

# Motonori Hoshi

## List of Publications by Citations

**Source:** <https://exaly.com/author-pdf/11119206/motonori-hoshi-publications-by-citations.pdf>

**Version:** 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

123  
papers

2,413  
citations

#	Paper	IF	Citations
123	Ca <sup>2+</sup> spikes in the flagellum control chemotactic behavior of sperm. <i>EMBO Journal</i> , <b>2005</b> , 24, 2741-52	13	151
122	Evidence for participation of sperm proteinases in fertilization of the solitary ascidian, <i>Halocynthia roretzi</i> : effects of protease inhibitors. <i>Developmental Biology</i> , <b>1981</b> , 86, 117-21	3.1	88
121	Structure and function of asterosaps, sperm-activating peptides from the jelly coat of starfish eggs. <i>Zygote</i> , <b>1996</b> , 4, 237-45	1.6	79
120	A sperm-activating peptide controls a cGMP-signaling pathway in starfish sperm. <i>Developmental Biology</i> , <b>2003</b> , 260, 314-24	3.1	76
119	Pertussis toxin inhibits 1-methyladenine-induced maturation in starfish oocytes. <i>Developmental Biology</i> , <b>1989</b> , 133, 605-8	3.1	69
118	Trypsin-like hatching protease from mouse embryos: evidence for the presence in culture medium and its enzymatic properties. <i>The Journal of Experimental Zoology</i> , <b>1990</b> , 254, 83-7		67
117	Evidence for acrosin-like enzyme in sperm extract and its involvement in fertilization of the ascidian, <i>halocynthia roretzi</i> . <i>Gamete Research</i> , <b>1982</b> , 5, 291-301		65
116	Egg and sperm recognition systems during fertilization. <i>Development Growth and Differentiation</i> , <b>2008</b> , 50 Suppl 1, S221-38	3	59
115	Gangliosides from the eggs of the sea urchin, <i>Anthocidaris crassispina</i> . <i>Journal of Biochemistry</i> , <b>1990</b> , 108, 185-92	3.1	53
114	Properties of 1-methyladenine receptors in starfish oocyte membranes: involvement of pertussis toxin-sensitive GTP-binding protein in the receptor-mediated signal transduction. <i>Biochemical and Biophysical Research Communications</i> , <b>1992</b> , 186, 114-21	3.4	49
113	Structure of the main saccharide chain in the acrosome reaction-inducing substance of the starfish, <i>Asterias amurensis</i> . <i>Journal of Biological Chemistry</i> , <b>1997</b> , 272, 10372-6	5.4	42
112	Switching from Asexual to Sexual Reproduction in the Planarian <i>Dugesia ryukyuensis</i> : Bioassay System and Basic Description of Sexualizing Process. <i>Zoological Science</i> , <b>1999</b> , 16, 291-298	0.8	41
111	The primary structure of the alpha subunit of a starfish guanosine-nucleotide-binding regulatory protein involved in 1-methyladenine-induced oocyte maturation. <i>FEBS Journal</i> , <b>1992</b> , 207, 833-8		41
110	Biochemical Studies on the Acrosome Reaction of the Starfish, <i>Asterias Amurensis</i> I. Factors Participating in the Acrosome Reaction. <i>Development Growth and Differentiation</i> , <b>1981</b> , 23, 73-80	3	41
109	A 130-kDa membrane protein of sperm flagella is the receptor for asterosaps, sperm-activating peptides of starfish <i>Asterias amurensis</i> . <i>Developmental Biology</i> , <b>2000</b> , 219, 154-62	3.1	40
108	Induction of the Acrosome Reaction in Starfish. <i>Development Growth and Differentiation</i> , <b>1986</b> , 28, 339-348		40
107	Glucosylceramide having a novel tri-unsaturated long-chain base from the spermatozoa of the starfish, <i>Asterias amurensis</i> . <i>Journal of Biochemistry</i> , <b>1990</b> , 107, 578-86	3.1	39

