

Timothy G Buchman

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/1125205/timothy-g-buchman-publications-by-year.pdf>

Version: 2024-04-19

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
180	Analysis of Discrepancies Between Pulse Oximetry and Arterial Oxygen Saturation Measurements by Race and Ethnicity and Association With Organ Dysfunction and Mortality. <i>JAMA Network Open</i> , 2021 , 4, e2131674	10.4	6
179	Prediction of Acute Respiratory Failure Requiring Advanced Respiratory Support in Advance of Interventions and Treatment: A Multivariable Prediction Model From Electronic Medical Record Data 2021 , 3, e0402		
178	The Coronavirus Disease 2019 Pandemic Impacts Burnout Syndrome Differently Among Multiprofessional Critical Care Clinicians-A Longitudinal Survey Study. <i>Critical Care Medicine</i> , 2021 ,	1.4	1
177	Altered Heart Rate Variability Early in ICU Admission Differentiates Critically Ill Coronavirus Disease 2019 and All-Cause Sepsis Patients. 2021 , 3, e0570		0
176	Intensive Care Unit Telemedicine: Innovations and Limitations. <i>Critical Care Clinics</i> , 2019 , 35, 497-509	4.5	11
175	Random forest modeling can predict infectious complications following trauma laparotomy. <i>Journal of Trauma and Acute Care Surgery</i> , 2019 , 87, 1125-1132	3.3	9
174	Battlefield to Bedside: Bringing Precision Medicine to Surgical Care. <i>Journal of the American College of Surgeons</i> , 2018 , 226, 1093-1102	4.4	0
173	An Interpretable Machine Learning Model for Accurate Prediction of Sepsis in the ICU. <i>Critical Care Medicine</i> , 2018 , 46, 547-553	1.4	277
172	Pharmacogenomic biomarkers do not predict response to drotrecogin alfa in patients with severe sepsis. <i>Annals of Intensive Care</i> , 2018 , 8, 16	8.9	2
171	Filtering authentic sepsis arising in the ICU using administrative codes coupled to a SIRS screening protocol. <i>Journal of Critical Care</i> , 2017 , 39, 220-224	4	2
170	Innovative Interdisciplinary Strategies to Address the Intensivist Shortage. <i>Critical Care Medicine</i> , 2017 , 45, 298-304	1.4	28
169	Promoting Patient- and Family-Centered Care in the Intensive Care Unit: A Dissemination Project. <i>AACN Advanced Critical Care</i> , 2017 , 28, 155-159	1	3
168	Using Incentives to Improve Resource Utilization: A Quasi-Experimental Evaluation of an ICU Quality Improvement Program. <i>Critical Care Medicine</i> , 2016 , 44, 162-70	1.4	13
167	Policies, Populations, Practices, Providers and a Patient. <i>Critical Care Medicine</i> , 2015 , 43, 2273-4	1.4	
166	Prevalence and Impact of Unknown Diabetes in the ICU. <i>Critical Care Medicine</i> , 2015 , 43, e541-50	1.4	33
165	Effectiveness of Minocycline and Rifampin vs Chlorhexidine and Silver Sulfadiazine-Impregnated Central Venous Catheters in Preventing Central Line-Associated Bloodstream Infection in a High-Volume Academic Intensive Care Unit: A Before and after Trial. <i>Journal of the American College of Surgeons</i> , 2015 , 221, 739-47	4.4	28
164	In-hospital mortality after cardiac surgery: patient characteristics, timing, and association with postoperative length of intensive care unit and hospital stay. <i>Annals of Thoracic Surgery</i> , 2014 , 97, 1220-57	5.7	37

