

Alfredo Jose Mansur

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/11283570/alfredo-jose-mansur-publications-by-year.pdf>
Version: 2024-04-18

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.
The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

10 papers	604 citations	8 h-index	10 g-index
10 ext. papers	670 ext. citations	4.8 avg, IF	2.75 L-index

#	Paper	IF	Citations
10	Outcomes in patients with fungal endocarditis: A multicenter observational cohort study. <i>International Journal of Infectious Diseases</i> , 2018 , 77, 48-52	10.5	15
9	Incremental value of B-type natriuretic peptide for early risk prediction of infective endocarditis. <i>International Journal of Infectious Diseases</i> , 2014 , 29, 120-4	10.5	10
8	Community-acquired culture-negative endocarditis: clinical characteristics and risk factors for mortality. <i>International Journal of Infectious Diseases</i> , 2014 , 25, 191-5	10.5	20
7	Heart rate response and chronotropic incompetence in exercise stress testing of asymptomatic women. <i>Women's Health</i> , 2010 , 6, 785-7	3	1
6	Time-related distribution, risk factors and prognostic influence of embolism in patients with left-sided infective endocarditis. <i>International Journal of Cardiology</i> , 2006 , 110, 334-9	3.2	64
5	Influence of age, gender, body mass index, and functional capacity on heart rate variability in a cohort of subjects without heart disease. <i>American Journal of Cardiology</i> , 2004 , 93, 381-5	3	376
4	Duration of symptoms in patients with infective endocarditis. <i>International Journal of Cardiology</i> , 2003 , 89, 63-70	3.2	23
3	Relapses, recurrences, valve replacements, and mortality during the long-term follow-up after infective endocarditis. <i>American Heart Journal</i> , 2001 , 141, 78-86	4.9	83
2	Late failure of surgical treatment for bioprosthetic valve endocarditis due to <i>Candida tropicalis</i> . <i>Clinical Infectious Diseases</i> , 1996 , 22, 380-1	11.6	9
1	Late failure of bioprosthesis excision for treatment of recurrence of <i>Pseudomonas aeruginosa</i> tricuspid valve endocarditis previously treated by valve replacement. <i>American Heart Journal</i> , 1987 , 114, 666-8	4.9	3
