#	ARTICLE	IF	CITATIONS
1	Improved survival of left ventricular assist device carriers in <scp>Europe</scp> according to implantation eras: results from the <scp>PCHF&VAD</scp> registry. European Journal of Heart Failure, 2022, 24, 1305-1315.	7.1	10
2	Genetics in the advanced heart failure population â€“ Universityâ€™Hospital Centre Zagreb experience. Cardiologia Croatica, 2021, 16, 27-27.	0.0	0
3	Ten years of extracorporeal membrane oxygenation support atâ€™University Hospital Centre Zagreb. Cardiologia Croatica, 2021, 16, 21-22.	0.0	0
4	COVID-19 in heart transplant recipients. Cardiologia Croatica, 2021, 16, 25-26.	0.0	0
5	New fever and acute heart failure weeks after COVID-19 â€“ red flags for multisystem inflammatory syndrome in adults. Cardiologia Croatica, 2021, 16, 179-179.	0.0	3
6	Pregnancy in a post-cardiac transplant patient. Cardiologia Croatica, 2021, 16, 20-20.	0.0	0
7	Cardiac implantable electronic devices with a defibrillator component and allâ€™cause mortality in left ventricular assist device carriers: results from the PCHF&VAD registry. European Journal of Heart Failure, 2019, 21, 1129-1141.	7.1	27
8	Diastolic function changes of the left and right ventricle after heart transplantation. Cardiologia Croatica, 2019, 14, 96-96.	0.0	0
9	Characteristics of patients with acute ST-segment elevation myocardial infarction treated with different combinations of antiaggregation therapy: experience from the Croatian branch of the ISACS-CT Registry. Cardiologia Croatica, 2019, 14, 211-212.	0.0	0
10	Effectiveness of cardiovascular implantable electronic devices with a defibrillator component therapy according to ventricular assist device implant strategy: data from the PCHF-VAD registry. Cardiologia Croatica, 2018, 13, 358-360.	0.0	0
11	The influence of early statin administration on in-hospital and 1-year mortality after acute coronary syndrome: experience from the Croatian branch of the ISACS-CT registry. Cardiologia Croatica, 2018, 13, 301-302.	0.0	0
12	Gender differences in outcomes during initial hospitalization and at 1-year follow-up of patients with acute coronary syndrome: experience from the Croatian branch of the ISACS-CT Registry. Cardiologia Croatica, 2018, 13, 438-439.	0.0	0
13	Influence of post-transplant ischemia-reperfusion injury and cellular rejection on the development of cardiac allograft vasculopathy. Cardiologia Croatica, 2018, 13, 361-362.	0.0	0
14	Cytomegalovirus infection after heart transplantation. Cardiologia Croatica, 2018, 13, 363-363.	0.0	0
15	Predictors of intrahospital mortality of patients older than 80 years hospitalized in a modern intensive cardiac care unit. Cardiologia Croatica, 2018, 13, 455-455.	0.0	0
16	Efficacy and safety of individualized P2Y12 receptor antagonists treatment in patients after acute myocardial infarction with ST-segment elevation. Cardiologia Croatica, 2018, 13, 441-441.	0.0	0
17	Successful treatment of cardiogenic shock caused by mixed acute cellular- and antibody-mediated cardiac allograft graft rejection. Cardiologia Croatica, 2018, 13, 396-370.	0.0	0
18	Antibody-mediated rejection in heart transplant patients: a single centre experience. Cardiologia Croatica, 2018, 13, 371-372.	0.0	0

#	ARTICLE	IF	CITATIONS
19	Therapeutic challenges in treatment of a restrictive cardiomyopathy due to hypereosinophilic syndrome in a young patient: a case report. <i>Cardiologia Croatica</i> , 2017, 12, 139-140.	0.0	0
20	Left ventricular intracavitary microbubbles as evidence of non-thrombotic systemic embolization causing acute respiratory insufficiency and cerebrovascular symptoms. <i>Cardiologia Croatica</i> , 2017, 12, 146-146.	0.0	0
21	Factors associated with worse outcomes in patients with acute ST segment elevation myocardial infarction: experience in sex differences from the Croatian Branch of the ISACS-CT Registry. <i>Cardiologia Croatica</i> , 2017, 12, 392-393.	0.0	0
22	Successful thrombolysis in an asymptomatic patient with left ventricular assist device thrombosis. <i>Cardiologia Croatica</i> , 2017, 12, 363-363.	0.0	0
23	Is there a difference in postoperative diuresis and renal function between patients with axial and centrifugal left ventricular assist devices?. <i>Cardiologia Croatica</i> , 2017, 12, 364-364.	0.0	0
24	Cardiomyopathy etiologies and survival analysis in a cohort of patients with chronic heart failure. <i>Cardiologia Croatica</i> , 2017, 12, 355-356.	0.0	0
25	Recipient age as a modifier of outcomes and risk factor for complications following heart transplantation. <i>Cardiologia Croatica</i> , 2017, 12, 367-367.	0.0	0
26	7-year experience of our centre in extracorporeal membrane oxygenation support. <i>Cardiologia Croatica</i> , 2017, 12, 368-368.	0.0	0
27	Echocardiographic parameters as predictors of survival in patients with chronic heart failure: the relevance of "classic" parameters in the modern era. <i>Cardiologia Croatica</i> , 2017, 12, 359-360.	0.0	0
28	Preoperative right ventricular asymmetry and right atrial volume may predict right ventricular failure following left ventricular assist device implantation. <i>Cardiologia Croatica</i> , 2016, 11, 390-391.	0.0	0
29	Statin administration within the first 24 hours after onset of acute coronary syndrome significantly reduces in-hospital mortality. <i>Cardiologia Croatica</i> , 2016, 11, 441-442.	0.0	0
30	Comparison of platelet reactivity levels with noninvasive and invasive targeted temperature treatment after cardiorespiratory arrest: a cohort study. <i>Cardiologia Croatica</i> , 2016, 11, 508-509.	0.0	0
31	Antibody-mediated rejection in heart transplantation: a case presentation. <i>Cardiologia Croatica</i> , 2016, 11, 403-404.	0.0	0
32	Levels of calcineurin inhibitors and incidence of postransplantational complications in younger heart transplantation recipients. <i>Cardiologia Croatica</i> , 2016, 11, 396-397.	0.0	0
33	Further insights into blood pressure induced premature beats: Transient depolarizations are associated with fast myocardial deformation upon pressure decline. <i>Heart Rhythm</i> , 2015, 12, 2305-2315.	0.7	8
