#	ARTICLE	IF	CITATIONS
1	Australian occupational therapy academic workforce: An examination of retention, work-engagement, and role overload issues. <i>Scandinavian Journal of Occupational Therapy</i> , 2023, 30, 452-462.	1.1	5
2	Co-creation and stroke rehabilitation: a scoping review. <i>Disability and Rehabilitation</i> , 2023, 45, 562-574.	0.9	10
3	Personal experiences of appropriate access to post-acute care services in acquired brain injury: a scoping review. <i>Brain Impairment</i> , 2023, 24, 1-26.	0.5	3
4	Exploration of individuals perspectives of recovery following severe hand burn injuries. <i>Burns</i> , 2023, 49, 467-475.	1.1	3
5	Uncovering the experiences of engaging in an inpatient occupation-based group program: The LifeSkills group. <i>Scandinavian Journal of Occupational Therapy</i> , 2023, 30, 251-260.	1.1	2
6	The use of augmented reality for rehabilitation after stroke: a narrative review. <i>Disability and Rehabilitation: Assistive Technology</i> , 2022, 17, 409-417.	1.3	38
7	Exploring self-management within hospital-based stroke care: current and future opportunities. <i>Disability and Rehabilitation</i> , 2022, 44, 2340-2346.	0.9	4
8	Occupation-based group programs in the inpatient hospital rehabilitation setting: a scoping review. <i>Disability and Rehabilitation</i> , 2022, 44, 2138-2148.	0.9	7
9	Cognition in the first week after stroke: how does it relate to personal and instrumental activities of daily living at follow-up?. <i>Brain Impairment</i> , 2022, 23, 185-195.	0.5	0
10	An exploration of goal-setting practices in Queensland rehabilitation services. <i>Disability and Rehabilitation</i> , 2022, 44, 4368-4378.	0.9	11
11	A Cross-sectional Survey of Health Professionals Across Australia and New Zealand to Determine What Outcome Measures Are Important From a Clinical Perspective Post Hand Burn Injury. <i>Journal of Burn Care and Research</i> , 2022, 43, 77-84.	0.2	2
12	The perspectives of stroke survivors and health professionals on the use of augmented reality for inpatient stroke rehabilitation: an anticipatory exploration. <i>Brain Impairment</i> , 2022, 23, 206-215.	0.5	2
13	Supporting sexuality after spinal cord injury: a scoping review of non-medical approaches. <i>Disability and Rehabilitation</i> , 2022, 44, 5669-5682.	0.9	8
14	Identifying the characteristics of occupation-centred practice: A Delphi study. <i>Australian Occupational Therapy Journal</i> , 2022, 69, 25-37.	0.6	7
15	Journal-based or article-based metrics: What should be applied to assess a researcher's performance?. <i>Australian Occupational Therapy Journal</i> , 2022, , .	0.6	1
16	On-road driving remediation following acquired brain injury: a scoping review. <i>Brain Injury</i> , 2022, , 1-9.	0.6	1
17	Myth-busting the publishing practices of the <sc> <i>Australian Occupational Therapy Journal</i> </sc> : A society journal for the global occupational therapy community. <i>Australian Occupational Therapy Journal</i> , 2022, , .	0.6	0
18	Developing tailored theoretically informed goal-setting interventions for rehabilitation services: a co-design approach. <i>BMC Health Services Research</i> , 2022, 22, .	0.9	6

#	ARTICLE	IF	CITATIONS
19	Understanding people's experiences of using the SaeboFlex <sup>®</sup> following a stroke. <i>British Journal of Occupational Therapy</i> , 2021, 84, 298-306.	0.5	0
20	A systematic review to investigate outcome tools currently in use for those with hand burns, and mapping psychometric properties of outcome measures. <i>Burns</i> , 2021, 47, 295-314.	1.1	5
21	Falls Occurring After a Spinal Cord Injury: A Scoping Review. <i>American Journal of Occupational Therapy</i> , 2021, 75, .	0.1	2
22	"Everyone needs rehab, but" exploring post-stroke rehabilitation referral and acceptance decisions. <i>Disability and Rehabilitation</i> , 2021, , 1-12.	0.9	2
