

Jennifer L Thompson

List of Publications by Citations

Source: <https://exaly.com/author-pdf/11150045/jennifer-l-thompson-publications-by-citations.pdf>

Version: 2024-04-29

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
41	Efficacy and safety of a paired sedation and ventilator weaning protocol for mechanically ventilated patients in intensive care (Awakening and Breathing Controlled trial): a randomised controlled trial. <i>Lancet, The</i> , 2008 , 371, 126-34	40	1972
40	Delirium as a predictor of long-term cognitive impairment in survivors of critical illness. <i>Critical Care Medicine</i> , 2010 , 38, 1513-20	1.4	1289
39	Effect of sedation with dexmedetomidine vs lorazepam on acute brain dysfunction in mechanically ventilated patients: the MENDS randomized controlled trial. <i>JAMA - Journal of the American Medical Association</i> , 2007 , 298, 2644-53	27.4	984
38	Depression, post-traumatic stress disorder, and functional disability in survivors of critical illness in the BRAIN-ICU study: a longitudinal cohort study. <i>Lancet Respiratory Medicine, the</i> , 2014 , 2, 369-79	35.1	345
37	Feasibility, efficacy, and safety of antipsychotics for intensive care unit delirium: the MIND randomized, placebo-controlled trial. <i>Critical Care Medicine</i> , 2010 , 38, 428-37	1.4	325
36	Effect of dexmedetomidine versus lorazepam on outcome in patients with sepsis: an a priori-designed analysis of the MENDS randomized controlled trial. <i>Critical Care</i> , 2010 , 14, R38	10.8	269
35	Haloperidol and Ziprasidone for Treatment of Delirium in Critical Illness. <i>New England Journal of Medicine</i> , 2018 , 379, 2506-2516	59.2	232
34	Delirium in the cardiovascular ICU: exploring modifiable risk factors. <i>Critical Care Medicine</i> , 2013 , 41, 405-13	1.4	189
33	Delirium in the ICU and subsequent long-term disability among survivors of mechanical ventilation. <i>Critical Care Medicine</i> , 2014 , 42, 369-77	1.4	180
32	Long-term cognitive and psychological outcomes in the awakening and breathing controlled trial. <i>American Journal of Respiratory and Critical Care Medicine</i> , 2010 , 182, 183-91	10.2	178
31	Clinical phenotypes of delirium during critical illness and severity of subsequent long-term cognitive impairment: a prospective cohort study. <i>Lancet Respiratory Medicine, the</i> , 2018 , 6, 213-222	35.1	171
30	Co-Occurrence of Post-Intensive Care Syndrome Problems Among 406 Survivors of Critical Illness. <i>Critical Care Medicine</i> , 2018 , 46, 1393-1401	1.4	153
29	Frailty and Subsequent Disability and Mortality among Patients with Critical Illness. <i>American Journal of Respiratory and Critical Care Medicine</i> , 2017 , 196, 64-72	10.2	145
28	The Preschool Confusion Assessment Method for the ICU: Valid and Reliable Delirium Monitoring for Critically Ill Infants and Children. <i>Critical Care Medicine</i> , 2016 , 44, 592-600	1.4	124
27	Atypical sleep in ventilated patients: empirical electroencephalography findings and the path toward revised ICU sleep scoring criteria. <i>Critical Care Medicine</i> , 2013 , 41, 1958-67	1.4	112
26	Procalcitonin and C-reactive protein levels at admission as predictors of duration of acute brain dysfunction in critically ill patients. <i>Critical Care</i> , 2011 , 15, R78	10.8	96
25	Delirium and Benzodiazepines Associated With Prolonged ICU Stay in Critically Ill Infants and Young Children. <i>Critical Care Medicine</i> , 2017 , 45, 1427-1435	1.4	86