163	Comparing the information seeking strategies of residents, nurse practitioners, and physician assistants in critical care settings. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2014 , 21, e249-56	8.6	22
162	Reduced red blood cell transfusion in cardiothoracic surgery after implementation of a novel clinical decision support tool. <i>Journal of the American College of Surgeons</i> , 2014 , 219, 1028-36	4.4	14
161	From data patterns to biological mechanism in critical illness: the role of engineering. <i>Journal of Critical Care</i> , 2014 , 29, 668	4	1
160	Multi-scale symbolic entropy analysis provides prognostic prediction in patients receiving extracorporeal life support. <i>Critical Care</i> , 2014 , 18, 548	10.8	26
159	Feasibility and economic impact of dedicated hospice inpatient units for terminally ill ICU patients. <i>Critical Care Medicine</i> , 2014 , 42, 1074-80	1.4	10
158	Comparison of circuit patency and exchange rates between 2 different continuous renal replacement therapy machines. <i>Journal of Critical Care</i> , 2014 , 29, 272-7	4	3
157	Health Professionals in Critical Care. <i>Respiratory Medicine</i> , 2014 , 41-51	0.2	
156	Clinical Implications of Cognitive Complexity in Critical Care 2014 , 423-440		1
155	The turn team: a novel strategy for reducing pressure ulcers in the surgical intensive care unit. <i>Journal of the American College of Surgeons</i> , 2013 , 216, 373-9	4.4	27
154	Social Norms and Global Environmental Challenges: The Complex Interaction of Behaviors, Values, and Policy. <i>BioScience</i> , 2013 , 63, 164-175	5.7	156
153	Prediction of heart rate response to conclusion of the spontaneous breathing trial by fluctuation dissipation theory. <i>Physical Biology</i> , 2013 , 10, 016006	3	3
152	Prescribing patterns of hydrocortisone in septic shock: a single-center experience of how surviving sepsis guidelines are interpreted and translated into bedside practice. <i>Critical Care Medicine</i> , 2013 , 41, 2310-7	1.4	11
151	Priority queuing models for hospital intensive care units and impacts to severe case patients 2013 , 2013, 841-50	0.7	7
150	The price of a miracle. <i>Journal of the American College of Surgeons</i> , 2012 , 214, 25-6	4.4	10
149	Patient-care time allocation by nurse practitioners and physician assistants in the intensive care unit. <i>Critical Care</i> , 2012 , 16, R27	10.8	11
148	Tumor necrosis factor -308 polymorphism (rs1800629) is associated with mortality and ventilator duration in 1057 Caucasian patients. <i>Cytokine</i> , 2012 , 60, 249-56	4	10
147	Sepsis through the eyes of an engineer -- why treatments have succeeded and failed. <i>Critical Reviews in Biomedical Engineering</i> , 2012 , 40, 353-61	1.1	3
146	Postreperfusion cardiac arrest and resuscitation during orthotopic liver transplantation: dynamic visualization and analysis of physiologic recordings. <i>Shock</i> , 2012 , 37, 34-8	3.4	5

145	Targeted temperature management in critical care: a report and recommendations from five professional societies. <i>Critical Care Medicine</i> , 2011 , 39, 1113-25	1.4	128
144	Toward optimal display of physiologic status in critical care: I. Recreating bedside displays from archived physiologic data. <i>Journal of Critical Care</i> , 2011 , 26, 105.e1-9	4	13
143	Recovery at the edge of error: debunking the myth of the infallible expert. <i>Journal of Biomedical Informatics</i> , 2011 , 44, 413-24	10.2	42
142	Using "off-the-shelf" tools for terabyte-scale waveform recording in intensive care: computer system design, database description and lessons learned. <i>Computer Methods and Programs in Biomedicine</i> , 2011 , 103, 151-60	6.9	13
141	Modules, modularity and adaptation: Comment on "The emergence of modularity in biological systems" by Dirk M. Lorenz, Alice Jeng, Michael W. Deem. <i>Physics of Life Reviews</i> , 2011 , 8, 163-4; discussion 167-8	2.1	
140	Generating Signals with Multiscale Time Irreversibility: The Asymmetric Weierstrass Function. <i>Complexity</i> , 2011 , 16, 29-38	1.6	19
139	The role of heat shock protein 70 in mediating age-dependent mortality in sepsis. <i>Journal of Immunology</i> , 2011 , 186, 3718-25	5.3	42
138	Peaceful rest vs rest in peace. <i>Archives of Surgery</i> , 2011 , 146, 278-9		1
137	Ethical considerations in the collection of genetic data from critically ill patients: what do published studies reveal about potential directions for empirical ethics research?. <i>Pharmacogenomics Journal</i> , 2010 , 10, 77-85	3.5	8
136	Novel representation of physiologic states during critical illness and recovery. <i>Critical Care</i> , 2010 , 14, 127	10.8	20
135	Surgeons and their patients near the end of life. <i>Critical Care Medicine</i> , 2010 , 38, 995-6	1.4	15
134	<i>Streptococcus pneumoniae</i> and <i>Pseudomonas aeruginosa</i> pneumonia induce distinct host responses. <i>Critical Care Medicine</i> , 2010 , 38, 223-41	1.4	32
133	Cancer causes increased mortality and is associated with altered apoptosis in murine sepsis. <i>Critical Care Medicine</i> , 2010 , 38, 886-93	1.4	67
132	Association between lymphotoxin-alpha (tumor necrosis factor-beta) intron polymorphism and predisposition to severe sepsis is modified by gender and age. <i>Critical Care Medicine</i> , 2010 , 38, 181-93	1.4	30
131	Half empty or half full?. <i>Critical Care Medicine</i> , 2010 , 38, 1747-8	1.4	1
130	Shock: further studies with particular reference to the effects of hemorrhage. 1934. <i>Archives of Surgery</i> , 2010 , 145, 393-4		2
129	Implementation of a mandatory checklist of protocols and objectives improves compliance with a wide range of evidence-based intensive care unit practices. <i>Critical Care Medicine</i> , 2009 , 37, 2775-2781	1.4	11
128	The impact of a simple, low-cost oral care protocol on ventilator-associated pneumonia rates in a surgical intensive care unit. <i>Journal of Intensive Care Medicine</i> , 2009 , 24, 54-62	3.3	69