23	Describing the occupational nature of practice: A scoping review. <i>Scandinavian Journal of Occupational Therapy</i> , 2021, , 1-10.	1.1	4
24	Lifespace metrics of older adults with mild cognitive impairment and dementia recorded via geolocation data. <i>Australasian Journal on Ageing</i> , 2021, , .	0.4	8
25	Occupational engagement following mild stroke in the Australian context using the occupational gaps questionnaire. <i>Scandinavian Journal of Occupational Therapy</i> , 2021, 28, 384-390.	1.1	4
26	Evaluating the effectiveness of on-road driving remediation following acquired brain injury: A waitlist feasibility study with follow-up. <i>Australian Occupational Therapy Journal</i> , 2021, 68, 124-134.	0.6	3
27	Stroke survivors' experiences of occupation in hospital-based stroke rehabilitation: a qualitative exploration. <i>Disability and Rehabilitation</i> , 2020, 42, 1880-1885.	0.9	10
28	The lived experience of supporting people with mild stroke. <i>Scandinavian Journal of Occupational Therapy</i> , 2020, 27, 184-193.	1.1	6
29	The business of a journal: Stakeholders and processes. <i>Australian Occupational Therapy Journal</i> , 2020, 67, 1-2.	0.6	1
30	Cognitive strategy training for adults with neurological conditions: a systematic review and meta-analysis exploring effect on occupational performance. <i>British Journal of Occupational Therapy</i> , 2020, 83, 723-740.	0.5	3
31	Exploring stroke survivors' experiences and understandings of occupational therapy. <i>Scandinavian Journal of Occupational Therapy</i> , 2020, , 1-10.	1.1	1
32	Ethical and transparent practices of the editorial board. <i>Australian Occupational Therapy Journal</i> , 2020, 67, 397-398.	0.6	0
33	Authorship statements: A commitment to publishing ethics and research integrity. <i>Australian Occupational Therapy Journal</i> , 2020, 67, 285-286.	0.6	1
34	A profile of Australian occupational therapy academic workforce job satisfaction. <i>Australian Occupational Therapy Journal</i> , 2020, 67, 581-591.	0.6	4
35	In celebration of the 2020 occupational therapy graduates. <i>Australian Occupational Therapy Journal</i> , 2020, 67, 515-516.	0.6	1
36	Adaptation of the CarFreeMe driver retirement intervention to provide driving cessation support to older people living with dementia. <i>Brain Impairment</i> , 2020, 21, 247-258.	0.5	5

#	ARTICLE	IF	CITATIONS
37	Dose and setting of rehabilitation received after stroke in Queensland, Australia: a prospective cohort study. <i>Clinical Rehabilitation</i> , 2020, 34, 812-823.	1.0	15
38	Occupational therapy has gone online: What will remain beyond COVID-19?. <i>Australian Occupational Therapy Journal</i> , 2020, 67, 197-198.	0.6	26
39	Systematic reviews, scholarly discussion and opportunities. <i>Australian Occupational Therapy Journal</i> , 2020, 67, 99-99.	0.6	0
40	The experience of home for social housing tenants with a disability: security and connection but limited control. <i>Housing and Society</i> , 2020, 47, 63-79.	0.3	7
41	The Australian Occupational Therapy Academic Workforce. <i>American Journal of Occupational Therapy</i> , 2020, 74, 7411505087p1-7411505087p1.	0.1	0
42	Consumer and community co-development in knowledge creation. <i>Australian Occupational Therapy Journal</i> , 2019, 66, 415-416.	0.6	4
43	Unveiling the complexities of mild stroke: An interpretative phenomenological analysis of the mild stroke experience. <i>Australian Occupational Therapy Journal</i> , 2019, 66, 656-664.	0.6	4
44	Current practice trends of oedema management in the hands of people with tetraplegia in Australia. <i>Spinal Cord Series and Cases</i> , 2019, 5, 71.	0.3	0
45	“Just got to live life as it comes” A case study of the spousal-dyad longitudinal mild stroke transitional experience. <i>Brain Injury</i> , 2019, 33, 1200-1207.	0.6	4