106	Switching from asexual to sexual reproduction in the planarian <i>Dugesia ryukyuensis</i> : change of the fissiparous capacity along with the sexualizing process. <i>Zoological Science</i> , <b>2002</b> , 19, 661-6	0.8	36
105	Biochemical Studies on the Acrosome Reaction of the Starfish, <i>Asterias Amurensis</i> II. Purification and Characterization of Acrosome Reaction-Inducing Substance. <i>Development Growth and Differentiation</i> , <b>1981</b> , 23, 81-88	3	36
104	Lysins <b>1985</b> , 431-462		35
103	Effects of hydrolase inhibitors on fertilization of sea urchins: I. Protease inhibitors. <i>Gamete Research</i> , <b>1979</b> , 2, 107-119		32
102	Arylsulfatase of sea urchin sperm. 2. Arylsulfatase as a lysin of sea urchins. <i>Developmental Biology</i> , <b>1980</b> , 74, 343-50	3.1	32
101	Purification and characterization of hatching enzyme of <i>Strongylocentrotus intermedius</i> . <i>FEBS Journal</i> , <b>1979</b> , 100, 257-65		29
100	Purification and characterization of a GTP-binding protein serving as pertussis toxin substrate in starfish oocytes. <i>Archives of Biochemistry and Biophysics</i> , <b>1991</b> , 290, 411-7	4.1	28
99	Hemocytes release phenoloxidase upon contact reaction, an allogeneic interaction, in the ascidian <i>Halocynthia roretzi</i> . <i>Cell Structure and Function</i> , <b>1995</b> , 20, 81-7	2.2	27
98	Participation of 650-kDa protease (20 S proteasome) in starfish oocyte maturation. <i>Developmental Biology</i> , <b>1992</b> , 150, 414-8	3.1	27
97	Effects of protease inhibitors on binding of sperm to the vitelline coat of ascidian eggs: implications for participation of a proteasome (multicatalytic proteinase complex). <i>The Journal of Experimental Zoology</i> , <b>1993</b> , 267, 86-91		26
96	Structure of acrosome reaction-inducing substance in the jelly coat of starfish eggs: a mini review. <i>Biochemical and Biophysical Research Communications</i> , <b>2012</b> , 425, 595-8	3.4	25
95	Intracellular pH Changes of Starfish Sperm Upon the Acrosome Reaction. <i>Development Growth and Differentiation</i> , <b>1986</b> , 28, 359-368	3	25
94	Structures of the sugar chains of a major glycoprotein present in the egg jelly coat of a starfish, <i>Asterias amurensis</i> . <i>Archives of Biochemistry and Biophysics</i> , <b>1987</b> , 252, 105-12	4.1	24
93	The <i>Dugesia ryukyuensis</i> database as a molecular resource for studying switching of the reproductive system. <i>Zoological Science</i> , <b>2007</b> , 24, 31-7	0.8	23
92	Switch from Asexual to Sexual Reproduction in the Planarian <i>Dugesia ryukyuensis</i> . <i>Integrative and Comparative Biology</i> , <b>2003</b> , 43, 242-6	2.8	23
91	Inhibition of starfish oocyte maturation by leupeptin analogs, potent trypsin inhibitors. <i>Developmental Biology</i> , <b>1989</b> , 133, 609-12	3.1	23
90	Chymotrypsin-like enzymes are involved in sperm penetration through the vitelline coat of <i>Ciona intestinalis</i> egg. <i>Molecular Reproduction and Development</i> , <b>1990</b> , 26, 319-23	2.6	23
89	Transcriptional pattern of a novel gene, expressed specifically after the point-of-no-return during sexualization, in planaria. <i>Development Genes and Evolution</i> , <b>2003</b> , 212, 585-92	1.8	22

