## Jo M Wilmshurst

List of Publications by Year in descending order

Source: https://exaly.com/author-pdf/1114346/publications.pdf Version: 2024-02-01

#	Article	IF	CITATIONS
1	Summary of recommendations for the management of infantile seizures: Task <scp>F</scp> orce <scp>R</scp> eport for the <scp>ILAE C</scp> ommission of <scp>P</scp> ediatrics. Epilepsia, 2015, 56, 1185-1197.	5.1	323
2	Mutations in the gene encoding immunoglobulin μ-binding protein 2 cause spinal muscular atrophy with respiratory distress type 1. Nature Genetics, 2001, 29, 75-77.	21.4	317
3	International League Against Epilepsy classification and definition of epilepsy syndromes with onset in childhood: Position paper by the ILAE Task Force on Nosology and Definitions. Epilepsia, 2022, 63, 1398-1442.	5.1	263
4	ILAE classification and definition of epilepsy syndromes with onset in neonates and infants: Position statement by the ILAE Task Force on Nosology and Definitions. Epilepsia, 2022, 63, 1349-1397.	5.1	237
5	<i>RYR1</i> mutations are a common cause of congenital myopathies with central nuclei. Annals of Neurology, 2010, 68, 717-726.	5.3	230
6	The ILAE classification of seizures and the epilepsies: Modification for seizures in the neonate. Position paper by the ILAE Task Force on Neonatal Seizures. Epilepsia, 2021, 62, 615-628.	5.1	158
7	ILAE definition of the Idiopathic Generalized Epilepsy Syndromes: Position statement by the ILAE Task Force on Nosology and Definitions. Epilepsia, 2022, 63, 1475-1499.	5.1	148
8	Epilepsy in tuberous sclerosis complex: Findings from the <scp>TOSCA</scp> Study. Epilepsia Open, 2019, 4, 73-84.	2.4	125
9	Keeping people with epilepsy safe during the COVID-19 pandemic. Neurology, 2020, 94, 1032-1037.	1.1	116
10	Definitive neuroradiological diagnostic features of tuberculous meningitis in children. Pediatric Radiology, 2004, 34, 876-885.	2.0	108
11	Autism Spectrum Disorders in Africa: Current Challenges in Identification, Assessment, and Treatment. Journal of Child Neurology, 2016, 31, 1018-1026.	1.4	69
12	An update on the treatment of Sydenham's chorea: the evidence for established and evolving interventions. Therapeutic Advances in Neurological Disorders, 2010, 3, 301-309.	3.5	68
13	Systematic review of the screening, diagnosis, and management of <scp>ADHD</scp> in children with epilepsy. Consensus paper of the Task Force on Comorbidities of the <scp>ILAE</scp> Pediatric Commission. Epilepsia, 2018, 59, 1867-1880.	5.1	68
14	Excitatory GABAergic signalling is associated with benzodiazepine resistance in status epilepticus. Brain, 2019, 142, 3482-3501.	7.6	67
15	Neurologic and Neurobehavioral Sequelae in Children With Human Immunodeficiency Virus (HIV-1) Infection. Journal of Child Neurology, 2011, 26, 1355-1364.	1.4	66
16	Pediatric Cerebral Palsy in Africa. Journal of Child Neurology, 2015, 30, 963-971.	1.4	64
17	International consensus on diagnosis and management of Dravet syndrome. Epilepsia, 2022, 63, 1761-1777.	5.1	62
18	Presentation and outcome of sacral agenesis: 20 years' experience. Developmental Medicine and Child Neurology, 1999, 41, 806-812.	2.1	61

