#	ARTICLE	IF	CITATIONS
1	What Are the Health Consequences of Upward Mobility?. Annual Review of Psychology, 2022, 73, 599-628.	9.9	32
2	Prospective associations between neighborhood violence and monocyte pro-inflammatory transcriptional activity in children. Brain, Behavior, and Immunity, 2022, 100, 1-7.	2.0	6
3	Discrimination and Inflammation in Adolescents of Color. Biological Psychiatry Global Open Science, 2022, , .	1.0	1
4	Harshness and unpredictability: Childhood environmental links with immune and asthma outcomes. Development and Psychopathology, 2022, 34, 587-596.	1.4	3
5	Childhood poverty, immune cell aging, and African Americans' insulin resistance: A prospective study. Child Development, 2022, 93, 1616-1624.	1.7	5
6	Race, socioeconomic status, and low-grade inflammatory biomarkers across the lifecourse: A pooled analysis of seven studies. Psychoneuroendocrinology, 2021, 123, 104917.	1.3	26
7	Association of Inflammatory Activity With Larger Neural Responses to Threat and Reward Among Children Living in Poverty. American Journal of Psychiatry, 2021, 178, 313-320.	4.0	42
8	Family-Centered Prevention Effects on the Association Between Racial Discrimination and Mental Health in Black Adolescents. JAMA Network Open, 2021, 4, e211964.	2.8	14
9	The balance of giving versus receiving social support and all-cause mortality in a US national sample. Proceedings of the National Academy of Sciences of the United States of America, 2021, 118, .	3.3	14
10	Association of Wealth With Longevity in US Adults at Midlife. JAMA Health Forum, 2021, 2, e211652.	1.0	9
11	Resting-State Functional Connectivity of the Central Executive Network Moderates the Relationship Between Neighborhood Violence and Proinflammatory Phenotype in Children. Biological Psychiatry, 2021, 90, 165-172.	0.7	11
12	Effects of social support in an academic context on low-grade inflammation in high school students. Journal of Behavioral Medicine, 2021, 44, 803-810.	1.1	3
13	Disproportionate School Punishment and Significant Life Outcomes: A Prospective Analysis of Black Youths. Psychological Science, 2021, 32, 1375-1390.	1.8	8
14	Risky family climates presage increased cellular aging in young adulthood. Psychoneuroendocrinology, 2021, 130, 105256.	1.3	7
15	The Relationship Between Disproportionate Social Support and Metabolic and Inflammatory Markers: Moderating Role of Socioeconomic Context. Psychosomatic Medicine, 2021, 83, 177-186.	1.3	5
16	A family-centered prevention ameliorates the associations of low self-control during childhood with employment income and poverty status in young African American adults. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2020, 61, 425-435.	3.1	6
17	Youth Who Achieve Upward Socioeconomic Mobility Display Lower Psychological Distress But Higher Metabolic Syndrome Rates as Adults: Prospective Evidence From Add Health and MIDUS. Journal of the American Heart Association, 2020, 9, e015698.	1.6	21
18	Community violence and cellular and cytokine indicators of inflammation in adolescents. Psychoneuroendocrinology, 2020, 115, 104628.	1.3	24

#	ARTICLE	IF	CITATIONS
19	Evidence for skin-deep resilience using a co-twin control design: Effects on low-grade inflammation in a longitudinal study of youth. <i>Brain, Behavior, and Immunity</i> , 2020, 88, 661-667.	2.0	19
20	Persistence of skin-deep resilience in African American adults.. <i>Health Psychology</i> , 2020, 39, 921-926.	1.3	32
21	Secure Base Representations in Children With Asthma: Links With Symptoms, Family Asthma Management, and Cytokine Regulation. <i>Child Development</i> , 2019, 90, e718-e728.	1.7	9