127	Enterocyte-specific epidermal growth factor prevents barrier dysfunction and improves mortality in murine peritonitis. <i>American Journal of Physiology - Renal Physiology</i> , 2009 , 297, G471-9	5.1	56
126	CD4+ lymphocytes control gut epithelial apoptosis and mediate survival in sepsis. <i>FASEB Journal</i> , 2009 , 23, 1817-25	0.9	53
125	Predicting clinical physiology: a Markov chain model of heart rate recovery after spontaneous breathing trials in mechanically ventilated patients. <i>Journal of Critical Care</i> , 2009 , 24, 347-61	4	11
124	Examination of non-clinical factors affecting tracheostomy practice in an academic surgical intensive care unit. <i>Critical Care Medicine</i> , 2009 , 37, 3070-8	1.4	15
123	Effects of aging on the immunopathologic response to sepsis. <i>Critical Care Medicine</i> , 2009 , 37, 1018-23	1.4	92
122	Implementation of a mandatory checklist of protocols and objectives improves compliance with a wide range of evidence-based intensive care unit practices. <i>Critical Care Medicine</i> , 2009 , 37, 2775-81	1.4	99
121	Improved extubation rates and earlier liberation from mechanical ventilation with implementation of a daily spontaneous-breathing trial protocol. <i>Journal of the American College of Surgeons</i> , 2008 , 206, 489-95	4.4	44
120	Autonomic information flow improves prognostic value of heart rate patterns after abdominal aortic surgery. <i>Journal of Critical Care</i> , 2008 , 23, 255-62	4	11
119	Invited commentary: experience matters. <i>Journal of Critical Care</i> , 2008 , 23, 556	4	
118	Neutrophil depletion causes a fatal defect in murine pulmonary <i>Staphylococcus aureus</i> clearance. <i>Journal of Surgical Research</i> , 2008 , 150, 278-85	2.5	66
117	Achieving the aims of education: curricular decisions in critical care. <i>Critical Care</i> , 2008 , 12, 188	10.8	1
116	Is there a role for growth hormone therapy in refractory critical illness?. <i>Current Opinion in Critical Care</i> , 2008 , 14, 438-44	3.5	19
115	Epidermal growth factor treatment decreases mortality and is associated with improved gut integrity in sepsis. <i>Shock</i> , 2008 , 30, 36-42	3.4	48
114	Multicenter implementation of a consensus-developed, evidence-based, spontaneous breathing trial protocol. <i>Critical Care Medicine</i> , 2008 , 36, 2753-62	1.4	43
113	Myocardial transcriptional profiles in a murine model of sepsis: evidence for the importance of age. <i>Pediatric Critical Care Medicine</i> , 2008 , 9, 530-5	3	16
112	Mathematical estimates of recovery after loss of activity: II. Long-range connectivity facilitates rapid functional recovery. <i>Critical Care Medicine</i> , 2008 , 36, 489-94	1.4	4
111	Tracheostomy protocol: experience with development and potential utility. <i>Critical Care Medicine</i> , 2008 , 36, 1742-8	1.4	25
110	Intestine-specific overexpression of IL-10 improves survival in polymicrobial sepsis. <i>Shock</i> , 2008 , 29, 483-94	3.4	14