46	Mapping the experiences and needs of deep brain stimulation for people with Parkinson’s disease and their family members. <i>Brain Impairment</i> , 2019, 20, 211-225.	0.5	5
47	Descriptive profile of the academic integrity of Australian occupational therapy students. <i>Australian Occupational Therapy Journal</i> , 2018, 65, 285-294.	0.6	2
48	Health apps and knowledge translation. <i>Australian Occupational Therapy Journal</i> , 2018, 65, 1-2.	0.6	0
49	The unique experience of home for parents and carers of children with disabilities. <i>Scandinavian Journal of Occupational Therapy</i> , 2018, 25, 260-266.	1.1	10
50	Comparing activity engagement of people aged 18 to 64 years with and without Parkinson’s disease. <i>British Journal of Occupational Therapy</i> , 2018, 81, 101-105.	0.5	3
51	Understanding the lived experiences of Parkinson’s disease and deep brain stimulation (DBS) through occupational changes. <i>Australian Occupational Therapy Journal</i> , 2018, 65, 45-53.	0.6	12
52	Exploring similarities and differences among the self-reported academic integrity of Australian occupational therapy domestic and international students. <i>Nurse Education Today</i> , 2018, 70, 13-19.	1.4	25
53	Parallel-Forms Reliability and Clinical Utility of an Application Version of the Activity Card Sort Australia (18-64). <i>American Journal of Occupational Therapy</i> , 2018, 72, 7206205070p1-7206205070p8.	0.1	2
54	A Difficult Journey: Reflections on Driving and Driving Cessation From a Team of Clinical Researchers. <i>Gerontologist</i> , 2017, 57, 82-88.	2.3	14

#	ARTICLE	IF	CITATIONS
55	Strong evidence for activity of daily living interventions improving functional performance in home and community settings in stroke rehabilitation. Australian Occupational Therapy Journal, 2017, 64, 87-88.	0.6	0
56	Can smartphones measure momentary quality of life and participation? A proof of concept using experience sampling surveys with university students. Australian Occupational Therapy Journal, 2017, 64, 294-304.	0.6	11
57	Practice education: A snapshot from Australian university programmes. Australian Occupational Therapy Journal, 2017, 64, 159-169.	0.6	15
58	To be or not to be (an older driver): social identity theory and driving cessation in later life. Ageing and Society, 2017, 37, 1597-1608.	1.2	38
59	Family members' experiences of driving disruption after acquired brain injury. Brain Injury, 2017, 31, 517-525.	0.6	3
60	Post-acute hospital healthcare services for people with mild stroke: a scoping review. Topics in Stroke Rehabilitation, 2017, 24, 288-298.	1.0	7
61	Test-Retest Reliability and Internal Consistency of the Activity Card Sort (Australia (18-64)). OTJR Occupation, Participation and Health, 2017, 37, 50-56.	0.4	6
62	Occupational experience of caregiving during driving disruption following an acquired brain injury. British Journal of Occupational Therapy, 2017, 80, 30-38.	0.5	4
63	Author Guidelines of the Australian Occupational Therapy Journal - revised 2017. Australian Occupational Therapy Journal, 2017, 64, 203-203.	0.6	2
64	Family members' needs and experiences of driving disruption over time following an acquired brain injury: an evolving issue. Disability and Rehabilitation, 2017, 39, 1398-1407.	0.9	2
65	Emeritus Professor Sylvia Rodger, AM: Australian Occupational Therapy Champion and Visionary. Australian Occupational Therapy Journal, 2017, 64, 3-8.	0.6	1
66	Remotely Assessing Symptoms of Parkinson's Disease Using Videoconferencing: A Feasibility Study. Neurology Research International, 2016, 2016, 1-8.	0.5	37
67	What are the limits of occupational therapy practice?. Australian Occupational Therapy Journal, 2016, 63, 134-134.	0.6	0
68	The need for evidence and new models of practice education to meet the 1000-hour requirement. Australian Occupational Therapy Journal, 2016, 63, 352-356.	0.6	8