#	Article	IF	CITATIONS
19	Hereditary peripheral neuropathies of childhood: An overview for clinicians. Neuromuscular Disorders, 2011, 21, 763-775.	0.6	61
20	Distribution of brain infarction in children with tuberculous meningitis and correlation with outcome score at 6Âmonths. Pediatric Radiology, 2006, 36, 1289-1294.	2.0	59
21	The current state of epilepsy guidelines: A systematic review. Epilepsia, 2016, 57, 13-23.	5.1	54
22	Developmental and epileptic encephalopathies: recognition and approaches to care. Epileptic Disorders, 2021, 23, 40-52.	1.3	48
23	Epigenetic changes as a common trigger of muscle weakness in congenital myopathies. Human Molecular Genetics, 2015, 24, 4636-4647.	2.9	44
24	Clinical characteristics and neurodevelopmental outcomes of children with tuberculous meningitis and hydrocephalus. Developmental Medicine and Child Neurology, 2016, 58, 461-468.	2.1	44
25	Timing of referral to evaluate for epilepsy surgery: Expert Consensus Recommendations from the Surgical Therapies Commission of the International League Against Epilepsy. Epilepsia, 2022, 63, 2491-2506.	5.1	43
26	Treatment of Sydenham Chorea With Intravenous Immunoglobulin. Journal of Child Neurology, 2012, 27, 147-155.	1.4	42
27	Child Neurology Services in Africa. Journal of Child Neurology, 2011, 26, 1555-1563.	1.4	40
28	RyR1 Deficiency in Congenital Myopathies Disrupts Excitation-Contraction Coupling. Human Mutation, 2013, 34, 986-996.	2.5	40
29	Subacute sclerosing panencephalitis: clinical phenotype, epidemiology, and preventive interventions. Developmental Medicine and Child Neurology, 2019, 61, 1139-1144.	2.1	40
30	The Challenges of Managing Children With Epilepsy in Africa. Seminars in Pediatric Neurology, 2014, 21, 36-41.	2.0	39
31	HIV Encephalopathy: pediatric case series description and insights from the clinic coalface. AIDS Research and Therapy, 2015, 12, 2.	1.7	39
32	PROGRESSIVE MULTIFOCAL LEUKOENCEPHALOPATHY AFTER INITIATION OF HIGHLY ACTIVE ANTIRETROVIRAL THERAPY IN A CHILD WITH ADVANCED HUMAN IMMUNODEFICIENCY VIRUS INFECTION:A CASE OF IMMUNE RECONSTITUTION INFLAMMATORY SYNDROME. Pediatric Infectious Disease Journal, 2004, 23, 683-685.	2.0	38
33	Value of early follow-up CT in paediatric tuberculous meningitis. Pediatric Radiology, 2005, 35, 1092-1099.	2.0	38
34	The challenges and innovations for therapy in children with epilepsy. Nature Reviews Neurology, 2014, 10, 249-260.	10.1	38
35	Neurologic Complications of Pediatric Human Immunodeficiency Virus: Implications for Clinical Practice and Management Challenges in the African Setting. Seminars in Pediatric Neurology, 2014, 21, 3-11.	2.0	38
36	Epileptic spasms — 175 years on: Trying to teach an old dog new tricks. Seizure: the Journal of the British Epilepsy Association, 2017, 44, 81-86.	2.0	38