88	Acrosome Reaction-Inducing Substance Purified from the Egg Jelly Inhibits the Jelly-Induced Acrosome Reaction in Starfish: An Apparent Contradiction. <i>Development Growth and Differentiation</i> , <b>1986</b> , 28, 349-357	3	22
87	Correlation Between the Molecular Structure and the Biological Activity of Co-ARIS, a Cofactor for Acrosome Reaction-Inducing Substance. <i>Development Growth and Differentiation</i> , <b>1987</b> , 29, 171-176	3	22
86	Cortical changes in starfish ( <i>Asterina pectinifera</i> ) oocytes during 1-methyladenine-induced maturation and fertilisation/activation. <i>Zygote</i> , <b>1995</b> , 3, 225-39	1.6	21
85	Re-examination of sibling cross-sterility in the ascidian, <i>Ciona intestinalis</i> : genetic background of the self-sterility. <i>Zoological Science</i> , <b>2002</b> , 19, 527-38	0.8	20
84	Structural analysis of N-linked oligosaccharides of equine chorionic gonadotropin and lutropin beta-subunits. <i>Biochemistry</i> , <b>1994</b> , 33, 14039-48	3.2	20
83	Signification of the sexualizing substance produced by the sexualized planarians. <i>Zoological Science</i> , <b>2002</b> , 19, 667-72	0.8	19
82	Synthesis of ganglioside M5 from sea urchin egg. <i>Tetrahedron Letters</i> , <b>1994</b> , 35, 2701-2704	2	19
81	Comparative study of glycosphingolipid composition in mammalian lenses. <i>Experimental Eye Research</i> , <b>1994</b> , 59, 653-63	3.7	19
80	A periodic network of G protein beta gamma subunit coexisting with cyokeratin filament in starfish oocytes. <i>Developmental Biology</i> , <b>1995</b> , 169, 415-20	3.1	18
79	Purification of Co-ARIS, a Cofactor for Acrosome Reaction-Inducing Substance, from the Egg Jelly of Starfish. <i>Development Growth and Differentiation</i> , <b>1987</b> , 29, 161-169	3	18
78	Specific binding of acrosome-reaction-inducing substance to the head of starfish spermatozoa. <i>Zygote</i> , <b>1993</b> , 1, 121-7	1.6	17
77	Differential distribution of gangliosides in adult rat ovary during the oestrous cycle. <i>Glycobiology</i> , <b>1995</b> , 5, 299-309	5.8	16
76	Three Phases of Cortical Maturation during Meiosis Reinitiation in Starfish Oocytes. <i>Development Growth and Differentiation</i> , <b>1989</b> , 31, 447-451	3	16
75	Physiological inducers of the acrosome reaction. <i>Cell Differentiation and Development</i> , <b>1988</b> , 25 Suppl, 19-24		16
74	Characterization and partial purification of arylsulfatase from the seminal plasma of the sea urchin, <i>Strongylocentrotus intermedius</i> . <i>Archives of Biochemistry and Biophysics</i> , <b>1980</b> , 201, 216-23	4.1	16
73	Sex-inducing effect of a hydrophilic fraction on reproductive switching in the planarian <i>Dugesia ryukyuensis</i> (Seriata, Tricladida). <i>Frontiers in Zoology</i> , <b>2011</b> , 8, 23	2.8	15
72	Sequence analysis of cDNAs encoding precursors of starfish asterosaps. <i>Genesis</i> , <b>1999</b> , 25, 130-6		15
71	Purification and characterization of a vitelline coat lysin from <i>Ciona intestinalis</i> spermatozoa. <i>Molecular Reproduction and Development</i> , <b>1992</b> , 32, 383-8	2.6	15