69	Exploring the meaning of community for older Australians. Australian Occupational Therapy Journal, 2016, 63, 86-94.	0.6	3
70	Understanding the dimensions of home for people returning home post stroke rehabilitation. British Journal of Occupational Therapy, 2016, 79, 427-433.	0.5	11
71	Healthcare students' experiences of an interprofessional, student-led neuro-rehabilitation community-based clinic. Journal of Interprofessional Care, 2016, 30, 259-261.	0.8	21
72	Initial validation of the dimensions of home measure. Australian Occupational Therapy Journal, 2016, 63, 47-56.	0.6	2

#	ARTICLE	IF	CITATIONS
73	Visioning the future for practice education. <i>Australian Occupational Therapy Journal</i> , 2016, 63, 301-302.	0.6	1
74	Family membersâ€™ narratives of lifespace: Mapping changes before and after a brain injury causing driving disruption. <i>Australian Occupational Therapy Journal</i> , 2016, 63, 164-174.	0.6	7
75	Could everyday technology improve access to assessments? A pilot study on the feasibility of screening cognition in people with Parkinson's disease using the Montreal Cognitive Assessment via Internet videoconferencing. <i>Australian Occupational Therapy Journal</i> , 2016, 63, 373-380.	0.6	50
76	Efficacy of Compression Gloves in Maintaining Edema Reductions After Application of Compression Bandaging to the Stroke-Affected Upper Limb. <i>American Journal of Occupational Therapy</i> , 2016, 70, 7002290030p1-7002290030p9.	0.1	4
77	Single-Case-Design Study of Finger-to-Axilla Compression Bandaging for Edema of the Hemiplegic Upper Limb. <i>American Journal of Occupational Therapy</i> , 2016, 70, 7002210010p1-7002210010p7.	0.1	2
78	Mandatory retirement for older professional drivers: an exploration of experiences for older Singaporean taxi drivers. <i>Ageing and Society</i> , 2015, 35, 1384-1409.	1.2	7
79	The experiences of peer leaders in a driving cessation programme. <i>British Journal of Occupational Therapy</i> , 2015, 78, 383-390.	0.5	4
80	An intervention to support professional driver retirement transition: Results of a pilot study for older taxi drivers in Singapore. <i>British Journal of Occupational Therapy</i> , 2015, 78, 391-400.	0.5	7
81	Understanding home modifications impact on clients and their family's experience of home: A qualitative study. <i>Australian Occupational Therapy Journal</i> , 2015, 62, 123-131.	0.6	38
82	Family members' needs and experiences of driving disruption due to health conditions or ageing. <i>Disability and Rehabilitation</i> , 2015, 37, 2114-29.	0.9	11
83	The impact of STRENGTH on the expected and actual transition to home experience. <i>Disability and Rehabilitation</i> , 2014, 36, 2244-2251.	0.9	5
84	STRENGTH and the Health Care Team: Changing Interprofessional and Client-Centered Practices. <i>Topics in Stroke Rehabilitation</i> , 2014, 21, 413-420.	1.0	10
85	Scoping reviews in occupational therapy: The what, why, and how to. <i>Australian Occupational Therapy Journal</i> , 2014, 61, 58-66.	0.6	67
86	Managing driving issues after an acquired brain injury: Strategies used by health professionals. <i>Australian Occupational Therapy Journal</i> , 2014, 61, 215-223.	0.6	18
87	Contemporary occupational therapy practice: The challenges of being evidence based and philosophically congruent. <i>Australian Occupational Therapy Journal</i> , 2014, 61, 121-123.	0.6	31
88	Is planning for driving cessation critical for the well-being and lifestyle of older drivers?. <i>International Psychogeriatrics</i> , 2014, 26, 1111-1120.	0.6	28
89	Paths to Work after Stroke in Australia. <i>Brain Impairment</i> , 2014, 15, 99-106.	0.5	3
90	Development of an Activity Card Sort for Australian adults aged 18â€“64 years. <i>Australian Occupational Therapy Journal</i> , 2014, 61, 403-414.	0.6	8