22	Beyond positive or negative: variability in daily parent-adolescent interaction quality is associated with adolescent emotion dysregulation. <i>Cognition and Emotion</i> , 2019, 33, 840-847.	1.2	9
23	Risk for Maternal Depressive Symptoms and Perceived Stress by Ethnicities in Canada: From Pregnancy Through the Preschool Years. <i>Canadian Journal of Psychiatry</i> , 2019, 64, 190-198.	0.9	7
24	Trajectories of Depressive Symptoms and Perceived Stress From Pregnancy to the Postnatal Period Among Canadian Women: Impact of Employment and Immigration. <i>American Journal of Public Health</i> , 2019, 109, S197-S204.	1.5	21
25	Mechanistic Understanding of Socioeconomic Disparities in Cardiovascular Disease. <i>Journal of the American College of Cardiology</i> , 2019, 73, 3256-3258.	1.2	9
26	Neighborhood Social Conditions, Family Relationships, and Childhood Asthma. <i>Pediatrics</i> , 2019, 144, .	1.0	17
27	The Profundity of the Everyday: Family Routines in Adolescence Predict Development in Young Adulthood. <i>Journal of Adolescent Health</i> , 2019, 64, 340-346.	1.2	23
28	Aspects of the parent-child relationship and parent metabolic outcomes. <i>Journal of Behavioral Medicine</i> , 2019, 42, 204-216.	1.1	3
29	The Protective Effects of Supportive Parenting on the Relationship Between Adolescent Poverty and Resting-State Functional Brain Connectivity During Adulthood. <i>Psychological Science</i> , 2019, 30, 1040-1049.	1.8	54
30	Higher Peripheral Inflammatory Signaling Associated With Lower Resting-State Functional Brain Connectivity in Emotion Regulation and Central Executive Networks. <i>Biological Psychiatry</i> , 2019, 86, 153-162.	0.7	71
31	Academic disparities and health: How gender-based disparities in schools relate to boys' and girls' health. <i>Social Science and Medicine</i> , 2019, 228, 126-134.	1.8	4
32	Students of color show health advantages when they attend schools that emphasize the value of diversity. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2019, 116, 6013-6018.	3.3	20
33	The costs of high self-control in Black and Latino youth with asthma: Divergence of mental health and inflammatory profiles. <i>Brain, Behavior, and Immunity</i> , 2019, 80, 120-128.	2.0	12
34	Preventive parenting intervention during childhood and young black adults'™ unhealthful behaviors: a randomized controlled trial. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2019, 60, 63-71.	3.1	20
35	A Family Focused Intervention Influences Hippocampal-Prefrontal Connectivity Through Gains in Self-Regulation. <i>Child Development</i> , 2019, 90, 1389-1401.	1.7	24
36	Exposure to Parental Depression in Adolescence and Risk for Metabolic Syndrome in Adulthood. <i>Child Development</i> , 2019, 90, 1272-1285.	1.7	6

#	ARTICLE	IF	CITATIONS
37	Parental Depressive Symptoms Potentiate the Effect of Youth Negative Mood Symptoms on Gene Expression in Children with Asthma. <i>Journal of Abnormal Child Psychology</i> , 2019, 47, 99-108.	3.5	7
38	Familism and inflammatory processes in African American, Latino, and White youth.. <i>Health Psychology</i> , 2019, 38, 306-317.	1.3	14
39	Taking on the stress&#x2013;depression link: Meaning as a resource in adolescence. <i>Journal of Adolescence</i> , 2018, 65, 39-49.	1.2	34
40	Midlife self-reported social support as a buffer against premature mortality risks associated with childhood abuse. <i>Nature Human Behaviour</i> , 2018, 2, 261-268.	6.2	17
41	How Socioeconomic Disadvantages Get Under the Skin and into the Brain to Influence Health Development Across the Lifespan. , 2018, , 463-497.		47
42	College completion predicts lower depression but higher metabolic syndrome among disadvantaged minorities in young adulthood. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2018, 115, 109-114.	3.3	94