70	Immunocytochemical study of the distribution of a ganglioside in sea urchin eggs. <i>Journal of Biochemistry</i> , <b>1990</b> , 108, 193-9	3.1	15
69	Ceramide dihexosides from the spermatozoa of the starfish, <i>Asterias amurensis</i> , consist of gentiobiosyl- cellobiosyl-, and lactosylceramide. <i>Journal of Biochemistry</i> , <b>1990</b> , 108, 531-6	3.1	15
68	Melibiosylceramide as the sole ceramide dihexoside from the eggs of the sea urchin, <i>Anthocidaris crassispina</i> . <i>Journal of Biochemistry</i> , <b>1988</b> , 104, 755-60	3.1	15
67	Peptide-induced hyperactivation-like vigorous flagellar movement in starfish sperm. <i>Zygote</i> , <b>2006</b> , 14, 23-32	1.6	14
66	Seasonal changes in the sexualization of the planarian <i>Dugesia ryukyuensis</i> . <i>Zoological Science</i> , <b>2002</b> , 19, 1267-78	0.8	14
65	Localization of LewisX, sialyl-LewisX and alpha-galactosyl epitopes on glycosphingolipids in lens tissues. <i>Glycobiology</i> , <b>1998</b> , 8, 95-105	5.8	14
64	Sulfated O-linked glycans of the vitelline coat as ligands in gamete interaction in the ascidian, <i>Halocynthia roretzi</i> . <i>Development Growth and Differentiation</i> , <b>1999</b> , 41, 357-64	3	14
63	Acrosome reaction-related steroidal saponin, Co-ARIS, from the starfish induces structural changes in microdomains. <i>Developmental Biology</i> , <b>2010</b> , 347, 147-53	3.1	13
62	A novel saccharide structure, Xyl 1----3 Gal 1----(SO <sub>3</sub> -)3,4 Fuc----, is present in acrosome reaction-inducing substance of the starfish, <i>Asterias amurensis</i> . <i>Biochemical and Biophysical Research Communications</i> , <b>1992</b> , 186, 405-10	3.4	13
61	Structure of acrosome reaction-inducing steroidal saponins from the egg jelly of the starfish, <i>Asterias amurensis</i> .. <i>Chemical and Pharmaceutical Bulletin</i> , <b>1987</b> , 35, 1829-1832	1.9	13
60	The identification of D-tryptophan as a bioactive substance for postembryonic ovarian development in the planarian <i>Dugesia ryukyuensis</i> . <i>Scientific Reports</i> , <b>2017</b> , 7, 45175	4.9	12
59	Acrosome reaction is subfamily specific in sea star fertilization. <i>Developmental Biology</i> , <b>2006</b> , 298, 597-604	3.4	12
58	Biochemical characterization of inner sugar chains of acrosome reaction-inducing substance in jelly coat of starfish eggs. <i>Glycobiology</i> , <b>2003</b> , 13, 567-80	5.8	12
57	G-protein betagamma subunit-dependent phosphorylation of 62-kDa protein in the early signaling pathway of starfish oocyte maturation induced by 1-methyladenine. <i>Developmental Biology</i> , <b>1999</b> , 209, 200-9	3.1	12
56	Localization of neutral and acidic glycosphingolipids in rat lens. <i>Glycobiology</i> , <b>1995</b> , 5, 187-94	5.8	12
55	Age-related changes in ganglioside composition in human lens. <i>Experimental Eye Research</i> , <b>1995</b> , 60, 317-23	3.7	12
54	Regulation of the starfish sperm acrosome reaction by cGMP, pH, cAMP and Ca <sup>2+</sup> . <i>International Journal of Developmental Biology</i> , <b>2008</b> , 52, 523-6	1.9	11
53	Induction of germinal vesicle breakdown in a cell-free preparation from starfish oocytes. <i>Developmental Biology</i> , <b>1999</b> , 205, 217-23	3.1	11

52	Activation of the proteasomes of sand dollar eggs at fertilization depends on the intracellular pH rise. <i>Developmental Biology</i> , <b>1999</b> , 209, 52-9	3.1	11
51	Characterization of neutral glycosphingolipids in rat lens. <i>Experimental Eye Research</i> , <b>1995</b> , 60, 193-8	3.7	11
50	Non-plasmalemmal localisation of the major ganglioside in sea urchin eggs. <i>Zygote</i> , <b>1993</b> , 1, 215-23	1.6	11
49	Glycosphingolipids in cultured lens epithelial cells from dog and rhesus monkey. <i>Glycobiology</i> , <b>1994</b> , 4, 375-82	5.8	11
48	A novel ceramide trihexoside from the eggs of the sea urchin, <i>Hemicentrotus pulcherrimus</i> . <i>Journal of Biochemistry</i> , <b>1992</b> , 111, 726-31	3.1	11
47	Biochemical studies of the hatching process in sea urchin embryos. I. Effects of protease inhibitors. <i>The Journal of Experimental Zoology</i> , <b>1979</b> , 209, 129-134		11
46	Existence of two sexual races in the planarian species switching between asexual and sexual reproduction. <i>Zoological Science</i> , <b>2012</b> , 29, 265-72	0.8	10
45	Asterosap-induced elevation in intracellular pH is indispensable for ARIS-induced sustained increase in intracellular Ca <sup>2+</sup> and following acrosome reaction in starfish spermatozoa. <i>Zygote</i> , <b>2005</b> , 13, 63-71	1.6	10
44	Characterization of the sperm receptor for acrosome reaction-inducing substance of the starfish, <i>Asterias amurensis</i> . <i>Zoological Science</i> , <b>2002</b> , 19, 435-42	0.8	10
43	Ultrastructural localization of acrosome reaction-inducing substance (ARIS) on sperm of the starfish <i>Asterias amurensis</i> . <i>Molecular Reproduction and Development</i> , <b>1995</b> , 41, 91-9	2.6	10
42	Developmental changes in carbohydrate antigens in embryonic rat lens. <i>Glycobiology</i> , <b>1997</b> , 7, 605-15	5.8	9
41	Conserved sequences of sperm-activating peptide and its receptor throughout evolution, despite speciation in the sea star <i>Asterias amurensis</i> and closely related species. <i>Zygote</i> , <b>2008</b> , 16, 229-37	1.6	9
40	Trypsin-like Hatching Enzyme of Mouse Blastocysts: Evidence for Its Participation in Hatching Process before Zona Shedding of Embryos <sup>6</sup> . <i>Development Growth and Differentiation</i> , <b>1994</b> , 36, 149-154 <sup>3</sup>		9
39	Treatment of Starfish Sperm with Egg Jelly Induces the Degradation of Histones. <i>Development Growth and Differentiation</i> , <b>1992</b> , 34, 99-106	3	9
38	Effects of 17 $\beta$ -estradiol and bisphenol A on the formation of reproductive organs in planarians. <i>Biological Bulletin</i> , <b>2011</b> , 220, 47-56	1.5	8
37	Detection of in vivo proteasome activity in a starfish oocyte using membrane-impermeant substrate. <i>Journal of Biochemistry</i> , <b>1997</b> , 122, 286-93	3.1	8
36	Production of diploid and triploid offspring by inbreeding of the triploid planarian <i>Dugesia ryukyuensis</i> . <i>Chromosoma</i> , <b>2008</b> , 117, 289-96	2.8	8
35	Na <sup>+</sup> /Ca <sup>2+</sup> exchanger contributes to asterosap-induced elevation of intracellular Ca <sup>2+</sup> concentration in starfish spermatozoa. <i>Zygote</i> , <b>2006</b> , 14, 133-41	1.6	8