#	ARTICLE	IF	CITATIONS
91	Effect of a Group Intervention to Promote Older Adultsâ€™ Adjustment to Driving Cessation on Community Mobility: A Randomized Controlled Trial. <i>Gerontologist</i> , The, 2014, 54, 409-422.	2.3	50
92	Single-Case Design Evaluation of Compression Therapy for Edema of the Stroke-Affected Hand. <i>American Journal of Occupational Therapy</i> , 2014, 68, 203-211.	0.1	10
93	Client and carer experience of transition home from inpatient stroke rehabilitation. <i>Disability and Rehabilitation</i> , 2013, 35, 1380-1386.	0.9	59
94	Using technology to enhance physical therapy studentsâ€™ problem-solving skills around safe patient handling. <i>Physical Therapy Reviews</i> , 2013, 18, 407-415.	0.3	6
95	Understanding the dimensions of home that impact on home modification decision making. <i>Australian Occupational Therapy Journal</i> , 2013, 60, 101-109.	0.6	44
96	Occupational Therapy for Upper Limb Post-Stroke Sensory Impairments: A Survey. <i>British Journal of Occupational Therapy</i> , 2013, 76, 434-442.	0.5	13
97	Clinical Decision Making when Addressing Upper Limb Post-Stroke Sensory Impairments. <i>British Journal of Occupational Therapy</i> , 2013, 76, 254-263.	0.5	11
98	Occupational Therapy Practice in Hospital-based Stroke Rehabilitation?. <i>Scandinavian Journal of Occupational Therapy</i> , 2012, 19, 132-139.	1.1	20
99	Analysis of One Stroke Survivor's Transition into Vocational Experiences. <i>Brain Impairment</i> , 2012, 13, 99-107.	0.5	14
100	Clinical Utility of the Canadian Occupational Performance Measure in Spinal Cord Injury Rehabilitation. <i>British Journal of Occupational Therapy</i> , 2012, 75, 337-342.	0.5	16
101	Transition to Community Living After Acquired Brain Injury. <i>Brain Impairment</i> , 2012, 13, 1-3.	0.5	1
102	Participation After Stroke: Do We Understand All the Components and Relationships As Categorised in the ICF?. <i>Brain Impairment</i> , 2012, 13, 4-15.	0.5	27
103	Self-Management of Upper Limb Recovery after Stroke: How Effectively Do Occupational Therapists and Physiotherapists Train Clients and Carers?. <i>British Journal of Occupational Therapy</i> , 2012, 75, 180-187.	0.5	6
104	A driving cessation program to identify and improve transport and lifestyle issues of older retired and retiring drivers. <i>International Psychogeriatrics</i> , 2012, 24, 794-802.	0.6	18
105	Time use, role participation and life satisfaction of older people: Impact of driving status. <i>Australian Occupational Therapy Journal</i> , 2012, 59, 384-392.	0.6	46
106	The diverse constructs use of activities of daily living measures in stroke randomized controlled trials in the years 2005â€“2009. <i>Journal of Rehabilitation Medicine</i> , 2012, 44, 720-726.	0.8	14
107	Mental practice combined with taskâ€™specific practice improved arm ability but dosage remains inconclusive. <i>Australian Occupational Therapy Journal</i> , 2012, 59, 164-165.	0.6	0
108	Stroke management: updated recommendations for treatment along the care continuum. <i>Internal Medicine Journal</i> , 2012, 42, 562-569.	0.5	40

#	ARTICLE	IF	CITATIONS
109	Participation in leisure activities during brain injury rehabilitation. <i>Brain Injury</i> , 2011, 25, 806-818.	0.6	36
110	Chedoke Arm and Hand Activity Inventory-9 (CAHAI-9): a multi-centre investigation of clinical utility. <i>International Journal of Therapy and Rehabilitation</i> , 2011, 18, 290-297.	0.1	2
111	Participant Feedback and Satisfaction with the UQDRIVE Groups for Driving Cessation. <i>Canadian Journal of Occupational Therapy</i> , 2011, 78, 110-117.	0.8	14
112	Chedoke Arm and Hand Activity Inventory-9 (CAHAI-9): Perceived Clinical Utility Within 14 Days of Stroke. <i>Topics in Stroke Rehabilitation</i> , 2011, 18, 382-393.	1.0	8
113	Information provision to clients with stroke and their carers: Self-reported practices of occupational therapists. <i>Australian Occupational Therapy Journal</i> , 2010, 57, 190-196.	0.6	9
