#	ARTICLE	IF	CITATIONS
1	Association study of polymorphism in Thrombomodulin gene [rs1042579] with cardiovascular disease.. Acta Biomedica, 2022, 92, e2021282.	0.3	2
2	The incidence and outcome of severe hyperlactatemia in critically ill patients. Internal and Emergency Medicine, 2021, 16, 115-123.	2.0	21
3	Association of Single Nucleotide Polymorphisms in Salt Taste Receptor Genes With Dietary Salt Intake and Blood Pressure Among Iranian Adults Population. Current Developments in Nutrition, 2021, 5, 945.	0.3	0
4	How Are Epigenetic Modifications Related to Cardiovascular Disease in Older Adults?. International Journal of Molecular Sciences, 2021, 22, 9949.	4.1	13
5	Apolipoprotein B gene mutation related to familial hypercholesterolemia in an Iranian population: With or without hypothyroidism. Journal of Research in Medical Sciences, 2021, 26, 94.	0.9	1
6	Lactate/albumin ratio: An early prognostic marker in critically ill patients. American Journal of Emergency Medicine, 2020, 38, 2088-2095.	1.6	39
7	The Epigenetic Overlap between Obesity and Mood Disorders: A Systematic Review. International Journal of Molecular Sciences, 2020, 21, 6758.	4.1	16
8	Depression screening using mobile phone usage metadata: a machine learning approach. Journal of the American Medical Informatics Association: JAMIA, 2020, 27, 522-530.	4.4	43
9	Risk factors of congenital heart diseases: A hospital-based case-control study in Isfahan, Iran. ARYA Atherosclerosis, 2020, 16, 1-6.	0.4	5
10	Determining genetic variants in children and adolescents suffering from tetralogy of Fallot with a positive family history: methodology. Acta Biomedica, 2020, 91, e2020096.	0.3	0
11	Effect of single nucleotide polymorphisms in SEPS1 and SEPP1 on expression in the protein level in metabolic syndrome in subjects with cardiovascular disease. Molecular Biology Reports, 2019, 46, 5685-5693.	2.3	6
12	Anthropometric indices predicting incident Hypertension in an Iranian population: The Isfahan Cohort Study. Anatolian Journal of Cardiology, 2019, 22, 33-43.	0.9	8
13	Association of socioeconomic status and hypertension based on habitual smoking among Iranian population: IHHP study. Acta Biomedica, 2019, 89, 498-504.	0.3	2
14	Proposal of a study protocol of a preliminary double-blind randomized controlled trial. Verifying effects of selenium supplementation on selenoprotein p and s genes expression in protein and mRNA levels in subjects with coronary artery disease: selenegene. Acta Biomedica, 2019, 90, 44-50.	0.3	1
15	Cardiovascular Disease Risk Assessment: Triglyceride/High-Density Lipoprotein versus Metabolic Syndrome Criteria. Journal of Research in Health Sciences, 2019, 19, e00442.	1.0	3
16	Effects of selenium supplementation on expression of SEPP1 in mRNA and protein levels in subjects with and without metabolic syndrome suffering from coronary artery disease: Selenegene study a double-blind randomized controlled trial. Journal of Cellular Biochemistry, 2018, 119, 8282-8289.	2.6	9
17	Association of expression of selenoprotein P in mRNA and protein levels with metabolic syndrome in subjects with cardiovascular disease: Results of the Selenegene study. Journal of Gene Medicine, 2017, 19, e2945.	2.8	22
18	Selenium Homeostasis and Clustering of Cardiovascular Risk Factors: A Systematic Review. Acta Biomedica, 2017, 88, 263-270.	0.3	15

#	ARTICLE	IF	CITATIONS
19	Predicting body mass index in women: The value of the psychological components of depression, anxiety, dietary restraint, and nutritional habits. <i>Journal of Education and Health Promotion</i> , 2017, 6, 9.	0.6	5
20	Changes in intraocular pressure after exercise test. <i>Oman Journal of Ophthalmology</i> , 2017, 10, 17.	0.3	5
21	Use of lipid-lowering medicinal herbs during pregnancy: A systematic review on safety and dosage. <i>ARYA Atherosclerosis</i> , 2017, 13, 135-155.	0.4	4
22	Comparison between European and Iranian cutoff points of triglyceride/high-density lipoprotein cholesterol concentrations in predicting cardiovascular disease outcomes. <i>Journal of Clinical Lipidology</i> , 2016, 10, 143-149.	1.5	12
23	The effect of hydroxychloroquine on glucose control and insulin resistance in the prediabetes condition. <i>Advanced Biomedical Research</i> , 2016, 5, 145.	0.5	20
24	Is there any relationship between different phenotypes of metabolic syndrome and cardiovascular mortality rate?. <i>Advanced Biomedical Research</i> , 2016, 5, 185.	0.5	2
25	Is herbal therapy safe in obesity? A case of <i>Apium graveolens</i> (Celery) induced hyperthyroidism. <i>ARYA Atherosclerosis</i> , 2016, 12, 248-249.	0.4	3
26	Assessing Metabolic Syndrome Through Increased Heart Rate During Exercise. <i>Acta Medica Iranica</i> , 2016, 54, 724-730.	0.8	0
27	Endothelial function state following repair of cyanotic congenital heart diseases. <i>Cardiology in the Young</i> , 2015, 25, 222-227.	0.8	8
28	The metabolic syndrome and associated lifestyle factors among the Iranian population. <i>Advanced Biomedical Research</i> , 2015, 4, 84.	0.5	11
29	Effect of age on the phenotype of metabolic syndrome in developing country. <i>Advanced Biomedical Research</i> , 2015, 4, 103.	0.5	13
30	Are there any differences in education levels and changes of cardiovascular risk factors among urban and rural population: Isfahan Healthy Heart Program. <i>Journal of Education and Health Promotion</i> , 2015, 4, 24.	0.6	0
31	Association between dietary salt intake and reservation of renal function in patients with mild hypertension. <i>ARYA Atherosclerosis</i> , 2015, 11, 69-73.	0.4	1
32	Surgical ablation for atrial fibrillation: an editorial. <i>Journal of Thoracic Disease</i> , 2015, 7, E239-42.	1.4	1
33	Advanced method used for hypertension's risk factors stratification: support vector machines and gravitational search algorithm. <i>ARYA Atherosclerosis</i> , 2015, 11, 349-56.	0.4	2
34	Detrimental predictive effect of metabolic syndrome on postoperative complications in patients who undergoing coronary artery bypass grafting. <i>Acta Biomedica</i> , 2015, 86, 86-91.	0.3	3
35	Metabolic syndrome and its association with left ventricular dysfunction in patients with left bundle branch block. <i>Acta Biomedica</i> , 2015, 86, 157-61.	0.3	1
36	Cheese consumption in relation to cardiovascular risk factors among Iranian adults- IHHP Study. <i>Nutrition Research and Practice</i> , 2014, 8, 336.	1.9	40