3

#	Article	IF	CITATIONS
37	The characteristics of juvenile myasthenia gravis among South Africans. South African Medical Journal, 2012, 102, 532.	0.6	37
38	Neonatal seizures: Case definition & guidelines for data collection, analysis, and presentation of immunization safety data. Vaccine, 2019, 37, 7596-7609.	3.8	37
39	Positron Emission Tomography in Imaging Spinal Cord Tumors. Journal of Child Neurology, 2000, 15, 465-472.	1.4	36
40	MRI findings in acute idiopathic transverse myelopathy in children. Pediatric Radiology, 2003, 33, 624-629.	2.0	36
41	Migrating Partial Seizures in Infancy: Two New Cases. Journal of Child Neurology, 2000, 15, 717-722.	1.4	33
42	Severe infantile axonal neuropathy with respiratory failure. Muscle and Nerve, 2001, 24, 760-768.	2.2	33
43	Objective CT criteria to determine the presence of abnormal basal enhancement in children with suspected tuberculous meningitis. Pediatric Radiology, 2006, 36, 687-696.	2.0	33
44	Children With Epilepsy in Africa. Journal of Child Neurology, 2013, 28, 633-644.	1.4	31
45	The African Pediatric Fellowship Program: Training in Africa for Africans. Pediatrics, 2016, 137, .	2.1	31
46	Why won't it stop? The dynamics of benzodiazepine resistance in status epilepticus. Nature Reviews Neurology, 2022, 18, 428-441.	10.1	31
47	Prevalence of Seizures in Children Infected With Human Immunodeficiency Virus. Journal of Child Neurology, 2013, 28, 297-302.	1.4	30
48	An accelerated shift in the use of remote systems in epilepsy due to the COVID-19 pandemic. Epilepsy and Behavior, 2020, 112, 107376.	1.7	29
49	Behavioral disorder in people with an intellectual disability and epilepsy: A report of the Intellectual Disability Task Force of the Neuropsychiatric Commission of <scp>ILAE</scp> . Epilepsia Open, 2016, 1, 102-111.	2.4	27
50	Peripheral neuropathies of infancy. Developmental Medicine and Child Neurology, 2003, 45, 408-414.	2.1	26
51	Epilepsy is ubiquitous, but more devastating in the poorer regions of the world… or is it?. Epilepsia, 2014, 55, 1322-1325.	5.1	26
52	Treatment of infants with epilepsy: Common practices around the world. Epilepsia, 2015, 56, 1033-1046.	5.1	26
53	The role of new medical treatments for the management of developmental and epileptic encephalopathies: Novel concepts and results. Epilepsia, 2021, 62, 857-873.	5.1	26
54	Update on the key developments of the neurologic complications in children infected with HIV. Current Opinion in HIV and AIDS, 2014, 9, 533-538.	3.8	25

#	Article	lF	CITATIONS
55	Analysis of a Subacute Sclerosing Panencephalitis Genotype B3 Virus from the 2009-2010 South African Measles Epidemic Shows That Hyperfusogenic F Proteins Contribute to Measles Virus Infection in the Brain. Journal of Virology, 2019, 93, .	3.4	25
56	Familial Guillain-Barre Syndrome. European Journal of Neurology, 1999, 6, 499-503.	3.3	24
57	Characteristics and outcome of children with juvenile dermatomyositis in Cape Town: a cross-sectional study. Pediatric Rheumatology, 2016, 14, 60.	2.1	24
58	Specific Neurologic Complications of Human Immunodeficiency Virus Type 1 (HIV-1) Infection in Children. Journal of Child Neurology, 2006, 21, 788-794.	1.4	23
59	Efficacy of Sublingual Lorazepam Versus Intrarectal Diazepam for Prolonged Convulsions in Sub-Saharan Africa. Journal of Child Neurology, 2014, 29, 895-902.	1.4	23
60	NeuroAIDS in children. Handbook of Clinical Neurology / Edited By P J Vinken and G W Bruyn, 2018, 152, 99-116.	1.8	23
61	A novel ACTA1 mutation resulting in a severe congenital myopathy with nemaline bodies, intranuclear rods and type I fibre predominance. Neuromuscular Disorders, 2011, 21, 31-36.	0.6	22
62	Clinical Application of Epilepsy Genetics in Africa: Is Now the Time?. Frontiers in Neurology, 2018, 9, 276.	2.4	21
63	A Comparison of Parenteral Phenobarbital vs. Parenteral Phenytoin as Second-Line Management for Pediatric Convulsive Status Epilepticus in a Resource-Limited Setting. Frontiers in Neurology, 2019, 10, 506.	2.4	21
64	Giant Congenital Melanocytic Nevi in a Patient With Brain Structural Malformations and Multiple Lipomatosis. Journal of Child Neurology, 2002, 17, 289-291.	1.4	20
65	Presentation and Outcome of Tuberculous Meningitis among Children: Experiences from a Tertiary Children's Hospital. African Health Sciences, 2014, 14, 143.	0.7	20
66	Rescue therapy with highâ€dose oral phenobarbitone loading for refractory status epilepticus. Journal of Paediatrics and Child Health, 2010, 46, 17-22.	0.8	19
67	The First Case of Riboflavin Transporter Deficiency in sub-Saharan Africa. Seminars in Pediatric Neurology, 2018, 26, 10-14.	2.0	19
68	Establishing criteria for pediatric epilepsy surgery center levels of care: Report from the ILAE Pediatric Epilepsy Surgery Task Force. Epilepsia, 2020, 61, 2629-2642.	5.1	19
69	Cerebrovascular disease in children with <scp>HIV</scp> †infection. Developmental Medicine and Child Neurology, 2016, 58, 452-460.	2.1	18
70	Neuropsychological manifestations in children with Sydenham's chorea after adjunct intravenous immunoglobulin and standard treatment. Metabolic Brain Disease, 2016, 31, 205-212.	2.9	18
71	Epidemiology of children with epilepsy at a tertiary referral centre in South Africa. Seizure: the Journal of the British Epilepsy Association, 2019, 70, 82-89.	2.0	18
72	Sydenham Chorea and PANDAS in South Africa. Journal of Child Neurology, 2015, 30, 850-859.	1.4	17