34	Neutral and acidic glycosphingolipids in glucocorticoid-induced cataract in chick lens. <i>Experimental Eye Research</i> , <b>1999</b> , 68, 229-36	3.7	8
33	Pertussis toxin-sensitive G protein participating in starfish oocyte maturation induced by 1-methyladenine. <i>Invertebrate Reproduction and Development</i> , <b>1992</b> , 22, 1-9	0.7	8
32	A novel difucosylated neutral glycosphingolipid from the eggs of the sea urchin, <i>Hemicentrotus pulcherrimus</i> : I. Purification and structural determination of the glycolipid. <i>Journal of Biochemistry</i> , <b>1992</b> , 112, 281-5	3.1	8
31	Egg jelly components responsible for histone degradation and acrosome reaction in the starfish, <i>Asterina pectinifera</i> . <i>Biochemical and Biophysical Research Communications</i> , <b>1992</b> , 187, 274-8	3.4	8
30	Production of asexual and sexual offspring in the triploid sexual planarian <i>Dugesia ryukyuensis</i> . <i>Integrative Zoology</i> , <b>2009</b> , 4, 265-71	1.9	7
29	Association of the major ganglioside in sea urchin eggs with yolk lipoproteins. <i>Glycobiology</i> , <b>1997</b> , 7, 391-8	3.8	7
28	Neoblast-enriched fraction rescues eye formation in eye-defective planarian <i>Snenashi</i> <i>Dugesia ryukyuensis</i> . <i>Development Growth and Differentiation</i> , <b>2008</b> , 50, 689-96	3	7
27	Comparative study of eye defective worm <i>Snenashi</i> and regenerating wild-type in planarian, <i>Dugesia ryukyuensis</i> . <i>Pigment Cell &amp; Melanoma Research</i> , <b>2005</b> , 18, 86-91		7
26	Expression of sialylated Lewisx gangliosides in cultured lens epithelial cells from rhesus monkey. <i>Experimental Eye Research</i> , <b>1998</b> , 66, 765-73	3.7	7
25	A novel difucosylated neutral glycosphingolipid from the eggs of the sea urchin, <i>Hemicentrotus pulcherrimus</i> : II. Structural determination by two-dimensional NMR. <i>Journal of Biochemistry</i> , <b>1992</b> , 112, 286-9	3.1	7
24	Anion Channel Blockers Inhibit the Acrosome Reaction of Echinoderm Sperm. <i>Development Growth and Differentiation</i> , <b>1985</b> , 27, 461-468	3	7
23	G-protein-mediated signal transduction for meiosis reinitiation in starfish oocyte. <i>Progress in Cell Cycle Research</i> , <b>1995</b> , 1, 255-63		7
22	Novel conserved structural domains of acrosome reaction-inducing substance are widespread in invertebrates. <i>Molecular Reproduction and Development</i> , <b>2011</b> , 78, 57-66	2.6	6
21	Maitotoxin, A Presumed Calcium Channel Activator, Induces the Acrosome Reaction in Mussel Spermatozoa. <i>Development Growth and Differentiation</i> , <b>1986</b> , 28, 443-448	3	6
20	Characterization of the sulfated fucose-containing trisaccharides by fast atom bombardment tandem mass spectrometry in the study of the acrosome reaction-inducing substance of the starfish, <i>Asterias amurensis</i> . <i>Journal of Mass Spectrometry</i> , <b>1998</b> , 33, 35-44	2.2	5
19	Identification and synthetic pathway of sialyl-Lewisx-containing neolacto-series gangliosides in lens tissues. 1. Characterization of gangliosides in human senile cataractous lens. <i>Lipids and Lipid Metabolism</i> , <b>1995</b> , 1256, 166-74		5
18	Estimation by radiation inactivation of the minimum functional size of acrosome-reaction-inducing substance (ARIS) in the starfish, <i>Asterias amurensis</i> . <i>Zygote</i> , <b>1995</b> , 3, 351-5	1.6	5
17	Stem cells from innate sexual but not acquired sexual planarians have the capability to form a sexual individual. <i>Molecular Reproduction and Development</i> , <b>2012</b> , 79, 757-66	2.6	4

