#	ARTICLE	IF	CITATIONS
1	The expanding role of primary care in cancer control. Lancet Oncology, The, 2015, 16, 1231-1272.	10.7	399
2	Socioeconomic Inequalities in Lung Cancer Treatment: Systematic Review and Meta-Analysis. PLoS Medicine, 2013, 10, e1001376.	8.4	154
3	Cytosponge-trefoil factor 3 versus usual care to identify Barrett's oesophagus in a primary care setting: a multicentre, pragmatic, randomised controlled trial. Lancet, The, 2020, 396, 333-344.	13.7	143
4	Rethinking diagnostic delay in cancer: how difficult is the diagnosis?. BMJ, The, 2014, 349, g7400-g7400.	6.0	129
5	Diagnosing cancer in primary care: results from the National Cancer Diagnosis Audit. British Journal of General Practice, 2018, 68, e63-e72.	1.4	110
6	Is the two week rule for cancer referrals working?. BMJ: British Medical Journal, 2001, 322, 1555-1556.	2.3	103
7	Improving early diagnosis of symptomatic cancer. Nature Reviews Clinical Oncology, 2016, 13, 740-749.	27.6	102
8	Age and Gender Variations in Cancer Diagnostic Intervals in 15 Cancers: Analysis of Data from the UK Clinical Practice Research Datalink. PLoS ONE, 2015, 10, e0127717.	2.5	98
9	Explaining variation in cancer survival between 11 jurisdictions in the International Cancer Benchmarking Partnership: a primary care vignette survey. BMJ Open, 2015, 5, e007212-e007212.	1.9	93
10	Comorbid chronic diseases and cancer diagnosis: disease-specific effects and underlying mechanisms. Nature Reviews Clinical Oncology, 2019, 16, 746-761.	27.6	90
11	Evaluation of risk assessment tools for suspected cancer in general practice: a cohort study. British Journal of General Practice, 2013, 63, e30-e36.	1.4	86
12	How might healthcare systems influence speed of cancer diagnosis: A narrative review. Social Science and Medicine, 2014, 116, 56-63.	3.8	85
13	Preferences for access to the GP: a discrete choice experiment. British Journal of General Practice, 2006, 56, 743-8.	1.4	84
14	Use of the English urgent referral pathway for suspected cancer and mortality in patients with cancer: cohort study. BMJ, The, 2015, 351, h5102.	6.0	81
15	Epidemiology and management of infertility: a population-based study in UK primary care. Family Practice, 2009, 26, 269-274.	1.9	76
16	Variation in use of the 2-week referral pathway for suspected cancer: A cross-sectional analysis. British Journal of General Practice, 2012, 62, e590-e597.	1.4	69
17	The role of receipt and timeliness of treatment in socioeconomic inequalities in lung cancer survival: population-based, data-linkage study. Thorax, 2015, 70, 138-145.	5.6	66
18	Socio-economic inequalities in stage at diagnosis, and in time intervals on the lung cancer pathway from first symptom to treatment: systematic review and meta-analysis. Thorax, 2017, 72, 430-436.	5.6	59

#	ARTICLE	IF	CITATIONS
19	Understanding diagnosis of lung cancer in primary care: qualitative synthesis of significant event audit reports. <i>British Journal of General Practice</i> , 2013, 63, e37-e46.	1.4	56
20	Cancer has not gone away: A primary care perspective to support a balanced approach for timely cancer diagnosis during COVID-19. <i>European Journal of Cancer Care</i> , 2020, 29, e13290.	1.5	54
21	Improving cancer outcomes: better access to diagnostics in primary care could be critical. <i>British Journal of General Practice</i> , 2011, 61, 317-318.	1.4	46
22	Open Access Tubal aSessment for the initial management of infertility in general practice (the OATS) Tj ETQq0 0 0 rgBT /Overlock 10 Tf 329-335.	1.4	40
23	Barrett's oEsophagus trial 3 (BEST3): study protocol for a randomised controlled trial comparing the Cytosponge-TFF3 test with usual care to facilitate the diagnosis of oesophageal pre-cancer in primary care patients with chronic acid reflux. <i>BMC Cancer</i> , 2018, 18, 784.	2.6	37
24	Evaluating diagnostic strategies for early detection of cancer: the CanTest framework. <i>BMC Cancer</i> , 2019, 19, 586.	2.6	34
25	International variation in adherence to referral guidelines for suspected cancer: a secondary analysis of survey data. <i>British Journal of General Practice</i> , 2016, 66, e106-e113.	1.4	29