#	Article	IF	CITATIONS
73	Spinal Muscular Atrophy With Congenital Fractures: Postmortem Analysis. Journal of Child Neurology, 2002, 17, 721-723.	1.4	16
74	Subacute sclerosing panencephalitis in South African children following the measles outbreak between 2009 and 2011. South African Medical Journal, 2015, 105, 713.	0.6	16
75	Moyamoya Syndrome in South African Children With HIV-1 Infection. Journal of Child Neurology, 2016, 31, 1010-1017.	1.4	16
76	Natural clusters of tuberous sclerosis complex (TSC)-associated neuropsychiatric disorders (TAND): new findings from the TOSCA TAND research project. Journal of Neurodevelopmental Disorders, 2020, 12, 24.	3.1	16
77	Chronic axonal neuropathy with triosephosphate isomerase deficiency. Pediatric Neurology, 2004, 30, 146-148.	2.1	15
78	Bridging the childhood epilepsy treatment gap in northern Nigeria (BRIDGE): Rationale and design of pre-clinical trial studies. Contemporary Clinical Trials Communications, 2019, 15, 100362.	1.1	14
79	Why does Africa have the lowest number of Neurologists and how to cover the Gap?. Journal of the Neurological Sciences, 2022, 434, 120119.	0.6	14
80	Peripheral neuropathies of infancy. Developmental Medicine and Child Neurology, 2003, 45, 408-14.	2.1	13
81	Overview of the Effect and Epidemiology of Parasitic Central Nervous System Infections in African Children. Seminars in Pediatric Neurology, 2014, 21, 19-25.	2.0	13
82	Dravet syndrome in South African infants: Tools for an early diagnosis. Seizure: the Journal of the British Epilepsy Association, 2018, 62, 99-105.	2.0	12
83	The role of melatonin to attain electroencephalograms in children in a sub-Saharan African setting. Seizure: the Journal of the British Epilepsy Association, 2017, 51, 87-94.	2.0	11
84	Vitamin D abnormalities and bone turn over analysis in children with epilepsy in the Western Cape of South Africa Seizure: the Journal of the British Epilepsy Association, 2019, 69, 186-192.	2.0	11
85	Guillain-Barré Syndrome: delayed diagnosis following anaesthesia. Paediatric Anaesthesia, 1999, 9, 539-542.	1.1	10
86	Clinical Phenotype of South African Children With Neurofibromatosis 1. Journal of Child Neurology, 2006, 21, 63-70.	1.4	10
87	Acquired Demyelinating Disorders of Childhood in the Western Cape, South Africa. Journal of Child Neurology, 2010, 25, 48-56.	1.4	10
88	The Keilah Foundation: Making the ketogenic diet viable for children in Africa. Epilepsia, 2015, 56, 514-516.	5.1	10
89	Acute flaccid paralysis in South African children: Causes, respiratory complications and neurological outcome. Journal of Paediatrics and Child Health, 2018, 54, 247-253.	0.8	10
90	Clearance of Immunodeficiency-associated Vaccine-derived Poliovirus Infection With Pocapavir. Pediatric Infectious Disease Journal, 2020, 39, 435-437.	2.0	10