16	Activation of Starfish Oocytes Modifies their Hormone Dependent Period for 1-Methyladenine in Meiosis Reinitiation. <i>Development Growth and Differentiation</i> , <b>1989</b> , 31, 453-458	3	4
15	Mass Isolation of Germinal Vesicles from Starfish Oocytes*. <i>Development Growth and Differentiation</i> , <b>1985</b> , 27, 277-282	3	4
14	Guanylyl cyclase and cGMP-specific phosphodiesterase participate in the acrosome reaction of starfish sperm. <i>Zygote</i> , <b>2004</b> , 12, 345-55	1.6	3
13	Introduction to the symposium on oocyte maturation and fertilization. <i>Invertebrate Reproduction and Development</i> , <b>1996</b> , 30, 1-5	0.7	3
12	G protein function in starfish oocyte maturation. <i>Invertebrate Reproduction and Development</i> , <b>1996</b> , 30, 117-122	0.7	2
11	Pretreatment effects of jelly components on the sperm acrosome reaction and histone degradation in the starfish, <i>Asterina pectinifera</i> . <i>Biochemical and Biophysical Research Communications</i> , <b>1992</b> , 187, 268-73	3.4	2
10	Inhibition of Mouse Blastocyst Hatching by Subsite-Specific Trypsin Inhibitors, Peptidyl Argininals1. <i>Development Growth and Differentiation</i> , <b>1992</b> , 34, 357-362	3	2
9	A chloride ion channel in <i>Halocynthia roretzi</i> hemocytes is associated with PO activity but not pigmentation during the contact reaction. <i>Zoological Science</i> , <b>2008</b> , 25, 1130-8	0.8	1
8	Species-specificity of the acrosome reaction in starfish. <i>Zygote</i> , <b>1999</b> , 8, S62-S62	1.6	1
7	Identification and synthetic pathway of sialyl-Lewis(x)-containing neolacto-series gangliosides in lens tissues. 2. Enzymatic synthesis of sialyl-Lewis(x) gangliosides in monkey and rat lenses. <i>Biochimica Et Biophysica Acta - Molecular Basis of Disease</i> , <b>1996</b> , 1315, 29-36	6.9	1
6	Low-Na+Seawater Induces the Acrosome Reaction and Histone Degradation of Starfish Sperm in the Absence of Egg Jelly. <i>Development Growth and Differentiation</i> , <b>1993</b> , 35, 521-529	3	1
5	Arylsulfatase of sea urchin sperm--distribution of arylsulfatase in the gonads and gametes of echinoderms. <i>Comparative Biochemistry and Physiology Part B: Comparative Biochemistry</i> , <b>1979</b> , 64, 293-6		1
4	Participation of sperm proteinases in fertilization of the solitary ascidian, <i>Halocynthia roretzi</i> . <i>Cell Differentiation</i> , <b>1982</b> , 11, 261-262		1
3	Cyclic AMP-dependent PKA phosphorylates starfish sperm proteins during acrosome reaction. <i>Open Life Sciences</i> , <b>2007</b> , 2, 109-121	1.2	
2	Acrosome reaction in starfish: signal molecules in the jelly coat and their receptors. <i>Zygote</i> , <b>1999</b> , 8, S26-S27		
1	Analysis of the Self-sterility in <i>Halocynthia roretzi</i> <b>2001</b> , 9-13