114	Clock drawing from the occupational therapy adult perceptual screening test: Its correlation with demographic and clinical factors in the stroke population. <i>Australian Occupational Therapy Journal</i> , 2010, 57, 183-189.	0.6	13
115	Interrater Reliability of the Clock Drawing Task in the Occupational Therapy Adult Perceptual Screening Test. <i>British Journal of Occupational Therapy</i> , 2010, 73, 77-83.	0.5	1
116	An ankle foot orthosis improves walking in the short-term but there is no evidence that an upper limb splint improves function, range of movement or reduces pain after a stroke or non-progressive brain lesion. <i>Australian Occupational Therapy Journal</i> , 2010, 57, 202-204.	0.6	2
117	Driving assessment for older taxi drivers in Singapore. <i>International Journal of Therapy and Rehabilitation</i> , 2010, 17, 92-98.	0.1	4
118	Clinical Utility of the Chedoke Arm and Hand Activity Inventory for Stroke Rehabilitation. <i>Canadian Journal of Occupational Therapy</i> , 2010, 77, 167-173.	0.8	6
119	Is There a Role for Meaningful Activity in Stroke Rehabilitation?. <i>Topics in Stroke Rehabilitation</i> , 2010, 17, 108-118.	1.0	15
120	Review of upper limb ability assessments in acute stroke care, from a practice perspective. <i>International Journal of Therapy and Rehabilitation</i> , 2009, 16, 678-684.	0.1	4
121	Comparison of time use, role participation and life satisfaction of older people after stroke with a sample without stroke. <i>Australian Occupational Therapy Journal</i> , 2009, 56, 177-188.	0.6	30
122	Are we applying interventions with research evidence when targeting secondary complications of the stroke-affected upper limb. <i>Australian Occupational Therapy Journal</i> , 2009, 56, 428-435.	0.6	17
123	Scholarly communication and concerns for our conferences. <i>Australian Occupational Therapy Journal</i> , 2009, 56, 147-148.	0.6	6
124	An exploration of clients' goals during inpatient and outpatient stroke rehabilitation. <i>International Journal of Therapy and Rehabilitation</i> , 2009, 16, 324-330.	0.1	21
125	Assessments of Upper Limb Ability following Stroke: A Review. <i>British Journal of Occupational Therapy</i> , 2008, 71, 427-437.	0.5	13
126	Information provision during stroke rehabilitation: The health professional's perspective. <i>International Journal of Therapy and Rehabilitation</i> , 2008, 15, 130-136.	0.1	5

#	ARTICLE	IF	CITATIONS
127	Review of upper limb ability assessments in acute stroke care, from a practice perspective. International Journal of Therapy and Rehabilitation, 2008, 15, 678-684.	0.1	0
128	Long-term effects of static positional stretches of the patient's stroke-affected shoulder. International Journal of Therapy and Rehabilitation, 2006, 13, 159-165.	0.1	5
129	Shoulder Joint Range of Motion in Healthy Adults Aged 20 to 49 Years. British Journal of Occupational Therapy, 2006, 69, 556-561.	0.5	10
130	A programme of static positional stretches does not reduce hemiplegic shoulder pain or maintain shoulder range of motion -a randomized controlled trial. Clinical Rehabilitation, 2006, 20, 277-286.	1.0	48
131	Treatment approaches for clients with a stroke-affected upper limb: Are we following evidence-based practice?. Australian Occupational Therapy Journal, 2003, 50, 205-215.	0.6	16
132	Active and Passive Shoulder Range of Motion in Healthy Older People. British Journal of Occupational Therapy, 2003, 66, 318-324.	0.5	16
133	Correlation between two measurement scales of hemiplegic shoulder pain. International Journal of Therapy and Rehabilitation, 2003, 10, 247-252.	0.1	4
134	Hemiplegic shoulder pain: defining the problem and its management. Disability and Rehabilitation, 2001, 23, 698-705.	0.9	93
135	Doing, being, becoming, and belonging – A diversity, equity, and inclusion commitment. Australian Occupational Therapy Journal, 0, , .	0.6	1