#	Article	IF	CITATIONS
91	Hydatid Disease of the Spine in South African Children. Journal of Child Neurology, 2003, 18, 343-346.	1.4	9
92	Epileptic spasms: Evidence for oral corticosteroids and implications for low and middle income countries. Seizure: the Journal of the British Epilepsy Association, 2018, 59, 90-98.	2.0	9
93	Importance of access to epilepsy monitoring units during the COVID-19 pandemic: Consensus statement of the International League against epilepsy and the International Federation of Clinical Neurophysiology, 2021, 132, 2248-2250.	1.5	9
94	Cerebellar ataxia, anterior horn cell disease, learning difficulties, and dystonia: a new syndrome. Developmental Medicine and Child Neurology, 2000, 42, 775-779.	2.1	9
95	Epilepsy surgery in Africa: state of the art and challenges. Epilepsy and Behavior, 2021, 118, 107910.	1.7	8
96	Demonstrating the feasibility of digital health to support pediatric patients in South Africa. Epilepsia Open, 2021, 6, 653-662.	2.4	8
97	Acute sensory neuropathy in an adolescent girl following BCG vaccination. European Journal of Paediatric Neurology, 1999, 3, 277-279.	1.6	7
98	Two unusual causes of pituitary stalk thickening in children without clinical features of diabetes insipidus. Pediatric Radiology, 2003, 33, 499-502.	2.0	7
99	Gillespie Syndrome: Two Further Cases. Journal of Child Neurology, 2006, 21, 337-340.	1.4	7
100	The Diagnostic Difficulties of Complex Glycerol Kinase Deficiency. Journal of Child Neurology, 2010, 25, 1269-1271.	1.4	7
101	Markers of susceptibility to acute rheumatic fever: the B-cell antigen D8/17 is not robust as a marker in South Africa. Cardiology in the Young, 2011, 21, 328-333.	0.8	7
102	The Usefulness of Electroencephalograms in a Survey of Children From the Western Cape of South Africa. Journal of Child Neurology, 2012, 27, 625-631.	1.4	7
103	Training doctors in basic EEG: analysis of a learning tool relevant to resourceâ€limited settings. Epileptic Disorders, 2015, 17, 58-66.	1.3	7
104	A qualitative study exploring caregivers' experiences, perspectives, and expectations for precision medicine in epilepsy in South Africa. Epilepsy and Behavior, 2021, 117, 107873.	1.7	7
105	The role of ICNA in Africa. Developmental Medicine and Child Neurology, 2011, 53, 387-388.	2.1	6
106	Intellectual and Behavioral Functioning in a South African Cohort of Boys With Duchenne Muscular Dystrophy. Journal of Child Neurology, 2011, 26, 963-969.	1.4	6
107	Diagnosis and management of pediatric peripheral neuropathies in resource-poor settings. Future Neurology, 2013, 8, 133-148.	0.5	6
108	Parental Understanding of Tuberous Sclerosis Complex. Journal of Child Neurology, 2015, 30, 1281-1286.	1.4	6

#	Article	IF	CITATIONS
109	Duchenne muscular dystrophy in the Western Cape, South Africa: Where do we come from and where are we going?. South African Medical Journal, 2016, 106, 67.	0.6	6
110	Neuropsychiatric and Neurocognitive Manifestations in HIV-Infected Children Treated With Efavirenz in South Africa—A Retrospective Case Series. Frontiers in Neurology, 2019, 10, 742.	2.4	6
111	<p>Epilepsy diagnosis and management of children in Kenya: review of current literature</p> . Research and Reports in Tropical Medicine, 2019, Volume 10, 91-102.	1.4	6