43	Divergent transcriptional profiles in pediatric asthma patients of low and high socioeconomic status. <i>Pediatric Pulmonology</i> , 2018, 53, 710-719.	1.0	28
44	Consistency matters: Consistency in the timing and quality of daily interactions between parents and adolescents predicts production of proinflammatory cytokines in youths. <i>Development and Psychopathology</i> , 2018, 30, 373-382.	1.4	9
45	John Henryism Coping and Metabolic Syndrome Among Young Black Adults. <i>Psychosomatic Medicine</i> , 2018, 80, 216-221.	1.3	22
46	Functional connectivity in central executive network protects youth against cardiometabolic risks linked with neighborhood violence. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2018, 115, 12063-12068.	3.3	53
47	Substance Use and Obesity Trajectories in African Americans Entering Adulthood. <i>American Journal of Preventive Medicine</i> , 2018, 55, 856-863.	1.6	5
48	Chronic Family Stress and Adolescent Health: The Moderating Role of Emotion Regulation. <i>Psychosomatic Medicine</i> , 2018, 80, 764-773.	1.3	12
49	Early-life socioeconomic disadvantage, not current, predicts accelerated epigenetic aging of monocytes. <i>Psychoneuroendocrinology</i> , 2018, 97, 131-134.	1.3	74
50	One size does not fit all: Links between shift-and-persist and asthma in youth are moderated by perceived social status and experience of unfair treatment. <i>Development and Psychopathology</i> , 2018, 30, 1699-1714.	1.4	25
51	Racial discrimination, body mass index, and insulin resistance: A longitudinal analysis.. <i>Health Psychology</i> , 2018, 37, 1107-1114.	1.3	26
52	Family obligations and asthma in youth: The moderating role of socioeconomic status.. <i>Health Psychology</i> , 2018, 37, 968-978.	1.3	4
53	Just World Beliefs Are Associated With Lower Levels of Metabolic Risk and Inflammation and Better Sleep After an Unfair Event. <i>Journal of Personality</i> , 2017, 85, 232-243.	1.8	14
54	Youth temperament, harsh parenting, and variation in the oxytocin receptor gene forecast allostatic load during emerging adulthood. <i>Development and Psychopathology</i> , 2017, 29, 791-803.	1.4	9

#	ARTICLE	IF	CITATIONS
55	Parents' childhood socioeconomic circumstances are associated with their children's asthma outcomes. <i>Journal of Allergy and Clinical Immunology</i> , 2017, 140, 828-835.e2.	1.5	37
56	Smoking in young adulthood among African Americans: Interconnected effects of supportive parenting in early adolescence, proinflammatory epitype, and young adult stress. <i>Development and Psychopathology</i> , 2017, 29, 957-969.	1.4	7
57	Family-centered prevention ameliorates the association between adverse childhood experiences and prediabetes status in young black adults. <i>Preventive Medicine</i> , 2017, 100, 117-122.	1.6	26
58	Protective Prevention Effects on the Association of Poverty With Brain Development. <i>JAMA Pediatrics</i> , 2017, 171, 46.	3.3	106
59	Early-Life Socioeconomic Disadvantage and Metabolic Health Disparities. <i>Psychosomatic Medicine</i> , 2017, 79, 514-523.	1.3	34
60	Difficult Family Relationships, Residential Greenspace, and Childhood Asthma. <i>Pediatrics</i> , 2017, 139, .	1.0	29
61	Metabolic Syndrome Risks Following the Great Recession in Rural Black Young Adults. <i>Journal of the American Heart Association</i> , 2017, 6, .	1.6	8
62	Low-Grade Inflammation and Ambulatory Cortisol in Adolescents: Interaction Between Interviewer-Rated Versus Self-Rated Acute Stress and Chronic Stress. <i>Psychosomatic Medicine</i> , 2017, 79, 133-142.	1.3	14
63	Threat vigilance and socioeconomic disparities in metabolic health. <i>Development and Psychopathology</i> , 2017, 29, 1721-1733.	1.4	5
