

Frances Silverman

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/11169124/frances-silverman-publications-by-year.pdf>

Version: 2024-04-26

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

27
papers

2,036

#	Paper	IF	Citations
27	Reply to Lucock et al.: Significance of interpretation and misinterpretation of a small mechanistic study. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2017 , 114, E3880-E3881 ¹	11.5	1
26	B-vitamin Supplementation Mitigates Effects of Fine Particles on Cardiac Autonomic Dysfunction and Inflammation: A Pilot Human Intervention Trial. <i>Scientific Reports</i> , 2017 , 7, 45322	4.9	22
25	B vitamins attenuate the epigenetic effects of ambient fine particles in a pilot human intervention trial. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2017 , 114, 3503-3508	11.5	87
24	Effects of urban fine particulate matter and ozone on HDL functionality. <i>Particle and Fibre Toxicology</i> , 2016 , 13, 26	8.4	32
23	Characterization of the bacterial and fungal microbiome in indoor dust and outdoor air samples: a pilot study. <i>Environmental Sciences: Processes and Impacts</i> , 2016 , 18, 713-24	4.3	46
22	Endotoxin and β ,1,3-d-Glucan in Concentrated Ambient Particles Induce Rapid Increase in Blood Pressure in Controlled Human Exposures. <i>Hypertension</i> , 2015 , 66, 509-16	8.5	27
21	Endotoxin in concentrated coarse and fine ambient particles induces acute systemic inflammation in controlled human exposures. <i>Occupational and Environmental Medicine</i> , 2013 , 70, 761-7	2.1	51
20	DNA hypomethylation, ambient particulate matter, and increased blood pressure: findings from controlled human exposure experiments. <i>Journal of the American Heart Association</i> , 2013 , 2, e000212	6	151
19	Characterization of the University of Toronto Concentrated Aerosol Particle Exposure Facility (CAPEF) Effects on Fine and Ultrafine Nonrefractory Aerosol Composition. <i>Aerosol Science and Technology</i> , 2012 , 46, 697-707	3.4	7
18	Controlled exposure study of air pollution and T-wave alternans in volunteers without cardiovascular disease. <i>Environmental Health Perspectives</i> , 2012 , 120, 1157-61	8.4	13
17	The effect of air pollution on spatial dispersion of myocardial repolarization in healthy human volunteers. <i>Journal of the American College of Cardiology</i> , 2011 , 57, 198-206	15.1	29
16	Augmentation of arginase 1 expression by exposure to air pollution exacerbates the airways hyperresponsiveness in murine models of asthma. <i>Respiratory Research</i> , 2011 , 12, 19	7.3	30
15	Concentrated ambient fine particles and not ozone induce a systemic interleukin-6 response in humans. <i>Inhalation Toxicology</i> , 2010 , 22, 210-8	2.7	28
14	Autonomic effects of controlled fine particulate exposure in young healthy adults: effect modification by ozone. <i>Environmental Health Perspectives</i> , 2009 , 117, 1287-92	8.4	52
13	Insights into the mechanisms and mediators of the effects of air pollution exposure on blood pressure and vascular function in healthy humans. <i>Hypertension</i> , 2009 , 54, 659-67	8.5	352
12	Dermatologist and family practitioner practice patterns for occupational contact dermatitis. <i>Australasian Journal of Dermatology</i> , 2007 , 48, 22-7	1.3	9
11	Practice patterns of pulmonologists and family physicians for occupational asthma. <i>Chest</i> , 2007 , 132, 1526-31	5.3	17

10	A novel application of capnography during controlled human exposure to air pollution. <i>BioMedical Engineering OnLine</i> , 2006 , 5, 54	4.1	5
9	Acute blood pressure responses in healthy adults during controlled air pollution exposures. <i>Environmental Health Perspectives</i> , 2005 , 113, 1052-5	8.4	260
8	Relative contributions of PM2.5 chemical constituents to acute arterial vasoconstriction in humans. <i>Inhalation Toxicology</i> , 2004 , 16, 345-52	2.7	91
7	Inhalation of fine particulate air pollution and ozone causes acute arterial vasoconstriction in healthy adults. <i>Circulation</i> , 2002 , 105, 1534-6	16.7	611
6	Asthmatic subjects symptomatically worse at work: prevalence and characterization among a general asthma clinic population. <i>Chest</i> , 2000 , 118, 1309-14	5.3	71
5	Acute Symptom Responses to Environmental Tobacco Smoke in Asthmatic and Nonasthmatic Individuals. <i>Indoor Air</i> , 1991 , 1, 404-413	5.4	2
4	Predictive Models Based on Personal, Indoor and Outdoor Air Pollution Exposure. <i>Indoor Air</i> , 1991 , 1, 457-464	5.4	2
3	Does suggestibility modify acute reactions to passive cigarette smoke exposure?. <i>Environmental Research</i> , 1988 , 47, 34-47	7.9	18
2	Interaction of ozone and cigarette smoke exposure. <i>Environmental Research</i> , 1983 , 31, 125-37	7.9	17
1	A Personal Sampler for Three Respiratory Irritants. <i>Journal of the Air Pollution Control Association</i> , 1982 , 32, 1068-1069		5
