citing authors

#	ARTICLE	IF	CITATIONS
1	Peer influence on obesity: Evidence from a natural experiment of a gene-environment interaction. <i>Social Science Research</i> , 2021, 93, 102483.	1.1	1
2	Interaction of Sirtuin 1 (SIRT1) candidate longevity gene and particulate matter (PM2.5) on all-cause mortality: a longitudinal cohort study in China. <i>Environmental Health</i> , 2021, 20, 25.	1.7	9
3	Achieved educational attainment, inherited genetic endowment for education, and obesity. <i>Biodemography and Social Biology</i> , 2021, 66, 132-144.	0.4	8
4	Interaction between APOE $\epsilon$ 4 and dietary protein intake on cognitive decline: A longitudinal cohort study. <i>Clinical Nutrition</i> , 2021, 40, 2716-2725.	2.3	17
5	The life-course association of birth-weight genes with self-rated health. <i>Biodemography and Social Biology</i> , 2020, 65, 268-286.	0.4	1
6	Heterogeneous peer effects on marijuana use: Evidence from a natural experiment. <i>Social Science and Medicine</i> , 2020, 252, 112907.	1.8	4
7	Why are Women More Religious than Men? Do Risk Preferences and Genetic Risk Predispositions Explain the Gender Gap?. <i>Journal for the Scientific Study of Religion</i> , 2020, 59, 289-310.	0.9	12
8	Period of Marriage and Genetic Similarity in Height between Spouses in the United States over the 20th Century. <i>Human Biology</i> , 2020, 92, 215.	0.4	1
9	Using Polygenic Scores in Social Science Research: Unraveling Childlessness. <i>Frontiers in Sociology</i> , 2019, 4, 74.	1.0	4
10	Opportunities and challenges of big data for the social sciences: The case of genomic data. <i>Social Science Research</i> , 2016, 59, 13-22.	1.1	28
11	Association of a Genetic Risk Score With Body Mass Index. <i>JAMA - Journal of the American Medical Association</i> , 2016, 316, 1826.	3.8	0
12	The Association Between the MAOA 2R Genotype and Delinquency Over Time Among Men. <i>Criminal Justice and Behavior</i> , 2016, 43, 1076-1094.	1.1	10
13	Does Marriage Moderate Genetic Effects on Delinquency and Violence?. <i>Journal of Marriage and Family</i> , 2015, 77, 1217-1233.	1.6	13
14	Mixture SNPs effect on phenotype in genome-wide association studies. <i>BMC Genomics</i> , 2015, 16, 3.	1.2	24
15	A natural experiment of peer influences on youth alcohol use. <i>Social Science Research</i> , 2015, 52, 193-207.	1.1	27
16	Nurture net of nature: Re-evaluating the role of shared environments in academic achievement and verbal intelligence. <i>Social Science Research</i> , 2015, 52, 422-439.	1.1	9
17	Gene by Social-Environment Interaction for Youth Delinquency and Violence: Thirty-Nine Aggression-Related Genes. <i>Social Forces</i> , 2015, 93, 881-903.	0.9	26
18	Lifetime Socioeconomic Status, Historical Context, and Genetic Inheritance in Shaping Body Mass in Middle and Late Adulthood. <i>American Sociological Review</i> , 2015, 80, 705-737.	2.8	62