64	The relationship between parents' social network diversity and pulmonary function among children with asthma. <i>Culture and Brain</i> , 2017, 5, 71-89.	0.3	1
65	The Role of Family Routines in the Intergenerational Transmission of Depressive Symptoms between Parents and their Adolescent Children. <i>Journal of Abnormal Child Psychology</i> , 2017, 45, 643-656.	3.5	30
66	Childhood close family relationships and health.. <i>American Psychologist</i> , 2017, 72, 555-566.	3.8	95
67	Moderators of the relationship between frequent family demands and inflammation among adolescents.. <i>Health Psychology</i> , 2017, 36, 493-501.	1.3	10
68	Associations between spontaneous parental perspective-taking and stimulated cytokine responses in children with asthma.. <i>Health Psychology</i> , 2017, 36, 652-661.	1.3	4
69	Resilience in Adolescence, Health, and Psychosocial Outcomes. <i>Pediatrics</i> , 2016, 138, .	1.0	57
70	Testing the biological embedding hypothesis: Is early life adversity associated with a later proinflammatory phenotype?. <i>Development and Psychopathology</i> , 2016, 28, 1273-1283.	1.4	69
71	The Great Recession and health risks in African American youth. <i>Brain, Behavior, and Immunity</i> , 2016, 53, 234-241.	2.0	43
72	Views of a good life and allostatic load: Physiological correlates of theories of a good life depend on the socioeconomic context. <i>Self and Identity</i> , 2016, 15, 536-547.	1.0	6

#	ARTICLE	IF	CITATIONS
73	Social role conflict predicts stimulated cytokine production among men, not women. <i>Brain, Behavior, and Immunity</i> , 2016, 58, 272-279.	2.0	3
74	Early life socioeconomic status and metabolic outcomes in adolescents: The role of implicit affect about one's family. <i>Health Psychology</i> , 2016, 35, 387-396.	1.3	9
75	Accuracy and Positivity in Adolescent Perceptions of Parent Behavior. <i>Social Psychological and Personality Science</i> , 2016, 7, 796-805.	2.4	3
76	Association of Reports of Childhood Abuse and All-Cause Mortality Rates in Women. <i>JAMA Psychiatry</i> , 2016, 73, 920.	6.0	102
77	Does empathy have a cost? Diverging psychological and physiological effects within families. <i>Health Psychology</i> , 2016, 35, 211-218.	1.3	70
78	Dimensions of Socioeconomic Status and Childhood Asthma Outcomes: Evidence for Distinct Behavioral and Biological Associations. <i>Psychosomatic Medicine</i> , 2016, 78, 1043-1052.	1.3	23
79	Congruence and Incongruence in Adolescents' and Parents' Perceptions of the Family: Using Response Surface Analysis to Examine Links with Adolescents' Psychological Adjustment. <i>Journal of Youth and Adolescence</i> , 2016, 45, 2022-2035.	1.9	63
80	Child maltreatment and pediatric asthma: a review of the literature. <i>Asthma Research and Practice</i> , 2016, 2, 7.	1.2	9
81	Family-centered prevention ameliorates the longitudinal association between risky family processes and epigenetic aging. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2016, 57, 566-574.	3.1	143
82	Supportive Family Environments Ameliorate the Link Between Racial Discrimination and Epigenetic Aging. <i>Psychological Science</i> , 2016, 27, 530-541.	1.8	147
83	The Price of Perspective Taking. <i>Clinical Psychological Science</i> , 2016, 4, 485-492.	2.4	12
84	Viral challenge reveals further evidence of skin-deep resilience in African Americans from disadvantaged backgrounds. <i>Health Psychology</i> , 2016, 35, 1225-1234.	1.3	48
85	Harsh parent-child conflict is associated with decreased anti-inflammatory gene expression and increased symptom severity in children with asthma. <i>Development and Psychopathology</i> , 2015, 27, 1547-1554.	1.4	19
