#	ARTICLE	IF	CITATIONS
1	Thirty-year outcome of anxiety and depressive disorders and personality status: comprehensive evaluation of mixed symptoms and the general neurotic syndrome in the follow-up of a randomised controlled trial. <i>Psychological Medicine</i> , 2022, 52, 3999-4008.	2.7	9
2	Personality change in the Nottingham Study of Neurotic Disorder: 30-Year cohort study. <i>Australian and New Zealand Journal of Psychiatry</i> , 2022, 56, 260-269.	1.3	12
3	Relationships between treatments received in the Nottingham Study of Neurotic Disorder over 30 years and personality status. <i>Personality and Mental Health</i> , 2022, , .	0.6	3
4	The influence of personality disorder in predicting suicidal behaviour in common mental disorders: A 30-year study. <i>Personality and Mental Health</i> , 2022, 16, 111-119.	0.6	4
5	Matching ICD-11 personality status to clinical management in a community team – The Boston (UK) Personality Project: Study protocol. <i>Personality and Mental Health</i> , 2022, 16, 130-137.	0.6	5
6	The recording of personality strengths: An analysis of the impact of positive personality features on the long-term outcome of common mental disorders. <i>Personality and Mental Health</i> , 2022, 16, 120-129.	0.6	7
7	Premature mortality of people with personality disorder in the Nottingham Study of Neurotic Disorder. <i>Personality and Mental Health</i> , 2021, 15, 32-39.	0.6	16
8	Is social function a good proxy measure of personality disorder?. <i>Personality and Mental Health</i> , 2021, 15, 261-272.	0.6	5
9	Characteristics of alleged homicide offenders with and without schizophrenia in Sichuan, China. <i>Criminal Behaviour and Mental Health</i> , 2018, 28, 202-215.	0.4	7
10	The Effect of China's National Essential Medicine Policy on Health Expenses: Evidence From a National Study. <i>Inquiry (United States)</i> , 2018, 55, 004695801878705.	0.5	14
11	Does providing more services increase the primary hospitals' revenue? An assessment of national essential medicine policy based on 2,675 counties in China. <i>PLoS ONE</i> , 2018, 13, e0190855.	1.1	0
12	Personality disorder and violence in the national household population of Britain. <i>Journal of Forensic Psychiatry and Psychology</i> , 2017, 28, 620-638.	0.6	9
13	Factor structure and longitudinal measurement invariance of PHQ-9 for specialist mental health care patients with persistent major depressive disorder: Exploratory Structural Equation Modelling. <i>Journal of Affective Disorders</i> , 2017, 219, 1-8.	2.0	48
14	Progress and challenges in maternal health in western China: a Countdown to 2015 national case study. <i>The Lancet Global Health</i> , 2017, 5, e523-e536.	2.9	85
15	Assessing Associations Between Changes in Risk and Subsequent Reoffending. <i>Criminal Justice and Behavior</i> , 2017, 44, 59-84.	1.1	11
16	Assessing dose-response effects of national essential medicine policy in China: comparison of two methods for handling data with a stepped wedge-like design and hierarchical structure. <i>BMJ Open</i> , 2017, 7, e013247.	0.8	3
17	Clinical and cost-effectiveness of adapted cognitive behaviour therapy for non-cardiac chest pain: a multicentre, randomised controlled trial. <i>Open Heart</i> , 2017, 4, e000582.	0.9	12
18	Disparities in health system input between minority and non-minority counties and their effects on maternal mortality in Sichuan province of western China. <i>BMC Public Health</i> , 2017, 17, 750.	1.2	10

#	ARTICLE	IF	CITATIONS
19	Long-term impact of temporary and persistent personality disorder on anxiety and depressive disorders. <i>Personality and Mental Health</i> , 2016, 10, 76-83.	0.6	25
20	Improving risk management for violence in mental health services: a multimethods approach. <i>Programme Grants for Applied Research</i> , 2016, 4, 1-408.	0.4	16
21	Cognitive behaviour therapy for non-cardiac pain in the chest (COPIC): a multicentre randomized controlled trial with economic evaluation. <i>BMC Psychology</i> , 2015, 3, 41.	0.9	8
22	The clinical implications of personality-generated mental illness. <i>Personality and Mental Health</i> , 2015, 9, 17-20.	0.6	3
23	Improving Accuracy of Risk Prediction for Violence: Does Changing the Outcome Matter?. <i>International Journal of Forensic Mental Health</i> , 2015, 14, 23-32.	0.6	4
