#	Article	IF	CITATIONS
1	Adverse metabolic phenotype of female offspring exposed to preeclampsia in utero: a characterization of the BPH/5 mouse in postnatal life. American Journal of Physiology - Regulatory Integrative and Comparative Physiology, 2017, 312, R485-R491.	0.9	26
2	Deletion of p22phox-dependent oxidative stress in the hypothalamus protects against obesity by modulating l ² 3-adrenergic mechanisms. JCI Insight, 2017, 2, e87094.	2.3	10
3	Decidual Cox2 inhibition improves fetal and maternal outcomes in a preeclampsia-like mouse model. JCI Insight, 2016, 1, .	2.3	44
4	Role of chemokine RANTES in the regulation of perivascular inflammation, Tâ \in ell accumulation, and vascular dysfunction in hypertension. FASEB Journal, 2016, 30, 1987-1999.	0.2	185
5	Role of decidual natural killer cells, interleukin-15, and interferon- \hat{I}^3 in placental development and preeclampsia. American Journal of Physiology - Regulatory Integrative and Comparative Physiology, 2014, 307, R490-R492.	0.9	30
6	Role of Vascular Oxidative Stress in Obesity and Metabolic Syndrome. Diabetes, 2014, 63, 2344-2355.	0.3	116
7	Role of the NADPH Oxidases in the Subfornical Organ in Angiotensin II–Induced Hypertension. Hypertension, 2013, 61, 382-387.	1.3	95
8	Abstract 442: Endoplasmic Reticulum (ER) Stress in the Subfornical Organ (SFO) Induces Peripheral Inflammation in Angiotensin II (Ang-II)-dependent Hypertension. Hypertension, 2013, 62, .	1.3	0
9	T Lymphocytes and Vascular Inflammation Contribute to Stress-Dependent Hypertension. Biological Psychiatry, 2012, 71, 774-782.	0.7	78
10	Inflammation, Immunity, and Hypertension. Hypertension, 2011, 57, 132-140.	1.3	718
11	Role of Vascular Extracellular Superoxide Dismutase in Hypertension. Hypertension, 2011, 58, 232-239.	1.3	50
12	Role of Interleukin 17 in Inflammation, Atherosclerosis, and Vascular Function in Apolipoprotein E–Deficient Mice. Arteriosclerosis, Thrombosis, and Vascular Biology, 2011, 31, 1565-1572.	1.1	182
13	Interleukin 17 Promotes Angiotensin II–Induced Hypertension and Vascular Dysfunction. Hypertension, 2010, 55, 500-507.	1.3	662
14	Induction of Hypertension and Peripheral Inflammation by Reduction of Extracellular Superoxide Dismutase in the Central Nervous System. Hypertension, 2010, 55, 277-283.	1.3	154
15	Central and Peripheral Mechanisms of T-Lymphocyte Activation and Vascular Inflammation Produced by Angiotensin II–Induced Hypertension. Circulation Research, 2010, 107, 263-270.	2.0	280
16	Loss of Extracellular Superoxide Dismutase Leads to Acute Lung Damage in the Presence of Ambient Air. American Journal of Pathology, 2008, 173, 915-926.	1.9	108
17	Importance of the chemokine RANTES in the development of angiotensin IIâ€induced hypertension and vascular dysfunction. FASEB Journal, 2008, 22, 1210.8.	0.2	0
