinnitus: A scoping review. International Journal of Audiology, 2016, 55, 605-615.	1.7	73
39	Acceptability of background noise amongst children diagnosed with an auditory processing disorder. Speech, Language and Hearing, 2016, 19, 180-188.	1.0	3
40	Selfâ€reported hearing, vision and quality of life: Older people in <scp>N</scp> ew <scp>Z</scp> ealand. Australasian Journal on Ageing, 2016, 35, 98-105.	0.9	15
41	Spatial masking: Development and testing of a new tinnitus assistive technology. Assistive Technology, 2016, 28, 115-125.	2.0	17
42	Randomized Controlled Trial of a Perceptual Training Game for Tinnitus Therapy. Games for Health Journal, 2016, 5, 141-149.	2.0	22
43	Intensity, Duration, and Location of High-Definition Transcranial Direct Current Stimulation for Tinnitus Relief. Neurorehabilitation and Neural Repair, 2016, 30, 349-359.	2.9	74
44	Interview Schedule. Journal of the American Academy of Audiology, 2016, , .	0.7	0
45	Tinnitus of futures past: Modern tinnitus clinical practice guidelines and the practice of Edmund Prince Fowler Snr (1872–1966). Speech, Language and Hearing, 2015, 18, 126-132.	1.0	0
46	Cochlear microphonic broad tuning curves. AIP Conference Proceedings, 2015, , .	0.4	4
47	Modulation of Perception or Emotion? A Scoping Review of Tinnitus Neuromodulation Using Transcranial Direct Current Stimulation. Neurorehabilitation and Neural Repair, 2015, 29, 837-846.	2.9	29
48	Methodology for studying the transient effects of transcranial direct current stimulation combined with auditory residual inhibition on tinnitus. Journal of Neuroscience Methods, 2015, 239, 28-33.	2.5	14
49	Tinnitus What and Where: An Ecological Framework. Frontiers in Neurology, 2014, 5, 271.	2.4	44
50	Sound Therapy for Tinnitus Management: Practicable Options. Journal of the American Academy of Audiology, 2014, 25, 062-075.	0.7	91
51	Spatial Design of Hearing Aids Incorporating Multiple Vents. Trends in Hearing, 2014, 18, 233121651452918.	1.3	1
52	Randomized Trial of Transcranial Direct Current Stimulation and Hearing Aids for Tinnitus Management. Neurorehabilitation and Neural Repair, 2014, 28, 410-419.	2.9	50
53	The relationship between tinnitus pitch and hearing sensitivity. European Archives of Oto-Rhino-Laryngology, 2014, 271, 41-48.	1.6	37
54	Prescription of hearing-aid output for tinnitus relief. International Journal of Audiology, 2013, 52, 617-625.	1.7	21

55	Transcranial Direct Current Stimulation Intensity and Duration Effects on Tinnitus Suppression. Neurorehabilitation and Neural Repair, 2013, 27, 164-172.	2.9	58
56	Role of Hearing Aids in Tinnitus Intervention: A Scoping Review. Journal of the American Academy of Audiology, 2013, 24, 747-762.	0.7	81
57	An Experimental Study on Multiple Acoustic Venting for Hearing Aid Applications. Acta Acustica United With Acustica, 2013, 99, 598-606.	0.8	1
58	A Comparison Between the First-Fit Settings of Two Multichannel Digital Signal-Processing Strategies: Music Quality Ratings and Speech-in-Noise Scores. American Journal of Audiology, 2012, 21, 13-21.	1.2	7
59	The Tinnitus Functional Index. Ear and Hearing, 2012, 33, 153-176.	2.1	598
60	Occupational stress amongst audiologists: Compassion satisfaction, compassion fatigue, and burnout. International Journal of Audiology, 2012, 51, 3-9.	1.7	62
61	Tinnitus pitch, masking, and the effectiveness of hearing aids for tinnitus therapy. International Journal of Audiology, 2012, 51, 914-919.	1.7	61
62	Methodological aspects of clinical trials in tinnitus: A proposal for an international standard. Journal of Psychosomatic Research, 2012, 73, 112-121.	2.6	152
63	An Adaptation Level Theory of Tinnitus Audibility. Frontiers in Systems Neuroscience, 2012, 6, 46.	2.5	45
64	A Commentary on the Complexity of Tinnitus Management. Evaluation and the Health Professions, 2011, 34, 421-428.	1.9	16
65	History and Questionnaires. , 2011, , 387-404.		2
66	Counseling and Psycho-Education for Tinnitus Management. , 2011, , 535-556.		10
67	The Role of the Audiologist in Tinnitus Practice. , 2011, , 215-222.		2
68	Hearing aids as an adjunct to counseling: Tinnitus patients who choose amplification do better than those that don't. International Journal of Audiology, 2010, 49, 574-579.	1.7	106
69	Rehabilitation of Adults with Auditory Processing Disorder and Normal Peripheral Hearing: Two Case Studies. Australian and New Zealand Journal of Audiology, 2007, 29, 53-59.	0.3	3
70	Object identification and attention training for treating tinnitus. Progress in Brain Research, 2007, 166, 441-460.	1.4	48
71	Probe Microphone Placement for Real Ear Measurement. American Journal of Audiology, 1997, 6, 49-54.	1.2	6
