#	ARTICLE	IF	CITATIONS
1	Emergency Department Utilization in the U.S. Military Health System. <i>Military Medicine</i> , 2021, 186, 606-612.	0.8	1
2	Identifying Patterns and Predictors of Prescription Opioid Use After Total Joint Arthroplasty. <i>Military Medicine</i> , 2021, 186, 587-592.	0.8	18
3	Super-Utilization of the Emergency Department in a Universally Insured Population. <i>Military Medicine</i> , 2021, 186, e1010-e1016.	0.8	9
4	The Impact of Income on Emergency General Surgery Outcomes in Urban and Rural Areas. <i>Journal of Surgical Research</i> , 2020, 245, 629-635.	1.6	18
5	Emergency General Surgery Volume and Its Impact on Outcomes in Military Treatment Facilities. <i>Journal of Surgical Research</i> , 2020, 247, 287-293.	1.6	5
6	Patterns and predictors of opioid prescribing and use after rib fractures. <i>Surgery</i> , 2020, 168, 684-689.	1.9	23
7	Defining a Research Agenda for Layperson Prehospital Hemorrhage Control. <i>JAMA Network Open</i> , 2020, 3, e209393.	5.9	19
8	Hemorrhage Control Training Promotes Resilience-Associated Traits in Medical Students. <i>Journal of Surgical Education</i> , 2019, 76, 77-82.	2.5	8
9	No Racial Disparities In Surgical Care Quality Observed After Coronary Artery Bypass Grafting In TRICARE Patients. <i>Health Affairs</i> , 2019, 38, 1307-1312.	5.2	23
10	Development and Validation of a Bedside Risk Assessment for Sustained Prescription Opioid Use After Surgery. <i>JAMA Network Open</i> , 2019, 2, e196673.	5.9	41
11	Effectiveness of the American College of Surgeons Bleeding Control Basic Training Among Laypeople Applying Different Tourniquet Types. <i>JAMA Surgery</i> , 2019, 154, 923.	4.3	26
12	Validating the Stopping Opioids after Surgery (SOS) score for sustained postoperative prescription opioid use in spine surgical patients. <i>Spine Journal</i> , 2019, 19, 1666-1671.	1.3	21
13	Prolonged ICU stay and its association with 1-year trauma mortality: An analysis of 19,000 American patients. <i>American Journal of Surgery</i> , 2019, 218, 21-26.	1.8	7
14	Prior Prescription Opioid Use and Its Influence on Opioid Requirements After Orthopedic Trauma. <i>Journal of Surgical Research</i> , 2019, 238, 29-34.	1.6	24
15	Building community resilience: A scalable model for hemorrhage-control training at a mass gathering site, using the RE-ALM framework. <i>Surgery</i> , 2019, 165, 795-801.	1.9	10
16	Outpatient Spine Clinic Utilization is Associated With Reduced Emergency Department Visits Following Spine Surgery. <i>Spine</i> , 2018, 43, E836-E841.	2.0	24
17	Universal insurance and an equal access healthcare system eliminate disparities for Black patients after traumatic injury. <i>Surgery</i> , 2018, 163, 651-656.	1.9	47
18	Defining Optimal Length of Opioid Pain Medication Prescription After Common Surgical Procedures. <i>JAMA Surgery</i> , 2018, 153, 37.	4.3	178

#	ARTICLE	IF	CITATIONS
19	The Transition to Data-Driven Quality Metrics: Determining the Optimal Surveillance Period for Complications After Surgery. <i>Journal of Surgical Research</i> , 2018, 232, 332-337.	1.6	7
20	Does Orthopaedic Outpatient Care Reduce Emergency Department Utilization After Total Joint Arthroplasty?. <i>Clinical Orthopaedics and Related Research</i> , 2018, 476, 1655-1662.	1.5	20
21	Sustained Preoperative Opioid Use Is a Predictor of Continued Use Following Spine Surgery. <i>Journal of Bone and Joint Surgery - Series A</i> , 2018, 100, 914-921.	3.0	103
22	Disparities in receipt of a laparoscopic operation for ectopic pregnancy among TRICARE beneficiaries. <i>Surgery</i> , 2017, 161, 1341-1347.	1.9	16
23	Incidence and Predictors of Opioid Prescription at Discharge After Traumatic Injury. <i>JAMA Surgery</i> , 2017, 152, 930.	4.3	95
24	Patterns of use and factors associated with early discontinuation of opioids following major trauma. <i>American Journal of Surgery</i> , 2017, 214, 792-797.	1.8	25
25	Differences in rural and urban outcomes: a national inspection of emergency general surgery patients. <i>Journal of Surgical Research</i> , 2017, 218, 277-284.	1.6	35
26	Risk Factors for Prolonged Opioid Use Following Spine Surgery, and the Association with Surgical Intensity, Among Opioid-Naive Patients. <i>Journal of Bone and Joint Surgery - Series A</i> , 2017, 99, 1247-1252.	3.0	146
27	Sustained Prescription Opioid Use Among Previously Opioid-Naive Patients Insured Through TRICARE (2006-2014). <i>JAMA Surgery</i> , 2017, 152, 1175.	4.3	85
28	The impact of hepatitis C virus infection on 90-day outcomes following major orthopaedic surgery: a propensity-matched analysis. <i>Archives of Orthopaedic and Trauma Surgery</i> , 2017, 137, 1181-1186.	2.4	15
29	Patient driven care in the management of prostate cancer: analysis of the United States military healthcare system. <i>BMC Urology</i> , 2017, 17, 56.	1.4	9
30	Association between Insurance Status and Hospital Length of Stay following Trauma. <i>American Surgeon</i> , 2016, 82, 281-288.	0.8	59
31	Racial disparities in emergency general surgery. <i>Journal of Trauma and Acute Care Surgery</i> , 2016, 80, 764-777.	2.1	88