24	Psychiatric diagnosis and differential risks of offending following discharge. <i>International Journal of Law and Psychiatry</i> , 2015, 38, 68-74.	0.5	17
25	Effects of the essential medicine policy in China on outpatient service use and medicine cost: a secondary analysis of 5 year panel data. <i>Lancet, The</i> , 2015, 386, S28.	6.3	2
26	Preliminary studies of the ICD-11 classification of personality disorder in practice. <i>Personality and Mental Health</i> , 2014, 8, 254-263.	0.6	57
27	Differential effects of depression and mania symptoms on social adjustment: prospective study in bipolar disorder. <i>Bipolar Disorders</i> , 2013, 15, 80-91.	1.1	15
28	Estimating Overweight Risk in Childhood From Predictors During Infancy. <i>Pediatrics</i> , 2013, 132, e414-e421.	1.0	93
29	Gang Membership, Violence, and Psychiatric Morbidity. <i>American Journal of Psychiatry</i> , 2013, 170, 985-993.	4.0	115
30	Violence, mental health and violence risk factors among community women: an epidemiological study based on two national household surveys in the UK. <i>BMC Public Health</i> , 2013, 13, 1020.	1.2	15
31	Systematic review and meta-analyses of risk factors for childhood overweight identifiable during infancy. <i>Archives of Disease in Childhood</i> , 2012, 97, 1019-1026.	1.0	486
32	The prevalence of personality disorder among ethnic minorities: findings from a national household survey. <i>Personality and Mental Health</i> , 2012, 6, 175-182.	0.6	13
33	Most items in structured risk assessment instruments do not predict violence. <i>Journal of Forensic Psychiatry and Psychology</i> , 2011, 22, 3-21.	0.6	77
34	Forensic psychiatry in China. <i>International Journal of Law and Psychiatry</i> , 2011, 34, 7-12.	0.5	16
35	A Comparison of Logistic Regression, Classification and Regression Tree, and Neural Networks Models in Predicting Violent Re-Offending. <i>Journal of Quantitative Criminology</i> , 2011, 27, 547-573.	2.0	74
36	The impact of psychopathy on violence among the household population of Great Britain. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2011, 46, 473-480.	1.6	33

#	ARTICLE	IF	CITATIONS
37	Violence and delayed social independence among young adult British men. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2010, 45, 301-308.	1.6	7
38	Dangerous and severe personality disorder: An investigation of the construct. <i>International Journal of Law and Psychiatry</i> , 2010, 33, 84-88.	0.5	9
39	Randomised controlled trial of the clinical and cost effectiveness of a specialist team for managing refractory unipolar depressive disorder. <i>BMC Psychiatry</i> , 2010, 10, 100.	1.1	15
40	Personality pathology recorded by severity: national survey. <i>British Journal of Psychiatry</i> , 2010, 197, 193-199.	1.7	125
41	Forensic psychiatry assessments in Sichuan Province, People's Republic of China, 1997-2006. <i>Journal of Forensic Psychiatry and Psychology</i> , 2010, 21, 604-619.	0.6	11
42	The efficacy of violence prediction: A meta-analytic comparison of nine risk assessment tools.. <i>Psychological Bulletin</i> , 2010, 136, 740-767.	5.5	622
43	Prevalence and correlates of psychopathic traits in the household population of Great Britain. <i>International Journal of Law and Psychiatry</i> , 2009, 32, 65-73.	0.5	259
44	Psychopathy among prisoners in England and Wales. <i>International Journal of Law and Psychiatry</i> , 2009, 32, 134-141.	0.5	140
45	Multilevel survival analysis of health inequalities in life expectancy. <i>International Journal for Equity in Health</i> , 2009, 8, 31.	1.5	10
46	The development of the Medium Security Recidivism Assessment Guide (MSRAG): an actuarial risk prediction instrument. <i>Journal of Forensic Psychiatry and Psychology</i> , 2009, 20, 202-224.	0.6	7
47	Gender differences in structured risk assessment: Comparing the accuracy of five instruments.. <i>Journal of Consulting and Clinical Psychology</i> , 2009, 77, 337-348.	1.6	98
48	The distribution of psychopathy among a household population: categorical or dimensional?. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2008, 43, 773-781.	1.6	37
49	Personality disorder, temperament, and childhood adversity: findings from a cohort of prisoners in England and Wales. <i>Journal of Forensic Psychiatry and Psychology</i> , 2008, 19, 460-483.	0.6	25