109	Physiological noise versus white noise to drive a variable ventilator in a porcine model of lung injury. <i>Canadian Journal of Anaesthesia</i> , 2008 , 55, 577-86	3	7
108	Pharmacoepidemiology of QT-interval prolonging drug administration in critically ill patients. <i>Pharmacoepidemiology and Drug Safety</i> , 2008 , 17, 971-81	2.6	33
107	Cardiorespiratory dynamics during transitions between mechanical and spontaneous ventilation in intensive care. <i>Complexity</i> , 2008 , 13, 40-59	1.6	11
106	Effect of chlorhexidine/silver sulfadiazine-impregnated central venous catheters in an intensive care unit with a low blood stream infection rate after implementation of an educational program: a before-after trial. <i>Surgical Infections</i> , 2007 , 8, 445-54	2	25
105	Mathematical estimation of recovery after loss of activity: I. Renal failure. <i>Journal of Trauma</i> , 2007 , 63, 232-8		1
104	Patients and surrogates' perspective on research and testing in critical care. <i>Critical Care Medicine</i> , 2007 , 35, 328-329	1.4	
103	Biologically variable ventilation improves gas exchange and respiratory mechanics in a model of severe bronchospasm. <i>Critical Care Medicine</i> , 2007 , 35, 1749-55	1.4	40
102	The Perioperative Management of the Acute Care Surgical Patient 2007 , 67-83		
101	Efficacy and safety of an insulin infusion protocol in a surgical ICU. <i>Journal of the American College of Surgeons</i> , 2006 , 202, 1-9	4.4	91
100	A new safety event reporting system improves physician reporting in the surgical intensive care unit. <i>Journal of the American College of Surgeons</i> , 2006 , 202, 881-7	4.4	30
99	Molecular diagnostics in sepsis: from bedside to bench. <i>Journal of the American College of Surgeons</i> , 2006 , 203, 585-598	4.4	34
98	The relationship between the surgeon and the intensivist in the surgical intensive care unit. <i>Surgical Clinics of North America</i> , 2006 , 86, 1351-7	4	27
97	Genetic research and testing in critical care: surrogates' perspective. <i>Critical Care Medicine</i> , 2006 , 34, 986-94	1.4	35
96	The Future of Critical Care: Technological Advances and Moral Choices. <i>Journal of the Japanese Society of Intensive Care Medicine</i> , 2006 , 13, 131-134	0	
95	Stress and the Biology of the Responses 2006 , 21-30		
94	Physiologic Failure: Multiple Organ Dysfunction Syndrome 2006 , 631-640		8
93	Iron dysregulation combined with aging prevents sepsis-induced apoptosis. <i>Journal of Surgical Research</i> , 2005 , 128, 37-44	2.5	11
92	Relationship between tracheostomy timing and duration of mechanical ventilation in critically ill patients. <i>Critical Care Medicine</i> , 2005 , 33, 2513-20	1.4	136