#	ARTICLE	IF	CITATIONS
19	The Genome-Wide Influence on Human BMI Depends on Physical Activity, Life Course, and Historical Period. <i>Demography</i> , 2015, 52, 1651-1670.	1.2	36
20	Recognizing a Small Amount of Superficial Genetic Differences Across African, European and Asian Americans Helps Understand Social Construction of Race. <i>Demography</i> , 2014, 51, 2337-2342.	1.2	9
21	Genetic Bio-Ancestry and Social Construction of Racial Classification in Social Surveys in the Contemporary United States. <i>Demography</i> , 2014, 51, 141-172.	1.2	55
22	Genomic Assortative Mating in Marriages in the United States. <i>PLoS ONE</i> , 2014, 9, e112322.	1.1	29
23	The influence of three genes on whether adolescents use contraception, USA 1994-2002. <i>Population Studies</i> , 2011, 65, 253-271.	1.1	17
24	The Dopamine Transporter Gene, a Spectrum of Most Common Risky Behaviors, and the Legal Status of the Behaviors. <i>PLoS ONE</i> , 2010, 5, e9352.	1.1	46
25	Gene-environment interactions: Peers' alcohol use moderates genetic contribution to adolescent drinking behavior. <i>Social Science Research</i> , 2009, 38, 213-224.	1.1	48
26	The VNTR 2 repeat in MAOA and delinquent behavior in adolescence and young adulthood: associations and MAOA promoter activity. <i>European Journal of Human Genetics</i> , 2008, 16, 626-634.	1.4	136
27	The Integration of Genetic Propensities into Social-Control Models of Delinquency and Violence among Male Youths. <i>American Sociological Review</i> , 2008, 73, 543-568.	2.8	174
28	Gene by Social Context Interactions for Number of Sexual Partners among White Male Youths: Genetics-Informed Sociology. <i>American Journal of Sociology</i> , 2008, 114, S36-S66.	0.3	46
29	Dopamine transporter, gender, and number of sexual partners among young adults. <i>European Journal of Human Genetics</i> , 2007, 15, 279-287.	1.4	45
30	Gene-Environment Contributions to Young Adult Sexual Partnering. <i>Archives of Sexual Behavior</i> , 2007, 36, 543-554.	1.2	21
31	Contributions of the DAT1 and DRD2 genes to serious and violent delinquency among adolescents and young adults. <i>Human Genetics</i> , 2007, 121, 125-136.	1.8	193
32	Genetic Similarity Shared by Best Friends Among Adolescents. <i>Twin Research and Human Genetics</i> , 2006, 9, 113-121.	0.3	31
33	Age at first sexual intercourse, genes, and social context: Evidence from twins and the dopamine D4 receptor gene. <i>Demography</i> , 2006, 43, 747-769.	1.2	69
34	Genetic Contribution to Suicidal Behaviors and Associated Risk Factors among Adolescents in the U.S.. <i>Prevention Science</i> , 2006, 7, 303-311.	1.5	47
35	Grade retention among immigrant children. <i>Social Science Research</i> , 2006, 35, 129-156.	1.1	40
36	Sexy Media Matter: Exposure to Sexual Content in Music, Movies, Television, and Magazines Predicts Black and White Adolescents' Sexual Behavior. <i>Pediatrics</i> , 2006, 117, 1018-1027.	1.0	427

#	ARTICLE	IF	CITATIONS
37	Genetic similarity shared by best friends among adolescents. <i>Twin Research and Human Genetics</i> , 2006, 9, 113-21.	0.3	15
38	The mixed or multilevel model for behavior genetic analysis. <i>Behavior Genetics</i> , 2002, 32, 37-49.	1.4	91
39	The mechanisms mediating the effects of poverty on children's intellectual development. <i>Demography</i> , 2000, 37, 431-447.	1.2	553
40	Multilevel Modeling for Binary Data. <i>Annual Review of Sociology</i> , 2000, 26, 441-462.	3.1	646
41	The Timing of the Influences of Cumulative Poverty on Children's Cognitive Ability and Achievement. <i>Social Forces</i> , 1998, 77, 257.	0.9	56
42	Negative Multinomial Regression Models for Clustered Event Counts. <i>Sociological Methodology</i> , 1996, 26, 113.	1.4	43
43	Mortality trends and causes of death: A comparison between Eastern and Western Europe, 1960s-1980s. <i>European Journal of Population</i> , 1993, 9, 287-312.	1.1	10
44	Who Drops Out of and Who Continues Beyond High School? A 20-Year Follow-Up of Black Urban Youth. <i>Journal of Research on Adolescence</i> , 1993, 3, 271-294.	1.9	152
45	Estimating a Multivariate Proportional Hazards Model for Clustered Data Using the EM Algorithm, with an Application to Child Survival in Guatemala. <i>Journal of the American Statistical Association</i> , 1992, 87, 969-976.	1.8	127
46	Estimating a Multivariate Proportional Hazards Model for Clustered Data Using the EM Algorithm, with an Application to Child Survival in Guatemala. , 0, .		25
