#	Article	IF	CITATIONS
1	Indicators of socioeconomic position (part 1). Journal of Epidemiology and Community Health, 2006, 60, 7-12.	3.7	1,944
2	Childhood Socioeconomic Circumstances and Cause-specific Mortality in Adulthood: Systematic Review and Interpretation. Epidemiologic Reviews, 2004, 26, 7-21.	3.5	645
3	Measuring socioeconomic position in health research. British Medical Bulletin, 2007, 81-82, 21-37.	6.9	539
4	Indicators of socioeconomic position (part 2). Journal of Epidemiology and Community Health, 2006, 60, 95-101.	3.7	513
5	Systematic Review of the Influence of Childhood Socioeconomic Circumstances on Risk for Cardiovascular Disease in Adulthood. Annals of Epidemiology, 2006, 16, 91-104.	1.9	477
6	Measuring socio-economic position for epidemiological studies in low- and middle-income countries: a methods of measurement in epidemiology paper. International Journal of Epidemiology, 2012, 41, 871-886.	1.9	429
7	Diet and socioeconomic position: does the use of different indicators matter?. International Journal of Epidemiology, 2001, 30, 334-340.	1.9	270
8	Loss to Follow-up in Cohort Studies. Epidemiology, 2013, 24, 1-9.	2.7	233
9	Mortality after a First Episode of Status Epilepticus in the United States and Europe. Epilepsia, 2005, 46, 46-48.	5.1	157
10	A Swiss neighbourhood index of socioeconomic position: development and association with mortality. Journal of Epidemiology and Community Health, 2012, 66, 1129-1136.	3.7	152
11	Incidence and case-fatality rate of status epilepticus in the Canton of Geneva. Lancet, The, 1999, 353, 1496.	13.7	118
12	Trends in Risk Factors for Lifestyle-Related Diseases by Socioeconomic Position in Geneva, Switzerland, 1993–2000: Health Inequalities Persist. American Journal of Public Health, 2003, 93, 1302-1309.	2.7	96
13	Socioeconomic differences in childhood growth trajectories: at what age do height inequalities emerge?. Journal of Epidemiology and Community Health, 2012, 66, 143-148.	3.7	85
14	The Differential Effect of Education and Occupation on Body Mass and Overweight in a Sample of Working People of the General Population. Annals of Epidemiology, 2000, 10, 532-537.	1.9	58
15	Socioeconomic position and outdoor nitrogen dioxide (NO2) exposure in Western Europe: A multi-city analysis. Environment International, 2017, 101, 117-124.	10.0	49
16	Childhood Wheezing, Asthma, Allergy, Atopy, and Lung Function: Different Socioeconomic Patterns for Different Phenotypes. American Journal of Epidemiology, 2015, 182, 763-774.	3.4	46
17	Socioeconomic position during pregnancy and DNA methylation signatures at three stages across early life: epigenome-wide association studies in the ALSPAC birth cohort. International Journal of Epidemiology, 2019, 48, 30-44.	1.9	41
18	Social Inequalities in Height: Persisting Differences Today Depend upon Height of the Parents. PLoS ONE, 2012, 7, e29118.	2.5	37

BRUNA GALOBARDES

#	Article	IF	CITATIONS
19	Trends in risk factors for the major "lifestyle-related diseases―in Geneva, Switzerland, 1993–2000. Annals of Epidemiology, 2003, 13, 537-540.	1.9	33
20	Childhood socioeconomic circumstances predict specific causes of death in adulthood: the Glasgow student cohort study. Journal of Epidemiology and Community Health, 2006, 60, 527-529.	3.7	33
21	High life in the sky? Mortality by floor of residence in Switzerland. European Journal of Epidemiology, 2013, 28, 453-462.	5.7	29
22	The Role of Socioeconomic Status in the Association of Lung Function and Air Pollution—A Pooled Analysis of Three Adult ESCAPE Cohorts. International Journal of Environmental Research and Public Health, 2019, 16, 1901.	2.6	28
23	Child Allergic Symptoms and Mental Well-Being: The Role of Maternal Anxiety and Depression. Journal of Pediatrics, 2014, 165, 592-599.e5.	1.8	27
24	Associations between socioeconomic position and asthma: findings from a historical cohort. European Journal of Epidemiology, 2012, 27, 623-631.	5.7	21
25	Relationship between mediation analysis and the structured life course approach. International Journal of Epidemiology, 2016, 45, dyw254.	1.9	21
26	Child Allergic Symptoms and Well-Being at School: Findings from ALSPAC, a UK Cohort Study. PLoS ONE, 2015, 10, e0135271.	2.5	20
27	Commentary: Tipping the balance: wider waistlines in men but wider inequalities in women. International Journal of Epidemiology, 2010, 39, 404-405.	1.9	15
28	The Association Between Irregular Menstruations and Acne With Asthma and Atopy Phenotypes. American Journal of Epidemiology, 2012, 176, 733-737.	3.4	13
29	Risk of suicide for individuals reporting asthma and atopy in young adulthood: Findings from the Glasgow Alumni study. Psychiatry Research, 2015, 225, 364-367.	3.3	6
30	Examining if being overweight really confers protection against dementia: Sixty-four year follow-up of participants in the Glasgow University alumni cohort study. Journal of Negative Results in BioMedicine, 2016, 15, 19.	1.4	6
31	Closing the gap in a generation: what more research do we need?. International Journal of Public Health, 2010, 55, 453-455.	2.3	3
32	Key steps in planning a survey. International Journal of Public Health, 2002, 47, 349-351.	2.6	1
33	How to interpret less than ideal data?. Preventive Medicine, 2007, 45, 117-118.	3.4	0