91	Mechanisms of decreased intestinal epithelial proliferation and increased apoptosis in murine acute lung injury. <i>Critical Care Medicine</i> , 2005 , 33, 2350-7	1.4	30
90	Evaluation of the applicability, efficacy, and safety of a thromboembolic event prophylaxis guideline designed for quality improvement of the traumatically injured patient. <i>Journal of Trauma</i> , 2005 , 58, 731-9		13
89	RNAi. <i>Critical Care Medicine</i> , 2005 , 33, S441-3	1.4	2
88	Early antibiotic administration but not antibody therapy directed against IL-6 improves survival in septic mice predicted to die on basis of high IL-6 levels. <i>American Journal of Physiology - Regulatory Integrative and Comparative Physiology</i> , 2005 , 289, R1048-53	3.2	85
87	The impact of bedside behavior on catheter-related bacteremia in the intensive care unit. <i>Archives of Surgery</i> , 2004 , 139, 131-6		71
86	Differential modulation of endotoxin responsiveness by human caspase-12 polymorphisms. <i>Nature</i> , 2004 , 429, 75-9	50.4	344
85	Treatment of hypophosphatemia using a protocol based on patient weight and serum phosphorus level in a surgical intensive care unit. <i>Journal of the American College of Surgeons</i> , 2004 , 198, 198-204	4.4	56
84	In vivo, in vitro, in silico. <i>Critical Care Medicine</i> , 2004 , 32, 2159-60	1.4	31
83	Sequence makes a difference: paradoxical effects of stress in vivo. <i>Shock</i> , 2004 , 22, 229-33	3.4	7
82	Age disproportionately increases sepsis-induced apoptosis in the spleen and gut epithelium. <i>Shock</i> , 2004 , 22, 364-8	3.4	34
81	High-dose exogenous iron following cecal ligation and puncture increases mortality rate in mice and is associated with an increase in gut epithelial and splenic apoptosis. <i>Critical Care Medicine</i> , 2004 , 32, 1178-85	1.4	31
80	Nonlinear dynamics, complex systems, and the pathobiology of critical illness. <i>Current Opinion in Critical Care</i> , 2004 , 10, 378-82	3.5	78
79	Antibiotics improve survival in sepsis independent of injury severity but do not change mortality in mice with markedly elevated interleukin 6 levels. <i>Shock</i> , 2004 , 21, 121-5	3.4	81
78	Effects of age on mortality and antibiotic efficacy in cecal ligation and puncture. <i>Shock</i> , 2003 , 19, 310-3	3.4	130
77	Sepsis from <i>Pseudomonas aeruginosa</i> pneumonia decreases intestinal proliferation and induces gut epithelial cell cycle arrest. <i>Critical Care Medicine</i> , 2003 , 31, 1630-7	1.4	84
76	Surgeons, intensivists, and the covenant of care: Administrative models and values affecting care at the end of life. <i>Critical Care Medicine</i> , 2003 , 31, 1551-1559	1.4	147
75	Critical care: on target. <i>Critical Care Medicine</i> , 2003 , 31, 1003-5	1.4	1
74	Bcl-2 inhibits gut epithelial apoptosis induced by acute lung injury in mice but has no effect on survival. <i>Shock</i> , 2003 , 20, 437-43	3.4	24

73	Surgeons, intensivists, and the covenant of care: administrative models and values affecting care at the end of life. <i>Critical Care Medicine</i> , 2003 , 31, 1263-70	1.4	50
72	Antibiotics improve survival and alter the inflammatory profile in a murine model of sepsis from <i>Pseudomonas aeruginosa</i> pneumonia. <i>Shock</i> , 2003 , 19, 408-14	3.4	36
71	Iron overload before cecal ligation and puncture increases mortality. <i>Shock</i> , 2003 , 20, 52-5	3.4	9
70	Robert Wood Johnson Foundation Office of Promoting Excellence in End-of-Life Care: executive summary of the report from the field. <i>Journal of the American College of Surgeons</i> , 2003 , 196, 807-15	4.4	8
69	Families' perceptions of surgical intensive care. <i>Journal of the American College of Surgeons</i> , 2003 , 196, 977-83	4.4	16
68	Template-directed dye-terminator incorporation with fluorescence polarization detection for analysis of single nucleotide polymorphisms associated with cardiovascular and thromboembolic disease. <i>Thrombosis Research</i> , 2003 , 111, 373-9	8.2	6
67	Guidelines for the selection of anti-infective agents for complicated intra-abdominal infections. <i>Clinical Infectious Diseases</i> , 2003 , 37, 997-1005	11.6	387
66	National estimates of hospitalization charges for the acute care of traumatic brain injuries. <i>Brain Injury</i> , 2003 , 17, 983-90	2.1	21
65	Surgeons, intensivists, and the covenant of care: administrative models and values affecting care at the end of life--Updated. <i>Critical Care Medicine</i> , 2003 , 31, 1551-7; discussion 1557-9	1.4	41
64	The frequency and effects of cytochrome P450 (CYP) 2C9 polymorphisms in patients receiving warfarin. <i>Journal of the American College of Surgeons</i> , 2002 , 194, 267-73	4.4	76
63	Who should manage the dying patient?: Rescue, shame, and the surgical ICU dilemma. <i>Journal of the American College of Surgeons</i> , 2002 , 194, 665-73	4.4	83
62	The community of the self. <i>Nature</i> , 2002 , 420, 246-51	50.4	167
61	Inhibition of intestinal epithelial apoptosis and survival in a murine model of pneumonia-induced sepsis. <i>JAMA - Journal of the American Medical Association</i> , 2002 , 287, 1716-21	27.4	210
60	Coagulation inhibitors in the treatment of sepsis. <i>Expert Opinion on Investigational Drugs</i> , 2002 , 11, 69-74	5.9	11
59	Effect of an education program on decreasing catheter-related bloodstream infections in the surgical intensive care unit. <i>Critical Care Medicine</i> , 2002 , 30, 59-64	1.4	243
58	Overexpression of Bcl-2 in the intestinal epithelium improves survival in septic mice. <i>Critical Care Medicine</i> , 2002 , 30, 195-201	1.4	141
57	Heart rate variability in critical illness and critical care. <i>Current Opinion in Critical Care</i> , 2002 , 8, 311-5	3.5	109
56	Sedation modulates recognition of novel stimuli and adaptation to regular stimuli in critically ill adults. <i>Critical Care Medicine</i> , 2002 , 30, 609-16	1.4	5

