#	ARTICLE	IF	CITATIONS
1	Baclofen Improves Symptoms and Reduces Postprandial Flow Events in Patients With Rumination and Supragastric Belching. <i>Clinical Gastroenterology and Hepatology</i> , 2012, 10, 379-384.	4.4	112
2	How to select patients for antireflux surgery? The ICARUS guidelines (international consensus) <i>Tj ETQq0 0 0 rgBT /Overlock 10 Tf 50 70</i>	12.1	80
3	Functional heterogeneity of lymphocytic patterns in primary melanoma dissected through single-cell multiplexing. <i>ELife</i> , 2020, 9, .	6.0	44
4	Response to targeted therapy in two patients with metastatic melanoma carrying rare BRAF exon 15 mutations: A598_T599insV and V600_K601delinsE. <i>Melanoma Research</i> , 2017, 27, 507-510.	1.2	9
5	Clinical trial: a controlled trial of baclofen add-on therapy in <scp>PPI</scp>-refractory gastroesophageal reflux symptoms. <i>Alimentary Pharmacology and Therapeutics</i> , 2022, 56, 231-239.	3.7	9
6	Tu2125 Refractory GERD Patients Display Increased Visceral Hypersensitivity for Thermal, Chemical and Mechanical Esophageal Stimulation. <i>Gastroenterology</i> , 2013, 144, S-936.	1.3	5
7	The role of serotonin in the control of esophageal sensitivity assessed by multimodal stimulation in health. <i>Neurogastroenterology and Motility</i> , 2021, 33, e14057.	3.0	5
8	Associations Between Patient Characteristics and GERD Symptoms: Are Psychosocial Factors and Somatization More Important Than Reflux Parameters?. <i>Gastroenterology</i> , 2011, 140, S-298-S-299.	1.3	3
9	T1682 Increasing Body Weight is Associated With a Higher Incidence and Proximal Extent of Reflux in Patients With GERD Both on and off PPI Therapy. <i>Gastroenterology</i> , 2010, 138, S-556.	1.3	2
10	Baclofen Improves Symptoms and Postprandial Flow Events in Patients With Rumination and Supragastric Belching/Aerophagia. <i>Gastroenterology</i> , 2011, 140, S-123.	1.3	2
11	Determinants of Symptom Perception During Impedance-pH Monitoring: Do Psychosocial Factors and Somatization Play a Role?. <i>Gastroenterology</i> , 2011, 140, S-246.	1.3	2
12	The optimal order of stimulation modalities and reproducibility of the multimodal esophageal stimulation paradigm. <i>Neurogastroenterology and Motility</i> , 2019, 31, e13475.	3.0	2
13	Added Value of Combined High Resolution Manometry-Impedance Recordings in Patients With Postprandial Belching or Regurgitation. <i>Gastroenterology</i> , 2011, 140, S-229.	1.3	1
14	T1122 Affective Disorders, Somatization and Body Awareness are Associated With Positive Symptom Association During 24 Hour Impedance-pH Monitoring in Patients With Reflux Symptoms. <i>Gastroenterology</i> , 2012, 142, S-204.	1.3	1
15	Prevention of Postoperative Pulmonary Edema on the Ward by Application of a Central Venous Pressure Rule. <i>The Open Surgery Journal</i> , 2009, 3, 1-8.	0.7	1
16	T1683 An Increase in Intra-Gastric Pressure is Associated With a Higher Proximal Extent of Gastroesophageal Reflux in Healthy Volunteers. <i>Gastroenterology</i> , 2010, 138, S-556.	1.3	0
17	Tu1819 Effect of Baclofen on Gastric Acid Pocket in GERD Patients. <i>Gastroenterology</i> , 2013, 144, S-854.	1.3	0
