

Xiao-Feng Wang

List of Publications by Citations

Source: <https://exaly.com/author-pdf/1117124/xiao-feng-wang-publications-by-citations.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
53	Rationales, design and recruitment of the Taizhou Longitudinal Study. <i>BMC Public Health</i> , 2009 , 9, 223	4.1	88
52	Association of mitochondrial DNA haplogroups with exceptional longevity in a Chinese population. <i>PLoS ONE</i> , 2009 , 4, e6423	3.7	42
51	mtDNA lineage expansions in Sherpa population suggest adaptive evolution in Tibetan highlands. <i>Molecular Biology and Evolution</i> , 2013 , 30, 2579-87	8.3	37
50	Cohort Profile: The Rugao Longevity and Ageing Study (RuLAS). <i>International Journal of Epidemiology</i> , 2016 , 45, 1064-1073	7.8	36
49	Influence of obesity on association between genetic variants identified by genome-wide association studies and hypertension risk in Chinese children. <i>American Journal of Hypertension</i> , 2013 , 26, 990-6	2.3	28
48	Associations of sleep quality and sleep duration with frailty and pre-frailty in an elderly population Rugao longevity and ageing study. <i>BMC Geriatrics</i> , 2020 , 20, 9	4.1	27
47	C-reactive protein, frailty and overnight hospital admission in elderly individuals: A population-based study. <i>Archives of Gerontology and Geriatrics</i> , 2016 , 64, 1-5	4	24
46	Agreement between the frailty index and phenotype and their associations with falls and overnight hospitalizations. <i>Archives of Gerontology and Geriatrics</i> , 2016 , 66, 161-5	4	21
45	ACTN3 genotype and physical function and frailty in an elderly Chinese population: the Rugao Longevity and Ageing Study. <i>Age and Ageing</i> , 2018 , 47, 416-422	3	17
44	A genetic variant of the NTCP gene is associated with HBV infection status in a Chinese population. <i>BMC Cancer</i> , 2016 , 16, 211	4.8	17
43	Sleep disturbances and risk of falls in an old Chinese population-Rugao Longevity and Ageing Study. <i>Archives of Gerontology and Geriatrics</i> , 2017 , 73, 8-14	4	15
42	Incidental findings on brain MRI among Chinese at the age of 55-65 years: the Taizhou Imaging Study. <i>Scientific Reports</i> , 2019 , 9, 464	4.9	14
41	Visual impairment, but not hearing impairment, is independently associated with lower subjective well-being among individuals over 95 years of age: A population-based study. <i>Archives of Gerontology and Geriatrics</i> , 2016 , 62, 30-5	4	14
40	MtDNA analysis reveals enriched pathogenic mutations in Tibetan highlanders. <i>Scientific Reports</i> , 2016 , 6, 31083	4.9	14
39	Blood biomarkers and functional disability among extremely longevous individuals: a population-based study. <i>Journals of Gerontology - Series A Biological Sciences and Medical Sciences</i> , 2015 , 70, 623-7	6.4	13
38	Association of CRP gene polymorphisms with CRP levels, frailty and co-morbidity in an elderly Chinese population: results from RuLAS. <i>Age and Ageing</i> , 2016 , 45, 360-5	3	13
37	Associations of triglyceride levels with longevity and frailty: A Mendelian randomization analysis. <i>Scientific Reports</i> , 2017 , 7, 41579	4.9	12

36	OPRM1 gene is associated with BMI in Uyghur population. <i>Obesity</i> , 2009 , 17, 121-5	8	12
35	Frailty phenotype, frailty index and risk of mortality in Chinese elderly population- Rugao longevity and ageing study. <i>Archives of Gerontology and Geriatrics</i> , 2019 , 80, 115-119	4	12
34	Association between subjective well-being and exceptional longevity in a longevity town in China: a population-based study. <i>Age</i> , 2014 , 36, 9632		11
33	Depressive symptoms are associated with incident frailty in a Chinese population: the Rugao Longevity and Ageing Study. <i>Aging Clinical and Experimental Research</i> , 2020 , 32, 2297-2302	4.8	11
32	Cognitive frailty and falls in Chinese elderly people: a population-based longitudinal study. <i>European Journal of Neurology</i> , 2021 , 28, 381-388	6	9
31	Reduced estimated glomerular filtration rate is associated with depressive symptoms in elder Chinese: A population-based cross-sectional study. <i>Neuroscience Letters</i> , 2018 , 666, 127-132	3.3	8
30	Mitochondrial genomes and exceptional longevity in a Chinese population: the Rugao longevity study. <i>Age</i> , 2015 , 37, 9750		8
29	Association of BNP with Frailty in Elderly Population: Rugao Longevity and Ageing Study. <i>Journal of Nutrition, Health and Aging</i> , 2019 , 23, 73-78	5.2	8
28	Comparing associations of different metabolic syndrome definitions with ischemic stroke in Chinese elderly population. <i>European Journal of Internal Medicine</i> , 2018 , 47, 75-81	3.9	8
27	Body mass index, waist circumference and waist-hip ratio are associated with depressive symptoms in older Chinese women: results from the Rugao Longevity and Ageing Study (RuLAS). <i>Aging and Mental Health</i> , 2017 , 21, 518-523	3.5	7
26	Short sleep duration is associated with increased risk of pre-hypertension and hypertension in Chinese early middle-aged females. <i>Sleep and Breathing</i> , 2016 , 20, 1355-1362	3.1	6
25	Association between a frailty index based on common laboratory tests and QTc prolongation in older adults: the Rugao Longevity and Ageing Study. <i>Clinical Interventions in Aging</i> , 2018 , 13, 797-804	4	6
24	A new physical-cognitive scale for assessment of frailty in Chinese Han elderly. <i>Neurological Research</i> , 2019 , 41, 728-733	2.7	5
23	MtDNA genomes reveal a relaxation of selective constraints in low-BMI individuals in a Uyghur population. <i>Human Genetics</i> , 2017 , 136, 1353-1362	6.3	5
22	Association between serum β_2 -microglobulin levels and frailty in an elderly Chinese population: results from RuLAS. <i>Clinical Interventions in Aging</i> , 2017 , 12, 1725-1729	4	5
21	Prevalence and related factors of chronic kidney disease (CKD) among long-lived individuals (LLI) over 95 years of age. <i>Archives of Gerontology and Geriatrics</i> , 2015 , 60, 354-8	4	5
20	A polymorphism near osteoprotegerin gene confer risk of obesity in Uyghurs. <i>Endocrine</i> , 2010 , 37, 383-84		5
19	Frailty index is associated with increased risk of elevated BNP in an elderly population: the Rugao Longevity and Ageing Study. <i>Aging Clinical and Experimental Research</i> , 2020 , 32, 305-311	4.8	5