55	Sepsis gene expression profiling: murine splenic compared with hepatic responses determined by using complementary DNA microarrays. <i>Critical Care Medicine</i> , 2002 , 30, 2711-21	1.4	46
54	High-frequency oscillatory ventilation for acute respiratory distress syndrome in adults: a randomized, controlled trial. <i>American Journal of Respiratory and Critical Care Medicine</i> , 2002 , 166, 801-8	10.2	483
53	Template-directed dye-terminator incorporation with fluorescence polarization detection for analysis of single nucleotide polymorphisms implicated in sepsis. <i>Journal of Molecular Diagnostics</i> , 2002 , 4, 209-15	5.1	12
52	Injury in the era of genomics. <i>Shock</i> , 2001 , 15, 165-70	3.4	40
51	Extreme warfarin sensitivity in siblings associated with multiple cytochrome P450 polymorphisms. <i>American Journal of Hematology</i> , 2001 , 67, 144-6	7.1	12
50	Genetic markers in sepsis. <i>Journal of the American College of Surgeons</i> , 2001 , 192, 106-17; quiz 145-6	4.4	505
49	Role of apoptosis in <i>Pseudomonas aeruginosa</i> pneumonia. <i>Science</i> , 2001 , 294, 1783	33.3	62
48	Sepsis-induced apoptosis causes progressive profound depletion of B and CD4+ T lymphocytes in humans. <i>Journal of Immunology</i> , 2001 , 166, 6952-63	5.3	650
47	Shock at the millennium II. Walter B. Cannon and Lawrence J. Henderson. <i>Shock</i> , 2001 , 16, 278-84	3.4	4
46	The heat shock paradox: does NF-kappaB determine cell fate?. <i>FASEB Journal</i> , 2001 , 15, 270-274	0.9	128
45	Genetic susceptibility to hemorrhagic complications during warfarin therapy. <i>Surgery</i> , 2001 , 129, 645-6	3.6	1
44	Interleukin-1 receptor antagonist as therapy for inflammatory disorders. <i>Expert Opinion on Biological Therapy</i> , 2001 , 1, 301-8	5.4	33
43	Association between heart rate variability recorded on postoperative day 1 and length of stay in abdominal aortic surgery patients. <i>Critical Care Medicine</i> , 2001 , 29, 1738-43	1.4	92
42	A prospective, randomized study comparing percutaneous with surgical tracheostomy in critically ill patients. <i>Critical Care Medicine</i> , 2001 , 29, 926-30	1.4	200
41	Multiple Organ Dysfunction Syndrome 2001 , 321-326		
40	Shock at the millennium. I. Walter B. Cannon and Alfred Blalock. <i>Shock</i> , 2000 , 13, 497-504	3.4	7
39	A meta-analysis of prospective trials comparing percutaneous and surgical tracheostomy in critically ill patients. <i>Chest</i> , 2000 , 118, 1412-8	5.3	348
38	Rapid onset of intestinal epithelial and lymphocyte apoptotic cell death in patients with trauma and shock. <i>Critical Care Medicine</i> , 2000 , 28, 3207-17	1.4	155

37	Role of CuZn superoxide dismutase in regulating lymphocyte apoptosis during sepsis. <i>Critical Care Medicine</i> , 2000 , 28, 1701-8	1.4	19
36	Comparison of intravenous/oral ciprofloxacin plus metronidazole versus piperacillin/tazobactam in the treatment of complicated intraabdominal infections. <i>Annals of Surgery</i> , 2000 , 232, 254-62	7.8	65
