#	ARTICLE	IF	CITATIONS
1	Mutations of CDKL5 Cause a Severe Neurodevelopmental Disorder with Infantile Spasms and Mental Retardation. <i>American Journal of Human Genetics</i> , 2004, 75, 1079-1093.	2.6	414
2	Mecp2 deficiency is associated with learning and cognitive deficits and altered gene activity in the hippocampal region of mice. <i>Brain</i> , 2006, 129, 887-898.	3.7	191
3	Eye and Eyelid Abnormalities Are Common in Patients with Hashimoto's Thyroiditis. <i>Thyroid</i> , 2010, 20, 287-290.	2.4	40
4	Pathogenesis of thyroid-associated ophthalmopathy: does autoimmunity against calsequestrin and collagen XIII play a role?. <i>Clinical Ophthalmology</i> , 2010, 4, 417.	0.9	30
5	The cardiac calsequestrin gene (<i>CASQ2</i>) is upregulated in the thyroid in patients with Graves' ophthalmopathy – support for a role of autoimmunity against calsequestrin as the triggering event. <i>Clinical Endocrinology</i> , 2010, 73, 522-528.	1.2	17
6	Epitopes, immunoglobulin classes and immunoglobulin G subclasses of calsequestrin antibodies in patients with thyroid eye disease. <i>Autoimmunity</i> , 2010, 43, 698-703.	1.2	14
7	Novel single-nucleotide polymorphisms in the calsequestrin-1 gene are associated with Graves' ophthalmopathy and Hashimoto's thyroiditis. <i>Clinical Ophthalmology</i> , 2015, 9, 1731.	0.9	11
8	Thyroid-stimulating immunoglobulins as measured in a reporter bioassay are not detected in patients with Hashimoto's thyroiditis and ophthalmopathy or isolated upper eyelid retraction. <i>Clinical Ophthalmology</i> , 2014, 8, 2071.	0.9	10
9	Does autoimmunity against thyroglobulin play a role in the pathogenesis of Graves' ophthalmopathy: a review. <i>Clinical Ophthalmology</i> , 2015, 9, 2271.	0.9	10
10	Long-term follow-up of seven patients with ophthalmopathy not associated with thyroid autoimmunity: heterogeneity of autoimmune ophthalmopathy. <i>Clinical Ophthalmology</i> , 2012, 6, 1063.	0.9	9
11	Eye findings and immunological markers in probands and their euthyroid relatives from a single family with multiple cases of thyroid autoimmunity. <i>Thyroid Research</i> , 2012, 5, 4.	0.7	7
12	Relationship between Clinical and Immunological Features of Thyroid Autoimmunity and Ophthalmopathy during Pregnancy. <i>Journal of Thyroid Research</i> , 2015, 2015, 1-6.	0.5	6
13	Correlation between thyroidal and peripheral blood total T cells, CD8+ T cells, and CD8+ T-regulatory cells and T-cell reactivity to calsequestrin and collagen XIII in patients with Graves' ophthalmopathy. <i>Endocrine Research</i> , 2018, 43, 264-274.	0.6	2
