#	ARTICLE	IF	CITATIONS
1	Wernekink Commissure Syndrome Secondary to Bilateral Caudal Paramedian Midbrain Infarction Presenting with a Unique "Heart or V" Appearance Sign: Case Report and Review of the Literature. <i>Frontiers in Neurology</i> , 2017, 8, 376.	2.4	15
2	The "heart appearance" sign on MRI of Wernekink's commissure syndrome caused by bilateral caudal paramedian midbrain infarction. <i>Neurological Sciences</i> , 2018, 39, 587-589.	1.9	9
3	The KATP channel opener, nicorandil, ameliorates brain damage by modulating synaptogenesis after ischemic stroke. <i>PLoS ONE</i> , 2021, 16, e0246019.	2.5	8
4	Caudal paramedian midbrain infarction: a clinical study of imaging, clinical features and stroke mechanisms. <i>Acta Neurologica Belgica</i> , 2021, 121, 443-450.	1.1	7
5	A Case Report of Isolated Bilateral Cerebral Peduncular Infarction. <i>Case Reports in Neurological Medicine</i> , 2017, 2017, 1-3.	0.4	5
6	Evaluation of Clinical Features and Stroke Etiology in Patients with Bilateral Middle Cerebellar Peduncle Infarction. <i>European Neurology</i> , 2020, 83, 271-278.	1.4	4
7	Neuromyelitis optical spectrum disorders presenting with isolated "inverted V" sign in area postrema. <i>Neurological Sciences</i> , 2018, 39, 1299-1301.	1.9	3
8	Combined hypertrophic olivary degeneration and Wallerian degeneration of the bilateral middle cerebellar peduncles: a case report. <i>Neurological Sciences</i> , 2019, 40, 1971-1974.	1.9	3
9	Prediction model for the efficacy of folic acid therapy on hyperhomocysteinaemia based on genetic risk score methods. <i>British Journal of Nutrition</i> , 2019, 122, 39-46.	2.3	3
10	Cerebral achromatopsia secondary to ischemic stroke. <i>Neurology India</i> , 2018, 66, 573.	0.4	3
11	Isolated central acute vestibular syndrome following nucleus prepositus hypoglossi infarction. <i>Acta Neurologica Belgica</i> , 2020, 120, 959-961.	1.1	1