50	Patients discharged from medium secure forensic psychiatry services: reconvictions and risk factors. <i>British Journal of Psychiatry</i> , 2007, 190, 223-229.	1.7	130
51	Comparison of outcomes following after-care from forensic and general adult psychiatric services. <i>British Journal of Psychiatry</i> , 2007, 190, 509-514.	1.7	30
52	Childhood institutional care and personality disorder traits in adulthood: Findings from the British national surveys of psychiatric morbidity.. <i>American Journal of Orthopsychiatry</i> , 2007, 77, 67-75.	1.0	11
53	Gender differences in psychiatric morbidity and violent behaviour among a household population in Great Britain. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2007, 42, 599-605.	1.6	36
54	Violence and psychiatric morbidity in the national household population of Britain: public health implications. <i>British Journal of Psychiatry</i> , 2006, 189, 12-19.	1.7	106

#	ARTICLE	IF	CITATIONS
55	Violence and Psychiatric Morbidity in a National Household Population—A Report from the British Household Survey. <i>American Journal of Epidemiology</i> , 2006, 164, 1199-1208.	1.6	109
56	Prevalence and correlates of personality disorder in Great Britain. <i>British Journal of Psychiatry</i> , 2006, 188, 423-431.	1.7	778
57	Generalized linear mixed models for ordered responses in complex multilevel structures: effects beneath the school or college in education. <i>Journal of the Royal Statistical Society Series A: Statistics in Society</i> , 2005, 168, 159-183.	0.6	13
58	Multilevel generalized linear models for modelling age-related gender difference in violent behaviour and associated factors in the general household population. <i>International Journal of Methods in Psychiatric Research</i> , 2005, 14, 130-145.	1.1	4
59	A brief conceptual tutorial on multilevel analysis in social epidemiology: investigating contextual phenomena in different groups of people. <i>Journal of Epidemiology and Community Health</i> , 2005, 59, 729-736.	2.0	281
60	A brief conceptual tutorial on multilevel analysis in social epidemiology: interpreting neighbourhood differences and the effect of neighbourhood characteristics on individual health. <i>Journal of Epidemiology and Community Health</i> , 2005, 59, 1022-1029.	2.0	188
61	A brief conceptual tutorial of multilevel analysis in social epidemiology: linking the statistical concept of clustering to the idea of contextual phenomenon. <i>Journal of Epidemiology and Community Health</i> , 2005, 59, 443-449.	2.0	491
62	Multilevel ordinal models for examination grades. <i>Statistical Modelling</i> , 2003, 3, 127-153.	0.5	42
63	Effect of Neighborhood Social Participation on Individual Use of Hormone Replacement Therapy and Antihypertensive Medication: A Multilevel Analysis. <i>American Journal of Epidemiology</i> , 2003, 157, 774-783.	1.6	43
64	Multivariate multilevel analyses of examination results. <i>Journal of the Royal Statistical Society Series A: Statistics in Society</i> , 2002, 165, 137-153.	0.6	47
65	Progress from GCSE to A and AS Level: Institutional and gender differences, and trends over time. <i>British Educational Research Journal</i> , 2001, 27, 245-267.	1.4	28
66	A multilevel model framework for meta-analysis of clinical trials with binary outcomes. <i>Statistics in Medicine</i> , 2000, 19, 3417-3432.	0.8	234
67	Meta-analysis using multilevel models with an application to the study of class size effects. <i>Journal of the Royal Statistical Society Series C: Applied Statistics</i> , 2000, 49, 399-412.	0.5	88
68	A multilevel model framework for meta-analysis of clinical trials with binary outcomes. <i>Statistics in Medicine</i> , 2000, 19, 3417-3432.	0.8	2
69	The Use of Assessment Data for School Improvement Purposes. <i>Oxford Review of Education</i> , 1999, 25, 469-483.	1.4	48
70	9. Multilevel Models for Longitudinal Data. , 1996, , 191-220.		8
71	Adjusting for Measurement Error in Multilevel Analysis. <i>Journal of the Royal Statistical Society Series A: Statistics in Society</i> , 1996, 159, 201.	0.6	48
72	A Multilevel Analysis of School Examination Results. <i>Oxford Review of Education</i> , 1993, 19, 425-433.	1.4	138

#	ARTICLE	IF	CITATIONS
73	Distribution-free estimation of age-related centiles. <i>Annals of Human Biology</i> , 1988, 15, 17-22.	0.4	168
