

# Matthew E Wilson

## List of Publications by Year in Descending Order

**Source:** <https://exaly.com/author-pdf/1158259/matthew-e-wilson-publications-by-year.pdf>

**Version:** 2024-04-29

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

48  
papers

1,397  
citations

#	Paper	IF	Citations
48	The Stockman's Scorecard: quantitative evaluation of beef cattle stockmanship. <i>Translational Animal Science</i> , <b>2020</b> , 4, txaa175	1.4	1
47	The identification of differentially expressed genes between extremes of placental efficiency in maternal line gilts on day 95 of gestation. <i>BMC Genomics</i> , <b>2019</b> , 20, 254	4.5	6
46	Factors contributing to the variation in placental efficiency on days 70, 90, and 110 of gestation in gilts. <i>Journal of Animal Science</i> , <b>2019</b> , 97, 359-373	0.7	8
45	Effect of melatonin or maternal nutrient restriction on vascularity and cell proliferation in the ovine placenta. <i>Animal Reproduction Science</i> , <b>2015</b> , 153, 13-21	2.1	12
44	Dietary selenium and nutritional plane alter specific aspects of maternal endocrine status during pregnancy and lactation. <i>Domestic Animal Endocrinology</i> , <b>2014</b> , 46, 1-11	2.3	23
43	Effect of dietary lysine on hepatic lysine catabolism in broilers. <i>Poultry Science</i> , <b>2013</b> , 92, 2705-12	3.9	6
42	Periconceptual growth hormone treatment alters fetal growth and development in lambs. <i>Journal of Animal Science</i> , <b>2010</b> , 88, 1619-25	0.7	16
41	Diet-induced alterations in hepatic progesterone (P4) catabolic enzyme activity and P4 clearance rate in lactating dairy cows. <i>Journal of Endocrinology</i> , <b>2010</b> , 205, 233-41	4.7	27
40	Effect of a high cornstarch diet on hepatic cytochrome P450 2C and 3A activity and progesterone half-life in dairy cows. <i>Journal of Dairy Science</i> , <b>2010</b> , 93, 1012-21	4	26
39	Effect of cytochrome P450 and aldo-keto reductase inhibitors on progesterone inactivation in primary bovine hepatic cell cultures. <i>Journal of Dairy Science</i> , <b>2010</b> , 93, 4613-24	4	21
38	Estradiol-17 $\beta$ Alters Trophectoderm Proliferation in Pig Embryosa. <i>Journal of Animal and Veterinary Advances</i> , <b>2010</b> , 9, 782-786	0.1	2
37	Estradiol-17beta and linseed meal interact to alter visceral organ mass and hormone concentrations from ovariectomized ewes. <i>Domestic Animal Endocrinology</i> , <b>2009</b> , 37, 148-58	2.3	11
36	Mechanistic Aspects of Fetal Development Relating to Postnatal Health and Metabolism in Pigs <b>2009</b> , 161-202		
35	Protein-induced alterations in murine hepatic alpha-amino adipate delta-semialdehyde synthase activity are mediated posttranslationally. <i>Nutrition Research</i> , <b>2008</b> , 28, 859-65	4	5
34	Effect of feeding flax or linseed meal on progesterone clearance rate in ovariectomized ewes. <i>Domestic Animal Endocrinology</i> , <b>2008</b> , 35, 164-9	2.3	19
33	Short communication: insulin alters hepatic progesterone catabolic enzymes cytochrome P450 2C and 3A in dairy cows. <i>Journal of Dairy Science</i> , <b>2008</b> , 91, 641-5	4	44
32	Patterns of late embryonic and fetal mortality and association with several factors in sheep. <i>Journal of Animal Science</i> , <b>2007</b> , 85, 1274-84	0.7	61