#	ARTICLE	IF	CITATIONS
37	The Effects of Vitamin E and Omega-3 PUFAs on Endothelial Function among Adolescents with Metabolic Syndrome. <i>BioMed Research International</i> , 2014, 2014, 1-6.	1.9	21
38	The Cut-Off Values of Anthropometric Indices for Identifying Subjects at Risk for Metabolic Syndrome in Iranian Elderly Men. <i>Journal of Obesity</i> , 2014, 2014, 1-6.	2.7	20
39	Effects of <i>Ferulago angulata</i> Extract on Serum Lipids and Lipid Peroxidation. <i>Evidence-based Complementary and Alternative Medicine</i> , 2014, 2014, 1-4.	1.2	63
40	Contrast-induced nephropathy; A literature review. <i>Journal of Nephropathology</i> , 2014, 3, 51-6.	0.2	76
41	Comparing clinical efficacy of Symbicort versus Pulmicort in reducing asthma symptom and improving its control. <i>Advanced Biomedical Research</i> , 2014, 3, 86.	0.5	1
42	Perspective on the hospital incidence rate of deep venous coagulopathy: Clinical and biochemical diagnostic markers. <i>Advanced Biomedical Research</i> , 2014, 3, 254.	0.5	1
43	Clinical Determinants of Left Ventricular Ejection Fraction Deterioration in Patients Suffered From Complete Left Bundle Branch Block. <i>Iranian Red Crescent Medical Journal</i> , 2014, 17, e16570.	0.5	3
44	Relationship between legumes consumption and metabolic syndrome: Findings of the Isfahan Healthy Heart Program. <i>ARYA Atherosclerosis</i> , 2014, 10, 18-24.	0.4	9
45	Comparison of cost-effectiveness and postoperative outcome of device closure and open surgery closure techniques for treatment of patent ductus arteriosus. <i>ARYA Atherosclerosis</i> , 2014, 10, 37-40.	0.4	6
46	Carotid intima-media thickness and plasma fibrinogen among subjects with metabolic syndrome: Isfahan cohort study, Iran. <i>ARYA Atherosclerosis</i> , 2014, 10, 238-43.	0.4	1
47	Dabigatran versus Enoxaparin in the prevention of venous thromboembolism after total knee arthroplasty: A randomized clinical trial. <i>ARYA Atherosclerosis</i> , 2014, 10, 292-7.	0.4	9
48	Evaluating factors associated with uncontrolled hypertension: Isfahan cohort study, Iran. <i>ARYA Atherosclerosis</i> , 2014, 10, 311-8.	0.4	10
49	Predictors of Metabolic Syndrome in the Iranian Population: Waist Circumference, Body Mass Index, or Waist to Hip Ratio?. <i>Cholesterol</i> , 2013, 2013, 1-6.	1.6	59
50	Cardiac Fibroelastoma: A Rare Cause of Stroke in Young Adults. <i>Case Reports in Cardiology</i> , 2013, 2013, 1-3.	0.2	0
51	A Cost-Benefit and Accurate Method for Assessing Microalbuminuria: Single versus Frequent Urine Analysis. <i>International Journal of Hypertension</i> , 2013, 2013, 1-4.	1.3	2
52	Socioeconomic characteristics and controlled hypertension: Evidence from Isfahan Healthy Heart Program. <i>ARYA Atherosclerosis</i> , 2013, 9, 77-81.	0.4	16
53	Pivotal role of microRNA-33 in metabolic syndrome: A systematic review. <i>ARYA Atherosclerosis</i> , 2013, 9, 372-6.	0.4	14
54	The impact of a community trial on the pharmacological treatment in the individuals with the metabolic syndrome: findings from the Isfahan Healthy Heart Program, 2001-2007. <i>Archives of Medical Science</i> , 2012, 6, 1009-1017.	0.9	13

#	ARTICLE	IF	CITATIONS
55	The association of smoking with components of the metabolic syndrome in non-diabetic patients. Annals of the Academy of Medicine, Singapore, 2008, 37, 919-23.	0.4	4