26	Patient experience of infertility management in primary care: an in-depth interview study. <i>Family Practice</i> , 2009, 26, 309-316.	1.9	28
27	Exploring GPs' experiences of using diagnostic tools for cancer: a qualitative study in primary care. <i>Family Practice</i> , 2015, 32, 101-105.	1.9	28
28	Cross-sectional study using primary care and cancer registration data to investigate patients with cancer presenting with non-specific symptoms. <i>BMJ Open</i> , 2020, 10, e033008.	1.9	27
29	The influence of health literacy on the timely diagnosis of symptomatic cancer: A systematic review. <i>European Journal of Cancer Care</i> , 2019, 28, e12920.	1.5	26
30	The frequency, nature and impact of GP-assessed avoidable delays in a population-based cohort of cancer patients. <i>Cancer Epidemiology</i> , 2020, 64, 101617.	1.9	19
31	For which cancers might patients benefit most from expedited symptomatic diagnosis? Construction of a ranking order by a modified Delphi technique. <i>BMC Cancer</i> , 2015, 15, 820.	2.6	16
32	Reimagining the diagnostic pathway for gastrointestinal cancer. <i>Nature Reviews Gastroenterology and Hepatology</i> , 2018, 15, 181-188.	17.8	16
33	Development of a survey instrument to investigate the primary care factors related to differences in cancer diagnosis between international jurisdictions. <i>BMC Family Practice</i> , 2014, 15, 122.	2.9	14
34	Associations between general practice characteristics with use of urgent referrals for suspected cancer and endoscopies: a cross-sectional ecological study. <i>Family Practice</i> , 2019, 36, 573-580.	1.9	12
35	General practitioners' perceptions and attitudes to infertility management in primary care: focus group study. <i>Journal of Evaluation in Clinical Practice</i> , 2007, 13, 358-363.	1.8	11
36	Associations between diagnostic activity and measures of patient experience in primary care: a cross-sectional ecological study of English general practices. <i>British Journal of General Practice</i> , 2018, 68, e9-e17.	1.4	10

#	ARTICLE	IF	CITATIONS
37	Research into practice: prompt diagnosis of cancer in primary care. British Journal of General Practice, 2014, 64, 428-430.	1.4	9
38	Evaluating a computer aid for assessing stomach symptoms (ECASS): study protocol for a randomised controlled trial. Trials, 2016, 17, 184.	1.6	8
39	The effect of socioeconomic inequalities in receipt of, and time to, treatment on socioeconomic inequalities in lung cancer survival: an observational, data-linkage study. Lancet, The, 2013, 382, S37.	13.7	7
40	Patient-reported experiences and views on the Cytosponge test: a mixed-methods analysis from the BEST3 trial. BMJ Open, 2022, 12, e054258.	1.9	6
41	Socio-economic inequalities in patient, primary care, referral, diagnostic, and treatment intervals on the lung cancer care pathway: protocol for a systematic review and meta-analysis. Systematic Reviews, 2014, 3, 30.	5.3	5
42	Measuring patient experience of diagnostic care and acceptability of testing. Diagnosis, 2021, 8, 317-321.	1.9	5
43	Electronic clinical decision support tool for assessing stomach symptoms in primary care (ECASS): a feasibility study. BMJ Open, 2021, 11, e041795.	1.9	5
44	Development of an intervention to expedite cancer diagnosis through primary care: a protocol. BJGP Open, 2018, 2, bjgpopen18X101595.	1.8	4
45	The researchersâ€™ role in knowledge translation: a realist evaluation of the development and implementation of diagnostic pathways for cancer in two United Kingdom localities. Health Research Policy and Systems, 2017, 15, 103.	2.8	3
46	Diagnostic errors and harms in primary care: insights to action. BMJ Quality and Safety, 2021, 30, bmjqs-2020-012423.	3.7	3
47	Improving survival in colorectal cancer: what role for general practice?. British Journal of General Practice, 2013, 63, 179-180.	1.4	2
48	Unscheduled care following attendance at Minor Illness and Injury Units (MIU): cross-sectional survey. Journal of Evaluation in Clinical Practice, 2012, 18, 100-103.	1.8	1
49	What can education do to improve cancer diagnosis?. Education for Primary Care, 2013, 24, 234-236.	0.6	1
50	Do English patients want continuity of care, and do they receive it?. British Journal of General Practice, 2012, 62, 462.3-462.	1.4	0