24	Correction: Effect of dexmedetomidine versus lorazepam on outcome in patients with sepsis: an a priori-designed analysis of the MENDS randomized controlled trial. <i>Critical Care</i> , 2011 , 15,	10.8	78
23	Employment Outcomes After Critical Illness: An Analysis of the Bringing to Light the Risk Factors and Incidence of Neuropsychological Dysfunction in ICU Survivors Cohort. <i>Critical Care Medicine</i> , 2016 , 44, 2003-2009	1.4	78
22	Delirium and sedation recognition using validated instruments: reliability of bedside intensive care unit nursing assessments from 2007 to 2010. <i>Journal of the American Geriatrics Society</i> , 2011 , 59 Suppl 2, S249-55	5.6	73
21	Endothelial Activation and Blood-Brain Barrier Injury as Risk Factors for Delirium in Critically Ill Patients. <i>Critical Care Medicine</i> , 2016 , 44, e809-17	1.4	72
20	Association between endothelial dysfunction and acute brain dysfunction during critical illness. <i>Anesthesiology</i> , 2013 , 118, 631-9	4.3	71
19	Incidence and Risk Factors for Intensive Care Unit-related Post-traumatic Stress Disorder in Veterans and Civilians. <i>American Journal of Respiratory and Critical Care Medicine</i> , 2016 , 193, 1373-81	10.2	67
18	Associations of markers of inflammation and coagulation with delirium during critical illness. <i>Intensive Care Medicine</i> , 2012 , 38, 1965-73	14.5	67
17	Statins and delirium during critical illness: a multicenter, prospective cohort study. <i>Critical Care Medicine</i> , 2014 , 42, 1899-909	1.4	64
16	Diurnal sedative changes during intensive care: impact on liberation from mechanical ventilation and delirium. <i>Critical Care Medicine</i> , 2012 , 40, 2788-96	1.4	50
15	Surgery and Anesthesia Exposure Is Not a Risk Factor for Cognitive Impairment After Major Noncardiac Surgery and Critical Illness. <i>Annals of Surgery</i> , 2017 , 265, 1126-1133	7.8	47
14	Delirium and Catatonia in Critically Ill Patients: The Delirium and Catatonia Prospective Cohort Investigation. <i>Critical Care Medicine</i> , 2017 , 45, 1837-1844	1.4	47
13	The association of the kynurenine pathway of tryptophan metabolism with acute brain dysfunction during critical illness*. <i>Critical Care Medicine</i> , 2012 , 40, 835-41	1.4	41
12	Relationships between markers of neurologic and endothelial injury during critical illness and long-term cognitive impairment and disability. <i>Intensive Care Medicine</i> , 2018 , 44, 345-355	14.5	27
11	Subsyndromal Delirium and Institutionalization Among Patients With Critical Illness. <i>American Journal of Critical Care</i> , 2017 , 26, 447-455	1.7	19
10	Pain and Its Long-term Interference of Daily Life After Critical Illness. <i>Anesthesia and Analgesia</i> , 2018 , 127, 690-697	3.9	19
9	Antimicrobial exposure and the risk of delirium in critically ill patients. <i>Critical Care</i> , 2018 , 22, 337	10.8	19
8	Association of Hypoactive and Hyperactive Delirium With Cognitive Function After Critical Illness. <i>Critical Care Medicine</i> , 2020 , 48, e480-e488	1.4	17
7	Prevalence and Course of Frailty in Survivors of Critical Illness. <i>Critical Care Medicine</i> , 2020 , 48, 1419-1426	6.4	11

6	Mitochondrial DNA Haplogroups and Delirium During Sepsis. <i>Critical Care Medicine</i> , 2019 , 47, 1065-1071	1.4	9
5	Inflammation and Coagulation during Critical Illness and Long-Term Cognitive Impairment and Disability. <i>American Journal of Respiratory and Critical Care Medicine</i> , 2021 , 203, 699-706	10.2	9
4	Sedative Plasma Concentrations and Delirium Risk in Critical Illness. <i>Annals of Pharmacotherapy</i> , 2018 , 52, 513-521	2.9	7
3	Association of neuronal repair biomarkers with delirium among survivors of critical illness. <i>Journal of Critical Care</i> , 2020 , 56, 94-99	4	2
2	Dealing with missing delirium assessments in prospective clinical studies of the critically ill: a simulation study and reanalysis of two delirium studies. <i>BMC Medical Research Methodology</i> , 2021 , 21, 97	4.7	2
1	Nutritional Risk at intensive care unit admission and outcomes in survivors of critical illness. <i>Clinical Nutrition</i> , 2021 , 40, 3868-3874	5.9	0