18	Genetic Variants of Homocysteine Metabolism, Homocysteine, and Frailty - Rugao Longevity and Ageing Study. <i>Journal of Nutrition, Health and Aging</i> , 2020 , 24, 198-204	5.2	4
17	Frailty and incident depressive symptoms in a Chinese sample: the Rugao Longevity and Ageing Study. <i>Psychogeriatrics</i> , 2020 , 20, 691-698	1.8	3
16	The KSR2-rs7973260 Polymorphism is Associated with Metabolic Phenotypes, but Not Psychological Phenotypes, in Chinese Elders. <i>Genetic Testing and Molecular Biomarkers</i> , 2017 , 21, 416-421.6	1.6	3
15	Prevalence/potential risk factors for motoric cognitive risk and its relationship to falls in elderly Chinese people: a cross-sectional study. <i>European Journal of Neurology</i> , 2021 , 28, 2680-2687	6	3
14	Social frailty and longitudinal risk of depressive symptoms in a Chinese population: the Rugao Longevity and Aging Study. <i>Psychogeriatrics</i> , 2021 , 21, 483-490	1.8	3
13	Phenotype correlations reveal the relationships of physiological systems underlying human ageing. <i>Aging Cell</i> , 2021 , 20, e13519	9.9	2
12	Kidney function decline is associated with an accelerated increase in plasma homocysteine in older adults: a longitudinal study. <i>British Journal of Nutrition</i> , 2021 , 1-7	3.6	2
11	Mitochondrial DNA Haplogroup M7 Confers Disability in a Chinese Aging Population. <i>Frontiers in Genetics</i> , 2020 , 11, 577795	4.5	1
10	Aging metrics incorporating cognitive and physical function capture mortality risk: results from three prospective cohort studies		1
9	Cognitive frailty predicting death and disability in Chinese elderly. <i>Neurological Research</i> , 2021 , 43, 815-827	2.7	1
8	Associations of TNF- β 308 G>A and TNF- β 52 A>G with Physical Function and BNP-Rugao Longevity and Ageing Study. <i>Journal of Nutrition, Health and Aging</i> , 2020 , 24, 358-363	5.2	0
7	Association of immunity markers with the risk of incident frailty: the Rugao longitudinal aging study.. <i>Immunity and Ageing</i> , 2022 , 19, 1	9.7	0
6	Prevalence, Causes, and Factors Associated with Visual Impairment in a Chinese Elderly Population: The Rugao Longevity and Aging Study. <i>Clinical Interventions in Aging</i> , 2021 , 16, 985-996	4	0
5	Association Study of Mitochondrial DNA Haplogroup D and C5178A Polymorphisms with Chronic Kidney Disease. <i>Genetic Testing and Molecular Biomarkers</i> , 2021 , 25, 546-550	1.6	0
4	Aging metrics incorporating cognitive and physical function capture mortality risk: results from two prospective cohort studies.. <i>BMC Geriatrics</i> , 2022 , 22, 378	4.1	0
3	Development and Validation of a New Simple Functional Score in the Older Chinese Population.. <i>Frontiers in Public Health</i> , 2022 , 10, 813323	6	
2	Plasma folate levels in relation to cognitive impairment: a community-based cohort of older adults in China.. <i>European Journal of Nutrition</i> , 2022 , 1	5.2	
1	Sleep Disturbances Are Associated With Depressive Symptoms in a Chinese Population: The Rugao Longevity and Aging Cohort.. <i>Frontiers in Psychiatry</i> , 2021 , 12, 731371	5