86	Modeling the association between lifecourse socioeconomic disadvantage and systemic inflammation in healthy adults: The role of self-control. <i>Health Psychology</i> , 2015, 34, 580-590.	1.3	31
87	Discordance of DNA Methylation Variance Between two Accessible Human Tissues. <i>Scientific Reports</i> , 2015, 5, 8257.	1.6	56
88	Shift-and-Persist Strategies. <i>Psychosomatic Medicine</i> , 2015, 77, 371-382.	1.3	65
89	Socioeconomic Adversity and Women's Sleep: Stress and Chaos as Mediators. <i>Behavioral Sleep Medicine</i> , 2015, 13, 506-523.	1.1	23
90	Neighborhood Poverty, College Attendance, and Diverging Profiles of Substance Use and Allostatic Load in Rural African American Youth. <i>Clinical Psychological Science</i> , 2015, 3, 675-685.	2.4	70

#	ARTICLE	IF	CITATIONS
91	Self-control forecasts better psychosocial outcomes but faster epigenetic aging in low-SES youth. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2015, 112, 10325-10330.	3.3	204
92	Family Functioning, Eosinophil Activity, and Symptoms in Children With Asthma. <i>Journal of Pediatric Psychology</i> , 2015, 40, 781-789.	1.1	7
93	Discrimination, Racial Identity, and Cytokine Levels Among African-American Adolescents. <i>Journal of Adolescent Health</i> , 2015, 56, 496-501.	1.2	120
94	Physiological Reactivity During Parent-Adolescent Discussions: Associations with Scaffolding Behaviors and Relationship Quality. <i>Annals of Behavioral Medicine</i> , 2015, 49, 522-531.	1.7	14
95	Targeted Rejection Predicts Decreased Anti-Inflammatory Gene Expression and Increased Symptom Severity in Youth With Asthma. <i>Psychological Science</i> , 2015, 26, 111-121.	1.8	38
96	Do cherished children age successfully? Longitudinal findings from the Veterans Affairs Normative Aging Study.. <i>Psychology and Aging</i> , 2015, 30, 894-910.	1.4	26
97	Neighborhood Poverty and Allostatic Load in African American Youth. <i>Pediatrics</i> , 2014, 134, e1362-e1368.	1.0	83
98	A family-oriented psychosocial intervention reduces inflammation in low-SES African American youth. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2014, 111, 11287-11292.	3.3	156
99	Family Chaos and Adolescent Inflammatory Profiles. <i>Psychosomatic Medicine</i> , 2014, 76, 460-467.	1.3	41
100	Parental Accuracy Regarding Adolescent Daily Experiences. <i>Psychosomatic Medicine</i> , 2014, 76, 603-610.	1.3	10
101	Catecholamine levels and delay discounting forecast drug use among African American youths. <i>Addiction</i> , 2014, 109, 1112-1118.	1.7	13
102	How stable are diurnal cortisol activity indices in healthy individuals? Evidence from three multi-wave studies. <i>Psychoneuroendocrinology</i> , 2014, 39, 184-193.	1.3	125
103	Prevention moderates associations between family risks and youth catecholamine levels.. <i>Health Psychology</i> , 2014, 33, 1435-1439.	1.3	18
104	The Influence of Stressors on the Development of Psychopathology. , 2014, , 205-223.		25
105	Is Change Bad? Personality Change Is Associated with Poorer Psychological Health and Greater Metabolic Syndrome in Midlife. <i>Journal of Personality</i> , 2013, 81, 249-260.	1.8	94
106	Is Resilience Only Skin Deep?. <i>Psychological Science</i> , 2013, 24, 1285-1293.	1.8	288
107	Socioeconomic Status and Health: Mediating and Moderating Factors. <i>Annual Review of Clinical Psychology</i> , 2013, 9, 723-749.	6.3	287
108	Shifts and Persist: A protective factor for elevated BMI among low socioeconomic status children. <i>Obesity</i> , 2013, 21, 1759-1763.	1.5	35

#	ARTICLE	IF	CITATIONS
109	Social stress up-regulates inflammatory gene expression in the leukocyte transcriptome via $\beta$ -adrenergic induction of myelopoiesis. Proceedings of the National Academy of Sciences of the United States of America, 2013, 110, 16574-16579.	3.3	470