31	Effect of melengestrol acetate as an alternative to induce molting in hens on the expression of yolk proteins and turnover of oviductal epithelium. <i>Animal Reproduction Science</i> , <b>2007</b> , 102, 14-23	2.1	5
30	Mechanisms of reduced luteal sensitivity to prostaglandin F2alpha during maternal recognition of pregnancy in ewes. <i>Domestic Animal Endocrinology</i> , <b>2007</b> , 32, 106-21	2.3	25
29	Motivation of hens to obtain feed during a molt induced by feed withdrawal, wheat middlings, or melengestrol acetate. <i>Poultry Science</i> , <b>2007</b> , 86, 614-20	3.9	7
28	Effect of Corn Particle Size and Pellet Texture on Broiler Performance in the Growing Phase. <i>Journal of Applied Poultry Research</i> , <b>2006</b> , 15, 245-255	2	80
27	Diet-induced alterations in progesterone clearance appear to be mediated by insulin signaling in hepatocytes. <i>Journal of Animal Science</i> , <b>2006</b> , 84, 1102-9	0.7	18
26	Lysine catabolism in chickens fed at or below their lysine requirement. <i>FASEB Journal</i> , <b>2006</b> , 20, A1042	0.9	2
25	Circulating levels of nitric oxide and vascular endothelial growth factor throughout ovine pregnancy. <i>Journal of Physiology</i> , <b>2005</b> , 565, 101-9	3.9	44
24	Starvation Induced Alterations in Hepatic Lysine Metabolism in Different Families of Rainbow Trout ( <i>Oncorhynchus mykiss</i> ). <i>Fish Physiology and Biochemistry</i> , <b>2005</b> , 31, 33-44	2.7	13
23	Growth hormone at breeding modifies conceptus development and postnatal growth in sheep. <i>Journal of Animal Science</i> , <b>2005</b> , 83, 810-5	0.7	23
22	Lysine alpha-ketoglutarate reductase and lysine oxidation are distributed in the extrahepatic tissues of chickens. <i>Journal of Nutrition</i> , <b>2005</b> , 135, 81-5	4.1	11
21	Melengestrol acetate in experimental diets as an effective alternative to induce a decline in egg production and reversible regression of the reproductive tract in laying hens. I. Determining an effective concentration of melengestrol acetate. <i>Poultry Science</i> , <b>2005</b> , 84, 1750-6	3.9	4
20	Melengestrol acetate as an effective alternative to induce a decline in egg production and reversible regression of the reproductive tract in laying hens. II. Effects on postmolt egg quality. <i>Poultry Science</i> , <b>2005</b> , 84, 1757-62	3.9	4
19	Prostaglandin F2alpha (PGF2alpha) independent and dependent regulation of the bovine luteal endothelin system. <i>Domestic Animal Endocrinology</i> , <b>2004</b> , 27, 63-79	2.3	19
18	Conceptus competition for uterine space: different strategies exhibited by the Meishan and Yorkshire pig. <i>Journal of Animal Science</i> , <b>2002</b> , 80, 1311-6	0.7	38
17	Impacts on conceptus survival in a commercial swine herd. <i>Journal of Animal Science</i> , <b>2002</b> , 80, 553-9	0.7	52
16	Development of the chicken as a model for prenatal stress. <i>Journal of Animal Science</i> , <b>2002</b> , 80, 1954-61	0.7	41
15	Experimental manipulation of steroid concentrations in circulation and in egg yolks of turtles. <i>The Journal of Experimental Zoology</i> , <b>2002</b> , 293, 58-66		24
14	Differential expression of cyclooxygenase-2 around the time of elongation in the pig conceptus. <i>Animal Reproduction Science</i> , <b>2002</b> , 71, 229-37	2.1	42

13	Relationship between placental vascular endothelial growth factor expression and placental/endometrial vascularity in the pig. <i>Biology of Reproduction</i> , <b>2001</b> , 64, 1821-5	3.9	74
12	The role of altered uterine-embryo synchrony on conceptus growth in the pig. <i>Journal of Animal Science</i> , <b>2001</b> , 79, 1863-7	0.7	2
11	Differential gene expression during elongation in the preimplantation pig embryo. <i>Genesis</i> , <b>2000</b> , 26, 9-14	1.9	22
10	Few differences found between early- and late-weaned pigs raised in the same environment. <i>Journal of Animal Science</i> , <b>2000</b> , 78, 38-49	0.7	33
9	Effect of estradiol-17beta administration during the time of conceptus elongation on placental size at term in Meishan pigs. <i>Journal of Animal Science</i> , <b>2000</b> , 78, 1047-52	0.7	20
8	The impacts of uterine environment and fetal genotype on conceptus size and placental vascularity during late gestation in pigs. <i>Journal of Animal Science</i> , <b>1999</b> , 77, 954-9	0.7	45
7	Novel insight into the control of litter size in pigs, using placental efficiency as a selection tool. <i>Journal of Animal Science</i> , <b>1999</b> , 77, 1654-8	0.7	107
6	Endogenous yolk steroid hormones in turtles with different sex-determining mechanisms. <i>General and Comparative Endocrinology</i> , <b>1998</b> , 111, 306-17	3	73
5	Development of Meishan and Yorkshire littermate conceptuses in either a Meishan or Yorkshire uterine environment to day 90 of gestation and to term. <i>Biology of Reproduction</i> , <b>1998</b> , 58, 905-10	3.9	113
4	The impact of either a Meishan or Yorkshire uterus on Meishan or Yorkshire fetal and placental development to days 70, 90, and 110 of gestation. <i>Journal of Animal Science</i> , <b>1998</b> , 76, 2169-76	0.7	102
3	Differences in trophectoderm mitotic rate and P450 17alpha-hydroxylase expression between late preimplantation Meishan and Yorkshire conceptuses. <i>Biology of Reproduction</i> , <b>1997</b> , 56, 380-5	3.9	45
2	Lack of a nocturnal rise in serum concentrations of melatonin as gilts attain puberty. <i>Journal of Animal Science</i> , <b>1997</b> , 75, 1885-92	0.7	8
1	Maternal recognition of pregnancy in swine. II. Plasma concentrations of progesterone and 13,14-dihydro-15-keto-prostaglandin F2 alpha during the estrous cycle and during short and long pseudopregnancy in gilts. <i>Biology of Reproduction</i> , <b>1996</b> , 55, 590-7	3.9	13
